[The 48 Laws of Power](#) - Robert Greene 2000-09-01

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of The Laws of Human Nature. In the book that People magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, The 48 Laws of Power is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

**Attached** - Amir Levine 2012-01-05

"Over a decade after its publication, one book on dating has people firmly in its grip." —The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book,

psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. *Attached* guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.

**Insecure in Love** - Leslie Becker-Phelps 2014-06-01

Has your romantic partner called you clingy, insecure, desperate, or jealous? No one wants to admit that they possess these qualities; but if you find yourself constantly on the alert, anxious, or worried when it comes to your significant other, you may suffer from anxious attachment, a fear of abandonment that is often rooted in early childhood experiences. In *Insecure in Love*, you'll learn how to overcome attachment anxiety using compassionate self-awareness, a technique that can help you recognize your negative thoughts or unhealthy behavior patterns and respond to them in a nurturing way—rather than beating yourself up. You'll also learn how insecurity can negatively affect healthy dialog between you and your partner (or potential partners) and develop the skills needed to stop you from reverting back to old patterns of neediness and possessiveness. If you suffer from anxious attachment, you probably know that you need to change, and yet you have remained stuck. With compassionate self-awareness, you can successfully explore old anxiety-perpetuating perceptions and habits without being overwhelmed or paralyzed by them. By understanding the psychological factors at the root of your attachment anxiety, you will learn to cultivate secure, healthy relationships to last a lifetime. If you're ready to stop getting stuck in the same hurtful relationship patterns and finally break the cycle of heartache, this book can show you how to get the love you deserve—and keep it!

**Models** - Mark Manson 2017-09-11

"You can become irresistibly attractive to women without changing who you are." So says Mark Manson, superstar blogger and author of the international bestseller, *The Subtle Art of Not Giving A F\*ck*, a self help book that packs a punch. Mark brings the same approach to teaching men what they need to know about attracting women. In *Models* he shows us how much it sucks trying to attract women using the tricks and tactics recommended by other books. Instead, he says, men need to focus on seduction as an emotional process not a physical or social one. What matters is the intention, the motivation, the authenticity. To improve your dating life you must improve your emotional life - how you feel about yourself and how you express yourself to others. Funny, irreverent and confronting, *Models* is a mature and honest guide on how a man can attract women by giving up the bullsh\*t and becoming an honest broker. "A detailed guide to modern sexual ethics" *Sydney Morning Herald* "There's nothing subtle about Mark Manson. He's crude and vulgar and doesn't give a f\*ck . . . He's as painfully honest as he is outrageously funny" *Huffington Post*
