Pelvic Floor Exercises for Erectile Dysfunction - Grace Dorey 2003-11-21

This text reaches beyond the boundaries of mainstream physiotherapy into a novel area for physiotherapists and nurses. It provides information on the prevalence and risk factors for erectile dysfunction, the anatomy and physiology of normal erectile function and the role played by the pelvic floor muscles in men. A successful randomised controlled trial exploring pelvic floor muscle exercises and manometric biofeedback for both erectile dysfunction and post-micturition dribble is clearly reported. This is the first time that erectile dysfunction has been associated with post-micturition dribble due to poor pelvic floor musculature. The discussion covering each aspect of the trial adds knowledge to a poorly researched subject. This book provides professionals with first-line treatment guidance based on evidence for the well-being of men with erectile dysfunction and their partners. It should be of interest to all professionals working in the area of urology.

Gabe's Guide to Good Sex - Gabriel Morris 2012-03-26

"You can read this short little book in a couple of hours or less. But I assure you that you will come away from it with some new, very useful ideas on how you approach sex-whether you're a man or a woman, young or older, a seasoned sex machine or a 40-year-old virgin. The book isn't focused so much on slick moves and techniques; though there are certainly some of those as well. Rather, it explores some of the more fundamental issues when it comes to having really good sex: Tuning into your partner's energy; understanding the fundamental differences between men and women, masculine and feminine; getting out of the head and into your body; increasing the feelings of love between you and your partner, as opposed to just focusing on physical pleasure; making every phase of the sexual experience last longer. These suggestions and many others will help guide you naturally into finding the right moves, positions, rhythm, etc., so that you can start experiencing

deeply satisfying and mind-blowing lovemaking, as opposed to just getting laid." From "Gabe's Guide to Good Sex" by Gabriel Morris Gabriel Morris is author of many books including "How to Make Sacred Love to a Woman" (also available on Amazon.com as both a Kindle e-book and in paperback). "Gabe's Guide to Good Sex" includes 25 potent sex tips (15 for men and 10 for women), with several paragraphs of explanation for each one. It also features three more in-depth essays (two of which are also featured in the book "How to Make Sacred Love to a Woman"). The central focus of these suggestions revolves around the idea that the most important aspect of any sexual encounter is more about the energy you create between yourself and your partner, than simply what you do with your body. Yes, what you do with your body is important as well! And included in this little book are an assortment of tips for both men and women to get more in touch with their bodies. But ultimately, great sex is more about how tuned in you are to your partner, and yourself, rather than simply giving a great performance and showing off the right moves. A few more selections from the book: "Feeling a woman's energy as much as you can is an all-encompassing exercise that should guide everything you do with her, from suggestions for where to go out, to when you make your first move, to how you make love. If you're not sensing into her, then good looks, charm and slick moves will only get you so far. " "The masculine impulse tends to be focused on the goal: get naked, penetrate and orgasm. The feminine wants to savor the moment and take more time with everything: build the energetic connection, more foreplay, longer sex, more orgasms. And if you agree that sex is fun, then why be in a rush to get it over with?" "So, once she signals that she's ready to spread her legs for you and reveal that sweet, beautiful part of her feminine essence, don't just grab your cock and go for the goal. Take your time with it. Admire it. Tell her how beautiful it is. Stroke her thighs, encouraging her to open a little wider. Brush your fingers along her pubic hair, giving her just a little tease of what's to come, how gentle and sensitive you will be with your hands, and with your manhood once you get to that point." "To whatever extent the man is on top

and in the active role, it's essential that he finds the proper rhythm with the woman. Sometimes the man needs a little reminder that if he really wants to merge with the feminine nature and help create a mutually amazing sexual experience, he needs to get out of his own head and make sure to sense into the woman, both energetically and physically, in order to find a rhythm that's truly in sync with the woman. So, as the woman, it's your job to make it clear when in fact he isn't finding that proper rhythm."

