A Lime and a Shaker - Tad Carducci 2015-04-21

A delicious collection of vibrant mezcal- and tequila-based recipes from renowned drinks experts The Tippling Bros. With over fifty years of combined experience in the beverage industry, the authors of this book have put together 72 exciting recipes that go way beyond the classic margarita to celebrate Mexico's cocktail culture. Included are traditional, craft, and spicy drinks such as the Blood-Orange-Cinnamon Margarita, San Fresa Frizz, and Smokey Pablo. The authors also cover the history of tequila, explain the difference between different tequilas, and offer bonus recipes for aguas frescas, syrups, salts, and some of their favorite Mexican dishes. With color photos

throughout, this is the must-have book on the subject, perfect for home cooks, bartenders, and those who just want to know more about tequila and mezcal. "A Lime and a Shaker showcases the full spectrum of flavors you can achieve when mixing with agave spirits." —Jim Meehan, author of *The PDT Cocktail Book*

Household Archaeology in Ancient Israel and Beyond -

Assaf Yasur-Landau 2013-02-06

In this volume, the theoretical and methodological approaches of household archaeology are applied to the rich data set of Bronze and Iron Age Israel, providing an innovative construct for interpreting material culture and inciting new avenues for future research.

Studies of Supply and Demand in Higher Education - Charles

T. Clotfelter 2008-04-15

In the United States today, there are some 3,400 separately governed colleges and universities, amounting to a higher education industry with expenditures that constitute 2.8% of the gross national product. Yet, the economic issues affecting this industry have been paid relatively little attention. In this collection of eight essays, experts in economics and education bring economic analysis to bear on such underexamined topics as the nature of competition in higher education, higher education's use of resources, and who chooses to purchase what kind of education and why. In higher education, supply refers to such issues as government support for public colleges and universities, the means by which graduate programs allocate financial support to students, and the criteria that universities use for investing

endowments. Demand pertains to patterns of student enrollment and to the government, business, and individual market for the service and research activities of higher education. Why are tuitions nearly the same among schools despite differences in prestige? How are institutions with small endowments able to compete successfully with institutions that have huge endowments? How are race and ethnicity reflected in enrollment trends? Where do the best students go? What choices among colleges do young people from low-income backgrounds face? This volume addresses these questions and suggests subjects for further study of the economics of higher education.

A Novel of London - Milos Crnjanski 2020-04-14

Here at long last in English, almost five decades after the publication of the original, is the classic of European modernism that established Serbian writer Milos Crnjanski as one of the great voices of the 20th century. The novel

One Blue Tarp - Travis Baker 2015-06-17

One Blue Tarp is a two-act, eight character comedy about a man, his tarp and the town that tries to take it away from him. David Stillman, a retired Mainer, has just replaced the old, worn out tarp that covers a heap of odds, ends and whatnots out in his yard with a brand new one. It ought to last

ten more years but then he finds out from his neighbor that the town of Clara has recently outlawed blue tarps out in folks yards in an effort to spruce things up a bit and attract more tourists. Not one who likes to be told what to do with his own junk, David vows to fight the new ordinance and the rich woman from away, Gail Pritchard, behind it. Undeterred by the pleas of his wife, Joan, David enlists his grandson, Buddy, to help defend the tarp vowing that they can have it when they "pry it out from under my cold, dead, butt. Meantime, his daughter Judy, a Boston lawyer and also a lesbian, looks to get an injunction against the ordinance while fending off the advances of Gail's daughter, Hester, and the past fancies of Officer Carl Ray who is just trying to keep the peace and get a date to the contra dance. The forces from Maine and away come to a head at a good old fashioned town meeting where tradition meets development and how the way things are wrestles with how

life should be. Sometimes we have to let go of the past and all the stuff that reminds us of it, and sometimes freedom is one blue tarp. One Blue Tarp was named the Best of Maine in the 2013 Clauder New England Playwrights Competition and premiered at the Penobscot Theatre Company in Bangor in the winter of 2014 setting box-office records for a non-musical and that with two blizzards.

