Homage to Catalonia - George Orwell

2023-11-27

Homage to Catalonia is George Orwell's personal account of his experiences and observations fighting for the POUM militia of the Republican army during the Spanish Civil War. The war was one of the defining events of his political outlook and a significant part of what led him to write in 1946, "Every line of serious work that I have written since 1936 has been written, directly or indirectly, against totalitarianism and for Democratic Socialism, as I understand it." The first edition was published in the United Kingdom in 1938. The book was not published in the United States until February 1952, when it appeared with an influential preface by Lionel Trilling. The only translation published in Orwell's lifetime was into Italian, in December 1948. A French translation by Yvonne Davet-with whom Orwell corresponded, commenting on her translation and providing explanatory notes-in 1938-39, was not published until five years after Orwell's death. Book Summary: Orwell served as a private, a corporal (cabo) and-when the informal command structure of the militia gave way to a conventional hierarchy in May 1937-as a lieutenant, on a provisional basis, in Catalonia and Aragon from December 1936 until June 1937. In June 1937, the leftist political party with whose militia he served (the POUM, the Workers' Party of Marxist Unification, an anti-Stalinist communist party) was declared an illegal organisation, and Orwell was consequently forced to flee. Having arrived in Barcelona on 26 December 1936, Orwell told John McNair, the Independent Labour Party's (ILP) representative there, that he had "come to Spain to join the militia to fight against Fascism." He also told McNair that "he would like to write about the situation and endeavour to stir working class opinion in Britain and France." McNair took him to the POUM barracks, where Orwell immediately enlisted. "Orwell did not know that two months before he

arrived in Spain, the [Soviet law enforcement agency] NKVD's resident in Spain, Aleksandr Orlov, had assured NKVD Headquarters, 'the Trotskyist organisation POUM can easily be liquidated'-by those, the Communists, whom Orwell took to be allies in the fight against Franco."

The Rough Guide to Rock - Peter Buckley 2003

Compiles career biographies of over 1,200 artists and rock music reviews written by fans covering every phase of rock from R & B through punk and rap.

World Report 2018 - Human Rights Watch 2018-01-30

The human rights records of more than ninety countries and territories are put into perspective in Human Rights Watch's signature yearly report. Reflecting extensive investigative work undertaken in 2016 by Human Rights Watch staff, in close partnership with domestic human rights activists, the annual World Report is an invaluable resource for journalists, diplomats, and citizens, and is a must-read for anyone interested in the fight to protect human rights in every corner of the globe.

After The Attack - Deb Baron 2019-10-07

What would happen if overnight we found ourselves stripped of every comfort, any given perk, any and all technological advance of the 21st century? "After The Attack" takes the reader on a journey into the not too distant future. The world has gone to war, a mix of radiation outfall and biochemical weapons have wracked havoc. Stories play out in different parts of the world while strangers meet by chance, drawn by their differences, united by their will to survive. The post-war dangers the survivors have to face are just as real as the imminent threat coming from the mastermind behind the universal chaos. And in the midst of that chaos, four women not only fight to survive but find themselves battling the force they have tried to avoid all of their lives: love.

Delinquents and Debutantes - Sherrie A. Inness

1998-08

The first volume to examine young girls' culture in the U.S. in the 20th century. Essays address such topics as board games and the socialization of adolescent girls, dolls and political ideologies, female juvenile delinquency, and more, to demonstrate how cultural discourses shape both the young and teenage girl in America. 9 illustrations.

Preparing for the Psychological Consequences of Terrorism - Institute of Medicine 2003-08-26

The Oklahoma City bombing, intentional crashing of airliners on September 11, 2001, and anthrax attacks in the fall of 2001 have made Americans acutely aware of the impacts of terrorism. These events and continued threats of terrorism have raised questions about the impact on the psychological health of the nation and how well the public health infrastructure is able to meet the psychological needs that will likely result. *Preparing for the Psychological Consequences of Terrorism* highlights some of the critical issues in responding to the psychological needs that result from terrorism and provides possible options for intervention. The committee offers an example for a public health strategy that may serve as a base from which plans to prevent and respond to the psychological consequences of a variety of terrorism events can be formulated. The report includes recommendations for the training and education of service providers, ensuring appropriate guidelines for the protection of service providers, and developing public health surveillance for preevent, event, and postevent factors related to psychological consequences.