difference between a long-term live-in friendship, and a vibrant, life-long sexual relationship between committed lovers and partners. Being in a committed, loving relationship always seem so easy and natural when we first set our feet on the path. Hand in hand, we walk into the future as a couple, swept away in our love for one another; believing that "forever" isn't such a long time in the company of the one we adore. But life in a long-term romantic relationship isn't as easy as many of us have been led to believe. It's not just about the compromise, listening and understanding. Let's be honest and admit that it's also about the sex. Sexuality in a long-term relationship or marriage can dwindle over the years. If we have children, their arrival can change the nature of our sexuality. First and foremost is the inevitable transformation of our roles from life-long lovers to parents and guardians. There's also the stress of child-rearing. The baby who won't go to sleep. The dirty nappies. The shift of focus from each other to the new life that demands our care and attention. Some say sexuality between long-time partners can be re-ignited by "spicing things up". Costumes, saucy talk and sex aids can come into play to perhaps make things more fun. But what's really at the basis of your love? What's really the true cornerstone of your relationship? Is there something deeper you can draw on as a resource to lift up your sexuality and make it as enduring as the love you share? It can be hard to believe that your sex life can be improved and changed by words written in a text, but it can. In fact, improving your sex life can be done without help at all, but you need to know yourself 100% if you ever expect to please someone else (inside and outside of the bedroom). There are so many ways in which each of us are pleased via sexually. Finding out what pleases each and every one of us is the difficult part. The Kama Sutra states that all of us can find pleasure and desire in one another, but only if certain factors are taken into account. This book covers: Is Sexual Compatibility important? Overcome sexual anxiety, shyness and insecurity Turn a boring relationship in an exciting couple game The Top sexual fantasies revealed How to create the right intimacy The best sex positions for couples Increase sexual passion with dirty sexy games Top foods to enhance stamina and libido

in your sex With this book, you will be able to identify and implement steps that will change the way you look at yourself, life and sex. You will feel born again with the willingness and want to change or start anew. Having a great sex life isn't just a fairytale or something you see in movies or pornography. A great sex life is achieved by hard work on your part and life changing practices that are kept up with throughout your life. Nothing in life is easy and this is no exception to that. Think about the last time you had sex. Who initiated it? When and where did it happen? What was off-limits and why? In the end, did the sex leave you motivated to have more? Over the years, internationally recognised sex therapist and author of *She Comes First*, Ian Kerner, has perfected the art of the 'sex script analysis' - a way of looking at your sex life in action, moment by moment. In those details, an entire world is revealed. When the script works, we drop down into arousal and lose ourselves in pleasure. shows you how to conceptualise and create a sex life that works for you. He helps you figure out what's working, what's not, where you might be missing some elements, and how to construct a sex script that is mutually satisfying. He also discusses many common sexual problems - such as low desire, mismatched libido, and erectile unpredictability - that may be interfering with your sex life. Combining clinical insight, the latest sexual science and research, case studies, homework assignments, and more, this is a book that does more than just talk about sex; it's a book that will get you to do something about sex.

from World Famous premature ejaculation Book. Premature Ejeculation | Premature Ejection | Early Ejaculation | Early Discharge We came to know at this moment when a man should not think ejaculation as a disease named premature ejaculation. Now question arises here who is the real patient of premature ejaculation and what the premature ejaculation is in reality. When many men make sexual relation with women, they ejaculate semen while inserting the penis into the vagina. Some men ejaculate semen as they touch the penis with the vagina and many men ejaculate during foreplay. Such kinds of men can be called the patient of premature ejaculation in true meaning. Ejaculation is the release of semen from the penis during an orgasm. When ejaculation occurs faster than you or your partner would like, it's known as premature ejaculation (PE). PE is also known as: rapid ejaculation premature climax early ejaculation Premature Ejeculation | Premature Ejection | Early Ejaculation | Early Discharge | Pre ejection | Premature Evacuation | Prejaculation | Pre ejaculation | premature ejakulation | premature ijaculation | delay ejection | premature ejuculation | ejaculating too soon | premature ejection | What is premature ejaculation? At present, mostly young men and people of all the ages are aware about it. Premature ejaculation means emission of semen soon. Often, this problem takes birth in young age but in this present age, old men also have been suffering from this age. Every man wants sexual intercourse for long time. There is a feeling in the mind of a man that if he ejaculates soon, the woman will not get great sexual pleasure during sexual intercourse. Because of this reason, a man becomes the victim of inferior complexity. Several kinds of doubts and misconceptions take birth in the mind of a man if he is the victim of premature ejaculation. causes of premature ejaculation (PE) or early discharge (ED) There are two causes of premature ejaculation:- 1. Semen of some men ejaculates before inserting the penis into the vagina. It is the first reason. 2. Semen of many men ejaculates just after inserting the penis into the vagina. This is the second reason of premature ejaculation Accumulation of heterogeneous liquid is the cause of early ejaculation. A person becomes the patient of

