Intercultural Communication Tracy Novinger 2013-05-01 Successfully communicating with people from another culture requires learning more than just their language. While fumbling a word or phrase may cause embarrassment, breaking the unspoken cultural rules that govern personal interactions can spell disaster for businesspeople, travelers, and indeed anyone who communicates across cultural boundaries. To help you avoid such damaging gaffes, Tracy Novinger has compiled this authoritative, practical guide for deciphering and following "the rules" that govern cultures, demonstrating how these rules apply to the communication issues that exist between the United States and Mexico. Novinger begins by explaining how a major proportion of communication within a culture occurs nonverbally through behavior and manners, shared attitudes, common expectations, and so on. Then, using real-life examples and anecdotes, she pinpoints the commonly occurring obstacles to communication that can arise when cultures differ in their communication techniques. She shows how these obstacles come into play in contacts between the U.S. and Mexico and demonstrates that mastering the unspoken rules of Mexican culture is a key to cementing business and social relationships. Novinger concludes with nine effective, reliable principles for successfully communicating across cultures.

All About Love bell hooks 2018-01-30 A New York Times bestseller and enduring classic, All About Love is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. All About Love reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in All About Love. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The Utne Reader declared bell hooks one of the "100 Visionaries Who Can Change Your Life." All About Love is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

The Wife Desired Fr. Leo Kinsella The role of the girl in life is the most glamorous and fascinating in all the world. To the nomads of the East she is the "little gazelle" and to the Japanese the "plum blossom." In the Book of Proverbs she is the "dearest hind and most agreeable fawn." Jewels, sapphires and rubies, are her eyes and lips. The softness of a spring morning are in her words. Her smile is as the splendor of the rising sun. Of all the creatures in the world she is made by God the most beautiful. She is the incarnation and summation of all the flowers of nature. No man ever spoke more truth than when he whispered into the ear of his beloved that she was divine. She is an image, a spark of divinity given to us in life as a preview of things to come. She is yielding, helpless, yet divine. To whom God has given much, from her much is expected. Of no other creature is so much demanded. She is to be the helpmate of man the mother of his children. She is to keep his home to comfort him in loneliness and weariness, and to bring him back to health when sick. This appraisal of the part a girl plays in life may seem to some flattering. Yet, it is sincerely made. Actually this judgment of the ladies is more challenging than flattering, for what girl could fail to desire to measure up to this appraisal in the eyes of her husband? Countless young wives have merited from their husbands the esteem that they were the most glamorous and fascinating creatures in all the world. Unfortunately too many girls have failed to do so, and thus experience the misery of an unhappy, if not broken, marriage. The purpose of this book is to show the girl, the young wife how she may easily have success and happiness in marriage, being in the eyes of her husband "the dearest hind and most agreeable fawn." This classic includes the following chapters: 1. The Wife Desired Is an Inspiration to Her Husband 2. The Wife Desired Has Personality 3. The Wife Desired Is Patient 4. The Wife Desired Is a Physical Being 5. The Wife Desired Has a Sense of Humor 6. The Wife Desired Is a Companion to Her Husband 7. The Wife Desired Is Religious

The 48 Laws of Power Robert Greene 2000-09-01 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

First, Kill All the Marriage Counselors Laura Doyle 2015 Every marriage has its rough patches. If you're wondering how to repair yours, step away from the therapist, put down the magazine, and pick up this book. If you want to build a long, happy, fulfilling marriage, why not learn from the women who've done it? Laura Doyle's marriage was in trouble. After five years, her husband had become distant. He seemed checked out of their relationship, preferring watching TV to making love. There were frequent fights that ended with tense silences and even threats of divorce. Marriage

counseling actually made their problems worse. Each session seemed to reinforce the feeling that she and her husband were just too far apart. Desperate to avoid divorcing the man she loved, Laura tried something different. Rather than consulting with experts or professionals, she simply started talking to women who'd been happily married for more than fifteen years. What she discovered shocked her. Everything she had heard in marriage counseling was wrong. Laura realized that there are some basic truths to relationships that can help women maintain loving, intimate marriages, such as: The happiness of your relationship is up to you! Women hold the keys to a happy relationship 95 percent of the time (and will learn what to do the other 5 percent). What men want most of all is to be treated with respect. Treat your man with respect (even if you aren't feeling it), and he will treat you with love and care. Your man wants to know he has your trust. Give it to him, and he'll realize you are special . . . because you will be! After seeing her own marriage transform, Laura set out to help other women do the same. In this book, you'll learn Laura's Six Intimacy Skills," which have been used by over 50,000 women who have transformed their previously unhappy marriages into blissful unions. Stop reading articles about how important it is to schedule date night, and learn how to transform your relationship into one bursting with energy, intimacy, and love. First, Kill All the Marriage Counselors will put you on the path to having the marriage you want with the man you love.

