Dating Fabrics 2 - Eileen Jahnke Trestain 2005

From poodle skirts of the 1950s to baby doll dresses of the 1990s, the fabrics of our everyday lives are featured in this handy reference guide to the materials of the last half century. A companion to *Dating Fabrics: A Color Guide 1800-1960*, this source is ideal for those studying fashion and clothing trends from the late twentieth century, as well as

collectors of recent quilts. Today's quilts may have elements of more than one decade because many quilters collect a great deal of fabric, and may draw from one group of fabric over a long period of time. The recent proliferation of reproduction fabrics has caused concern for the ability to differentiate the old from the new in reproduction quilts and repairs. An informative section on these fabrics from the 1980-2000 era provides a blueprint for building confident conclusions as to the fabric's origins. For ease in identification, prints are shown actual size and specific fabric lines and styles are grouped and sorted by date, then color. Dating divisions coincide with turning points in history which influenced attitudes and styles, and are highlighted by a brief history of each era.

Underground Railroad in the Adirondack Town of Chester, The - Donna Lagoy and Laura Seldman 2016

The Town of Chester in upstate Warren County, New York, was a secret haven for runaway slaves escaping to Canada along the Underground Railroad. The small Adirondack

town holds as many as nine confirmed or suspected sites where fugitives once found shelter. Stories abound of residents discovering secret rooms containing beds and other artifacts within their homes. The first abolitionist pastor of the Darrowsville Wesleyan Church, Reverend Thomas Baker, reportedly hid fugitive slaves in the parsonage. Color photographs and interviews with current residents illuminate the region's hidden history with the Underground Railroad movement. With the support of the Historical Society of the Town of Chester, Donna Lagoy and Laura Seldman reveal these courageous stories of local families who risked everything in the pursuit of freedom for all.

Historical Pattern Archive -

Thomas John Bernard

2019-11-19

Historical Pattern Archive: Women's Clothing 1837-1969 is the first book of its kind to capture such a wide range of

women's period patterns in one book, featuring 83 patterns spanning over a century of clothing. The book offers an accurate pattern of each garment on a 1/8" graph that can be used to scale the pattern up to its original size, drawings of each piece from multiple angles, and instructions about how the original garment was constructed and what materials were used. Capturing research and information about garments that would have otherwise stayed hidden or disappeared permanently due to age, wear, or poor storage conditions, this volume is designed to be a tool to preserve history through documenting vintage clothing. Written for historians, reenactors, costumer makers, and costume designers, Historical Pattern Archive will enable readers to study the history behind each piece, implement their original techniques, and recreate unique garments that are both beautiful and historically accurate.

Kentucky Quilts and Quiltmakers - Linda Elisabeth LaPinta 2023-11-07

Although they are commonplace in American homes, quilts are much more than simple patchwork bed coverings and wall adornments. While many of these beautiful and intricate works of art are rich in history and tradition, others reflect the cutting-edge talent and avant-garde mastery of contemporary quiltmakers. *Kentucky Quilts and Quiltmakers: Three Centuries of Creativity, Community, and Commerce* is the first comprehensive study to approach quilts as objects of

material culture that have adorned homes throughout the history of the commonwealth and the country. Linda Elisabeth LaPinta highlights such topics as quiltmaking in women's history, the influence of early Black quiltmakers, popular Kentucky quilt patterns, types, and colors, and the continuing importance of preserving the commonwealth's quilt history and traditions. The author provides a panoramic view of Kentucky quiltmaking from colonial America through the American Revolution, the Civil War to the 1900s, to the new millennium and the dynamic quilting industry of today. LaPinta reveals Kentucky's pivotal role in shaping significant aspects of American quilt culture—Kentuckians founded the first statewide quilt documentation project, created important exhibits and major quilt organizations, and established the National Quilt Museum. Rounding out this all-encompassing volume is a collection of fascinating and intimate artistic commentaries

by notable quiltmakers, as well as discussion of the key players who have conserved, celebrated, and showcased the commonwealth's extraordinary quilt culture.

Threading the Generations - Mary Elizabeth Johnson Huff 2005

Family lore passes from generation to generation in many ways: through written histories, oral traditions, and photographs. For the Shaifer family of Port Gibson, Mississippi, an amazing collection of fifty quilts made by women from four generations holds the story of the family's past. Seldom has a family collection of quilts of this range been shared. Not only do the quilts cover a significant time span, but they include diverse types, patterns, and techniques. *Threading the Generations: A Mississippi Family's Quilt Legacy* tells the story of the Shaifer family,

beginning with Abram Keller Shaifer who came down the Natchez Trace in 1813 and settled in Port Gibson. The book skillfully connects the family's history with the quilts from 1813 to the present. Featuring seventy-five photographs of quilts, family members, and important locations, *Threading the Generations* includes a discussion of each quilt and the major quilters. Not just a quilt book, however, it is also about family struggles and achievements, relationships, and life as it was lived by thousands of southerners during the Civil War and Reconstruction. Of special interest is the post-Civil War era when the Shaifer family established personal connections via letters, gifts, and visits between sworn enemies from the North and South. Research provides ties between generations of women who not only shared a love of one another but also a love of quilting. The legacy they have left will live on as a testament to their creativity, artistic

abilities, and strong sense of family.

showcased in glorious full-color photographs, span a significant era of Minnesota and reflect our distinctive heritage.
