**No Safe Haven** Lori B. Girshick 2002 This controversial work examines for the first time the often taboo subject of bisexual and lesbian women who are sexually assaulted by other women.

*The Myth of Prison Rape* Mark S. Fleisher 2009-01-16 The Myth of Prison Rape provides a nuanced glimpse into the complex sexual dynamics of American prison. Drawing on results from the most comprehensive study of inmate sexuality to date, Mark S. Fleisher and Jessie L. Krienert analyze the intricacies of sexuality and sexual violence in daily inmate life. Pulled from over 500 interviews from male and female high-security inmates, their research assesses inmate perception, belief, opinion, and explanation of their own behavior as it relates directly and indirectly to sexual life and sexual violence. Dynamic case studies and interview excerpts enliven this cultural study of sexuality, safety, and violence in American prisons, and an appendix introduces readers to prison sexual vocabulary.

*Behind the Walls* Michael Weinrath 2016-11-01 Despite falling crime rates, more rights for inmates, and better training for correctional officers, Canada's prisons are overflowing, and outbreaks of violence continue to grab headlines. Applying Goffman's frame theory and drawing on interviews with inmates and correctional officers in provincial and federal prisons, Michael Weinrath offers an unprecedented look at how inmates and officers perceive themselves, their relationships with others, and new developments and ongoing issues in prisons, including boundary violations by officers and the rise of prison gangs. Although progress has been made, prisons continue to be plagued by problems that prevent inmates from forging positive

relationships among themselves and with correctional officers.

**Alternatives to Women's Imprisonment** Pat Carlen 1990

Carlen (criminology, U. of Keele, UK) examines some of the fundamental issues concerning custodial and non-custodial penalties. She reports on existing provisions for women in England and Wales, innovative projects in other countries, and the impediments, both ideological and political, to reducing the female prison population. Finally, she outlines a strategy for the abolition of women's imprisonment. Annotation copyrighted by Book News, Inc., Portland, OR

*Women's Prison* Gene Kassebaum 2017-07-28 A thoroughly researched pioneering work based on personal interviews with inmates and prison personnel and on data compiled from questionnaires and inmate record files, *Women's Prison* reveals that homosexual liaisons are the primary foundation of the social structure of female inmates; shows that homosexual behavior can be a superficial kind of adjustment to particular situational privations; amplifies and broadens the application of earlier findings on men's prisons; opens the way for future studies involving the delineation of homosexual roles in the free community. This study began with both of the authors' interest in gathering data on women in prison to see whether there were female prisoner types consistent with the reported characteristics of male prisoners. Early in the course of this study it became apparent that the most salient distinction to be made among the female inmates was between those who were and those who were not engaged in homosexual behavior in prison, and further, of those who were so involved, between the incumbents of masculine and feminine roles. It has become increasingly apparent that prison behavior is rooted in more than just the conditions of confinement. Unlike their male counterparts who establish the so-called inmate code, women prisoners suffer intensely from the loss of affectional relationships and form homosexual liaisons as the primary foundation of their social organization. The great

majority of homosexually involved inmates have their first affair in prison, returning to heterosexual roles outside prison. Women's Prison is a revealing study of social structure and homosexuality for sociologists; of vital interest to social workers, parole officers and chaplains dealing with female inmates as well as penologists and criminologists; and provocative reading for the non-specialist.

considers what happens after feminists succeed in achieving social change or in founding organizations dedicated to accomplishing their personal and social goals. This collection of eighteen essays by scholars from the fields of international relations and feminist studies explores the theoretical dilemmas and practical politics of living with raised consciousnesses in worlds of our own making. The contributors explore feminisms as dreams of human rights, as a cluster of ideologies, and as a bounty of social practices set within frameworks for tackling problems in nation-building and global governance. In essays that illustrate the impact of feminist concerns with the quality of education, the contributors offer studies of homeschooling, of the education of impoverished girls in rural Mexico, of sororities and their relation to female autonomy, and of the teaching of prisoners by volunteers in county jails. Other contributors call for a greater attention to the ecology of social life, viewing society as a complex of individuals bound to one another through webs of transactions and obligations. These contributors recount examples from N

*Women Behind Bars* Silja JA Talvi 2007-11-02 More and more women—mothers, grandmothers, wives, daughters, and sisters—are doing hard prison time all across the United States. Many of them are facing the prospect of years, decades, even lifetimes behind bars. Oddly, there's been little public discussion about the dramatic increase of women in the prison system. What exactly is happening here, and why? The answers are in *Women Behind Bars*, in which investigative journalist Silja Talvi sheds light on why American girls and women are being locked up at such unprecedented rates. Talvi travels across the country to weave together interviews with inmates, correctional officers, and administrators, providing readers with a glance at the impact incarceration has on our society. With a combination of compassion and critical analysis, Talvi delivers a timely, in-depth analysis of a growing and extremely complicated issue.

