Text Me When You Get Home - Kayleen Schaefer
2018-02-06

“Text Me has the thrills and laughs of a romantic comedy, but with an inverted message: ‘There just isn't only one love story in our lives,’ Schaefer writes. If you’re lucky, friends will be the protagonists in these multiple love stories. It’s high time that we start seeing

it that way.”—NPR.org A personal and sociological examination—and ultimately a celebration—of the evolution of female friendship in pop culture and modern society For too long, women have been told that we are terrible at being friends, that we can’t help being cruel or competitive, or that we inevitably abandon each other for romantic partners. But we are rejecting those stereotypes and reclaiming the power of female friendship. In *Text Me When You Get Home*, journalist Kayleen Schaefer interviews more than one hundred women about their BFFs, soulmates, girl gangs, and queens while tracing this cultural shift through the lens of pop culture. Our love for each other is reflected in Abbi and Ilana, Issa and Molly, #squadgoals,

the acclaim of *Girls Trip* and *Big Little Lies*, and *Galentine's Day*. Schaefer also includes her own history of grappling with a world that told her to rely on men before she realized that her true source of support came from a strong tribe of women. Her personal narrative and celebration of her own relationships weaves throughout the evolution of female friendship on-screen, a serious look at how women have come to value one another and our relationships. *Text Me When You Get Home* is a validation that has never existed before. A thoughtful, heart-soaring, deeply reported look at how women are taking a stand for their friendships and not letting go.

Love Sex and Relationship -

Razzab Shaikh 2014-12-05

Everybody has felt it at one time or another, be it for a person, pet, or even a non-living object. That feeling is love. Love is felt in different intensities; it may consume your whole being, or perhaps it's just a little crush. Some people search for what seem their whole lifetimes for love, whereas others may seem to fall in and out of love on a regular basis. Of course, here we are talking about people. We can love many things, but the love between two people is unique and special. Love is rarely defined because everyone experiences it

differently. What one person thinks is love, another may think is infatuation or vice versa. How does one know he or she is in love? How is it possible to distinguish between the love of romance and the love shared between friends? In order to understand love, we need to first understand the two major types of love: romantic love and friendship love. People often define romantic love based on its difference from friendship love. Would you kiss your friend? Perhaps, but it is not necessarily the things you do with your romantic partner that makes your love romantic. Romantic love is often confused with infatuation because it is so all-consuming. Romantic lovers are usually on each other's minds. A person may make decisions based on his or her romantic partner, such as whether or not to move to a different province for a job and leave his or her partner behind. People make large life decisions based on their romantic partners because they can't imagine life without

those people. Romantic love guides a person's mind and can sometimes cloud it as to what the right decision may be. After all, romantic love can be extremely selfless. The famous playwright, William Shakespeare, one of the greatest advocates for romantic love, alludes to romantic love as being like drunkenness in his play *The Tempest*. Like too much alcohol or happy drugs, romantic love takes over all senses in a person, and somewhat changes his or her outlook. A person in love romantically is often said to have a "permasmile" and is difficult to make unhappy. It is no wonder that most people seek out romantic love, rather than be content with the simple love shared between friends. The love of friendship is a milder type of love, as it does not consume a person's every waking moment with thoughts of the other person. Friendship love can often turn into romantic love, as it has many times throughout history, but the birth of romantic love between friends will often kill

the love of friendship. In other words, friends who become romantic lovers rarely can go back to being "just friends." Why is it that romantic love is so overpowering? The love of friendship can be very strong, but it is the emotional intensity of romantic love that forever changes the simplicity of the love between friends.

Friendship love does not have all the same guidelines that romantic love seems to have. Each friend couple may have a unique kind of love between each other. Girlfriends may have a different friendship love for each other than a male and female friend pair may have. The same goes for two male friends. Because of societal guidelines that have been in place for years, male-female friends may undergo a lot of pressure from other friends and family to turn their friendship love into romantic love. There is a line that friends may cross over, and to know that line is to know the difference between romantic love and friendship love. Friendship love is best

described as a warm feeling between people. A person naturally wants to be around her friend, as friends like to do things together. If your friend gets hurt, you want to help him; if your friend is angry, you get angry along with her. Friends who love each other want to make each other happy; they want to be there as confidants, cathartic outlets, and company. Friendship love is often compared to the love between siblings. In many cases, a sibling is just as good a friend as any.

