

# Sex And Death A Reappraisal Of Human Mortality

*Dharma of the Dead* - Christopher M. Moreman 2018-06-29

With the increased popularity of zombies in recent years, scholars have considered why the undead have so captured the public imagination. This book argues that the zombie can be viewed as an object of meditation on death, a memento mori that makes the fact of mortality more approachable from what has been described as America's "death-denying culture." The existential crisis in zombie apocalyptic fiction brings to the fore the problem of humanity's search for meaning in an increasingly global and secular world. Zombies are analyzed in the context of Buddhist thought, in contrast with social and religious critiques from other works. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px 'Times New Roman'} span.s1 {color: #212121}

*Freud on the Couch* - Beverley Clack 2013-09-01

A major new, myth-busting introduction to one of the 20th century's greatest thinkers Sigmund Freud (1856-1939), founder of psychoanalysis, is one of the most famous thinkers of modern times. But despite (and perhaps because of) his notoriety, his work is frequently encumbered by mistranslations, clichés, and misconceptions. In this landmark assessment of the great theorist, Professor Beverley Clack reveals a more complex Freud than the one with whom we are commonly presented. Casting new light on a man often unfairly derided as obsessed with sex and rigid theory, Clack argues that he was as concerned with "the death drive" as the "sex drive" and that his fierce critique of religion masked a fascination with spiritual, existential, and philosophical questions. Revealing how the work of philosophers such as Schopenhauer and Nietzsche influenced Freud far more than he cared to admit, Clack explains his key ideas and case studies in the context of his eventful life. Including a detailed exploration of hysteria and its foundational role in his theories, this myth-busting introduction is a vital insight into why Freud's thought is still so relevant today.

**Liturgy and the Beauty of the Unknown** - David Torevell 2017-03-02  
Contemporary culture is rediscovering the importance of beauty for both social transformation and personal happiness. Theologians have sought, in their varied ways, to demonstrate how God's beauty is associated with notions of truth and goodness. This book breaks new ground by suggesting that liturgy is the means par excellence by which an experience of beauty is communicated. Drawing from both secular and religious understandings, in particular the mystical and apophatic tradition, the book demonstrates how liturgy has the potential to achieve the one ultimately reliable form of beauty because its embodied components are able to reflect the disturbing beauty of the One to whom worship is always offered. Such components rely on understanding the aesthetic dynamics upon which liturgy relies. This book draws from a broad range of disciplines concerned with understanding beauty and self-transformation and concludes that while secular utopian forms have much to contribute to ethical transformation, they ultimately fail since they lack the Christological and eschatological framework needed, which liturgy alone provides.

*Death in a Consumer Culture* - Susan Dobscha 2015-12-22

Death has never been more visible to consumers. From life insurance to burial plots to estate planning, we are constantly reminded of consumer choices to be made with our mortality in mind. Religious beliefs in the afterlife (or their absence) impact everyday consumption activities. *Death in a Consumer Culture* presents the broadest array of research on the topic of death and consumer behaviour across disciplinary boundaries. Organised into five sections covering: The Death Industry; Death Rituals; Death and Consumption; Death and the Body; and Alternate Endings, the book explores topics from celebrity death tourism, pet and online memorialization; family history research, to alternatives to traditional corpse disposal methods and patient-assisted suicide. Work from scholars in history, religious studies, sociology, psychology, anthropology, and cultural studies sits alongside research in marketing and consumer culture. From eastern and western perspectives, spanning social groups and demographic categories, all explore the ubiquity of death as a physical, emotional, cultural, social, and cosmological inevitability. Offering a richly unique anthology on this challenging topic, this book will be of interest to researchers working at the intersections of

consumer culture, marketing and mortality.

**Democratic Anxieties** - Mario Feit 2011-03-15

*Democratic Anxieties: Same-Sex Marriage, Death, and Citizenship* takes contemporary opposition to same-sex marriage as a starting point to consider anxieties about sex and death within conceptions of democratic citizenship. It pursues a less anxious democratic citizenship in creative readings of Jean-Jacques Rousseau, Hannah Arendt, and Friedrich Nietzsche, and demonstrates how developing an appreciation of mortality is essential to the continued pluralization of democracy.