**Women's Crimes, Criminology, and Corrections** Joycelyn M. Pollock 2014-04-14 Historically, women have been an afterthought in criminal justice policymaking and the criminological enterprise. The study of criminology has largely been the study of criminal men, because women commit less crime than men. More recently, criminologists have paid increased attention to the population of female offenders, partly because of their growing numbers and partly because of the tens of thousands of children affected by having their mothers in prison or on supervised release. The recent attention, however, has not necessarily been a good thing for women, who are much more likely to be formally prosecuted and incarcerated today than in decades past. This policy shift has come about partly because

of misinformed policies implemented to “help” women, and partly because of shifts in theorists’ beliefs and public perceptions that women and men are similar in their criminal motivations and should, therefore, be treated similarly. The controversy surrounding this perception is the focus of this book. To better comprehend the challenges facing women in the criminal justice system, the author (a winner of the Bruce Smith Sr. Award from the Academy of Criminal Justice Sciences) employs research findings and statistics to: describe the prevalence and patterns of women’s crimes; review criminological theories, specifically examining how well they explain female criminality; understand female juvenile offenders, reviewing crime rates, theories relating to female delinquency, and detention-related issues; look inside the women’s prison to better understand female prisoners and their world; examine classification and programming issues—particularly the impact of gender-specific programming; and explore the problems experienced by women upon release and the related issue of women’s recidivism.

In the Mix Barbara Owen 1998-01-15 Describes life inside the world's largest women's prison, from the point of view of the women themselves.

**Women in Prison** Barbara H. Zaitzow 2003 It is old news that the conditions and policies of women's prisons are different from those for incarcerated men. Less evident, however, is how gender differences shape those policies, and how gender identity and roles shape women's adaptation and resistance to prison culture and control. The papers in this collection explore how the gender-based attitudes that women bring to prison frame how they respond to the prison environment -- and how gender stereotypes continue to affect the treatment and opportunities of incarcerated women today. It looks particularly at how the personal and social problems imported into the prison setting become part of the intricate web of prison culture and how extensively women's prison experience reflects the control and domination they experienced in the outside world.

*Women Who Love Men Who Kill* Sheila Isenberg 2021-10-19 The “engrossing, thoroughly researched look at women who are in romantic relationships with incarcerated men”—fully updated with twenty-first-century cases (Publishers Weekly). In 1991, Sheila Isenberg’s classic study *Women Who Love Men Who Kill* asked the provocative question, “Why do women fall in love with convicted murderers?” Now, Isenberg returns to the same question in the age of smart phones, social media, mass shootings, and modern prison dating. The result is a compelling psychological study of prison passion in the new millennium. Isenberg conducts extensive interviews with women who seek relationships with convicted killers, as well as conversations with psychiatrists, social workers, and prison officials. She shows that many of these women know exactly what they are getting into—yet they are willing to sacrifice everything for the sake of a love without hope, promise, or consummation. This edition of *Women Who Love Men Who Kill* includes gripping new case studies and an absorbing look at how the digital age is revolutionizing this phenomenon. Meet the young women writing “fan fiction” featuring America’s most sadistic murderers; the killer serving consecutive life sentences for strangling his wife and smothering his toddler daughters—and the women who visit him in prison; the high-powered journalist who fell in love and risked it all for “Pharma Bro” Martin Shkreli; and many other women absorbed in online and real-life dalliances with their killer men.

*Female Imprisonment* Catarina Frois 2017-12-19 This book is a reflection on the nature of confinement, experienced by prison inmates as everyday life. It explores the meanings, purposes, and consequences involved with spending every day inside prison. *Female Imprisonment* results from an ethnographic study carried out in a small prison facility located in the south of Portugal, and Frois uses the data to analyze how incarcerated women talk about their lives, crimes, and expectations. Crucially, this work examines how these women consider prison: rather than primarily being a place of confinement designed to inflict punishment, it can equally be a place of transformation that enables them to regain a sense of selfhood. From in-depth ethnographic research involving close interaction with the prison population, in which inmates present their life histories marked by poverty, violence, and abuse (whether as victims, as agents, or both), Frois observes that the traditional idea of “doing time”, in the sense of a strenuous, repressive, or restrictive experience, is paradoxically transformed into “having time” - an experience of expanded self-awareness, identity reconstruction, or even of deliverance. Ultimately, this engaging and passionate study questions and defies customary accounts of the impact of prisons on those subjected to incarceration, and as such it will be of great interest for scholars and students of penology and the criminal justice system.

