The Rifle - Gary Paulsen 2016-03-15

A treasured antique rifle gets into the wrong hands in this YA novel by the Newbury Award-winning author: “a truly mesmerizing tale, from beginning to end” (Publishers Weekly). In 1768, gunsmith Cornish McManus painstakingly crafted his masterpiece: a rifle of extraordinary beauty and accuracy. Though he knows he will never be able to replicate it, Cornish is forced to sell it to a man named John Byam, who carried it with pride into the Revolutionary War. Passed down through generations, the beloved rifle ends up decorating the mantle of a modern-day mechanic and father named Harv. But what happens then is shocking, terrifying, and completely devastating. Reader’s guide included

Thieving Weasels - Billy Taylor 2016-08-23

Skip O'Rourke is dragged into one last con . . . but he doesn't know the con's on him in this funny, page-turning debut YA for fans of Winger and Ocean's Eleven, now nominated for the Edgar Award and the International Thriller Writers Award. Cameron Smith attends an elite boarding school and has just been accepted to Princeton University alongside his beautiful girlfriend, Claire. Life for Cameron would be perfect, except that Cameron Smith is actually Skip O'Rourke, and Skip O'Rourke ran away from his grifter family four years ago...along with \$100,000 of their "earnings" (because starting a new life is not cheap). But when his uncle Wonderful tracks him down, Skip's given an ultimatum: come back to the family for one last con, or say good-bye to life as Cameron. "One last con" is easier said than done when Skip's family is just as merciless (and just as manipulative) as they've always been, and everyone around him is lying. Skip may have given up on crime, but there's one lesson he hasn't forgotten: always know your mark. And if you don't know who your mark is . . . it's probably you. Witty and irresistibly readable, this standout debut will always keep you guessing.

Now she's counting down the days until she returns to school with her fake arm, where she knows kids will whisper, "That's her -- that's Shark Girl," as she passes. In the meantime there are only questions: Why did this happen? Why her? What about her art? What about her life? In this

striking first novel, Kelly Bingham uses poems, letters, telephone conversations, and newspaper clippings to look unflinchingly at what it's like to lose part of yourself - and to summon the courage it takes to find yourself again.
