Popular Culture and the Future of Politics Ted Gornelos 2009-09-30 Popular Culture and the Future of Politics: Cultural Studies and the Tao of South Park argues that progressives should conceive the connections between media, policy, and culture beyond the limits of 'politics' and 'news.' With sustained analyses of groundbreaking contemporary examples of what has become known as 'convergence culture,' Ted Gornelos brings

together a wide range of media without sacrificing depth. His examples, such as South Park, The Simpsons, The Onion, The Daily Show, Chappelle's Show, and The Boondocks, are chosen for their political scope and social impact and demonstrate the ways in which what we know as 'politics' is rapidly changing. The book's forays into established fields like feminist, race, and queer theory are combined with perspectives drawn from political economy and rhetoric to demonstrate the power of irony, humor, and cultural dissonance in modern approaches to dissonant cultural politics.

Television Variety Shows David M. Inman 2014-12-03 For the few hundred television viewers in 1946, a special treat on the broadcast schedule was the variety show called Hour Glass. It was the first TV program to go beyond talking heads, cooking demonstrations, and sporting events, featuring instead dancers, comics, singers, and long commercials for its sponsor, Chase and Sanborn coffee. Within two years, another variety show, Texaco Star Theatre, became the first true television hit and would be credited with the sales of thousands of television sets. The variety show formula was a staple of television in its first 30 years, in part because it lent itself to a medium where everything had to be live and preferably inside a studio. Most of the early television stars—including Jackie Gleason, Milton Berle, Sid Caesar, Ed Sullivan, Red Skelton, Dinah Shore, and Arthur Godfrey—rose to

prominence through weekly variety shows. In the 1960s, major stars such as Jerry Lewis, Dean Martin, Judy Garland and Danny Kaye were hosting variety shows. By the 1970s, the format was giving way to sitcoms and dramas, but pop music stars Sonny and Cher, Tony Orlando and Dawn, and Donny and Marie Osmond hosted some of the last of the species. This book details 57 variety shows from the 1940s through the 1990s. A history of each show is first provided, followed by a brief look at each episode. Air date, guest stars, sketches performed, and a listing of songs featured are included.

breaking debut, *The Roommate*. Love isn't a perfect science . . . Naomi Grant has built a life around going against the grain. When the sex-positive start-up she co-founded becomes an international sensation, her responsibilities shift from the bedroom to the boardroom. Ready to conquer new worlds, Naomi wants to extend her platform to live lecturing, but higher education won't hire her. Ethan Cohen has recently received two honours: LA Mag named him one of the city's hottest bachelors and he became rabbi of his own synagogue. Unfortunately, his shul is low on both funds and congregants so the board gives him three months to turn things around or they'll close the doors for good. Together, Naomi and Ethan host a buzzy seminar series on Modern Intimacy, the perfect solution to their problems - until they discover a new one - their growing attraction to each other. They've built the syllabus for love's latest experiment, but neither of them expected they'd be the ones putting it to the test . . .