Demon Camp - Jennifer Percy 2014-01-14

A "chilling" (O, The Oprah Magazine), "darkly brilliant" (Bookforum) account of "the effects of war on the psyches of the soldiers who fight" (Esquire). In 2005 a Chinook helicopter carrying sixteen Special Ops soldiers crashed during a rescue mission in Afghanistan, killing everyone on board. In that instant, machine gunner Caleb Daniels lost his best friend, Kip, and seven members of his unit. Back in the US, Caleb begins to see them everywhere—dead Kip, with his Alice in Wonderland tattoos, and the rest of them, their burned bodies always watching him. But there is something else haunting Caleb, too—a presence he calls the Black Thing, or the

Destroyer, a paralyzing horror that Caleb comes to believe is a demon. Alone with these apparitions, Caleb considers killing himself. There is an epidemic of suicide among veterans of Iraq and Afghanistan, men and women with post-traumatic stress disorder who cannot cope with ordinary life in the aftermath of explosions and carnage. Author Jen Percy finds herself drawn to their stories. Her main subject, Caleb, has been bringing damaged veterans to a Christian exorcism camp in Georgia that promises them deliverance from the war. As Percy spends time with these soldiers and exorcists—finding their beliefs both repellant and magnetic—she enters a world of fanaticism that is alternately terrifying and welcoming. With "beautiful, lucid" (Los Angeles Times) lyricism, *Demon Camp* is the riveting true story of a veteran with PTSD and an exploration of the battles soldiers face after the war is over. As *The New York Times Book Review* said, "Percy's narrative may confirm clichés about war's costs, but it artfully upsets a common misconception that all veterans' experiences are alike."

Hiroshima - John Hersey 2019-06-05

Pulitzer Prize-winning journalist and bestselling author John Hersey's seminal work of narrative nonfiction which has defined the way we think about nuclear warfare. "One of the great classics of the war" (The New Republic) that tells what happened in Hiroshima during World War II through the memories of the survivors of the first atomic bomb ever dropped on a city. "The perspective [Hiroshima] offers from the bomb's actual victims is the mandatory counterpart to any Oppenheimer viewing." —GQ Magazine "Nothing can be said about this book that can equal what the book has to say. It speaks for itself, and in an unforgettable way, for humanity." —The New York Times *Hiroshima* is the story of six human beings who lived through the greatest single manmade disaster in history. John Hersey tells what these six -- a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest -- were doing at 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city. Then he follows the course of their lives hour by hour, day by day. *The New Yorker* of August 31, 1946, devoted all its space to this story. The

immediate repercussions were vast: newspapers here and abroad reprinted it; during evening half-hours it was read over the network of the American Broadcasting Company; leading editorials were devoted to it in uncounted newspapers. Almost four decades after the original publication of this celebrated book John Hersey went back to Hiroshima in search of the people whose stories he had told. His account of what he discovered about them -- the variety of ways in which they responded to the past and went on with their lives -- is now the eloquent and moving final chapter of Hiroshima.

World Report 2019 - Human Rights Watch
2019-02-05

The best country-by-country assessment of human rights. The human rights records of more than ninety countries and territories are put into perspective in Human Rights Watch's signature yearly report. Reflecting extensive investigative work undertaken by Human Rights Watch staff, in close partnership with domestic human rights activists, the annual World Report is an invaluable resource for journalists, diplomats, and citizens, and is a must-read for anyone interested in the fight to protect human rights in every corner of the globe.

