*Cultural Politics of Gender and Sexuality in Contemporary Asia* - Tiantian Zheng 2017-07-31

In globalizing Asia, sexual mores and gender roles are in constant flux. How have economic shifts and social changes altered and reconfigured the cultural meanings of gender and sexuality in the region? How have the changing political economy and social milieu influenced and shaped the inner workings and micro-politics of family structure, gender relationships, intimate romance, transactional sex, and sexual behaviors? This volume offers up-to-date, grounded, critical analysis of the complex intersections of gender, sexuality, and political economy across a diverse array of Asian societies: China, Japan, Cambodia, Vietnam, India, Pakistan, Hong Kong, Thailand, and Taiwan. Based on intense ethnographic fieldwork, the chapters disentangle the ways in which gendered and sexual experiences are impinged upon by state policies, economic realities, cultural ideologies, and social hierarchies. Whether highlighting intimate relationships between elite businessmen and their mistresses in China; nightclub performances by Thai men in Bangkok; single women's views of romance, motherhood, and marriage in Hong Kong, Shanghai, and Tokyo; or male same-sex relationships in Pakistan—each chapter centers around the stories of the gendered subjects themselves and how they are shaped by outside forces. Taken together they provide a provocative entrée into the cultural politics of gender and sexuality in Asia. By foregrounding cross-cultural ethnographic research, this volume sheds light on how configurations of gender and sexuality are constituted, negotiated, contested, transformed, and at times, perpetuated and reproduced in private, intimate experiences. It will be of particular interest to students and scholars in anthropology, sociology, political science, and women's and LGBTQ studies.

**Gender in Modern East Asia** - Barbara Molony 2018-05-04

Gender in Modern East Asia explores the history of women and gender in China, Korea, and Japan from the seventeenth century to the present. This unique volume treats the three countries separately within each time period while also placing them in global and regional contexts. Its transnational and integrated approach connects the cultural, economic, and social developments in East Asia to what is happening across the wider world. The text focuses specifically on the dynamic histories of sexuality; gender ideology, discourse, and legal construction; marriage and the family; and the gendering of work, society, culture, and power. Important themes and topics woven through the text include Confucianism, writing and language, the role of the state in gender construction, nationalism, sexuality and prostitution, New Women and Modern Girls, feminisms, "comfort" women, and imperialism. Accessibly written and comprehensive, Gender in Modern East Asia is a much-needed contribution to the study of the region.

**Islam and Asia** - Chiara Formichi 2020-05-07

An accessible, transregional exploration of how Islam and Asia have shaped each other's histories, societies and cultures from the seventh century to today.

*Gender and Sexuality in Modern Chinese History* - Susan L. Mann 2011-09-19

Gender and sexuality have been neglected topics in the history of Chinese civilization, despite the fact that there is a massive amount of historical evidence on the subject. China's late imperial government was arguably more concerned about gender and sexuality among its subjects than any other pre-modern state. How did these and other late imperial legacies shape twentieth-century notions of gender and sexuality in modern China? Susan Mann answers this by focusing on state policy, ideas about the physical body and notions of sexuality and difference in China's recent history, from medicine to the theater to the gay bars; from law to art and sports. More broadly, the book shows how changes in attitudes toward sex and gender in China during the twentieth century have cast a new light on the process of becoming modern, while simultaneously challenging the universalizing assumptions of Western modernity.

*Middle Imperial China, 900-1350* - Linda Walton 2023-07-31

In this highly readable and engaging work, Linda Walton presents a dynamic survey of China's history from the tenth through the mid-fourteenth centuries from the founding of the Song dynasty through the Mongol conquest when Song China became part of the Mongol Empire and Marco Polo made his famous journey to the court of the Great Khan. Adopting a thematic approach, she highlights the political, social, economic, intellectual, and cultural changes and continuities of the period often conceptualized as 'Middle Imperial China'. Particular emphasis is given to themes that inform scholarship on world history: religion, the state, the dynamics of empire, the transmission of knowledge, the formation of political elites, gender, and the family. Consistent coverage of peoples beyond the borders - Khitan, Tangut, Jurchen, and Mongol, among

others - provides a broader East Asian context and introduces a more nuanced, integrated representation of China's past.

**Early China** - Li Feng 2013-12-30
