

What To Say To Make Your Girlfriend Jealous

[How to Seduce Hot Women Online](#) - Kent Lamarc 2015

I've been banned more than 5 times, nearly always in less than 2 weeks, and for one reason only - I was picking all the women I wanted from many online platforms. Most of these websites were not for dating, and many of the women I met had boyfriends or husbands, but this didn't stop them from contacting me and go out on a date. In this book, I reveal the secret that allowed me to pick-up dozens of beautiful women from many websites, and that allowed acquaintances to do it faster than me from Facebook and other more popular platforms. The secrets here revealed are so effective that quickly draw the attention of everyone, both jealous men and competitive women. In the end, it's a race against time, while the men try to put you out of the competition in every way they can, and women make you so popular that you start receiving invitations to talk privately online and go on dates with those you haven't had to say whatsoever. This is about a female magnet that works every single time, even though it will eventually make you get banned as well. But, who cares about being banned, once your mobile is full of numbers of hot women and most of them expect to become your girlfriend or at least sleep with you? Don't be fooled about how simple these strategies may seem! Every single pick-up artist that teaches you online dating is either using part of them or all at the same time. Game on!

Wake up Black Man and Black Woman - Alpha Omega Riddick 2010-07-08

Black people of America, we need to stop reading books about thug life and street life. We need to read books that will open our minds to ideas and issues that will help us and our families and the future of black generations of this country. Black people of America, we were here before most of the other nationalities that are here now. We should be in a much better financial situation than we are in now. Most of us are at the bottom or near the bottom of the economic scale as a whole. We have to learn from the foreigners that stick together and open up businesses in our community. Plus we have to stop giving our hard-earned money to other nationalities and none to ourselves; in a way, we are still slaves. I wrote this book to inspire Black Americans to open their eyes to the positive changes we need to make to help our families and future black generations in America. This book shows how we are living compared to other nationalities in America, as well as the factors that are holding us back as a whole. We must remember our ancestors and the sacrifices they made when they were slaves. They were the strongest people in the world, and we are their descendants. I feel they were superhuman beings to make that trip from Africa to America. We as black Americans have that same ability in us to survive. Remember, we are the alpha race. We need to wake up and stop hitting the snooze button. May God bless this book and everyone that reads it.