Anarchism and Other Essays

- Emma Goldman 2015-12-02
Among the men and women prominent in the public life of America there are but few whose names are mentioned as often as that of Emma Goldman. Yet the real Emma Goldman is almost quite unknown. The sensational press has surrounded her name with so much misrepresentation and slander, it would seem almost a miracle that, in spite of this web of calumny, the truth breaks through and a better appreciation of this much maligned idealist begins to manifest itself. There is but

little consolation in the fact that almost every representative of a new idea has had to struggle and suffer under similar difficulties. Is it of any avail that a former president of a republic pays homage at Osawatomie to the memory of John Brown? Or that the president of another republic participates in the unveiling of a statue in honor of Pierre Proudhon, and holds up his life to the French nation as a model worthy of enthusiastic emulation? Of what avail is all this when, at the same time, the LIVING John Browns and Proudhons are being crucified? The honor and glory of a Mary Wollstonecraft or of a Louise Michel are not enhanced by the City Fathers of London or Paris naming a street after themÑthe living generation should be concerned with doing justice to the LIVING Mary Wollstonecrafts and Louise Michels. Posterity assigns to men like Wendel Phillips and Lloyd Garrison the proper niche of honor in the temple of human emancipation; but it is

the duty of their contemporaries to bring them due recognition and appreciation while they live. The path of the propagandist of social justice is strewn with thorns. The powers of darkness and injustice exert all their might lest a ray of sunshine enter his cheerless life. Nay, even his comrades in the struggle—indeed, too often his most intimate friends—show but little understanding for the personality of the pioneer. Envy, sometimes growing to hatred, vanity and jealousy, obstruct his way and fill his heart with sadness. It requires an inflexible will and tremendous enthusiasm not to lose, under such conditions, all faith in the Cause. The representative of a revolutionizing idea stands between two fires: on the one hand, the persecution of the existing powers which hold him responsible for all acts resulting from social conditions; and, on the other, the lack of understanding on the part of his own followers who often judge all his activity

from a narrow standpoint. Thus it happens that the agitator stands quite alone in the midst of the multitude surrounding him. Even his most intimate friends rarely understand how solitary and deserted he feels. That is the tragedy of the person prominent in the public eye.Ê

Tracking Inequality - Samuel Roundfield Lucas 1999-01-01
What has happened since formal tracking was dismantled in U.S. high schools? In this provocative book, SFamuel Lucas reveals that many unintended consequences actually served to transform and submerge a stubborn system of in-school inequality. Drawing on nationally representative data and highly sophisticated methodologies, Lucas examines how the contemporary curricular structure works, including the scope of the structure, mobility within the structure, how an individual's location in the structure is socially patterned, and the consequences of these locations for a student's college entry and career path. These

issues are then skillfully linked to long-standing debates about stratification processes within schools and the relationship between schools and Western societies. Appendixes at the end of the book include detailed information about the author's methods of analyses, providing an excellent model for further research.

Mandating Academic Excellence - Bruce L. Wilson
1993

In the past decade, states have taken an increasingly active role in designing new policies intended to reform America's high schools. This book offers a systematic, empirical look at the most widely adopted policy reform strategy--mandatory changes in high school graduation requirements. Maryland is used as a case study, exploring five representative high schools and presenting an in-depth discussion of their experiences

with mandated reform. The first of eight chapters, Chapter 1, "Introduction," sets the context and the research strategy. Chapter 2, "The Role of the States in the Reform Movement of the 1980s," deals with research on graduation requirements and tracking. Chapter 3, "Where's the Action? Students, Teachers, and the Curriculum," looks at student credits and courses, graduation requirements, and teachers' views on curricular change. Chapter 4, "Who's Winning? Tracks, Tracking Systems, and Access to Resources," gives the views of teachers and students on tracking. Chapter 5, "Who's Losing? Students and Teachers at Risk," investigates dropouts, students, teachers, and departments at risk. Chapter 6, "Who's in Control? Key Actors and Their Influence on Policy Implementation," gives the perspectives of state staff, district and school administrators, and counselors. Chapter 7, "What's the Bottom Line? Policy Intentions and the Perception of Effects," details

policy intentions, and school-level and consumer perceptions of policy effects. Chapter 8, "Educational Reform: Retrospect and Prospect," looks at the first wave of reform, educational reform and challenges in the 1990s, and a framework for reform. Two appendices give the research methods and tables of sample sizes.

