Sin or Salvation - Amy Mahoney 2013-10-18

When in therapy, women inevitably present both sexual and spiritual issues of importance. However, there has yet to be brought forth an integrating approach to women's sexuality and spirituality. The book fills this gap, integrating these two diverse yet connected aspects of therapy. This innovative exploration of women's experiences of their sexuality and spirituality is presented from a feminist psychological perspective, clearly illustrating the dichotomy that exists in Western culture and offering a unique approach for convergence. This book provides therapists with positive and self-affirming viewpoints and practical strategies to help harmonize sexual and spiritual issues in women clients. The book uses a synergistic perspective to facilitate healing for women's psycho/sexual/spiritual growth and development. Therapists are provided with invaluable tools for personal understanding and clinical practice when considering sexuality and spirituality and how they interact in a client's life. This book is crucial reading for psychotherapists, counselors, social workers, educators, pastoral counselors, and anyone interested in learning more about the intersections between sexuality and spirituality. This book was published as a special issue of *Women & Therapy: A Feminist Quarterly*.

[Pagan Visions for a Sustainable Future](#) - Ly De Angeles 2005

This collection of provocative essays on spiritual activism by Starhawk, Ly de Angeles, Emma Restall Orr, and other Pagan writers and scholars explores such diverse topics as magickal ecology, feminism, globalization, sacred communities, and environmental spirituality. This anthology is a call to action—environmental, social, and political. Book jacket.

[The Power of Partnership](#) - Riane Eisler 2010-09-03

Based on the research that brought international recognition to Riane Eisler's groundbreaking work *The Chalice and the Blade* but addressing the world as it is today, *The Power of Partnership* offers inspiration and guidance for moving to the better lives we yearn for. Eisler offers us a new lens, a new paradigm, for seeing the world and living in it. The Partnership Model, which emphasizes mutual respect and a fundamental awareness of the sacredness of all life, creates a solid foundation for families, businesses, communities, and the world. In contrast, the suffocating paradigm that has guided much of recorded history — what Eisler calls the Domination Model — has led individuals and groups, acting out of fear, to oppress women, wage war, terrorize, and subjugate others. Using these simple yet far-reaching models, Eisler shows how political and personal relationships based on domination inevitably result in misery and violence, while those founded on partnership foster respect, love, and an explosion of creativity.

[The Hidden Spirituality of Men](#) - Matthew Fox 2010-09-24

It is no secret that men are in trouble today. From war to ecological collapse, most of the world's critical problems stem from a distorted masculinity out of control. Yet our culture rewards the very dysfunctions responsible for those problems. To Matthew Fox, our crucial task is to

open our minds to a deeper understanding of the healthy masculine than we receive from our media, culture, and religions. Popular religion forces the punitive imagery of fundamentalism on us, pushing most men away from their natural yearning for spirituality and toward intolerance and domination. Meanwhile, many men, particularly young men, are looking for images of healthy masculinity to emulate and finding nothing. To awaken what Fox calls "the sacred masculine," he unearths ten metaphors, or archetypes, ranging from the Green Man, an ancient pagan symbol of our fundamental relationship with nature, to the Grandfatherly Heart to the Spiritual Warrior. He explores archetypes of sacred marriage, showing how partnership becomes the ultimate expression of healthy masculinity. By stirring our natural yearning for healthy spirituality, Fox argues, these timeless archetypes can inspire men to pursue their higher calling to reinvent the world.

[Eros and Touch from a Pagan Perspective](#) - Christine Hoff Kraemer 2013-10-23

Within the past twenty years, contemporary Pagan leaders, progressive Christian and Goddess theologians, advocates for queer and BDSM communities, and therapeutic bodyworkers have all begun to speak forcefully about the sacredness of the body and of touch. Many assert that the erotic is a divinely transformative force, both for personal development and for social change. Although "the erotic" includes sexuality, it is not limited to it; access to connected nonsexual touch is as profound a need as that for sexual freedom and health. In this book, Christine Hoff Kraemer brings together an academic background in religious studies and theology with lived experience as a professional bodyworker and contemporary Pagan practitioner. Arguing that the erotic is a powerful moral force that can ground a system of ethics, Kraemer integrates approaches from queer theology, therapeutic bodywork, and sexual minority advocacy into a contemporary Pagan religious framework. Addressing itself to liberal religious people of many faiths, *Eros and Touch from a Pagan Perspective* approaches the right to pleasure as a social justice issue and proposes a sacramental practice of mindful, consensual touch.

Complexities - Susan McKinnon 2005-06

Recent years have seen a growing impetus to explain social life almost exclusively in biological and mechanistic terms, and to dismiss cultural meaning and difference. This book presents evidence to contest such theories and to provide a multifaceted account of the complexity and variability of the human condition.