Phenomenology of Perception Maurice Merleau-Ponty 2013-04-15 First published in 1945, Maurice Merleau-Ponty's monumental *Phénoménologie de la perception* signalled the arrival of a major new philosophical and intellectual voice in post-war Europe. Breaking with the prevailing picture of existentialism and phenomenology at the time, it has become one of the landmark works of twentieth-century thought. This new translation, the first for over fifty years, makes this classic work of philosophy available to a new generation of readers. *Phenomenology of Perception* stands in the great phenomenological tradition of Husserl, Heidegger, and Sartre. Yet Merleau-Ponty's contribution is decisive, as he brings this tradition and other philosophical predecessors, particularly Descartes and Kant, to confront a neglected dimension of our experience: the lived body and the phenomenal world. Charting a bold course between the reductionism of science on the one hand and "intellectualism" on the other, Merleau-Ponty argues that we should regard the body not as a mere biological or physical unit, but as the body which structures one's situation and experience within the world. Merleau-Ponty enriches his classic work with engaging studies of famous cases in the history of psychology and neurology as well as phenomena that continue to draw our attention, such as phantom limb syndrome, synaesthesia, and hallucination. This new translation includes many helpful features such as the reintroduction of Merleau-Ponty's discursive Table of Contents as subtitles into the body of the text, a comprehensive Translator's Introduction to its main themes, essential notes explaining key terms of translation, an extensive Index, and an important updating of Merleau-Ponty's references to now available English translations. Also included is a new foreword by Taylor Carman and an introduction to Merleau-Ponty by Claude Lefort. Translated by Donald A. Landes.

Rhizomes Nathalie Ramière 2021-02-19 This volume, *Rhizomes*, is a challenging path into a very multidisciplinary set of papers. Papers range across cultural studies and film, to applied linguistics to sociolinguistics; and as gathered in this one volume - the result of postgraduate student research of a very high order - they 'force' readers to think critically of disciplines, their assumed boundaries and most importantly, the usefulness of assuming the enduring value of such boundaries. This is not to say that 'anything goes', but the diversity of areas under scrutiny means that sharper re-thinking of one's own comfort zones is necessarily one key outcome when confronted with a volume like this. This is one advantage of the selected papers - besides the obvious one of having at your finger tips a simple way of delving into a challenging diversity. Brian Ridge, Campion College, Sydney This is a wonderful collection of papers, which demonstrates the power and vitality of contemporary literary and cultural research. The scope of the papers, the diversity of the subject matter, and the willingness of their authors to work across disciplinary boundaries work together to create an exemplary collection of research for the twenty-first century - multidisciplinary, multigeneric, and multimodal, like 21st century texts and media. Greg Hainge's opening paper sets the stage for the diverse and engaging papers that follow. With his own examples of rhizomatics drawn from music, Greg immediately has the reader acknowledging the multidisciplinary - and multimodality - of contemporary texts - and so the need for research that can address the richness and complexity of these texts. In Part 1 we have two papers that address the issue of the limitations of conventional research methodology in their own fields (language acquisition, film studies) - and propose alternative and more productive methodologies. The exciting thing about this section is that these are fields normally considered very different and without much to say to one another - and yet the combination works to create a dialogue that extends across these and many other fields of research. Most importantly, both challenge the dichotomising of research and analytical methods that has worked to impoverish their fields and the research on which it is based. Part 2 presents papers on a range of marginalised social positionings and experiences - and in the process demonstrates both the power of research to uncover what has been ignored or elided in contemporary histories (how many westerners know of the long history of Chinese women in film? Or of an Aboriginal Taiwanese literature?) as well as the power of new perspectives, new ways of thinking the research subject, to open up areas of study such as dating manuals and country music, both conventionally dismissed as inherently trivial and/or sexist. In Part 3 the papers all play brilliantly with the notion of connectivity, demonstrating for readers the inextricability of texts and meaning systems (verbal, visual and other) with the cultural contexts in which they operate - and so the diverse ways they may be deployed. These papers banish forever any reliance on a formalist reading or

methodology for the analysis of text and meaning! And, again, the range of subject-matter is breath-taking and argues the need for cross-disciplinary, transdisciplinary and multidisciplinary research practice. Part 4 takes the reader into the realm of transformations, challenging the ways in which textual and systemic changes articulate profound cultural changes in the societies that produce them. So we learn about grammatical interventions in the Chinese language as feminine and neuter pronouns are added to the gender-free Chinese language – and consider the major cultural change that both caused this change and is subsequently produced by it. We consider the ways in which cinema has evolved as an art-form, under the influence of its material and verbal technologies. And we consider the ways in which Chinese poetry has entered a range of cultural practices in the west and the east, and again consider how its traditional meanings and significance are maintained and communicate to these new contexts – and the nature of the transcultural experience this generates. For the academic, student, or interested reader this collection offers a breath-taking scope of subject-matter and a vital and engaged approach to the material, that makes this collection a research ‘page turner’! Professor Anne Cranny-Francis, Department of Critical and Cultural Studies, Macquarie University, Sydney

