Toward a Magnificent Self - Tami Anastasia 2002-02

Using Bibliotherapy in Clinical Practice - John T. Pardeck 1993-10-26

Pardeck provides mental health professionals with readily available information on self-help books that can be effectively used with various clinical problems. The materials presented can also be used by those not necessarily trained in clinical intervention; this group would include parents, teachers, and librarians. The approach offered--bibliotherapy--is an emerging clinical technique. There are over 400 self-help books presented and annotated that focus on chemical dependency, coping with change, family violence and dysfunctional families, parenting, personal growth, serious illness, social relationships, and divorce and blended families.

Walking Through Walls - Lee L. Jampolsky 2011-05-25

WALKING THROUGH WALLS is a no-nonsense handbook for the spiritual seeker with little time for a lengthy philosophical treatise--and even less energy for a "taking a lifetime for enlightenment" self-help book. Psychologist and author Lee Jampolsky offers an eight-week course that gets right down to the business of accelerating personal growth. Each week Jampolsky focuses on one of eight traits that are compatible with every great spiritual tradition: honesty, tolerance, gentleness, joy, defenselessness, generosity, patience, and open-mindedness. Cutting through the fog of typically lofty and unreachable self-help goals, WALKING THROUGH WALLS presents a realistic and attainable plan for personal development. A practical eight-week program that is broken down into lessons that incorporate eight important traits into everyday living. Each lesson is further broken down into exercises, affirmations, and meditations. Lee Jampolsky's HEALING THE ADDICTIVE MIND has sold 65,000 copies. From the Trade Paperback edition.

Addicted to Love - Lacy Alajna Bentley 2019-05-07

Addicted to Love is a roadmap to recovery and healthy relationships for female sex and love addicts. It's hard to imagine love without the pain. Women who live with love addiction are a unique breed having learned to cope in a sex-driven world by finding their worth in sexuality and being wanted. The human need for lasting, meaningful relationships is constantly sabotaged by these women's own behaviors on top of events outside their control. In Addicted to Love, Lacy A. Bentley—a woman who has been there—introduces her own recovery journey with courageous honesty to guide other women on their paths to recovery. Each chapter focuses on a different trait of emotional health and teaches women to integrate that trait in a workbook-style format. Lacy shows them how to secure their romantic heart, love like they were meant to, and break free from compulsive patterns, while presenting new ways of seeing day-to-day patterns. Every word guides brave women into the relationships they truly want and deserve—without excuses, compulsions, or addiction in the recovery roadmap of the future.

Diversity and Development - Dana Comstock 2005

At its heart, the book, based on Relational-Cultural theory, addresses various topics and critical contexts as they relate to human growth and development and stresses relational development, critical thinking and the central theme of how shame plays into development.

Addictive Thinking - Abraham J Twerski 2009-06-03

The unpredictability and anxiety associated with the coronavirus pandemic can cloud and confuse everybody's thinking. Excuses, self-deception and addictive logic can harm your recovery and relationships. Don't let it. Author Abraham Twerski reveals how self-deceptive thought can undermine self-esteem and threaten the sobriety of a recovering individuals and offers hope to those seeking a healthy and rewarding recovery. Abnormal thinking in addiction was originally recognized by members of Alcoholics Anonymous, who coined the term "stinking thinking." Addictive thinking often appears rational superficially, hence addicts as well as their family members are easily seduced by the attendant--and erroneous--reasoning process it can foster. In Addictive Thinking, author Abraham Twerski reveals how self-deceptive thought can undermine self-esteem and threaten the sobriety of a recovering individual. This timely revision of the original classic includes updated information and research on depression and affective disorders, the relationship between addictive thinking and relapse, and the origins of addictive thought. Ultimately, Addictive Thinking offers hope to those seeking a healthy and rewarding life recovery.

The Craving Mind - Judson Brewer 2017-03-07

A leading neuroscientist and pioneer in the study of mindfulness explains why addictions are so tenacious and how we can learn to conquer them We are all vulnerable to addiction. Whether it's a compulsion to constantly check social media, binge eating, smoking, excessive drinking, or any other behaviors, we may find ourselves uncontrollably repeating. Why are bad habits so hard to overcome? Is there a key to conquering the cravings we know are unhealthy for us? This book provides groundbreaking answers to the most important questions about addiction. Dr. Judson Brewer, a psychiatrist and neuroscientist who has studied the science of addictions for twenty years, reveals how we can tap into the very processes that encourage addictive behaviors in order to step out of them. He describes the mechanisms of habit and addiction formation, then explains how the practice of mindfulness can interrupt these habits. Weaving together patient stories, his own experience with mindfulness practice, and current scientific findings from his own lab and others, Dr. Brewer offers a path for moving beyond our cravings, reducing stress, and ultimately living a fuller life.

