Atkins Made Easy - Atkins Health & Medical Information Services 2003-12-16
The Dr Atkins book which makes it really easy for those revolutionizing their weight and their health with the programme. It answers all your questions and dispels the myths. This 2 week starter plan - which includes helpful food lists and recipes - is everyone's essential for the new year. The book answers the 100 most frequently asked questions and takes the reader step by step through the Atkins nutritional programme. It provides a 4 phase plan which allows 3 cups of healthy low carb veggies a day at the start, moving up to the final phase - Lifetime Maintenance - where most people can eat every kind of vegetable. Good and bad fats are explained too so that people can choose the healthy way to incorporate the

essential fats in their diet. The book also shows how to incorporate healthy activity and exercise into your week - dispelling the myth that Atkins encourages people to lose weight without taking exercise. It explains how the Atkins programme helps to decrease your risk of heart disease, prevent and control type 2 diabetes, lowers blood pressure, improves symptoms of PCOS, headaches, sinus problems, abdominal pains, acid reflux, asthma, eczema, and acne. It also explains many of the myths surrounding Atkins. ie. that ketosis - where the body burns fat and not glucose - is perfectly safe and that most people doing Atkins see a drop in the LDL cholesterol. Also there is no study which shows that the high protein diet is dangerous for the kidneys or that eating so much protein leaches

calcium from your bones and interferes with calcium absorption.

DNA - Dennis Kelly 2021-07

This new Student Edition of Dennis Kelly's popular play DNA contains introductory commentary and notes by Clare Finburgh Delijani, which gives an in-depth analysis of the play's context and themes. As well as the complete text of the play, this new Methuen Drama Student Edition includes: · An introduction to the playwright and social context of the play· Discussion of the context, themes, characters and dramatic form· Overview of staging and performance history of the play· Bibliography of suggested primary and secondary materials for further study.Dennis Kelly's play DNA centres on friendship, morality and responsibility in odd circumstances. When a group of young friends are faced with a terrible accident, they deliberately make the wrong

choices to cover it up and find themselves in an unusually binding friendship where no one will own up to what they've done.

The Invention of Essex - Tim Burrows 2023-06-01

'A deeply sensitive and engaging portrait of a misunderstood county and its people' Financial Times, 'Books to Read in 2023' 'Celebrates the rich history and legacy of Essex' Daily Mail 'If you are interested in this remarkable microcosm of England, the book will grip you; if you aren't, it will make you realise that you jolly well should be.' Simon Heffer, Spectator Essex. A county both famous and infamous: the stuff of tabloid headlines and reality television, consumer culture and right-wing politicians. England's dark id. But beyond the sensationalist headlines lies a strange and secret place with a rich history: of smugglers and private islands, artists and radicals, myths and legends. It's where the Peasants' Revolt began and the Empire Windrush docked. And - from

political movements like Brexit to cultural events like TOWIE - where Essex leads, the rest of us often follow. Deeply researched and thoroughly engaging, *The Invention of Essex* shows that there is more to this fabled English county than meets the eye.

Inside Parkhurst - David Berridge 2021-08-19

THE FASCINATING SUNDAY
TIMES TOP TEN BESTSELLER

Assaults. Riots. Cell fires.

Medical emergencies.

Understaffed wings. Suicides.

Hooch. Weapons. It's all in a week's work at HMP Parkhurst.

After 28 years working as a prison officer, with 22 years at HMP Parkhurst, once one of Britain's most high security prisons, David Berridge has had to deal with it all: serial killers and gangsters, terrorists and sex offenders, psychopaths and addicts. *Inside Parkhurst* is his raw, uncompromising look at what really goes on behind the massive walls and menacing gates. Thrown in at the deep end, David quickly had to work out how to deal with the most cunning and

volatile of prisoners, and learn how to avoid their many scams. He has been assaulted and abused; he has tackled cell fires and attempted suicides, riots and dirty protests; he has helped to foil escaped plans, talked inmates down from rooftop protests, witnessed prisoners setting fire to themselves, and prevented prisoners from attempting to murder other prisoners. And now he takes us inside this secret world for the first time. With this searingly honest account he guides us around the wings, the segregation unit, the hospital and the exercise yard, and gives vivid portraits of the drug taking, the hooch making, the constant and irrepressible violence, and the extraordinary lengths our prison officers go to everyday. Divided into three parts - the first from David's early years on the wings, the second the middle of his career, and the third his disillusioned later years - David will take readers into the heart of life inside and shine a light on the escalating violence and the impact the

government cuts are having on the wings. Both horrifying and hilarious, David's diaries are guaranteed to shock and entertain in equal measure.