Guidance for the Rational Use of Antimicrobials - Karin De Lange 2016

In Green Sleep - Jerry Ackerman 2011-04-04

It is the late 1960s. Cold war tensions and the Vietnam conflict dominate the media. John Bluderin, a drafted, dejected nineteen-year-old army specialist, has been assigned to military intelligence in Germany. Fluent in German and absorbed into the social fabric of Schwäbisch Gmünd, no one would ever suspect him of doing anything out of the ordinary. Specialist Bluderin is about to prove everyone wrong. As John begins his first assignment, he meets Leda Beschwörung, a petite, dedicated agent able to jump twenty yards at a clip and infiltrate the enemy seamlessly. Leda, a practitioner of Gestalt psychology, makes Bluderin feel worthy again and becomes the catalyst in his coming-of-age journey, changing his life forever. Under Leda's diligent mentoring, Bluderin's perception of human nature sharpens. He soon encounters

Günter Mann, a clairvoyant shepherd whose advice leads him to a Norwegian goddess. Solveig Evensen introduces him to a new world of emotional, intellectual, and erotic passion where both learn to transcend their past barriers. But it is Bluderin's final assignment that places his life on the edge of death. In *Green Sleep* is a compelling tale of one man's philosophical voyage to seek and understand the truth in a world riddled with deception.

Deadly Strain - Julie Rowe 2015-06-15

Book one of Biological Response Team Major Grace Samuels, a trauma surgeon deployed to Afghanistan, spends her life helping her fellow soldiers overcome disease and combat injuries. But her own wounds are harder to heal. Wracked with guilt over the death of a fellow soldier, she finds comfort in her only friend and appointed bodyguard, weapons sergeant Jacob "Sharp" Foster. Sharp feels more for Grace than a soldier should, more than he wants to admit. When the team discovers a new, quick-to-kill strain of anthrax, he tries to focus on the mission to find its source. He knows he can help Grace defeat her demons, but first they must defeat the deadly outbreak. Sharp is Grace's most loyal ally, but in close quarters, he starts to feel like more. She can't watch someone else she cares about die—but she might not have a choice. The closer they get to finding the source of the strain, the closer it gets to finding them. 79,830 words

Cumulated Index Medicus - 1997

Against Nature - Joris-Karl Huysmans
2013-03-25

Against Nature by Joris-Karl Huysmans is a novel in which very little happens; its narrative concentrates almost entirely on its principal character, and is mostly a catalogue of the tastes and inner life of Jean Des Esseintes, an eccentric, reclusive aesthete and antihero, who loathes 19th century bourgeois society and tries to retreat into an ideal artistic world of his own creation. *Against Nature* contains many themes which became associated with the Symbolist aesthetic. In doing so, it broke from naturalism and became the ultimate example of decadent literature. Jean Des Esseintes is the last member of a powerful and once proud noble family. He has lived an extremely decadent life in Paris

which has left him disgusted with human society. Without telling anyone, he absconds to a house in the countryside. He fills the house with his eclectic art collection and decides to spend the rest of his life in intellectual and aesthetic contemplation. Throughout his intellectual experiments, he recalls various debauched events and love affairs of his past in Paris.

Crimes Committed by Terrorist Groups - Mark S. Hamm 2011-01

This is a print on demand edition of a hard to find publication. Examines terrorists' involvement in a variety of crimes ranging from motor vehicle violations, immigration fraud, and mfg. illegal firearms to counterfeiting, armed bank robbery, and smuggling weapons of mass destruction. There are 3 parts: (1) Compares the criminality of internat. jihad groups with domestic right-wing groups. (2) Six case studies of crimes includes trial transcripts, official reports, previous scholarship, and interviews with law enforce. officials and former terrorists are used to explore skills that made crimes possible; or events and lack of skill that the prevented crimes. Includes brief bio. of the terrorists along with descriptions of their org., strategies, and plots. (3) Analysis of the themes in closing arguments of the transcripts in Part 2. Illus.

Strengthening Forensic Science in the United States - National Research Council 2009-07-29

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.
