Revolutionary Women Writers Angela Keane 2013 This book brings together two of the most significant British women writers of the Romantic period, Charlotte Smith and Helen Maria Williams, and explores the poetics and politics of their work. In the 1790s, when Charlotte Smith and Helen Maria Williams were at the peak of their critical reputations, they were known to each other and often cited together approvingly. It was Smith who provided the young William Wordsworth with a letter of introduction to Williams when he visited France in 1791 (though she had left by the time he got there). By the end of the decade, Smith and Williams were being cited together more pejoratively, as two of a number of women who came to stand for the amoral, sexually suspect and politically naïve English 'Jacobins,' who were vilified in the conservative press. Neither were in fact 'Jacobins,' but they were revolutionary. This book looks at how Smith and Williams earned such reputations and at the politics and poetics of the works that reveal Smith to be a self-constructed Romantic and Williams as a mistress of intimate disguise.

Two Innocents in Red China Pierre Elliott Trudeau 2007 In the spirit of his father, Alexandre Trudeau revisits China to put a ground-breaking journey into a fresh, contemporary context. In 1960, Pierre Trudeau and Jacques Hébert, a labour lawyer and a journalist from Montréal, travelled to China in the midst of the Great Leap Forward. In 1968, when *Two Innocents in Red China*, Trudeau and Hébert's sardonic look at a third world country's first steps into the rest world, was released in English, Trudeau had become prime minister of Canada. ?It seemed to us imperative that

the citizens of our democracy should know more about China," Trudeau wrote in the foreword. Four decades later, China's emergence as an economic and military heavyweight beckoned Trudeau's journalist son Alexandre to retrace his father's footsteps and add additional material to the book. The result is a thought-provoking new perspective on the Canadian classic that helped open China to the world.

ReValuing Care in Theory, Law and Policy Rosie Harding 2016-11-10 Care is central to life, and yet is all too often undervalued, taken for granted, and hidden from view. This collection of fourteen substantive and highly innovative essays, along with its insightful introduction, seeks to explore the different dimensions of care that shape social, legal and political contexts. It addresses these dimensions in four key ways. First, the contributions expand contemporary theoretical understandings of the value of care, by reflecting upon established conceptual approaches (such as the 'ethics of care') and developing new ways of using and understanding this concept. Second, the chapters draw on a wide range of methods, from doctrinal scholarship through ethnographic, empirical and biographical research methodologies. Third, the book enlarges the usual subjects of care research, by expanding its analysis beyond the more typical focus on familial interconnection to include professional care contexts, care by strangers and care for and about animals. Finally, the collection draws on contributions from academics working in Europe and Australia, across law, anthropology, gender studies, politics, psychology and sociology. By highlighting the points of connection and tension between these diverse international and disciplinary perspectives, this book outlines a new and nuanced approach to care, exploring contemporary understandings of care across law, the social sciences and humanities.

Sex Work, Health, and Human Rights Shira M. Goldenberg 2021-04-28 This open access book provides a comprehensive overview of the health inequities and human rights issues faced by sex workers globally across diverse contexts, and outlines evidence-based strategies and best practices. Sex workers face severe health and social inequities, largely as the result of structural factors including punitive and criminalized legal environments, stigma, and social and economic exclusion and marginalization. Although previous work has largely emphasized an elevated burden and gaps in HIV and sexually transmitted infection (STI) services in sex work, less attention has been paid to the broader health and human rights concerns faced by sex workers. This contributed volume addresses this gap. The chapters feature a variety of perspectives including academic, community, implementing partners, and government to synthesize research evidence as well as lessons learned from local-level experiences across different regions, and are organized under three parts: Burden of health and human rights inequities faced by sex workers globally, including infectious diseases (e.g., HIV, STIs), violence, sexual and reproductive health, and drug use Structural determinants of health and human rights, including legislation, law enforcement, community engagement, intersectoral collaboration, stigma, barriers to health access, im/migration issues, and occupational safety and health Evidence-based services and best practices at various levels ranging from individual and community to policy-level interventions to identify best practices and avenues for future research and interventions *Sex Work, Health, and Human Rights* is an essential resource for researchers, policy-makers, governments, implementing partners, international organizations and community-

Female Masculinity and the Business of Emotions in Tokyo Marta Fanasca 2023-11-30 Female Masculinity and the Business of Emotions in Tokyo investigates the novel “emotion business” of dansō escorting as a phenomenon emerging between gender performativity and pop-culture, commodified relationships and the wish for self-expression. Fanasca documents the dreams, ambitions and fears of young crossdresser escorts negotiating their identity with and within the Japanese society, as well as those of crossdresser escorts’ clients: women looking for the perfect man and the opportunity to experience emotions. Combining anthropological, sociological and gender studies theories with an ethnographic approach, Fanasca argues that dansō crossdressing is the tool used by a sector of Japanese women to resist the heteronormative and patriarchal society and its expectations, while reinventing themselves and their identities looking for self-actualization. Female Masculinity and the Business of Emotions Tokyo is an interdisciplinary work which will interest both scholars and students of Japanese studies, gender studies, and anthropology.
