**Stigma** - Jason Tune 2011-06-01

Description Synonymously Jason has activated a dissent into the reduction of stigma regarding mental illness. His first book 'Sex, Drugs and Northern Soul' outlined his own recovery from his own demons and experiences as a 'service user' in the 1980's. Jason's second book 'Stigma worse than the illness', is an uplifting if not empowering story into the reduction of stigma into mental illness. No one is exempt from mental ill health vulnerabilities or immune to its susceptibilities. However Jason has become an advocate into ensuring the recovery model is perpetuated nationally, if not internationally to its maximum extent by his biography, presentation and networking. About the Author In Rotherham, Yorkshire, 45 years ago my son, Jason Tune, a healthy 10 lb baby was born. It was a normal birth without complications. I watched him grow from a happy boy into a bright teenager. As he was approaching his 16th birthday, his behaviour started to change dramatically and he became restless and withdrawn. After seeking medical advice, I was told he was suffering a mental breakdown. He spent quite a long time in an out of hospital. Despite all the trauma and stigma he encountered he never once gave up fighting to regain his identity. Through his self belief and determination he is now able to lead a normal meaningful life. So much so, that he is now employed by a NHS Mental Health Trust helping a 'new generation' with a similar disposition. Patrick Tune

**Life After Dark** - Dave Haslam 2015-08-13

Nightclubs and music venues are often the source of a lifetime's music taste, best friends and vivid memories. They can define a town, a city or a generation, and breed scenes and bands that change music history. In Life After Dark Dave Haslam reveals and celebrates a definitive history of significant venues and great nights out. Writing with passion and authority, he takes us from vice-ridden Victorian dance halls to acid house and beyond; through the jazz decades of luxurious ballrooms to mods in basement dives and the venues that nurtured the Beatles, the Stones, Northern Soul and the Sex Pistols; from psychedelic light shows to high street discos; from the Roxy to the Hacienda; from the Krays to the Slits; and from reggae sound systems to rave nights in Stoke. In a journey to dozens of towns and cities, taking in hundreds of unforgettable stories on the way, Haslam explores the sleaziness, the changing fashions, the moral panics and the cultural and commercial history of nightlife. He interviews clubbers and venue owners, as well as DJs and musicians; he meets one of the gangsters who nearly destroyed Manchester's nightlife and discusses Goth clubs in Leeds with David Peace.

**Cider with Roadies** - Stuart Maconie 2004-02

*Cider With Roadies* - Stuart Maconie 2014-09-30

Cider with Roadies is the true story of a boy's obsessive relationship with pop. A life lived through music from Stuart's audience with the Beatles (aged 3); his confessions as a pubescent prog rocker; a youthful gymnastic dalliance with northern soul; the radical effects of punk on his politics, homework and trouser dimensions; playing in crap bands and failing to impress girls; writing for the NME by accident; living the sex, drugs (chiefly lager in a plastic glass) and rock and roll lifestyle; discovering the tawdry truth behind the glamour and knowing when to ditch it all for what really matters. From Stuart's four minutes in a leisure centre with MC Hammer to four days in a small van with Napalm Death it's a life-affirming journey through the land where ordinary life and pop come together to make music.

*Mischief, Morality and Mobs* - Dick Hobbs 2016-08-05

Geoffrey Pearson, who died in 2013, was one of the outstanding social scientists of the post second world war era. His work spanned social work, social theory, social history, criminology and sociology. In particular, his work has had a huge impact upon studies of youth, youth culture and drugs. This collection is made up of contributions from scholars producing empirical work on some of the key areas upon which Geoff Pearson established his reputation. All of the writers in this collection have been profoundly influenced by his scholarship. This collection focuses on urban ethnography, race and ethnicity, youth, and drugs. It includes chapters on: women working in male boxing gyms; understanding the English Defence League; Black male adults as an ignored societal group; drug markets and ethnography; and sex, drugs and kids in care. The result is a cutting edge collection that takes readers into social worlds that are difficult to access, complex, yet utterly normal. Overall this is an exciting and fittingly challenging tribute to one of the UKs most important scholars. This volume will appeal to scholars and students of criminology, sociology, social history and research methodology - in particular ethnography.