The Four Loves C. S. Lewis 2018-07-26 The Four Loves by C. S. Lewis We hear often that love is patient and kind, not envious or prideful. We hear that human love is a reflection of divine love. We hear that God is love. But how do we understand its work in our lives, its perils and rewards? Here, the incomparable C. S. Lewis examines human love in four forms: affection, the most basic, general, and emotive; friendship, the most rare, least jealous, and, in being freely chosen, perhaps the most profound; Eros, passionate love that can run counter to happiness and poses real danger; charity, the greatest, most spiritual, and least selfish. Proper love is a risk, but to bar oneself from it-to deny love-is a damning choice. Love is a need and a gift; love brings joy and laughter. We must seek to be awakened and so to find an Appreciative love through which "all things are possible." We are delighted to publish this classic book as part of our extensive Classic Library collection. Toward a Psychology of Singlehood Katarzyna Adamczyk 2023-07-10 The rising number of single adults in many countries enhances the need to integrate the previous findings on singlehood and the recent theoretical propositions of viewing adult singlehood. The present monograph is a unique theoretical elaboration on singlehood from a psychological perspective. It provides a review of the past research mainly investigating the reasons and outcomes of singlehood in connection with attempts to answer the question, ‘How close are we on that way to the psychology of singlehood?’, and indicate the potential ways of integrating various findings concerning singlehood. The current book is therefore intended to be an essential step on the way to build a theoretical model for singlehood from a psychological perspective in the nearest future.

The Surrendered Chang-rae Lee 2010-03-09 Read an essay by Chang-rae Lee here. The bestselling, award-winning writer of Native Speaker, Aloft, and My Year Abroad returns with his biggest, most ambitious novel yet: a spellbinding story of how love and war echo through an entire lifetime. With his three critically acclaimed novels, Chang-rae Lee has established himself as one of the most talented writers of contemporary literary fiction. Now, with The Surrendered, Lee has created a book that amplifies everything we've seen in his previous works, and reads like nothing else. It is a brilliant, haunting, heartbreaking story about how love and war inalterably change the lives of those they touch. June Han was only a girl when the Korean War left her orphaned; Hector Brennan was a young GI who fled the petty tragedies of his small town to serve his country. When the war ended, their lives collided at a Korean orphanage where they vied for the attentions of Sylvie Tanner, the beautiful yet deeply damaged missionary wife whose elusive love seemed to transform everything. Thirty years later and on the other side of the world, June and Hector are reunited in a plot that will force them to come to terms with the mysterious secrets of their past, and the shocking acts of love and violence that bind them together. As Lee unfurls the stunning story of June, Hector, and Sylvie, he weaves a profound meditation on the nature of heroism and sacrifice, the power of love, and the possibilities for mercy, salvation, and surrendering oneself to another. Combining the complex themes of identity and belonging of Native Speaker and A Gesture Life with the broad range, energy, and pure storytelling gifts of Aloft, Chang-rae Lee has delivered his most ambitious, exciting, and unforgettable work yet. It is a mesmerizing novel, elegantly suspenseful and deeply affecting.

Things Will Get as Good as You Can Stand Laura Doyle 2004-04-06 Why do the things you want elude you? Intimacy. Validation. Romance. Nice things. More time. Most women wish for these every day. In *Things Will Get as Good as You Can Stand*, bestselling author Laura Doyle says that all of these things are available to us, but receiving them makes women feel uncomfortable. We turn away praise at work, help with the house, an expression of admiration so that we appear to be in control. The result is a Superwoman Syndrome: we are overworked and exhausted -- and we feel alone. In *Things Will Get as Good as You Can Stand*, Doyle provides steps for overcoming the Superwoman Syndrome and explains why: If you act like you don't deserve something, everyone else will agree. Saying what you want makes you more beautiful. Grateful women have better romantic relationships. You should let a man support you. You have to be vulnerable to get emotional help. With her trademark practical approach, Doyle explains why it is "better to receive than to give." She guides you to accepting what you are offered with ease and kindness, which is the expressway to having what you want.

A Treatise on the Family Gary S. Becker 1993-10-15 Imagine each family as a kind of little factory—a multiperson unit producing meals, health, skills, children, and self-esteem from market goods and the time, skills, and knowledge of its members. This is only one of the remarkable concepts explored by Gary S. Becker in his landmark work on the family. Becker applies economic theory to the most sensitive and fateful personal decisions, such as choosing a spouse or having children. He uses the basic economic assumptions of maximizing behavior, stable preferences, and equilibria in explicit or implicit markets to analyze the allocation of time to child care as well as to careers, to marriage and divorce in polygynous as well as monogamous societies, to the increase and decrease of wealth from one generation to another. The consideration of the family from this perspective has profound theoretical and practical implications. For example, Becker's analysis of assortative mating can be used to study matching processes generally. Becker extends the powerful tools of economic analysis to problems once considered the province of the sociologist, the anthropologist, and the historian. The obligation of these scholars to take account of his work thus constitutes an important step in the unification of the social sciences. *A Treatise on the Family* will have an impact on public policy as well. Becker shows that social welfare programs have significant effects on the allocation of resources within families. For example, social security taxes tend to reduce the amount of resources children give to their aged parents. The implications of these findings are obvious and far-reaching. With the publication of this extraordinary book, the family moves to the forefront of the research agenda in the social sciences.