Ready to Heal - Kelly McDaniel 2008

Stop engaging in relationship patterns that sabotage happiness and self-respect

The Kindness Habit - Christopher Dines 2016-06-07

The Kindness Habit is a warm, compassionate and open dialogue between Christopher Dines, Dr Barbara Mariposa and an anonymous fellow traveller on the road to recovery. The authors share their experience of letting go of "false friends" (addictive behaviours) and their understanding of the healing process as it applies to all of us. This space of acceptance, kindness and authenticity makes it possible for their new-found friend to start speaking from the heart about their own situation, thereby catalysing their own healing journey. As so many people experience shame, self-blame, and secrecy around their and others' addictions, the book is written with the intention to make it safer for all of us in psychological pain to speak up and seek help. Rather than finding fault with and blaming the individual, the book aims to put addictions in the wider context of the human condition. Mental illness is at an all-time high, and addictive behaviours are but one manifestation of deeper unrest within societies. The authors invite readers far and wide, whether touched by addictions personally or not, to engage in the conversation and find their truth, and hopefully some refuge.

Respect the Path - Michele Noel 2022-06-10

Respect the Path is a gritty truth-telling companion book to any 12-Step Addiction Recovery effort for women. It is also a must-read for any woman who lives with or loves an addict and has suffered the abuses involved in such a relationship. Generally focused on the broad diversity of the Christian community, Michele pushes back on traditional Christian judgments about the "good or bad" direction anyone's path is

currently taking. Working with women in over a thousand group and individual meetings has taught Michele that even the most depraved addict or the most horribly abused woman can find health and healing for her body, mind, and soul. "The Recovery path is grueling, exhausting, powerful, and glorious. Truth is, gloriousness can only come from growing out of that deprivation. Every path is simply a valued, vital part of uncovering the magnificence that already existed within every woman. Work the path—believe that your path has value, no matter what! Yet valuing the path does not grant permission to stew in the juices of self-pity, blame, or self-righteous rationalizations. Rather, we dig deep for that dormant power of Queenship and go to work. We change ourselves and the world one day at a time. Respecting the path requires us to open our minds to new concepts and ideas about how we think about what we are thinking about." Michele has seen just as many lives brought to the brink of destruction by repetitive negative thinking patterns as by the ravages of any substance or behavioral addiction. Addiction patterns and negative thinking patterns can be overcome because the brain has a God-given healing power. God is in this work! Michele uses the term addiction in a broad non-condemning sense because ownership and accountability are essential to healing and finding the joy of Recovery. "The term addiction becomes our friend, our instructor—not a shame label—and it certainly does not define who we are. Rather, it is merely the path we have trod." Michele's favorite self-title is Addict-in-Recovery.

The Addictive Personality - Craig Nakken 2009-09-29

Craig Nakken brings new depth and dimension to our understanding of how an individual becomes an addict. Since its publication in 1988, *The Addictive Personality* has helped people understand the process of addiction. Now, through this second edition, author Craig Nakken brings new depth and dimension to our understanding of how an individual becomes an addict. Going beyond the definition that limits dependency to the realm of alcohol and other drugs, Nakken uncovers the common denominator of all addiction and describes how the process is progressive. Through research and practical experience, Nakken sheds new light on: Genetic factors tied to addiction; Cultural influences on addictive behavior; The progressive nature of the disease; and Steps to a successful recovery The author examines how addictions start, how society pushes people toward addiction, and what happens inside those who become addicted. This new edition will help anyone seeking a better understanding of the addictive process and its impact on our lives.

Healing the Addictive Personality - Lee L. Jampolsky 2011-06-22

Since 1991, Dr. Lee Jampolsky's self-help classic *Healing the Addictive Mind* has given well over 100,000 people around the world the tools to create significant change in their lives. Now he continues his proven and trustworthy blend of practical and positive psychology with HEALING THE ADDICTIVE PERSONALITY. Dr. Jampolsky's straightforward approach, based on firsthand experience, presents ways of healing addictive thinking, behavior, and destructive relationship patterns with forgiveness, compassion, and the potential for limitless opportunity through an eleven-week action plan. A personal note from the author: "Many people live in a self-imposed prison and don't even know it. I did. For years I was so busy building walls I did not see that I was imprisoning myself behind them. My addictive thinking and behavior became the bars of my cell. I denied feeling empty inside and instead looked for new things to acquire, substances to take, and goals to achieve in order to feel better about myself. Sometimes I felt momentarily free, powerful, and whole, but in the end my addictive cycle only compounded my loneliness and despair. If you recognize this pattern in yourself, this book is addressed to you. Today, I am able to tell you I now know what true freedom and happiness are and I offer the path that I intend to follow every day of my life." Reviews: "This 178 page book is a miraculous Godsend because it goes deep to expose the profile of the addictive personality, and then broadens from there to show us how to recognize the characteristics of the addictive personality and understand why it develops in the first place. The layout of this awesome teacher helped me to see how I can go from a place of addictive thinking to having a truth-based personality. I liked how the negative core beliefs were laid bare, and the healthy counterparts were readily available because many times there is denial associated with addiction and it helped me see the true man behind the curtain and not just the illusions I have been living with. The cunning foe of addiction has become such a part of our society that I would recommend this crucial and charming champion to anyone at any stage of their spiritual growth and development. This precious gem will help many on the path to serenity and it has found its way to my spiritual toolbox. Thanks, Dr. Lee for this most excellent way out.—Riki Frahmman