Handbook of Alcoholic Beverages - Alan J. Buglass 2011-01-13

A comprehensive two- volume set that describes the science and technology involved in the production and analysis of alcoholic beverages. At the heart of all alcoholic beverages is the process of fermentation, particularly alcoholic fermentation, whereby sugars are converted to ethanol and many other minor products. The Handbook of Alcoholic Beverages tracks the major fermentation process, and the

major chemical, physical and technical processes that accompany the production of the world's most familiar alcoholic drinks. Indigenous beverages and small-scale production are also covered to a significant extent. The overall approach is multidisciplinary, reflecting the true nature of the subject. Thus, aspects of biochemistry, biology (including microbiology), chemistry, health science, nutrition, physics and technology are all necessarily involved, but the emphasis is on chemistry in many areas of the book. Emphasis is also on more recent developments and innovations, but there is sufficient background for less experienced readers. The approach is unified, in that although different beverages are dealt with in different chapters, there is extensive cross-referencing and comparison between the subjects of each chapter. Divided into five parts, this comprehensive two-volume work presents:

BACKGROUND AND HISTORY: A simple introduction to the history and development of alcohol and some recent trends and developments, **FERMENTED BEVERAGES: BEERS, CIDERS, WINES AND RELATED DRINKS:** the latest innovations and aspects of the different fermentation processes used in beer, wine, cider, liquor wines, fruit wines, low-alcohol and related beverages. **SPIRITS:** cover distillation methods and stills used in the production of whisky, cereal- and cane-based spirits, brandy, fruit spirits and liquers **ANALYTICAL METHODS:** covering the monitoring of processes in the production of alcoholic beverages, as well as sample preparation, chromatographic, spectroscopic, electrochemical, physical, sensory and organoleptic methods of analysis. **NUTRITION AND HEALTH ASPECTS RELATING TO ALCOHOLIC BEVERAGES:** includes a discussion on nutritional aspects, both macro- and micro-nutrients, of alcoholic beverages, their

ingestion, absorption and catabolism, the health consequences of alcohol, and details of the additives and residues within the various beverages and their raw materials.

The Goatfell Murder - The Goatfell Murder 2020-08-30
The 15th July 1889 was a busy day on the Isle of Arran as it was Fair Monday. A number of visitors opted to climb Goatfell though many were put off by the cloud lingering on the summit. It seemed a day like any other, but that evening there would be an tragic event which would lead to one of the biggest man-hunts in Scottish criminal history, as well as a sensational murder trial. Two of the people who set out to climb the mountain that afternoon were John Watson Laurie, a 28-year-old pattern-maker from Coatbridge, and Edwin Robert Rose, a 32-year-old clerk from London. They had met three days previously on the excursion steamer Ivanhoe. Rose's battered body, 'the face terribly mangled', was found three weeks later

concealed under a boulder on a remote part of the mountain. The discovery sparked a huge search for Laurie who was subsequently arrested for Rose's murder after two months on the run. When captured he attempted suicide with a cut-throat razor, then stated: 'I robbed the man, but I did not murder him.' This is the story of the Goatfell tragedy and its aftermath, described by the Glasgow Herald as 'the most remarkable tale of crime and retribution in the annals of Scottish judicial history'.

