Late Chrysanthemum 2016-02-03 This collection of Japanese short stories reveals a rapidly changing Japanese society and the deep draw of its traditional culture. The first half of this century saw the coming of age of the Japanese short story. Influenced by Western literary techniques, such innovative writers as Shiga Naoya, Ozaki Shiro, Yasunari Kawabata, Shimaki Kensaku, Hayashi Fumiko, Dazai Osamu, and (somewhat later) Kobo Abe reassessed the Japanese story tradition and brought new vigor to the uniquely Japanese sense of the detail and natural context of everyday life. The works of these writers stand at the center of modern Japan's literary development. Despite their differences, it is the simplicity and purity of their natural images-sultry late-summer days, cicadas, lizards, and the sounds of life's routines-that more than anything anchor the emotions and perceptions of their stories. For *A Late Chrysanthemum*, translator and editor Lane Dunlop has selected twenty-one stories by these seven intriguing and influential authors to convey the depth and range of the modern Japanese story, a discriminating selection which, in Dunlop's sure and masterful English renderings, won this book the Japan-United States Friendship Award for Literary Translation.

The Cat and The City Nick Bradley 2020-06-04 A BBC Radio 2 Book Club Pick 'Ingenious ... touching, surprising and sometimes heartbreaking.' Guardian 'If you're itching to read a new novel by David Mitchell ... try this.' The Times _____ In Tokyo - one of the world's largest megacities - a stray cat is wending her way through the back alleys. And, with each detour, she brushes up against the seemingly disparate lives of the city-dwellers, connecting them in unexpected ways. But the city is changing. The cat orbits Tokyo's denizens, drawing them ever closer. Fudoki Kij Johnson 2004-10-01 In her skillful debut novel, Kij Johnson took the classic Japanese myth of the fox who dared to become a woman to win true love and created The Fox Woman, a luminous, lyrical tale of love, desire, joy, and the nature of the soul. Set in the same universe as The Fox Woman, this time Kij Johnson takes on another animal totem and enters the world of the creature who comes to be known as Kagaya-hime, a sometime woman warrior, occasional philosopher, and reluctant confidante to noblemen. And who may or may not be the figment of the imagination of an aging empress who is embarking on the last journey of her life, setting aside the trappings of court life and reminiscing as she follows the paths that are leading her to the nunnery and death. Fudoki is the tale of a being who starts her journey on the kami, or spirit road, as a humble-if ever a being such as a Cat can be humble-small tortoiseshell feline. She has seen her family destroyed by a fire that decimated most of the Imperial city. This loss renders her taleless, the only one left alive to pass on such stories as The Cat Born the Year the Star Fell, the Cat with a Litter of Ten, the Fire-Tailed Cat. Without her fudoki-self and soul and home and shrine-she cannot keep the power of her clan together. And she cannot join another fudoki because, although she might be able to win a place within another clan, to do so would mean that she would cease to be herself. So a small cat begins an extraordinary journey. Along the way she will attract the attention of old and ancient powers, including gods who are curious about this creature newly come to Japan's shores, and who choose to give the tortoiseshell a human shape. And who set her on a new kami road, where Kagaya-hime will have to choose a way to find what happiness she can. Weaving a haunting story of one being's transformation and journey of discovery with the telling of another's long life set against the backdrop of the courtly rituals of Imperial power, Kij Johnson has written a powerful novel about the nature of freedom and the redemptive power of transformation--if only one is brave enough to risk it all. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Watching Anime, Reading Manga Fred Patten 2004 Anime's influence can be found in every corner of American media, from film and television to games and graphic arts. And Fred Patten is largely responsible. He was reading manga and watching anime before most of the current generation of fans was born. In fact, it was his active participation in fan clubs and his prolific magazine writing that helped create a market and build American anime fandom into the vibrant community it is today. *Watching Anime, Reading Manga* gathers together a quarter-century of Patten's lucid observations on the business of anime, fandom, artists, Japanese society and the most influential titles. Illustrated with original fanzine covers and archival photos. Foreword by Carl Macek (Robotech). Fred Patten lives in Los Angeles. "Watching Anime, Reading Manga is a worthwhile addition to your library; it makes good bathroom browsing, cover-to-cover reading, and a worthwhile reference for writing or researching anime and manga, not to mention a window into the history of fandom in the United States." -- SF Site

An English Girl in Japan Ella M. Hart Bennett 2022-06-03 This is a delightful little memoir about Ella M. Hart Bennett's time as an English girl in Japan with her father. Published in 1906, these sketches of her life in Japan and the voyage were taken from a diary she kept during her travels. Born as Ella Mary Tuck, Hart reveals some details of her roots in this work. She was the daughter of an English ambassador during the mid-19th century in Japan. Hart traveled with her father, and in this travelogue, and talks about her life in this unexplored land. She describes her first friend in her new situation, her travel experiences through New York and the Rocky Mountains, her assumptions of Japanese people, particularly women and children. This book is an interesting look into the social history of the imperial politics of that time, the spirit of womanhood in the East and the West, and it also delivers valuable insights into how wisdom develops through traveling.

The Handbook of East Asian Psycholinguistics: Volume 2, Japanese Mineharu Nakayama 2006-08-31

A large body of knowledge has accumulated in recent years on the cognitive processes and brain mechanisms underlying language. Much of this knowledge has come from studies of Indo-European languages, in particular English. Japanese, a language of growing interest to linguists, differs significantly from most Indo-European languages in its grammar, its lexicon, and its written and spoken forms - features which have profound implications for the learning, representation and processing of language. This handbook, the second in a three-volume series on East Asian psycholinguistics, presents a state-of-the-art discussion of the psycholinguistic study of Japanese. With contributions by over fifty leading scholars, it covers topics in first and second language acquisition, language processing and reading, language disorders in children and adults, and the relationships between language, brain, culture, and cognition. It will be invaluable to all scholars and students interested in the Japanese language, as well as cognitive psychologists, linguists, and neuroscientists.

Traditional Monster Imagery in Manga, Anime and Japanese Cinema Zília Papp 2010-10-29 *Traditional Monster Imagery in Manga, Anime and Japanese Cinema* builds on the earlier volume *Anime and its Roots in Early Japanese Monster Art*, that aimed to position contemporary Japanese animation within a wider art historical context by tracing the development of monster representations in Edo- and Meiji-period art works and post-war visual media. While the previous volume concentrated on modern media representations, this work focuses on how Western art historical concepts and methodology might be adapted when considering non-Western works, introducing traditional monster art in more detail, while also maintaining its links to post-war animation, sequential art and Japanese cinema. Topsy-turvy 1585 Robin D. Gill 2004 In 1585, Luis Frois, a 53 year old Jesuit who spent all of his adult life in Japan listed 611(!) ways Europeans and Japanese were contrary (completely opposite) to one another. Robin D. Gill, a 53 year old writer who spent most of his adulthood in Japan, translates these topsy-turvy claims - we sniff the top of our melons to see if they are ripe / they sniff the bottom of theirs (10% of the book), examines their validity (20% of the book), and plays with them (70% of the book). Readers with the intellectual horsepower to enjoy ideas will be grateful for pages discussing things like the significance of black and white clothing or large eyes vs. small ones, while others with a keen eye to collect quirky facts will be delighted to find, say, that the women in Kyoto were known to urinate standing up, or Japanese horses had their stale gathered by long-handled ladles, etc., and serious students of history and comparative culture will gain a better understanding of the nature of radical difference (exotic, by definition) and its relationship with the farsighted policy of accommodation pioneered by Valignano in the Far East.
