The Kinder, Gentler Military - Stephanie Gutmann 2000

Hollywood and the Military Bureaucracy - Bob Herzberg 2021-04-16

Through a century of movies, the U.S. military held sway over war and service-oriented films. Influenced by the armed forces and their public relations units, Hollywood presented moviegoers with images of a faultless American fighting machine led by heroic commanders. This book examines this cooperation with detailed narratives of military blunders and unfit officers that were whitewashed to be presented in a more favorable light. Drawing on production files, correspondence between bureaucrats and filmmakers, and contemporary critical reviews, the author reveals the behind-the-scenes political maneuvers that led to the rewriting of history on-screen.

The Game - Neil Strauss 2005

According to Strauss, the clandestine society of men he describes here take wagers in clubs and bars throughout the Western world over just who can chalk up the most Casanova-like quantities of pickups and seductions. But this isn't merely for the thrill of an army of sexual conquests -- all of this is coded and organised according to an almost military-style ritual, with an elaborate series of rules and regulations that the participants rigorously follow. Strauss went undercover in this glamorous world, and learned the secrets of these top-drawer seducers.

Fight Like a Girl - Kate Germano 2018-04-03

One woman's professional battle against systemic gender bias in the Marines and the lessons it holds for all of us. The Marine Corps continues to be the only service where men and women train separately in boot camp or basic training. This segregation negatively affects interaction with male marines later on, and, lower expectations of female recruits are actively maintained and encouraged. But Lieutenant Colonel Kate Germano arrived at the Fourth Recruit Training Battalion at Parris Island--which exclusively trains female recruits--convinced that if she expected more of the women just coming into Corps, she could raise historically low standards for female performance and make women better Marines. And, after one year, shooting qualifications of the women under her command equaled those of men, injuries had decreased, and unit morale had noticeably improved. Then the Marines fired her. This is the story of Germano's

struggle to achieve equality of performance and opportunity for female Marines against an entrenched male-dominated status quo. It is also a universal tale of the effects of systemic gender bias. Germano charges that the men above her in the chain of command were too invested in perpetuating the subordinate role of women in the Corps to allow her to prove that the female Marine can be equal to her male counterpart. She notes that the Marine Corps' \$35-million gender-integration study, which shows that all-male squads perform at a higher level than mixed male-female squads, flies in the face of the results she demonstrated with the all-female Fourth Battalion and raises questions about the Marine Corps' willingness to let women succeed. At a time when women are fighting sexism and systemic bias in many sectors of society, Germano's experience has wide-ranging implications and lessons--not just for the military but also for corporate America, the labor force, education, and government.

Women and War in the Twentieth Century - Nicole A. Dombrowski 2004-11-23

First published in 2005. This volume documents women's 20th century wartime experiences from World War I through the recent conflicts in Bosnia. The articles cross national boundaries including France, China, Peru, Guatemala, Germany, Bosnia, the U.S. and Great Britain.. The contributors of these original essays trace the evolution of women's roles as victims of war while also showing how they have been increasingly incorporated into battle as actors and perpetrators. These comparative studies analyze war's disruptions of daily life, its effects on children, rape as a war crime, access to equal opportunity, and women's resistance to violence.

War, Police and Assemblages of Intervention - Jan Bachmann 2014-11-13

This book reflects on the way in which war and police/policing intersect in contemporary Western-led interventions in the global South. The volume combines empirically oriented work with ground-breaking theoretical insights and aims to collect, for the first time, thoughts on how war and policing converge, amalgamate, diffuse and dissolve in the context both of actual international intervention and in understandings thereof. The book uses the caption WAR:POLICE to highlight the distinctiveness of this volume in presenting a variety of approaches that share a concern for the assemblage of war-police as a whole. The volume thus serves to bring together critical perspectives on liberal interventionism where the logics of war and police/policing blur and bleed into a complex assemblage of WAR:POLICE. Contributions to this volume offer an understanding of police as a technique of ordering and collectively take issue with accounts of the character of contemporary war that argue that war is simply reduced to policing. In contrast, the contributions show how - both historically and conceptually - the two are 'always already' connected. Contributions to this volume come from a variety of disciplines including international relations, war studies, geography, anthropology, and law but share a critical/poststructuralist approach to the study of international intervention, war and policing. This volume will be useful to students and scholars who have an interest in social theories on intervention, war, security, and the making of international order.

Soldaderas in the Mexican Military - Elizabeth Salas 2010-07-04

This study explores the evolving role of women soldiers in Mexico—as both fighters and cultural symbols—from the pre-Columbian era to the present. Since pre-Columbian times, soldiering has been a traditional life experience for innumerable women in Mexico. Yet the many names given these women warriors—heroines, camp followers, Amazons, coronelas, soldadas, soldaderas, and Adelitas—indicate their ambivalent position within Mexican society. In this original study, Elizabeth Salas challenges many traditional stereotypes, shedding new light on the significance of these women. Drawing on military archival data, anthropological studies, and oral history interviews, Salas first explores the real roles played

by Mexican women in armed conflicts. She finds that most of the functions performed by women easily equate to those performed by revolutionaries and male soldiers in the quartermaster corps and regular ranks. She then turns her attention to the soldadera as a continuing symbol, examining the image of the soldadera in literature, corridos, art, music, and film. Salas finds that the fundamental realities of war link all Mexican women, regardless of time period, social class, or *nom de guerre*.

Military Women in World Cinema - Deborah A. Deacon 2023-08-07

From British soldier Flora Sandes to the famed World War II Night Witches of the Soviet Air Force, women across the globe have stepped up to defend their countries during every major and minor conflict of the twentieth century, and filmmakers have long attempted to capture their stories. This book analyzes these military women's portrayals in world cinema, examining movies from Israel, the United Kingdom, Italy, the United States, Japan and others. It includes theatrical releases, direct-to-video productions, and made-for-television films. Chapters organize films by decade produced, and topics covered include the women's sexuality, maternal and marital status; leadership skills; actual jobs performed; and the accuracy of depiction. The book also discusses how each film reflects the contemporary social issues of the nation in which it was produced.
