*Boy and Girl Tramps of America* - Thomas Minehan 2023-01-27

In 1933 and 1934, Thomas Minehan, a young sociologist at the University of Minnesota, joined the ranks of a roving army of 250,000 boys and girls torn from their homes during the Great Depression. Disguised in old clothes, he hopped freight trains crisscrossing six midwestern states. While undercover, Minehan associated on terms of social equality with several thousand transients, collecting five hundred life histories of the young migrants. The result was a vivid and intimate portrayal of a harrowing existence, one in which young people suffered some of the deadliest blows of the economic disaster. *Boy and Girl Tramps of America* reveals the poignant experiences of American youth who were sent out on the road by grinding poverty, shattered family relationships, and financially strapped schools that locked their doors. For these young people, danger was a constant companion that could turn deadly in an instant. The book

documents the hunger and hardships these youth faced, capturing an appalling spectacle and social problem in America's history before any effort was made to meet the problem on a nationwide basis by the federal government. *Boy and Girl Tramps of America* is a work unique in its ability to extend beyond statistical analyses to uncover the opinions, ideas, and attitudes of the boxcar boys and girls. Originally published in 1934, it remains highly relevant to the turbulent moments of the twenty-first century. This reprint features an introduction by scholar Susan Honeyman that puts the work into our current context.

**Bullies and Mean Girls in Popular Culture** - Patrice A. Oppliger 2013-09-19

The numerous anti-bullying programs in schools across the United States have done little to reduce the number of reported bullying instances. One reason for this is that little attention has been paid to the role of the media and popular culture in adolescents' bullying and mean-girl behavior. This book addresses media role models in television, film, picture books, and the Internet in the realm of bullying and relational aggression. It highlights portrayals with unproductive strategies that lead to poor resolutions or no resolution at all. Young viewers may learn ineffective, even dangerous, ways of handling aggressive situations. Victims may feel

discouraged when they are unable to handle the situation as easily as in media portrayals. They may also feel their experiences are trivialized by comic portrayals. Entertainment programming, aimed particularly at adolescents, often portray

adults as incompetent or uncaring and include mean-spirited teasing. In addition, overuse of the term "bully" and defining all bad behavior as "bullying" may dilute the term and trivialize the problem.