**New Catholic Feminism** - Tina Beattie 2006

Having confronted the conflict between feminism and the Vatican and Pope Benedict XVI, Beattie proposes a new theological approach to the encounter between feminism and Catholicism, for the twenty-first century"--Jacket.

**A Theology of Love** - Werner G. Jeanrond 2010-01-21

This book explores the different dimensions of Christian love. It argues that all expressions of love are wrestling with the challenge of otherness.

**The New Catholic Feminism** - Tina Beattie 2004-06-01

It is hard to over-estimate the challenge that feminism poses to Roman Catholicism. Pope John Paul II's call for a 'new feminism' has led to the development of a Catholic theological response to the so-called 'old feminism'. The New Catholic Feminism sets up a dramatic encounter between the orthodox Catholic establishment and contemporary critical theory, including feminist theology and philosophy, queer theory, and French psycholinguistics, in order to explore fundamental questions about human identity, personhood and gender. From the naked bodies of Eden to the 'gay nuptials' of liturgy, it argues that the strange and volatile world of Catholic sexual symbolism cannot be 'tamed' to meet the ideological agendas of either feminist theology or conservative Catholicism. Only through a radical re-evaluation of the sacramental significance of the sexed human body might the Catholic Church provide a redemptive response to the sexual politics of contemporary society.

**Sex and Death** - Beverley Clack 2002-11-01

For centuries people have debated the nature of the human self. Running beneath these various arguments lie three certainties - we are born, reproduce sexually, and die. The models of spirituality which dominate the Western tradition have claimed that it is possible to transcend these aspects of human physicality by ascribing to human beings alternative traits, such as consciousness, mind and reason. By locating the essence of human life outside its basic physical features, mortality itself has come to be viewed as a problem, for it appears to render human life both meaningless and absurd. Complex connections have then been made between the key features of life: sex is linked with death, and birth becomes the event that introduces the child to the world of decay - and ultimately to death itself. This fascinating book exposes the way in which the preoccupation with transcendence in both religious and secular thinking has distorted our sense of what it is to be human. At the same time, *Sex and Death* offers an alternative approach to the debate, based on an acceptance of mortality that emphasizes the depth and profundity possible in human life. It is an argument which will be essential reading for students of philosophy or religion, as well as the general reader interested in these debates.

**Animism** - Graham Harvey 2005-10-26

How have human cultures engaged with and thought about animals, plants, rocks, clouds, and other elements in their natural surroundings? Do animals and other natural objects have a spirit or soul? What is their relationship to humans? In this new study, Graham Harvey explores current and past animistic beliefs and practices of Native Americans, Maori, Aboriginal Australians, and eco-pagans. He considers the varieties of animism found in these cultures as well as their shared desire to live respectfully within larger natural communities. Drawing on his extensive casework, Harvey also considers the linguistic, performative, ecological, and activist implications of these different animisms.

**Philosophy of Religion** - Beverley Clack 2014-03-10

The first publication of Beverley Clack and Brian R. Clack's exciting and innovative introduction to the philosophy of religion has been of enormous value to students, as well as providing a bold and refreshing alternative to the standard analytic approaches to the subject. This second edition retains the accessibility which made it popular for both

teachers and students, while furthering its distinctive argument that emphasises the human dimension of religion. The text has been fully revised and updated. The traditional emphasis on the arguments for the existence of God is reflected in a newly extended and reworked investigation into natural theology. Recent developments in the subject are also reflected in updated chapters, and, in a move that highlights the originality of the authors' approach, they offer a critical engagement with current world events. An entirely new concluding chapter interrogates the connection between religion and terror, and demonstrates how philosophy of religion might be conducted under the terrible shadow of 9/11. This new edition of *The Philosophy of Religion* will continue to be essential reading for all students and practitioners of the subject.