[Sacred Pleasure](#) - Riane Eisler 1995

[Sacred Pleasure](#) - Riane Eisler 1995-06-01

This provocative examination of the shifting balance of power between men & women throughout the ages offers a radical new perspective on the sexual politics that fashion our culture. It tackles sexual myths that have corrupted male/female relationships over the millennia. It takes us from the first origins of sex to our own postmodern age, shedding new

light not only on sexuality, but on spirituality, love, power, & the two most basic levers for human motivation: pleasure & pain. Eisler offers a passionate vision of a future when sex & spirituality are once again entwined & men & women face each other as equal partners.

The Fabric of the Future - M. J. Ryan 2000-03-01

Sacred Pleasure - Riane Eisler 1996-05-10

Riane Eisler shows us how history has consistently promoted the link between sex and violence—and how we can sever this link and move to a politics of partnership rather than domination in all our relations.

The Cult of Divine Birth in Ancient Greece - M. Rigoglioso 2009-04-26

Greek religion is filled with strange sexual artifacts - stories of mortal women's couplings with gods; rituals like the basilinna's "marriage" to Dionysus; beliefs in the impregnating power of snakes and deities; the unusual birth stories of Pythagoras, Plato, and Alexander; and more. In this provocative study, Marguerite Rigoglioso suggests such details are remnants of an early Greek cult of divine birth, not unlike that of Egypt. Scouring myth, legend, and history from a female-oriented perspective, she argues that many in the highest echelons of Greek civilization believed non-ordinary conception was the only means possible of bringing forth individuals who could serve as leaders, and that special cadres of virgin priestesses were dedicated to this practice. Her book adds a unique perspective to our understanding of antiquity, and has significant implications for the study of Christianity and other religions in which divine birth claims are central. The book's stunning insights provide fascinating reading for those interested in female-inclusive approaches to ancient religion.

Wisdom, Consciousness, and the Future - Thomas Lombardo 2011-06-17

Wisdom, Consciousness, and the Future: Collected Essays Thomas Lombardo, Ph. D. Center for Future Consciousness Wisdom, Consciousness, and the Future is a profound, deeply important, and timely book that concerned people and change agents everywhere will want to read. Cophthorne Macdonald The Wisdom Page As a college professor and teacher of psychology, philosophy, and the future, Tom Lombardo's mind has been drawn toward such questions as: How will the human mind evolve in the future? In fact, how should the human mind evolve and improve itself? What might be the standards and ideals that guide this evolution? And what role does ethical development (or evolution) play in this process? The twenty previously published articles collected together in Wisdom, Consciousness, and the Future chronicle the development of Dr. Lombardo's ideas on these related questions and topics, and together constitute a theoretical perspective on the nature of the human mind, on how to best educate and evolve the human mind in the future, and how to integrate into this vision the central importance of both future consciousness (as a key dimension of human consciousness) and ethical character virtues. True to its title, three key themes emerge in this collection: wisdom, consciousness, and the future, and all three concepts tie into the authors main contribution to the field of futures studies, future consciousness. Numerous essays (for example, Evolving Future Consciousness through the Pursuit of Virtue and The Evolution and Psychology of Future Consciousness) address the nature of future consciousness, a term Dr. Lombardo defines as the complex set of mental capacities all humans possess for imagining, conceptualizing, and approaching the future. Aside from describing the psychological make-up of future consciousness, which includes emotional, motivational, cognitive, and personal dimensions, the author also explains in numerous essays (such as Developing Constructive and Creative Attitudes about the Future) how to proactively enhance ones future consciousness. Other essays deal directly with consciousness and the human mind in the broadest sense (as in The Future Evolution of the Ecology of Mind) and connect this general area of inquiry with the futurist question of how consciousness and mind might evolve in the future. Dr. Lombardo proposes that the progressive emergence of cosmic consciousness is the central evolutionary trajectory of the human mind. Hence, this book contains essays on both consciousness of the future and consciousness in the future. While the discussion of consciousness and the future fascinates in its own right, Dr. Lombardo is a holistic and deep thinker who searches for connections among myriad philosophical topics. A number of essays address the question of ethics and virtue and how such concepts connect with both future consciousness and the evolution of

consciousness in the future. He then expands on this theme to explore how virtue applies to the goals of higher education in essays such as Ethical Character Development and Personal and Academic Excellence. In thinking through the concept of virtue and how it applies to consciousness, education, and the future, Dr. Lombardo emphasizes the one key virtuwisdomthat provides the center of gravity around which all other character virtues revolve. Indeed, if any one concept unites the majority of essays in this collection, it is wisdom. In The Wisdom of Future Consciousness, the author argues that wisdom is the highest expression of future consciousness, and systematically describes the numerous connections between wisdom and heightened future consciousness. Further, according to the author, wisdom is the key ideal that we should model and teach within education, now and in the future. This argume

Sacred Pleasure - Riane Eisler 1995

At a time when issues of domestic violence, rape, incest and pornography have fostered ambivalent attitudes towards sexuality, this book tackles the sexual myths and misconceptions that have corrupted male/female relations over the centuries. This exploration of the shifting balance of power between men and women offers a new key to understanding the sexual politics that fashion our culture.