early ejaculation when this polluted liquid produce disease in the nervous system of the body. A person who thinks about sex and makes sexual relation in an unnatural way becomes the patient of early ejaculation. Many people think about sex very much and involve in unnatural sex because of which they become the victim of early ejaculation. Excessive weakness of the body may be the cause of this disease. Masturbation may be the cause of early ejaculation. If the penis of a man is very weak, he can become the victim of this disease. Several other kinds of diseases as gonorrhoea, intestinal worms and constipation may be the cause of early ejaculation. Any accident or injury on the genital region becomes the reason of early ejaculation. What are the causes of premature ejaculation? Causes of premature ejaculation:- Constant thinking about sexual intercourse and premature ejaculation is closely attached. When a man touches the age of puberty, he starts to think about a girl or about sexual relation with the girl by watching a girl on television screen or in his locality. He thinks that he touches her body, presses her breast if the girl is present here. In this way, several kinds of salacious ideas strike in his mind. The penis of the boy becomes erect as he thinks about it and he holds the penis with his hand. This is the first ladder of the origin of the disease named premature ejaculation. When the boy lost in the dreams of the girl embraces her lips, presses her breast and kisses her in his imagination, he keeps on masturbating with hands gently but as he makes sexual relation with the girl in his imagination, he masturbates rapidly and in this way, he ejaculates. This thing clears that a man has full control over the ejaculation of semen. He ejaculates on the time when he wants to ejaculate or desires for ejaculation. Many young men make sexual relation with aged women who are too much sexually excited. Such kinds of women excite the young men very much during foreplay and the men ejaculates just after inserting the penis into the vagina or while inserting the penis into the vagina. In this way, they become cool soon. If the penis of such kinds of man gets erection again, they become unable to have control over the excitement of the penis. The same condition happens with them after marriage too. When they make sexual relation

with their wives on the first time after marriage, they ejaculate soon and this thing creates several kinds of problems. Besides it, there is another condition too. Sometimes, a man loves a woman very much and he has to remain far from her because of any reason but he keeps on absorbing in her memories and kisses or presses her breast in his imagination. He keeps on thinking about her and the penis of the man becomes erect but this erection of penis disappears as stops to thinking about the girl or other sex things. At this moment, he ejaculates his semen and this is point from where a man becomes the victim of premature ejaculation mentally. Above-mentioned men are the men who became the patient of this disease because of their thinking. On the contrary, some men never think about women and make sexual relation in their imagination but they ejaculate semen as they touch the body of women. To know is very essential for such kinds of men that body of man is not a machine, which keeps on working without break. Human body wants relaxation too. a man ejaculates at that time because the body does not want to do excessive hard work viz process of stroking may not prolong its period. However, here we should not understand that ejaculation is associated with exhaustion. This is the process of change inside the body, which wants to provide relief to the body. Mostly men are older to their wives at the time of marriage. For example if the wife is 20 years old, the age of her husband will be 32-32 years. Besides it, many men father of many children marry to the younger girls. Result of it is that attracting and charming body of the women excited them very much at the time of sexual intercourse. In this way, they ejaculate semen before inserting the penis into the vagina. This thing happens with them regularly. A man of this kind absorbs into the lap of sleeping but his wife keeps on agonizing whole night. Sometimes, some men who have a lack of self-confidence keep on suspecting on their wives. Mostly such kinds of men live far from their wives in the matter of work. If the wife of such kind a man has good habit and behaves well with others, suspicion of the husband increases very much. The man keeps on disturbing about the character of his wife. In this stage, when he is making sexual relation with his wife, suspicions