Learn to Love Yourself Enough
- Andrew G. Marshall
2014-09-09

Create a wealth of self-worth. In a black-and-white world, there are two types of people—those who love themselves too much (and walk over everybody else) or hate themselves for failing to achieve goals (and probably end up being taken advantage of by others). But, according to British marital therapist, Andrew G. Marshall, neither has a healthy perception of oneself. This is because the secret to self-esteem does not lie in the extremes of love and

hate, but in the middle, in the gray area that teaches us to love ourselves just enough: enough to have love to offer others; enough to be open to receive love from others. Only when this kind of balance is created, can self-love exist. Like no other book on self-esteem ever written, *Learn to Love Yourself Enough* helps readers walk through life on middle ground by revealing the seven factors that, together, add up to a wealth of self-worth. Examine your relationship with your parents: Discover the six types of child-parent relationships and how to accept the legacy of your past. Find Forgiveness: Debunk the two myths about forgiveness and discover what can be gained from negative experiences. Don't let other people put you down: Recognize the five phases of projection and how understanding our own projections lead to better and happy relationships. Re-program your inner voice: Identify the three kinds of negative thinking that work

together to undermine self-confidence and whether they are based on fact or just opinion. Set realistic goals: Learn how perfectionism undermines self-esteem. Re-balance yourself: Understand that problems lurk in the extremes and why the middle way is the most successful way. Conquer Fears and Setbacks: Overcome the day-to-day problems that life and other people throw at us.

Trying to break free of her violent grips and come into his self is no easy task, when trapped in the triple stages of her darkness. Friends Into Lovers - Pamela Johnstone

Ah, the dreaded 'friend zone'... it's a situation where someone you're attracted to - and want to have a romantic and/or sexual relationship with - is only interested in you as a 'friend.' You don't know how you got there, you don't know why you got there, but you're there... and you want out!

Almost every guy, and even

many women, have been in a situation where they've wanted to be more than 'just friends' with another person. And yet, for some reason, nothing they've tried has worked. Moreover, they always have to tip-toe around the situation because they don't want to lose the friendship by making the wrong move. It truly is a horrible place to be stuck in...to be around someone, to be so close to them in proximity, and even share so much of your lives with each other... and yet, what you really want from them is off limits. Since you're reading this report, there is a very good chance that... a. you have a current friend that you'd like to turn into your lover and/or girlfriend, b. you used to date and/or sleep with someone who now wants to be 'just friends,' c. you have been in one of the above situations in the past, maybe more than once, and you'd like to learn how to avoid it from happening during your future interactions with others, or... d. you've seen this happen to other people, where they

end up in the 'friend zone'...and you want to be pre-emptive about it, so you can be prepared if it ever happens to you. Whatever your situation may be, this report will arm you with some powerful knowledge, as well as some cutting-edge seduction and persuasion strategies, which will easily help you to get out of the 'friend zone' and/or ensure that you never end up being 'just friends' with someone you are attracted to. And, if you have ever wondered why or how it happens in the first place, this report will also help you to finally understand why so many guys seem to always end up in the 'friend zone' by accident, even when you really don't want to. (That giant mystery will be solved in this report, once and for all.) Just as I do in most of my reports, I will start this one out by sharing some of the 'quick and easy' techniques with you. These will include tips you can put to use right away, and see results almost overnight. Then, I will cover some of the more advanced stuff, including

powerful persuasion techniques, which may require a bit more work on your part to execute. But they will be well worth your time and energy investment, because the results they produce will be quite amazing. But, before we start getting into the techniques and strategies of how to turn a friend into a lover or girlfriend, there's something very important that we need to discuss first. Please do not skip over the next section - or any of the sections in this report, for that matter. If you do, you will only be hurting your own chances of making this process work effectively.

Love Stories - Cordelia

Alexander 2009-08-20

Love Stories the Relationships of four Women is my first book. I love it! It was not what I had in mind when I sat down at Letha, my nieces kitchen table to write. When I put my fingers to the keys of my second hand computer back in 2006, the book that I had planned to write was about my trials and tribulations during the death of my boys. This book is a

Romance novel about four girlfriends and their relationships. On these pages you will experience the Love, Laughter, hurt and betrayal and a unique way that they go about living life. These women are so close to my heart that I wish that they were real. They experience real life ups and downs and they help each other get through them. The closeness of their friendships is something I can relate too. I grew up with a half dozen close relationships with my cousins and girlfriends. So get ready for a treat. Pour yourself a cup of coffee, tea or a cold glass of lemonade and sit down and get comfortable as you prepare to go on a journey with them. Hey you just might discover that its yours.
