How to Talk to Women with Charisma, Confidence & Charm - Brett Andrews 2019-07-23

If you wish you knew how to "sweep a woman off her feet," then keep reading. The truth is: A lot of men simply don't know what to say--to an attractive woman. You might feel like you have nothing to offer her. Perhaps she'll think you're weird or boring. Perhaps you've experienced uncomfortable emotions in social situations--like embarrassment, frustration, or sadness--because it seems like everybody has a girlfriend but you. You're not alone here. Through the ages, many men (like

Casanova, Kierkegaard, and Schopenhauer) have wrestled with the same problems. They attempted to codify the elements of female attraction, and unpack the riddle of womanhood. Much of ancient literature tells the tale of a woeful love-struck man--lamenting the indifference of the woman he desires. So, what's going on here? Why do some men seem to effortlessly exude charisma, confidence, and charm, while others never get any attention at all? Why do some men show up with a new girlfriend every week, while others, have never been kissed? What's the solution? Fortunately for us, recent advances in evolutionary psychology, biology, and social science have managed to shine some light on these questions, and unlock the formula for charisma. The trick lies in understanding that, the female brain was tuned (thousands of years ago) to look for a certain set of male characteristics. At a subconscious level, a woman's brain is always observing a man--taking note of his body language, the gaze of his eyes, his voice, his touch, his way with words, and the way he carries himself across a crowded room. The message a man conveys with these little behaviors, is known as his "nonverbal communication." Mastering this type of communication, approaching women, engaging in small talk, and parlaying an encounter into a romance, is a delicate undertaking--sometimes called the "Art of Seduction." There is much to learn in this domain. But, fortunately, we've crammed this book full of practical information, and proven strategies--designed to teach you exactly how to instantly connect with a woman--on a deeper level. This book will teach you how to develop magnetic charisma and confidence! You will learn: How to make a first impression that counts--and makes her instantly curious to learn more about you. How to become more articulate, well-spoken, and make witty small talk, effortlessly. Learn the cure for "never knowing what to say" to a woman you just met. The one conversation technique that is guaranteed to get her instantly interested in you. The biological basis of confidence, how it kept your ancestors alive, and how to develop it within yourself. How to utilize eye contact, and the power of your voice, to seize female attention, and woo the woman of your dreams. How to avoid the dreaded "Friend Zone," and use your touch and masculine energy to spark the fires of sexual tension, and keep her interested in you. Even if you're not the best-looking guy in the world, this is largely irrelevant. Because it takes more than a pretty face to attract a woman. As Casanova himself wrote in 1821: "I was not handsome, but I had something better than beauty--a striking expression--which almost compelled an affectionate interest in my favor, and I felt myself ready for anything... A most unwavering feeling of self-esteem...enhanced wonderfully my confidence in myself." Wouldn't it be great to have this level of confidence? Thankfully, with a little training, anyone can be a Casanova. Ready to learn more? If you want to become more charismatic and charming to women, then scroll up and click the Buy Button now!

Irresistible Masculine Sexappeal - Caeden Connor 2018-05-09

To be irresistibly attractive to women. That would be rad, wouldn't it?

You see other men working their magic, and you wonder just how they know just what to do. Well, I'll tell you one thing for certain: they weren't born with it. Attraction, believe it or not, is more of a skill than a born personality trait, and you can acquire it, too. The secret lies in understanding exactly what a woman wants, and learning how to give it to her. We have all been taught wrong since we were children about what females find attractive. It's impossible to make them want you when you have no idea what you want. But advice from someone who has plenty of experience attracting women could change everything for you, teaching you what to do in order to make yourself irresistible. I am a man that women naturally find attractive, and I have seduced many women over the years, learning many tricks along the way. I know how their minds work, what makes them tick. I know what they want and what they don't want, and I am willing to share that information with you. Finally, you will know what you've been doing wrong. You will know what things you need to start doing, and which habits you need to kick. Prepare yourself to be the most attractive man in any room, no matter what you look like. The subtleties of what a woman finds attractive is enough information to fill a book-which is exactly what I've done. But this is no ordinary book. This book compiles years of built knowledge on female attraction, both from my own experience and from my observations, and contains everything you should have been taught as a young boy but never were. Say goodbye to bumbling over your sentences and worrying about your appearance, and wondering why she wandered away after you said hello. After reading this book, you will be so confident in your own ability to sweep a lady off your feet that you won't ever have to ask those kinds of questions again. And that confidence will carry over into all areas of your life, bolstering your self-assurance and your charm in the workplace and social situations. Can it really be that simple? Yes, and no. Don't be fooled-it will take hard study and a lot of practice. But you can learn the subtleties of female attraction just as easily as you can learn anything else. So, yes, female attraction is complex. But just a few secrets will unlock a whole new world for you-a world of irresistible attraction. So, what are you waiting for? Quit being the schmuck standing in the corner, baffled as to why women won't give him a second glance, and be the one who has women coming to him, like bees to honey. The power is right there in front of you, just reach out and take it.

Studying Transcultural Literary History - Gunilla Lindberg-Wada 2012-03-12

In our globalised world, literature is less and less confined to national spaces. Europe-centred frameworks for literary studies have become insufficient; academics are increasingly called upon to address matters of cultural difference. In this unique volume, leading scholars discuss the critical and methodical challenges that these developments pose to the writing of literary history. What is the object of literary history? What is the meaning of the term "world literature"? How do we compare different cultural systems of genres? How do we account theoretically for literary transculturation? What are the implications of postcolonial studies for the discipline of comparative literature? Ranging in focus from the Persian epic of Majnun Layla and Zulu praise poetry to South Korean novels and Brazilian antropofagismo, the essays offer a concise overview of these and related questions. Their aim is not to reach a consensus on these matters. They show instead what is at stake in the emergent field of global comparatism.

Metaphysical Animals - Clare Mac Cumhail 2022-02-03

WINNER OF THE HWA NON-FICTION CROWN AN IRISH TIMES BOOK OF THE YEAR A NEW YORK TIMES BOOK REVIEW NOTABLE BOOK A FINALIST FOR THE NATIONAL BOOK CRITICS CIRCLE AWARD

Elizabeth Anscombe: defiantly brilliant, chain-smoking, trouser-wearing Catholic and (eventual) mother of seven. Philippa Foot: pathologically discreet, quietly rebellious granddaughter of a US president. Mary Midgley: witty scholar and careful observer of humans and animals alike. Iris Murdoch: aspiring novelist and Francophile with the power to seduce (almost) anyone. Written with expertise and flair, *Metaphysical Animals* is a vivid portrait of the endeavours and achievements of these four remarkable women. As undergraduates at Oxford during the Second World War, they shared ideas (as well as shoes, sofas and lovers). From the disorder and despair of war, they went on to breathe new life into philosophy, creating a radically fresh way of thinking about freedom, reality and human goodness that is there for us today.