keep on striking in his mind continuously. In this way, he cannot establish sexual relation properly and become the victim of premature ejaculation. Many men have watched a woman in nude condition while bathing or changing clothes. At this time, sexual excitement increases very much in them. They start to think about sexual relation. A man of this kind cannot make sexual intercourse with the woman to whom he observed. In this case, he makes sexual relation with his wife but at this time, the exciting scene of the woman keeps on stimulating him continuously. This thing reacts on the body and nerves of the man. The result of it is that that a man ejaculates semen as he inserts his penis into the vagina. Every one knows that shame and shyness of a woman disappears after making sexual relation with once or twice with a man. After that a woman, start to play with the penis of the man without hesitation. She holds and fondles the penis of the man. This activity of the woman excited a man very much because penis of a man is very sensitive organ of the body. if a man is the victim of this disease, he should say to his wife not to play with his penis by telling her the cause behind this thing. Rational women understand the feelings of a man because they know that this kind of activity will affect the activity of sexual intercourse. In this way, neither man nor woman will get the real sexual pleasure. Nevertheless, some women keep on involving in such kinds of activities in spite of knowing the fact. They forget the thing told by their husbands. At this condition, a man should establish sexual relation cunningly. It is clear that as a man presses the breast of the woman as the woman plays or fondles with the penis of the man because she takes great pleasure in this job as the man takes in pressing the breast. The man should make sexual relation in a way that the hands of the woman may not reach to the penis of the man. The hands of the woman may press between the both hands of the man under the waist of the woman. A man should act in a way that the woman may forget to touch the penis of the man. The most beneficial thing for a man is that many women play with the penis but they do not the technique. They hold, fondle, pat to the penis and touch the testicles. In these kinds of activities, the man faces no problem. The problem creates when a woman touches

nude glans of the penis or kisses to the penis with her lips. If a husband remains far from his wife for long time because of any work or other reasons, he does not make sexual relation with his wife during this period. However, when he makes sexual relation after returning, he is very much excited at that time. He ejaculates semen after three or four strokes by inserting the penis into the vagina. This condition can take birth repeatedly because of stopped sexual excitement. The man should not fear with this condition otherwise, this fear can sit in his mind. A man becomes exhausted because of excessive burden of work or angry boss. He returns his home with dejection in his mind. He tells nothing if his wife asks him anything. Pressure of these things produces depression in his mind. When he sleeps with his wife at night, the wife wants to make sexual relation with him. The man gets ready to make sexual relation but outwardly not inwardly. The result of it is that his penis does not get full erection and he ejaculates after three four strokes. If this thing happens regularly, the man becomes the victim of premature ejaculation. Sometimes, foreplay before the sexual intercourse becomes the cause of premature ejaculation. Sexual excitement of a man becomes so high by kissing or sucking the lips of the woman that he ejaculates semen before inserting the penis into the vagina. Besides it, a man becomes the victim of ejaculation soon if he sucks the vagina or licks the labia majora of the woman with his tongue because these are the most sensitive organs of a woman and any kind of touch of these organs brings the stage of climax for both man and woman. However, this stage makes a man the victim of premature ejaculation. Many men want to adopt different kinds of sex techniques by watching pornographic movie or picture. They become very much sexually excited by observing the nudes scenes of the picture or movie. They ejaculate semen without penetrating penis into the vagina. Besides it, many men make sexual relation before a mirror and observe their sexual intercourse in the mirror. Nude body of the woman excite men very much and the ejaculate their semen without sexual intercourse. Many men become excessive sexually excited by seeing the body of a woman in too much electric light. Sex organs of a woman are very salacious