Dancing Identity - Sondra Horton Fraleigh 2004-10-31

Combining critical analysis with personal history and poetry, Dancing Identity presents a series of interconnected essays composed over a period of fifteen years. Taken as a whole, these meditative reflections on memory and on the ways we perceive and construct our lives represent Sondra Fraleigh's journey toward self-definition as informed by art, ritual, feminism, phenomenology, poetry, autobiography, and-always-dance. Fraleigh's brilliantly inventive fusions of philosophy and movement clarify often complex philosophical issues and apply them to dance history and aesthetics. She illustrates her discussions with photographs, dance descriptions, and stories from her own past in order to bridge dance with everyday movement. Seeking to recombine the fractured and bifurcated conceptions of the body and of the senses that dominate much Western discourse, she reveals how metaphysical concepts are embodied and presented in dance, both on stage and in therapeutic settings. Examining the role of movement in personal and political experiences, Fraleigh reflects on her major influences, including Moshe Feldenkrais, Kazuo Ohno, and Twyla Tharp. She draws on such varied sources as philosophers Simone de Beauvoir and Martin Heidegger, the German expressionist dancer Mary Wigman, Japanese Butoh founder Tatsumi Hijikata, Hitler, the Bomb, Miss America, Balanchine, and the goddess figure of ancient cultures. Dancing Identity offers new insights into modern life and its reconfigurations in postmodern dance.

A Centre of Wonders - Janet Moore Lindman 2018-05-31

Images of bodies and bodily practices abound in early America: from spirit possession, Fasting Days, and infanticide to running the gauntlet, going "naked as a sign," flogging, bundling, and scalping. All have implications for the study of gender, sexuality, masculinity, illness, the "body politic," spirituality, race, and slavery. The first book devoted solely to the history and theory of the body in early American cultural studies brings together authors representing diverse academic disciplines. Drawing on a wide range of archival sources—including itinerant ministers' journals, Revolutionary tracts and broadsides, advice manuals, and household inventories—they approach the theoretical analysis of the body in exciting new ways. A Centre of Wonders covers such varied topics as dance and movement among Native Americans; invading witch bodies in architecture and household spaces; rituals of baptism, conversion, and church discipline; eighteenth-century women's journaling; and the body as a rhetorical device in the language of diplomacy.

Looking for Mary Magdalene - Anna Fedele 2013

Anne Fedele provides a detailed ethnography of alternative pilgrimages to Catholic shrines in contemporary France that are dedicated to Saint Mary Magdalene or house black Madonna statues. Based on more than three years of fieldwork it describes the way in which pilgrims with a Christian background from Italy, Spain, Britain and the United States interpret Catholic figures, symbols and sites according to spiritual theories and practices derived from the transnational Neopagan movement.

Feminism with Men - Steven P. Schacht 2004

How can men participate in feminism as a full and equal partner, respecting gender differences yet sharing a common vision with women for an oppression-free future? This book provides both male and female perspectives, academic insights and practical suggestions for (pro)feminist men seeking new ways to increase mutual understanding and to create cooperative efforts with feminist women.

Science and Religious Anthropology - Dr Wesley J Wildman

2013-05-28

Science and Religious Anthropology explores the convergence of the

biological sciences, human sciences, and humanities around a spiritually evocative, naturalistic vision of human life. The disciplinary contributions are at different levels of complexity, from evolution of brains to existential longings, and from embodied sociality to ecosystem habitat. The resulting interpretation of the human condition supports some aspects of traditional theological thinking in the world's religious traditions while seriously challenging other aspects. Wesley Wildman draws out these implications for philosophical and religious anthropology and argues that the modern secular interpretation of humanity is most compatible with a religious form of naturalistic humanism. This book resists the reduction of meaning and value questions while taking scientific theories about human life with full seriousness. It argues for a religious interpretation of human beings as bodily creatures emerging within a natural environment that permits engagement with the valuational potentials of reality. This engagement promotes socially borne spiritual quests to realize and harmonize values in everything human beings do, from the forging of cultures to the crafting of personal convictions.