Food and Beverage

Management - Bernard Davis
2013-01-11

This introductory textbook provides a thorough guide to the management of food and beverage outlets, from their day-to-day running through to the wider concerns of the hospitality industry. It explores the broad range of subject areas that encompass the food and beverage market and its five main sectors - fast food and popular catering, hotels and quality restaurants and functional, industrial, and

welfare catering. New to this edition are case studies covering the latest industry developments, and coverage of contemporary environmental concerns, such as sourcing, sustainability and responsible farming. It is illustrated in full colour and contains end-of-chapter summaries and revision questions to test your knowledge as you progress. Written by authors with many years of industry practice and teaching experience, this book is the ideal guide to the subject for hospitality students and industry practitioners alike.

The Devil on the Doorstep - Annabelle Forest 2014-08-14
Annabelle Forest was just seven years old when she was inducted into a twisted sex cult by her own mother. For the next few years she was brainwashed by the cult's leader, Colin Batley, who ran a harem of followers from his unassuming cul-de-sac in Kidwelly, Wales. Batley ruled the cult with an iron will, his twisted ideology based on Aleister Crowley's Book of the Law, which informed their day-to-day lives. From the age of 11, Annabelle was repeatedly raped by Batley, and threatened with going to hell if she angered 'the gods' by refusing Batley's sick demands. Annabelle's mother joined in the sessions and even filmed them. Annabelle lived a double life - a schoolgirl by day, a sex slave at night. It might have endured for years had she not fallen pregnant at 17 with Batley's baby. In February 2008 she gave birth to a daughter, Emily, who gave Annabelle a reason to live and hope. Now she knew she had to

escape, especially after Batley forced her into prostitution when Emily was three months old. She contacted relatives through Facebook on a computer in the public library and found the courage to report Batley, her mother and the other cult members to the police. In 2011 her evidence helped convict 48-year-old Batley for life on 11 charges of rape and numerous other sexual offences. Annabelle's mother was also jailed, along with two others in a case that came to be known as the 'cul-de-sac cult'. But Annabelle's story was far from over - she had to adjust to a new life away from the rules and rituals of the cult. Today she lives a happy and settled life with Emily and her partner but the nightmares of her damaged past will haunt her forever. Child of Courage refers to Annabelle herself but also her daughter, the child who gave her the chance to hope, the will to fight and the courage to live again.

Children's needs - parenting capacity - Hedy Cleaver
2011-10-12

This second edition of "Children's needs - parenting capacity" updates the original exploration of the research literature in the light of legal and policy changes in England and findings from more recent national and international research. The edition has also been expanded to cover parental learning disabilities and how it may impact on parenting and children's health and development. The findings

show that these parenting issues affect children differently depending on their age and individual circumstances. While some children grow up apparently unscathed, others exhibit emotional and behavioural disorders. This knowledge can inform practitioners undertaking assessments of the needs of children and their families and effective service responses. This publication is essential reading for practitioners, managers and policy makers concerned with improving the outcomes for children and families who are experiencing such problems.

How Change Happens - Duncan Green 2016-10-19
Society is full of would-be 'change agents'-campaigners, government officials, enlightened business people, engaged intellectuals-set on improving public services, reforming laws and regulations, guaranteeing human rights, achieving a fairer deal for those on the sharp end, and greater recognition for any number of

issues. Drawing on many first-hand examples and numerous new case studies and interviews with grassroots activists and organizations around the world, as well as Oxfam's unrivalled global experience, this important book answers the question: how does change happen and how can we-governments, organizations, businesses, leaders, campaigners, employees, and ordinary citizens-make a difference?
What Planet Can I Blame This On? - Ellie Pilcher 2021-06-03
Perfect job. Perfect boyfriend. Perfect life. But the universe had other ideas... The funniest book you'll read all year!
Perfect for fans of Beth O'Leary, Mhairi McFarlane and Lucy Vine. 'Utterly swoon worthy' 'Just great fun' 'Fresh, funny and fascinating' 'A stunning debut' The stars are not in position - and Krystal Baker is determined to make them fall in line. It's Krystal's 29th birthday. This year: · Her boyfriend finally proposed after six years of dating (only for her to find out he cheated on her