*The People's Songs* - Stuart Maconie 2013-06-06

These are the songs that we have listened to, laughed to, loved to and laboured to, as well as downed tools and danced to. Covering the last seven decades, Stuart Maconie looks at the songs that have sound tracked our changing times, and - just sometimes - changed the way we feel. Beginning with Vera Lynn's 'We'll Meet Again', a song that reassured a nation parted from their loved ones by the turmoil of war, and culminating with the manic energy of 'Bonkers', Dizzee Rascal's anthem for the push and rush of the 21st century inner city, The People's Songs takes a tour of our island's pop music, and asks what it means to us. This is not a rock critique about the 50 greatest tracks ever recorded. Rather, it is a celebration of songs that tell us something about a changing Britain during the dramatic and kaleidoscopic period from the Second World War to the present day. Here are songs about work, war, class, leisure, race, family, drugs, sex, patriotism and more, recorded in times of prosperity or poverty. This is the music that inspired haircuts and dance crazes, but also protest and social change. The companion to Stuart Maconie's landmark Radio 2 series, The People's Songs shows us the power of 'cheap' pop music, one of Britain's greatest exports.

These are the songs we worked to and partied to, and grown up and grown old to - from 'A Whiter Shade of Pale' to 'Rehab', 'She Loves You' to 'Star Man', 'Dedicated Follower of Fashion' to 'Radio Ga Ga'.

**Ageing and Youth Cultures** - Paul Hodkinson 2013-08-01

What happens to punks, clubbers, goths, riot grrls, soulies, break-dancers and queer scene participants as they become older? For decades, research on spectacular 'youth cultures' has understood such groups as adolescent phenomena and assumed that involvement ceases with the onset of adulthood. In an age of increasingly complex life trajectories, *Ageing and Youth Cultures* is the first anthology to challenge such thinking by examining the lives of those who continue to participate into adulthood and middle-age.

Showcasing a range of original research case studies from across the globe, the chapters explore how participants reconcile their continuing involvement with ageing bodies, older identities and adult responsibilities. Breaking new ground and establishing a new field of study, the book will be essential reading for students and scholars researching or studying questions of youth, fashion, popular music and identity across a wide range of disciplines.

*Recovery / Discovery* - Jason Tune 2014-10-09

My autobiography 'Sex, Drugs and Northern Soul' was about the journey of my life from my childhood up until approximately 40 years of age. My Sequel 'Stigma Worse than Psychosis' highlighted the stigma of having a label that I endured throughout my mental ill health history. This book is about mental health recovery and having a positive response to some of these issues. I believe that we are all in some kind of recovery albeit from a debt, a divorce, bereavement etc... and some people may even say from life itself. I am not going to compare my experiences of recovery with anyone else's recovery, nor is what I am going to illustrate applicable to everybody. My main objective is that I will inspire hope to others that may or may not be similarly afflicted with mental health issues and belief for their carers and loved ones. This is based on personal experience throughout my life up to date.

*Northern Soul* - Elaine Constantine 2013-09-06

The story of Northern Soul is one of practically total immersion, dedication and devotion, where the plain concept of the 'night out' was elevated to sacramental dimensions. Where devotees pushed their bodies, their finances and sometimes their minds to brutal and unforgiving extremes. For those who went through that involvement every test of faith or endurance was worth bearing. - From *Northern Soul: An Illustrated History*. 'It was a drugs scene, it was a clothes scene. It was about dancing. It came out of this thing. It was about pills that made you go fast. To go fast to make the scene happen.' - Chris Brick In the late 1960s, a form of dance music took a feverish hold on the UK, finding its heart in the north of England. The music of 1960s-70s black American soul singers combined with distinctive dance styles and plenty of amphetamines to create what became known as Northern Soul - a scene based around all night, alcohol-free club nights, arranged by the fans themselves - setting the blueprint for future club culture. Northern Soul tapped into a yearning for individual expression in northern teenagers, and exploded into a cultural phenomenon that influenced a generation of DJs, songwriters and designers for decades to come. Acclaimed photographer and director Elaine Constantine has brought the movement to life in her film *Northern Soul* - and that film was the starting point for this book, *Northern Soul: An Illustrated History*. However, what started out as a project largely comprising of Constantine's stunning on-set photography, featuring her young, talented cast and highly authentic production, has turned into a unique illustrated history of Northern Soul. In its final form, the beautiful new photography holds the book together thematically, but its real depth lies in the material from the 1960s, 1970s and 1980s that Elaine and Gareth have researched and pulled together. Of course, no book can claim to represent everything about a culture. But *Northern Soul: An Illustrated History* concentrates on individuals' personal stories from that heady era, as well as being crammed full of truly atmospheric contemporaneous photography - not from press photographers, but from the kids themselves. Be it snaps of soul fans in car parks, hitching a lift or mucking around in photo booths, the combination of real people plus real (and often very dramatic) stories - not to mention the complete absence of label scans and DJ's top tens - means that the book stands out as a very different proposition from anything yet published on Northern Soul. We would like to think that above all, this book attempts to

give you a feel for what it was really like to be there at the time.

