The Girl Scouts at Camp Comalong, Or, Peg of Tamarack Hills Lilian Garis 2017-08-11 Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

How to Keep Your Children Safe Yvonne Marie Vissing 2006 Winner of the New England Sociological Association Sociologist of the Year (2008) Life in contemporary American society requires that children spend considerable time in the care of "other people." These people include teachers, coaches, babysitters, camp counselors, ministers, neighbors, friends, and extended family. While most people who work with children do a good job, some caregivers fail to adequately care for kids, while others actually put them in harm's way. Parents may assume that caregivers of all kinds are uniformly evaluated and "approved," but this is not always the case. American society, despite a superficial rhetoric of concern for children, has not instituted strong national, state, or local safety nets to protect them. And because there is no comprehensive commitment to ensure child safety, there is no systematic, or even partial, oversight of adults charged with their care. As a result, parents are put in the difficult position of deciding whether caregivers of all kinds are sufficiently skilled and responsible to look after children. *How to Keep Your Children Safe* is essential reading for any parent concerned about child safety. It takes a hard look at the hidden side of children's lives--the times when they're in contact with caregivers who aren't doing their jobs properly. It provides detailed information on places where children are under the care of others, including day care, recreational settings, religious and civic organizations, schools, and summer camps. Vissing investigates the potential perils of each setting and enumerates ways in which parents can better monitor, or take control of, their child's safety. By writing a realistic assessment of commonplace settings that every parent and child can relate to, and offering a road map to child safety, Vissing empowers parents to make critical decisions about their children's lives.