*Recidivism in the Caribbean* Dacia L. Leslie 2019-04-26 This book provides a detailed and practical exploration of criminal recidivism and social reintegration in Jamaica. It uses various methods to seek the authentic voices of inmates, ex-prisoners, deported migrants and practitioners, drawing on an original study to examine factors that might help ex-prisoners more successfully transition from a prison environment to life within the community. Leslie also raises important questions about the Jamaican state’s capacity to meet the needs of inmates, particularly as a large number of its citizens are subject to forced repatriation to their

homeland by overseas jurisdictions due to their offending. Recidivism in the Caribbean provides a unique insight into institutional and community life in a post-colonial society, whilst linking practices theories of offender management. It will particularly appeal to criminologists and sociologists interested in tertiary crime prevention but also those interested in correctional policy and practice, punishment and deviance.

Prison Diaries Priya Gaikwad 2017-08-08 India does not have 29 states as it claims, but 30 states, 30th being Bhastapur.

Bhastapur is so downtrodden and corrupt that India feels ashamed to include it in its map. The story happens in a women's prison located in Bhastapur. It is about the animosity between female inmates and the tyrannical jailer, Baal Rana, who rules the prison. Baal does not leave a stone unturned to torture every woman in the prison. After constant tortures and mysterious murders, the women of the prison decide to bring a change. But how can they bring change without getting caught? Will they ever get rid of Baal Rana? Will they ever taste freedom? Will the state of Bhastapur change?

**Inner Lives** Paula Johnson 2004-03-01 The rate of women entering prison has increased nearly 400 percent since 1980, with African American women constituting the largest percentage of this population. However, despite their extremely disproportional representation in correctional institutions, little attention has been paid to their experiences within the criminal justice system. Inner Lives provides readers the rare opportunity to intimately connect with African American women prisoners. By presenting the women's stories in their own voices, Paula C. Johnson captures the reality of those who are in the system, and those who are working to help them. Johnson offers a nuanced and compelling portrait of this fastest-growing prison population by blending legal history, ethnography, sociology, and criminology. These striking and vivid narratives are accompanied by equally

compelling arguments by Johnson on how to reform our nation's laws and social policies, in order to eradicate existing inequalities. Her thorough and insightful analysis of the historical and legal background of contemporary criminal law doctrine, sentencing theories, and correctional policies sets the stage for understanding the current system.

I Hear Your Cry Veronica Shaffer 2007-03 I Hear Your Cry:

Women in Prison shares the extraordinary process of how one woman took a dream, nurtured it into reality, and shared her inspirational message with women prisoners-never give up. Author Veronica A. Shaffer has always relied on her inner voice to lead her, but it was her perseverance and commitment to personal growth that eventually allowed her to share the benefits of yoga and meditation with women prisoners. In this poignant account, Shaffer compromises with prison officials who ask her to rename her program "Fit and Wellness," and begins her life-transforming work. Although her personal experiences differ from those of the female prisoners she educates, she is able to identify with their powerlessness and desperation-two demons she had personally battled as a young woman. Her years of teaching are complemented by the amazing lessons learned from women who struggle with addictions, obesity, physical handicaps, grief over separation from loved ones, anger at the men left behind, and loneliness without friends.

workers, as well as observation in the prisons, the courts, and the lodging-houses. The author quotes from interviews with women recidivist prisoners, the judges who send them to prison, and the agencies which assist them in between their periods of imprisonment. In doing so, questions are raised about the meanings of imprisonment and the penal disciplining of women at the time of original publication. The book also examines the changing and various meanings of imprisonment in general and the invisible nature of the social control of women in particular.

**Offending Women** Lynne Allison Haney 2010 "Lynne Haney is already an important voice in the sociology of welfare but this book marks her debut as a major figure in the sociology of punishment and the study of governmentality. Offending Women is a fascinating work that combines rich ethnographic detail with a structural account of the changing contours of contemporary governance. Its original contributions to prison ethnography, women's studies, and the sociology of the penal-welfare state will make it a reference point in each of these disciplines."--David Garland, author of The Culture of Control "Offending Women is

an exemplary piece of work. Haney's writing is engaging, crisp, and smart. An altogether brilliant book."--Myra Marx Ferree, University of Wisconsin
