[How to Get the Girl Ignore and Score: Dating Mindsets Explained](#) - Robert Belland 2012-11-01

Our mindsets drive the emotions we have, the decisions we make, and the women we attract into our lives. This book outlines the very best dating mindsets I've tested, experienced, and found most successful. Getting the girl isn't just a Hollywood fantasy; attracting beautiful women isn't the sole domain of the super rich, the super hunk, or the outrageously gifted. Attracting and dating beautiful women isn't about magic and pickup lines, it's about your mindsets, basic human insights, and a little female psychology. This book outlines the FOUR FOUNDATIONS of successful dating: Attraction, Rapport, Leading, and Escalation. ATTRACTION is about tension and her emotional response to you. RAPPORT is about intimacy and her emotional connection with you. LEADING is about challenging your fears and taking action while communicating sincerity through your actions. ESCALATION is about consistently increasing the intensity of your relationship via attraction and rapport so that it goes where ever you want it to go. When you learn how to inspire ATTRACTION and RAPPORT in a woman through your actions of LEADING and ESCALATION, you'll create a compelling chemistry between you and her that most men will NEVER achieve. QUESTIONS THIS BOOK ANSWERS: - What's the best way to avoid the "friend zone"? - Why do some women resist guys they're REALLY into? And how can you tell the difference? - How can you remove the fear of rejection when approaching a woman? - What are 5 easy ways to make a woman feel at ease and comfortable with you? - What are 6 powerful ways to prevent yourself from feeling jealous? - What are 14 ways she is trying to tell you she's into you that most guys miss? - When is the right time to kiss her? - What are 5 things you should do or say when in bed with a woman?! - Etc, etc, etc...

Girl Decoded - Rana el Kaliouby 2020-04-21

'Bold, inspired and hopeful' Arianna Huffington, founder and CEO of Thrive Global 'Lucid and captivating' Max Tegmark, professor of physics at MIT and author of Life 3.0 A captivating memoir that chronicles one woman's mission to humanise technology and what she learns about humanity along the way. Now more than ever, we find ourselves unable to express our true feelings through technology. Whether it's a misunderstood text, an oversimplified emoji or a Skype call that leaves us feeling lonely, when most of our communication is carried out through tech, the result is a virtual world that's lacking our humanity - a society lacking in empathy. Rana el Kaliouby discovered this when she left Cairo, a newly-married, Muslim woman, to take up her place at Cambridge University to study computer science. Many thousands of miles from home, she began to develop systems to help her better connect with her family. She started to pioneer the new field of Emotional Intelligence (EI). She now runs her company, Affectiva (the industry-leader in this emerging field) that builds EI into our technology and develops systems that understand humans the way we understand one another. This is the fascinating story of her mission to humanise technology and what she learns about humanity along the way.

Separated from friends and civilization, Tanya has only her fears and uncertainty for company. At the age of twenty, Tanya loses a man who was not only her father but a surrogate father to thousands. Richard Chernov was a man who shared himself, humor and all, with just about everyone who would let him. And with this same unflagging commitment and passion, Tanya shares her struggles and the blessings she finds in them.