for five and a half of them) · She landed her dream job as a writer at Craze magazine (which swiftly fell into administration) · She moved into her dream flat overlooking the city (just for the pipes to explode making the place unliveable) As she mourns everything wrong in her life, her best friend mutters the dreaded words: Saturn Return. The time in a woman's life where Saturn returns to the position it was in on the day of their birth, 29.5 years ago, and, according to legend, everything falls apart. Krystal has never bought into astrology but maybe it's time to re-evaluate - because if the stars got her into this mess, they can get her out of it. And she only has six months to make things right. Loaded with crystals, horoscopes, tarot cards and a carefully aligned chakra or two, Krystal's determined to have her life back on track by the time Saturn returns. No longer shall she brand herself a 'human disaster' because this time it's not her fault, it's written in the treacherous

stars. But can Krystal learn to follow her heart, not her horoscope? Praise for Ellie Pilcher: 'Laugh-out-loud funny, brilliantly written and utterly swoon worthy, What Planet Can I Blame This On? is the book we all need right now. Such a fun read!' - Holly Martin, author of Autumn Skies over Ruby Falls 'Perfect reading for twenty and thirty-somethings, written in the language of failed relationships and the hope for something better. Wry, witty, insightful, fast-paced and just great fun, this is a fabulous debut. It represents so much of what people go through on the pathway to finding out what they really want. It's going to be a hugely popular read.' - Helen Fields, author of the DI Callanach thrillers 'It's rare that a book really makes me laugh out loud, but this one did. Krystal's sassy, authentic narration carries the reader effortlessly as she prepares for her 'Saturn Return' and delves into its meaning. I felt as if I were living her problematic life with her! I think I fell in love

with Ryan a little before she did . . .' - Sue Moorcroft, author of One Summer in Italy 'A joyous romp into the highs and pitfalls of following your stars.' - Beth Corby, author of Leave It To Fate 'What a stunning debut this is! I loved the cast of Krystal and her friends. Throw in a new interest in horoscopes and an episode of Hoarders (I've watched the whole series during lockdown) then this is the perfect read, even if it isn't always written in the stars! An author to look out for!' - Catherine Miller, author of Waiting For You 'Fresh, fun and fascinating from an exciting new talent.' - Bella Osborne, author of Meet Me at Pebble Beach 'It's fresh, wise and hugely funny and real - a celebration of that tricky late twenties stage when you reckon you should have it all figured out - but definitely haven't. When neither your horoscopes - nor even your very best friends - have all the answers. I loved it!' - Fiona Gibson, author of The Dog Share 'Delightful, fun and full of laugh-out-loud moments' -

How to be Idle - Tom Hodgkinson 2007-06-07
How to be Idle is Tom Hodgkinson's entertaining guide to reclaiming your right to be idle. As Oscar Wilde said, doing nothing is hard work.

The Protestant work ethic has

most of us in its thrall, and the idlers of this world have the odds stacked against them. But here, at last, is a book that can help. From Tom Hodgkinson, editor of the *Idler*, comes *How to be Idle*, an antidote to the work-obsessed culture which puts so many obstacles between ourselves and our dreams. Hodgkinson presents us with a laid-back argument for a new contract between routine and chaos, an argument for experiencing life to the full and living in the moment. Ranging across a host of issues that may affect the modern idler - sleep, the world of work, pleasure and hedonism, relationships, bohemian living, revolution - he draws on the writings of such well-known apologists for idleness as Dr Johnson, Oscar Wilde, Robert Louis Stevenson and Nietzsche. His message is clear: take control of your life and reclaim your right to be

idle. 'Well written, funny and with a scholarly knowledge of the literature of laziness, it is both a book to be enjoyed at leisure and to change lives' *Sunday Times* 'In his life and in this book the author is 100 per cent on the side of the angels' *Literary Review* 'The book is so stuffed with wisdom and so stuffed with good jokes that I raced through it like a speed freak' *Independent on Sunday* Tom Hodgkinson is the founder and editor of *The Idler* and the author of *How to be Idle*, *How to be Free*, *The Idle Parent* and *Brave Old World*. In spring 2011 he founded *The Idler Academy* in London, a bookshop, coffeehouse and cultural centre which hosts literary events and offers courses in academic and practical subjects - from Latin to embroidery. Its motto is 'Liberty through Education'. Find out more at www.idler.co.uk.
