Of Mice and Men John Steinbeck 1937 Tells a story about the strange relationship of two migrant workers who are able to realize their dreams of an easy life until one of them succumbs to his weakness for soft, helpless creatures and strangles a farmer's wife.

Sex-Positive Social Work SJ Dodd 2020-06-30 Social workers engage with sex and sexuality in all kinds of practice settings and with a variety of client populations. However, conversations about healthy sexuality and sexual well-being are all but absent from social work literature, education, and practice. Many social work professionals have internalized sociocultural taboos about talking about sexuality and tend to avoid the topic in their practice. This book provides an overview of key sexuality-related topics for social workers from a sex-positive perspective, which encourages agency in sexual decision making and embraces consensual sexual activity as healthy and to be enjoyed without stigma or shame. It discusses a wide range of topics including physiology, sexual and gender identity, sex in older adulthood, BDSM and kink; nonmonogamous and polyamorous relationships, and ethical considerations, including erotic transference. The book is designed to embolden social workers to engage discussions of sexuality with clients and to provide an opportunity for self-reflection and professional growth. Accessible to students as well as social workers and mental-health professionals at all levels, *Sex-Positive Social Work* emphasizes the relationship between sexual well-being and overall well-being, giving social workers the tools to approach sex and sexuality actively and positively with clients.

Degenerate Moderns E. Michael Jones 1993 In this groundbreaking new book, Jones shows how some of the major determining leaders in modern thought and culture have rationalized their own immoral behavior and projected it onto a universal canvas. The main thesis of this book is that, in the intellectual life, there are only two ultimate alternatives: either the thinker conforms desire to truth or he conforms truth to desire. In the last one hundred years, the western cultural elite embarked upon a project which entailed the reversal of the values of the intellectual life so that truth would be subjected to desire as the final criterion of intellectual value. In looking at recent biographies of such major moderns as Freud, Kinsey, Keynes, Margaret Mead, Picasso, and others, there is a remarkable similarity between their lives and thought. After becoming involved in sexual license early on, they invariably chose an ideology or art form which subordinated reality to the exigencies of their sexual misbehavior.

Crisis Intervention and Time-Limited Cognitive Treatment Albert R. Roberts 1995-09-07 This practical sourcebook offers the latest information on crisis intervention and treatment strategies to a wide range of practitioners helping clients who have survived crises such as being taken hostage or raped.

Story of the Eye Georges Bataille 2013-09-26 Bataille's first novel, published under the pseudonym 'Lord Auch', is still his most notorious work. In this explicit pornographic fantasy, the young male narrator and his lovers Simone and Marcelle embark on a sexual quest involving sadism, torture, orgies, madness and defilement, culminating in a final act of transgression. Shocking and sacrilegious, *Story of the Eye* is the fullest expression of Bataille's obsession with the closeness of sex, violence and death. Yet it is also hallucinogenic in its power, and is one of the erotic classics of the twentieth century.

Unspeakable Acts Doug W. Pryor 1996-07-01 A holistic sociological approach that explores why offenders sexually abuse children The sexual abuse of children is one of the most morally unsettling and emotionally inflammatory issues in American society today. It has been estimated that roughly one out of every four girls and one in ten boys experience some form of unwanted sexual attention either inside or outside the family before they reach adulthood. How should society deal with the sexual victimization of children? Should known offenders be released back into our communities? If so, where, and with what rights, should they be allowed to live? In *Unspeakable Acts*, Douglas W. Pryor argues that much of this debate, designed to deal with abusers after they have offended, ignores the important issue of why men cross these forbidden sexual boundaries to molest children in the first place and how the behavior can possibly be prevented before it starts. Incorporating in-depth interviews with more than thirty convicted child molesters, Pryor explores how men become involved with breaking sexual boundaries with children. He looks at how their lives prior to offending contributed to and led up to what they did, the ways that initial interest in sex with children began, the tactics offenders employed to molest their victims over time, how they felt about and reacted to their behavior between offending episodes, and how they were ultimately able to stop. The author expands our understanding of this often reviled, little understood group, leaving us with the uneasy conclusion that the moral wall separating us from what is defined as extreme, sick behavior is not as opaque as we would like to believe.

The Missionary Position Christopher Hitchens 2012-04-01 Recipient of the Nobel Peace Prize, feted by politicians, the Church and the world's media, Mother Teresa of Calcutta appears to be on the fast track to sainthood. But what makes Mother Teresa so divine? In this frank and damning exposé of the Teresa cult, Hitchens details the nature and limits of one woman's mission to help the world's poor. He probes the source of the heroic status bestowed upon an Albanian nun whose only declared wish was to serve God. He asks whether Mother Teresa's good works answered any higher purpose than the need of the world's privileged to see someone, somewhere, doing something for the Third World. He unmasks pseudo-miracles, questions Mother Teresa's fitness to adjudicate on matters of sex and reproduction, and reports on a version of saintly ubiquity which affords genial relations with dictators, corrupt tycoons and convicted frauds. Is Mother Teresa merely an essential salve to the conscience of the rich West, or an expert PR machine for the Catholic Church? In its caustic iconoclasm and unsparing wit, *The Missionary Position* showcases the devastating effect of Hitchens' writing at its polemical best. A dirty job but someone had to do it. By the end of this elegantly written, brilliantly argued piece of polemic, it is not looking good for Mother Teresa. - Sunday Times

The seven chapters consider Scripture and sex; the connections between the triune, covenantal God and human sexuality; Christ's incarnation and resurrection as affirming the beauty of flesh; eschatology and sexual identity; the ramifications of the Lord's Supper for human sexuality; vocation and Christian callings to marriage, celibacy, and singleness; and sexual ethics.

The book also gives students a comprehensive understanding of the features and epidemiologies, risk factors and prevention, assessment and treatment, and long term prognosis and associated stigma of mental disorders. The Vital Question Nick Lane 2015-04-23 Why is life the way it is? Bacteria evolved into complex life just once in four billion years of life on earth-and all complex life shares many strange properties, from sex to ageing and death. If life evolved on other planets, would it be the same or completely different? In *The Vital Question*, Nick Lane radically reframes evolutionary history, putting forward a cogent solution to conundrums that have troubled scientists for decades. The answer, he argues, lies in energy: how all life on Earth lives off a voltage with the strength of a bolt of lightning. In unravelling these scientific enigmas, making sense of life's quirks, Lane's explanation provides a solution to life's vital questions: why are we as we are, and why are we here at all? This is ground-breaking science in an accessible form, in the tradition of Charles Darwin's *The Origin of Species*, Richard Dawkins' *The Selfish Gene*, and Jared Diamond's *Guns, Germs and Steel*.
