The Use of Media Technologies in Long-distance Relationships - Paola P. Soto Herrera 2018

"Communication technologies have helped reduce personal distances and stay connected. This study pursued the following questions: What are the most popular media used to communicate in long-distance relationships? Are those in long-distance relationships more likely to use rich or lean media? Do family, friends, and romantic partners differ in their selection of media? Instant Messaging, social media (Instagram, Facebook, Twitter, Snapchat), telephone (cellular, mobile, or landline), online video chat, online audio chat, SMS, and regular mail were the most used media. Respondents

were significantly more likely to use rich media. Romantic partners were more likely than either family or friends to use Instant messaging, the telephone, audio chat, and video chat. Additional findings are presented."--Abstract.

About the Expert Bethany Wilson is a December 2010 graduate from Berea College in Berea, Kentucky. She obtained her Bachelor of Arts degree in Child Development. During her entire time in college she was engaged, her and her fiancé Josh decided to give a long distance relationship a go. From the beginning of her college career throughout the completion and still to this day they are together. With nearly three hundred miles between her and Josh they had to get creative in order to keep the relationship alive. When they first began the relationship after Bethany got to college they would talk on the phone for hours each day about a little bit of nothing but that gradually

got tiresome. Bethany and Josh had to find new things to keep their relationship interesting. At first they started using webcam communications but that was short lived because the college cut the bandwidth that was allowed to the students making it almost impossible to webcam one another. They tried almost all of the techniques that are mentioned in this book. There were many different things that was brought up by other people trying to make them break up, but that never worked because Bethany and Josh have a bond stronger than words of others. Now that Bethany is out of college, she and Josh is no longer on a long distance relationship status because they are just a few minutes apart and are looking forward to their future and in the process of planning their wedding. Their long distance relationship helped them both mature and develop the ways that the communicate to the point that they both seem as if they are ten years older than they really are in the case of communication strategies. When things would seem dire within the relationship they would sit down and talk it out either on the internet, phone, or text messaging and get past the situation. Long Distance Love - HowExpert 2016-09-11

If you want to make your long distance relationship work, then get this step by step guide by someone who has that EXACT experience in real life. As with any relationship, a long distance relationship involves more than just the two people trying to make it in a difficult and strenuous relationship. It involves family, friends and all people who care about us. Because long distance relationships can be especially stressful, I offer a step-by-step guide to negotiating different aspects of the relationship. In my book, I discuss tips and guidelines that will help with each phase of the relationship from meeting to courtship. I interject personal stories and asides regarding my UK to US romance in a way that showcases the human side of the advice that is always easier to offer than to truly apply. Advice includes:

- What to consider entering a long distance relationship.
- How to find love and decide whether or not a connection is worth fighting for as it is maintained through a long

distance relationship.

- Establishing the objectives and logistics involved in seeing through an online relationship to a successful outcome.
- How to trust and rely on a partner you are no with in the flesh. What to consider before committing to an online relationship and how to tackle feelings of mistrust and insecurity.
- Modern courtship and how to negotiate meeting the family and courting a long distance partner in an already difficult situation.
- Coping with the distance and loneliness involved in a long distance relationship.
- Preparing for the big day and changes that lie after working to be together with a long distance partner at last. As a long distance relationship forms and progresses, there are many obstacles, which require being addressed. My guide describes the stages of the relationship and the stages of planning a long distance relationship must undergo in order to succeed. About the Expert

Having been in a long distance relationship more than once, I am all too familiar with the obstacles and concerns of everyone involved. Long distance relationships are something my family had to cope with as being part of a wave of the future. The ease of communication in the modern age also makes it easier to develop strong emotional attachment to people you can't since. My behavior initially made my family confused when I began expressing myself through online communication and relationships. While I did not expect to find love, let alone fight for it as I did, it was worth it in the end to see it succeed.