**Dance, Drugs and Escape** - Stan Beeler 2007-05-22

In the late 1980s the rave phenomenon swept the youth culture of the United Kingdom, incorporating the generations' two newest social stimulants: modern electronic dance music and a notorious designer drug known as Ecstasy. Although the movement began in rebellion against mainstream culture, its underground dynamism soon attracted the interest of novelists, screenwriters, and filmmakers who attempted to reflect the phenomenon in their works. Through artistic and commercial popularization, the once obscure subculture was transformed into a pop-culture behemoth with powerful links to the entertainment industry. This study deals with the transformative effects of film, television and literature on club culture. Chapters furthermore reflect club culture's own effect on crime, ethnicity, sexuality and drug use. As the study traces artistic depictions of club culture's development, each chapter focuses on individual books, films and television shows that reflect the transformation of the club culture into what it is today.

**Sex, Drugs and Northern Soul** - J. Tune 2007-01-01

"The Story of Jason Tune" By Raymond Brown & Jason Tune ISBN: 9781847470836 Published: 2007 Pages: 339 Key Themes: drug abuse, recovery, depression Description This book 'Sex, Drugs and Northern Soul' is a testimony to Jason Tune and his determination to overcome the demons that threaten, on many occasions, to overwhelm him. This is a strong and positive book which should inspire all the read it to grab life by the horns About the Author Jason Tune Jason Tune was born in Rotherham, Yorkshire, in 1964. At 14 years of age he became a 'social outcast' finding himself part of the Rotherham drug scene. Whether this had any bearing on his mental well-being is open to debate but one would imagine, at the very least, it is partly responsible. But once he recognised his problems, it is to his own credit and his strength of character that he fought the demons that were about to destroy his life. Jason is now inspirational in his work helping other service users in Yorkshire in his day job. Raymond Brown I first met Jason through an ex-student of mine whilst bench pressing more weight than was good for my age. Out of the friendship that was formed came the idea to write the story of Jason's journey through life. Book Extract "In order to join the Army cadets a new entrant had to be one year older than I was at the time. So I backed dated my date of birth to make sure that I was old enough to join. After six weeks of extensive drilling I eventually earned my uniform. We were known as the Kimberworth Hallamshire Cadets attached to the Sheffield area command. I attended twice per week and put a lot of effort into it. It helped having some handy boys in the cadets and it certainly was not for the faint hearted. There were plenty of rewards like days out to known attractions such as Flamingo Park, North Yorkshire. The main memories I have of these times were the silly songs that we sang in the back of the Bedford military Lorries. Not so much football chants but songs of love conquests and oversized genitalia. The main source of money for the boys around town was what was known as the 'weigh in' or mullucking. Either way, it meant collecting non-ferrous scrap and taking it to a scrap merchant for a few readies (pound notes). This was supposed to be scrap metal but it never mattered if it was attached to something. Most of the scrap metal came from old houses in the Masborough area. Sometimes it came from things that were removed from their original resting places. This was my first introduction to the trade of dismantling. I would take anything apart to obtain the scrap. Dishonest? Probably. But I was making money and that was all that mattered.

**Northern Soul** - Andrew Wilson 2007

Examines how cultural patterns and normative standards are established through individual practices and group interaction. This book shows how early life influences have an impact on shaping social identity, attachment to the subculture, and involvement in crime. It concludes with a summary of its implications for the sociology of adolescence.

**Nowhere** - Francis Tiain-Steel 2015-01-28

Leeds, a place where all kinds of things happen...university, clubs, work, parties, drugs, sex, music, religion, fundamentalism, mentalism, sometimes both. This is a short piece that eventually was the prototype for Francis Tiain-Steel's novel Northern Soul and first novella collection Three Novellas. A lot of people have asked just for the novella so here it is. Special notes come on the back from various writers and comedic poets and performers.