The Waitress - Melissa

Nathan 2005-04-26

The Appetizer Katie has lofty career aspirations that seem to change almost hourly: writer, film director, teacher, educational psychiatrist. In the meantime, she's waiting tables and waiting for "Mr. Right" to arrive out of the blue -- which seems unlikely, considering her romantic track record is as pitiful as her job history. The Main Course Still, a girl can dream, even when she's rushing a hot plate of linguini over to the nasty customer at table six. So when gorgeous, sensitive, perfect Dan Crichton asks her out, Katie's over the moon. But once again,

commitment phobia rears its ugly head and dinner turns into the Great First Date Disaster -- and Katie's ideal romance is over before the goodnight kiss. The Just Desserts Things are tough when a woman wants it all and will not settle -- and has a little trouble making up her mind. But it's about to get really complicated for the Queen of Complications. The Bill Not only is Dan coming back -- as her new boss and engaged to someone else -- but persistent Ex-Boyfriend #3 Hugh's back too, with a vengeance. And suddenly there's a lot more on her tray than even the most able food service professional could safely handle ...

Voodoo - Alberto Venzago

2003

An unprecedented glimpse into the mysterious world of Voodoo, this companion volume to an upcoming documentary film presents film stills by celebrated photojournalists Alberto Venzago.

Expanded Animation -

Jeremiah Diephuis 2019-04-30

The symposium Expanded

Animation was initiated in 2013 and offered a first approach to the expanded field of computer animation. In the meantime, it has become an established part of the Ars Electronica Animation Festival and the international competition Prix Ars Electronica Computer Animation. Every year under an overarching theme, the symposium has researched the field of technology and art, animation and aesthetics, investigated the collapsing boundaries in digital animation and explored positions and future trends. Much like the first conferences on computer animation at Ars Electronica in the 1980s, practice and theory are equally important. The richly illustrated publication Expanded Animation. The Anthology features contributions from speakers and artist positions from the past five years and presents an overview of the prize winners in Computer Animation.

Summer with Monika - Roger McGough 2017-06-29

Summer with Monika is an honest and touching portrait of

a romance, charting the progress of a love affair from the delicious intimacy of the honeymoon, with the milk bottles turning to cheese on the doorstep, through the stage of quarrels, jealousy, recriminations and boredom, to the point where love is as nice as a cup of tea in bed. Re-issued for its 50th anniversary, Summer with Monika is a hidden gem of British love poetry featuring beautiful illustrations from Children's Laureate Chris Riddell.

The Oxford Companion to Spirits and Cocktails - Noah Rothbaum 2021-10-14

Anthropologists and historians have confirmed the central role alcohol has played in nearly every society since the dawn of human civilization, but it is only recently that it has been the subject of serious scholarly inquiry. The Oxford Companion to Spirits and Cocktails is the first major reference work to cover the subject from a global perspective, and provides an authoritative, enlightening, and entertaining overview of this third branch of the alcohol

family. It will stand alongside the bestselling *Companions to Wine and Beer*, presenting an in-depth exploration of the world of spirits and cocktails in a groundbreaking synthesis. The Companion covers drinks, processes, and techniques from around the world as well as those in the US and Europe. It provides clear explanations of the different ways that spirits are produced, including fermentation, distillation, and ageing, alongside a wealth of new detail on the emergence of cocktails and cocktail bars, including entries on key cocktails and influential mixologists and cocktail bars. With entries ranging from Manhattan and mixology to

sloe gin and stills, the Companion combines coverage of the range of spirit-based drinks around the world with clear explanations of production processes, and the history and culture of their consumption. It is the ultimate guide to understanding what is in your glass. The Companion is lavishly illustrated throughout, and appendices include a timeline of spirits and distillation and a guide to mixing drinks.
