Communicating for Social Change - Mohan Jyoti Dutta 2018-12-05

The book covers the trajectories and trends in social change communication, engaging the key theoretical debates on communication and social change. Attending to the concepts of communication and social change that emerge from and across the global margins, the book works toward offering theoretical and methodological lessons that de-center the dominant constructions of communication and social change. The chapters in the book delve into the interplays of academic-activist-community negotiations in communication for social change, and the ways in which these negotiations offer entry points into transformative communication processes of social change. Moreover, a number of chapters in the book attend to the ways in which Asian articulations of social change are situated at the intersections of culture, structure, and agency. Chapters in the book are extended versions of research presented at the conference on Communicating Social Change: Intersections of Theory and Praxis held at the National University of Singapore in 2016, organized under the umbrella of the Center for Culture-Centered Approach to Research and Evaluation (CARE).

Teologi Seksual - A. Setyawan, S.J.

Mungkin tulisan ini membuat dahi Anda berkernyit karena tidak yakin bahwa teologi itu klop dengan seks. Barangkali Anda juga risih: bagaimana mungkin obrolan tentang Tuhan dipadukan dengan seks? Obrolan tentang Tuhan tentu obrolan suci, tidak nyerempet-nyerempet soal seks. Jika obrolan suci merambah wilayah seks, seks jelas tersudut sebagai dosa kotor. Akan tetapi, betulkah begitu? Dalam buku ini, Anda akan mendapatkan jawabnya. Secara gamblang, lugas, dan apik pengarang mengulas apa dan bagaimana obrolan tentang seks itu nyambung dengan obrolan tentang Tuhan. Temukanlah dan pahami!

From Trent to Vatican II - Raymond F. Bulman 2006-05-25

The second Vatican Council was convened by Pope John XXIII between 1962 and 1965. It marked a fundamental shift toward the modern Church and its far-reaching innovations replaced or radically changed many of the practices, rules, and attitudes that had dominated Catholic life and culture since the Council of Trent in the sixteenth century. In this book a distinguished team of historians and theologians offers an

impartial investigation of the relationship between Vatican II and Trent by examining such issues as Eucharistic theology, liturgical change, clerical reform, the laity, the role of women, marriage, confession, devotion to Mary, and interfaith understanding. As the first book to present such a comprehensive study of the connection between the two great Councils, this is an invaluable resource for students, theologians, and church historians, as well as for bishops, clergy, and religious educators.
