Everything Is Possible Sylvia Kleiman Fields 2016-01-08 *Everything is Possible: A Nurse’s Memoir* recounts the personal and professional life of a woman who is daughter, mother, nurse, wife, friend, educator, scholar and mentor through decades that span the second half of the twentieth century and reaches into the new millennium. In her own words, Sylvia Kleiman Fields shares her diverse experiences and places them in the context of the sweep of events that mark these decades. By combining the insights gleaned from a keen memory of her life and the perceptions of a health care professional steeped in the power of observation and diagnosis, the author tells a story that is both intimate and expansive. With courage and conviction her journey takes her beyond the intimate confines of the small New York apartment she sometimes shared with Holocaust survivors. She explores the halls of academia, the adventure of international conferences, the challenges of making and maintaining family life, the opportunities to pursue health care missions and the excitement of conducting research and interprofessional teaching. If you find yourself attracted to the accounts of the lives of determined and intelligent individuals or if you desire to learn more about the people who shape significant institutions in American life, then *Everything Is Possible: A Nurse’s Memoir* will speak to you through the voice of a woman of persistence, insight, and achievement.

The Wild Book Juan Villoro 2017-11-14 "We walked toward the part of the library where the air smelled as if it had been interred for years..... Finally, we got to the hallway where the wooden floor was the creakiest, and we sensed a strange whiff of excitement and fear. It smelled like a creature

from a bygone time. It smelled like a dragon." Thirteen-year-old Juan's favorite things in the world are koalas, eating roast chicken, and the summer-time. This summer, though, is off to a terrible start. First, Juan's parents separate and his dad goes to Paris. Then, as if that wasn't horrible enough, Juan is sent away to his strange Uncle Tito's house for the entire break! Uncle Tito is really odd: he has zigzag eyebrows; drinks ten cups of smoky tea a day; and lives inside a huge, mysterious library. One day, while Juan is exploring the library, he notices something inexplicable and rushes to tell Uncle Tito. "The books moved!" His uncle drinks all his tea in one gulp and, sputtering, lets his nephew in on a secret: Juan is a Princeps Reader--which means books respond magically to him--and he's the only person capable of finding the elusive, never-before-read Wild Book. Juan teams up with his new friend Catalina and his little sister, and together they delve through books that scuttle from one shelf to the next, topple over unexpectedly, or even disappear altogether to find The Wild Book and discover its secret. But will they find it before the wicked, story-stealing Pirate Book does?

The Making of Handel's Messiah Andrew Gant 2020 The first performance of Handel's 'Messiah' in Dublin in 1742 is now legendary. Gentlemen were asked to leave their swords at home and ladies to come without hoops in their skirts in order to fit more people into the audience. Why then, did this now famous and much-loved oratorio receive a somewhat cool reception in London less than a year later? Placing Handel's best-known work in the context of its times, this vivid account charts the composer's working relationship with his librettist, the gifted but demanding Charles Jennens, and looks at Handel's varied and evolving company of singers together with his royal patronage. Through examination of the composition manuscript and Handel's own conducting score, held in the Bodleian, it explores the complex issues around the performance of sacred texts in a non-sacred context, particularly Handel's collaboration with the men and boys of the Chapel Royal. The later reception and performance history of what is one of the most successful pieces of choral music of all time is also reviewed, including the festival performance attended by Haydn, the massed-choir tradition of the Victorian period and today's 'come-and-sing' events.

A Library of Misremembered Books Marina Luz 2021-10-05 How do you find a book when you can't recall the title...or the author? This homage to a common reader's dilemma is a gift the booklover in your life won't soon forget. Readers know all too well the comedy and tragedy of forgetting the name of a must-find book. Inspired by this torturous predicament, artist Marina Luz creates paintings of books based on the descriptions we use when we can't remember their titles—mining Internet book-search forums for the quirky, vague, and often hilarious language we come up with in these moments. This volume collects dozens of these imaginary books into a library all their own: Titles like "Cat, Possibly Named Henry," "It Was All a Dream," or "Something-Something, Beverly Hills" inspire dreaming up their contents, often as entertaining as trying to guess the real book behind them. A celebration of book love unlike any other, this petite book is a clever gift for bibliophiles that will spark knowing smiles. **PERFECT GIFT FOR BOOKLOVERS:** The collection will spark recognition for everyone who has encountered this phenomenon (so, virtually every reader) and especially those who have worked in a bookstore, who know intimately well how often this dilemma arises. This impulse-priced delight is an excellent way to make book-loving friends feel seen. **A UNIQUE APPRECIATION OF BOOK LOVE:** This is a loving tribute to the wonderful and bizarre ways that books leave impressions on our souls, if not always perfectly in our memories. It's a fun and fresh appreciation of bibliophilia that still delivers long after the first read. Perfect for: • Bibliophiles • Booksellers • People seeking gifts for the booklovers in their life

How to Live Like a Lord Without Really Trying Shepherd Mead 2012 Shepherd Mead, bestselling author of *How to Succeed in Business without Really Trying*, came to live in England with his family in 1958. Six years later he published a satirical handbook for fellow Americans to guide them through the nuances of British culture and save them from blunders: 'Write down now that pants always mean underpants', he advises. 'What you wear out in the open are trousers. Mistakes in this area can lead to nasty misunderstandings.' Structured around the fictional experience of an American couple Peggy and Buckley Brash and their two children, the book covers such topics as 'How to Dress in England', 'The Dream House and How to Rebuild it', and 'How to Live with the Upper Classes Without Having Any Money'. Through the Brash family's encounters with the British

and their bewildered conversations with each other as they attempt to interpret an alien way of life, Mead answers pertinent questions such as 'Do English schools create sex madness?' and 'Is England really a pest hole?' with quirky and affectionate humour. Written with the light touch and incisive wit which brought Mead such success with his earlier book, and deftly illustrated with dynamic cartoons, *How to Live Like A Lord without Really Trying* is packed with gems on Anglo-American differences and pithy advice which tells us as much about the British of the 1960s as it does about their visitors from across the Pond.

Everyday eBay Ken Hillis 2012-12-06 *Everyday eBay* is the first scholarly analysis of the internet marketplace that has become a global social, cultural and economic phenomenon. The eighteen new and classic essays gathered here examine eBay from a wide variety of perspectives as a bellwether of taste and material culture; as a rich site of cultural, racial, and sexual discourse and practice; as an emergent media form; and as a facilitator of global consumerism. From old toys steeped in nostalgia to 'rare' limited edition shoes, the contributors demonstrate that value on eBay is never simply about 'price'. On any given day, more than two million items are listed for sale on eBay, from everyday objects to kitsch and collectibles to the truly bizarre. Since its debut ten years ago, eBay has quickly become a central destination for millions of web browsers. According to eBay itself, up to 165,000 Americans now make their living by selling through the website, and other business

analysts project that hundreds of thousands of individuals worldwide now make their living through eBay.