*Facing a Pandemic* - Elias Kifon Bongmba 2007

The central argument is that the theological motif of the image of God invites a prophetic critique of the social environment in which HIV/AIDS thrives and calls for a praxis of love and compassion.

*Gender Issues in Ancient and Reformation Translations of Genesis 1-4* - Helen Kraus 2011-10-20

Revision of author's thesis (Ph. D.)--University of Oxford, 2007.

*Post-Christian Feminisms* - Lisa Isherwood 2016-04-08

This book explores the impact and contribution of post-theories in the field of Christian feminist theology. Post-theory is an important and cutting-edge discursive field which has revolutionized the production of knowledge in both feminism and theology. This book fills a gap by providing a text that can make authoritative statements on the use and status of post-theory in feminist theology, and secondly it makes an on-going contribution to the discourse of Christian feminist theology and its liberation agenda. Distinguished and established scholars contribute conclusive essays on the most recent and exciting developments in post-theory, feminism and theology.

**How to be a Failure and Still Live Well** - Beverley Clack 2020-01-23  
 In consumer economies, success has increasingly been defined in terms of material attainment and the achievement of status. This model of 'the

good life' and its formulas for success ignore the haunting possibility that one may not succeed and as a result be deemed 'a failure'. *How to be a Failure and Still Live Well* explores that often neglected theme of failure, not just as the opposite of achievement, but also, and more importantly, how it has been conflated with loss: that which haunts all transient, mortal human experience. Understanding loss as a form of failure affects our ability to cope with the everyday losses that permeate existence as a result of the natural processes of ageing, death, and decay. Engaging with loss and thinking about what it inevitability means for our lives and commitments, allows different values to emerge than those connected to success as attainment. Relationships, spontaneity, and generosity are explored as qualities that arise from taking seriously our vulnerability and that form the basis for richer accounts of what it might mean to 'live well'.

*Passionate Embrace* - Elisabeth Gerle 2018-01-01

Protestant ethics has often been associated with work and duty, excluding sensuality, sexuality and other pleasures. In an age of body worship as well as body loathing, Elisabeth Gerle explores new paths, embarking on a conversation with Martin Luther in dialogue with contemporary theologians on attitudes towards desire, ethics and politics. She draws on Eros theology to challenge traditional Lutheran stereotypes, such as the dichotomies between different forms of love, as well as between spirit and body. Gerle argues that Luther's spiritual breakthrough, where grace and gifts of creation became central, provides new meaning to sex and desire as well as to work, body and ordinary life. Women are seen in a new light - as companions, autonomous ethical agents, part of the priesthood of all. This had revolutionary consequences in Europe at the time, and it represents a challenge to contemporary theologies with a nostalgic appetite for austerity, asceticism and female submission. Luther's erotic and genderfluid language is a healthy challenge to oppressive political structures centred on greed, profit and competition. A revised Scandinavian creation theology and a deep sense of the incarnational mystery are resources for contemporary theology and ethics.

**International Bibliography of Sociology** - British Library of Political and Economic Science 2003

IBSS is the essential tool for librarians, university departments, research institutions and any public or private institution whose work requires access to up-to-date and comprehensive knowledge of the social sciences.

*The Philosophy of Religion* - Beverley Clack 2019-05-06

For over twenty years, Beverley Clack and Brian R. Clack's distinctive and thought-provoking introduction to the philosophy of religion has been of enormous value to students and scholars, providing an approach to the subject that is bold and refreshingly alternative. This revised and updated edition retains the accessibility which makes the book popular, while furthering its distinctive argument regarding the human dimension of religion. The central emphasis of the philosophy of religion - the concept of God, and the arguments for and against God's existence - is reflected in thorough analyses, while alternative approaches to traditional philosophical theism are explored. The treatments of both the miraculous and immortality have been revised and expanded, and the concluding chapter updates the investigation of how philosophy of religion might be conducted in an age defined by religious terrorism. Clear, systematic and highly critical, the third edition of *The Philosophy of Religion* will continue to be essential reading for students and scholars of this fascinating and important subject.