and too much electric light enhances their attractiveness. In this stage, when a man touches, fondles and presses the breast of the woman, he loses control over his sexual excitement completely. He penetrates his penis into the vagina hurriedly and ejaculates soon. Such kind of men who ejaculate soon, they should adopt opposite sexual techniques while making sexual relation. In this technique, the woman sits on the thighs of the man and starts the process of stroking on the penis with her vagina. In this stage, vagina of the woman, excited labia majora, pinky labia minora, excited clitoris, opening and contracting of the vagina makes a man very much sexually excited and the man ejaculates after three or four strokes. This kind of technique should be done either in dim light or in darkness because too much electric light can be dangerous in this technique. Often, many young men have misconceptions about the size of the penis. Such kinds of men think that their penis is very small after seeing the long and thick penis in any magazine or movie. They become worried by thinking that how they will satisfy their wives during sexual intercourse. This thinking creates a feeling of inferior complexity and their self-confidence reduces. It is necessary to tell something to such kinds of men that the penis as they watch in movie are made long and thick with the help of technology. They should not create any kind of misconception in their mind about the size of the penis. Length and thickness of the penis of a man are not related to the sexual intercourse by any way. Women, who were got married against their wish, do not have good relation with their husbands. They show no interest in sexual relation with their husband and give no support to their husbands when their husbands make sexual relation with them. The husbands has to make sexual relation one sided because of which he becomes the victim of premature ejaculation. If a woman has been suffering from vaginismus, sexual relation with such kind of woman never proves successful. As a man inserts his penis into the vagina of woman, she starts to scream because of pain. The man draws out his penis from the vagina because of fear. If he tries to make sexual relation with the woman, the same thing takes birth again. At this condition, excitement of a man becomes cool and he

ejaculates his semen without sexual intercourse. Pain in the vagina can be because of mental and physical reason. In many cases, a man starts to make sexual relation without sex knowledge. He penetrates his penis into the vagina of the woman without arousing a woman for sexual intercourse. When a man starts the process of stroking without arousing a woman, the woman starts to cry because of pain because the vagina is not wet at that time and this thing becomes the cause of pain. Many men affect very much because of any scent or fragrance. A man of this kind becomes restless because of the fragrance. Several men and women use different kinds of fragrances before establishing sexual relation. If a woman becomes too much excited after the use of fragrance, there is no need to be worried in this situation but if a man becomes too much sexually excited after the use of fragrance or scent, he ejaculates before starting the process of stroking. We can say that fragrance and scent can become an obstacle in the sexual pleasure or orgasm. As sexual excitement increases because of fragrance and scent as sexual excitement reduces or ends completely because of any kind of odor or bad smell. This bad odor may be of anything as odor of the mouth, sweating of the body, clothes or bed smell of the secretion of the vagina. In this situation, the penis of the man does not get full erection and early ejaculation becomes necessary. If a man smells bad, the woman does not feel sexual urge and a kind of hate takes birth in her mind towards her husband. Vagina of the woman becomes tight in this situation and if a man makes sexual relation with her, he ejaculates soon. If both husband and wife have tasted the flavor of homosexuality before marriage, they show no interest towards opposite sex. Neither a man gets sexual pleasure nor he provides sexual pleasure to the woman. It is happens because they are too much interested in homosexuality. They show no interest in the sexual relation with opposite sex. If both husband and wife establish sexual relation against their wish, the woman becomes cool and the man ejaculate soon. If a married couple gets child after one year of marriage, they neither take great sexual pleasure nor do they involve in sexual intercourse. They fear lest the child should wake up when they are making sexual relation. In this situation, they want to end

sexual intercourse soon. They do not put off their clothes completely before making sexual relation. The result of it is that sexual excitement cannot be produced properly and they start sexual intercourse. Both husband and wife remains keep on paying attention towards child whether the child is sleeping or not. Vagina of the woman does not become wet properly. In the lack of sexual excitement, a man does not penetrate his penis into the deepness of the vagina. Sometimes, the penis of the man does not get full erection. This is the reason that the man becomes ejaculate semen without satisfying his wife during sexual intercourse. What are the symptoms of premature ejaculation?
