European Data Protection: Coming of Age - Serge Gutwirth 2012-11-26

On 25 January 2012, the European Commission presented its long awaited new "Data protection package". With this proposal for a drastic revision of the data protection framework in Europe, it is fair to say that we are witnessing a rebirth of European data protection, and perhaps, its passage from an impulsive youth to a more mature state. Technology advances rapidly and mobile devices are significantly changing the landscape. Increasingly, we carry powerful, connected, devices, whose location and activities can be monitored by various stakeholders. Very powerful social network sites emerged in the first half of last decade, processing personal data of many millions of users. Updating the regulatory network was imminent and the presentation of the new package will initiate a period of intense debate in which the proposals will be thoroughly commented upon and criticized, and numerous amendments will undoubtedly be proposed. This volume brings together some 19 chapters offering conceptual analyses, highlighting issues, proposing solutions, and discussing practices regarding privacy and data protection. In the first part of the book, conceptual analyses of concepts such as privacy and anonymity are provided. The second section focuses on the contrasted positions of digital natives and ageing users in the information society. The third

section provides four chapters on privacy by design, including discussions on roadmapping and concrete techniques. The fourth section is devoted to surveillance and profiling, with illustrations from the domain of smart metering, self-surveillance and the benefits and risks of profiling. The book concludes with case studies pertaining to communicating privacy in organisations, the fate of a data protection supervisor in one of the EU member states and data protection in social network sites and online media. Re-reading Popular Culture - Joke Hermes 2008-04-15

Re-reading Popular Culture is an entertaining investigation of the meanings and value of popular culture today. It explores the theme of cultural citizenship by combining textual analysis and media reception theory to analyze popular culture. Includes such contemporary issues as the rewriting of masculinity after the success of feminism, and the layers of meaning in

semi-public and private talk of multiculturalism and ethnicity. It traces its topics across a variety of media forms and texts, including sports; detective fiction and police series; and children's television and games. Clearly and accessibly written for the student, scholar, and general reader.

Hermes Temptation - Alexandra Dewi, Fitriya Yusuf 2013-08-26

Model, Presenter, Actress ""I can't stop smiling reading Hermès Temptation... this book is not too lengthy but definitely interesting to read all the way through! Excommunication - Alexander R. Galloway 2013-12-06

Always connect—that is the imperative of today's

media. But what about those moments when media cease to function properly, when messages go beyond the sender and receiver to become excluded from the world of communication itself—those messages that state: “There will be no more messages”? In this book, Alexander R. Galloway, Eugene Thacker, and McKenzie Wark turn our usual understanding of media and mediation on its head by arguing that these moments reveal the ways the impossibility of communication is integral to communication itself—instances they call excommunication. In three linked essays, *Excommunication* pursues this elusive topic by looking at mediation in the face of banishment, exclusion, and heresy, and by contemplating the possibilities of communication with the great beyond. First, Galloway proposes an original theory of mediation based on classical literature and philosophy, using Hermes, Iris, and the Furies to map out three of the most prevalent modes of mediation today—mediation as exchange, as illumination, and as network. Then, Thacker goes boldly beyond Galloway's classification scheme by examining the concept of excommunication through the secret link between the modern horror genre and medieval mysticism. Charting a trajectory of examples from H. P. Lovecraft to Meister Eckhart, Thacker explores those instances when one communicates or connects with the inaccessible, dubbing such modes of mediation “haunted” or “weird” to underscore their inaccessibility. Finally, Wark evokes the poetics of the infuriated swarm as a queer politics of heresy that deviates from both media theory and the traditional left. He posits a critical theory that celebrates heresy and that is distinct from those that now venerate Saint Paul. Reexamining commonplace definitions of media, mediation, and communication, *Excommunication* offers a glimpse into the realm of the nonhuman to find a theory of mediation adequate to our present condition.

Cultural Citizenship and Popular Culture - Joke Hermes 2023-09-27

Written in an accessible and engaging style, this book uses a series of case studies to show how popular media are important to us, as a source of pleasure and entertainment, but also in communicating about the world with others. Social media platforms have changed how we talk about what we like and dislike in our popular media use. 'Cultural citizenship' shows how these discussions speak to 'belonging', to what we feel our rights and responsibilities are in today's polarized world. Cultural Citizenship and Popular Culture is based on audience-led research and does not privilege textual analysis as a starting point for taking popular media use's measure. Instead, it offers research tools to listen to others. This book offers scholars and students of media and creative industries a means to understand their professional position as one in which they engage with rather than

assume to know what users of popular cultural texts and products think and feel.

The Hermetic Link - Jacob Slavenburg 2012-04-01

Hermes is the Greek god of the Word, of thought and magic, the swift-moving messenger of the Divine and guardian of souls in the Afterlife. In Ancient Egypt he was the majestic god Thoth, the Recorder, the lord of measurement and science, the brother/husband of Isis. In Rome, he was of course Mercury, flying through the Empyrean at the speed of idea by the aid of his winged helmet and boots. In this broad survey of the Hermetic arts, author Jacob Slavenburg brings an unparalleled depth of insight to the subject. He examines the historical Hermetic literature and details its relevance to modern occultism, from the symbolism of architecture and art to the mysteries of Freemasonry. The heavenly mysteries of astrology are explored as are the healing arts which derive from the spirit of scientific inquiry embodied by Thoth/Hermes. Slavenburg examines the magical writings of the Greek papyri and their development into the contemporary magical practices of modern adepts. He sheds light on the workings of alchemy and the esoteric philosophy to the world of modern chemistry and physics. He explores the origin of evil and the realm of the afterlife, and the Hermetic doctrines of reincarnation and karma. In addition, the author provides a wealth of biographical data on the magi of Hermeticism, from Ficino to Agrippa, John Dee to Giordano Bruno.

Tragic Papyri - Kyriakos Tsantsanoglou 2022-08-01

With concern to Greek literature and particularly to 5th c. BCE tragic production, papyri provide us usually with not only the most ancient attestation but also the most reliable one. Much more so when the papyri are the only or the main witnesses of the tragic plays. The misfortune is that the papyri transmit texts incomplete, fragmentary, and almost always anonymous. It is the scholar's task to read, supplement, interpret and identify the particular texts. In this book, five Greek plays that survived fragmentarily in papyri are published, four by Aeschylus and one by Sophocles. Three of them are satyr plays: Aeschylus' *Theoroi*, *Hypsipyle*, and *Prometheus Pyrkaeus*; Sophocles' *Inachos* belongs to the genre we use to call 'prosatyric'; Aeschylus' *Laios* is a typical tragedy. The author's scope was, after each text's identification was secured as regards the poet and the play's title, to proceed to textual and interpretative observations that contributed to reconstructing in whole or in part the storyline of the relevant plays. These observations often led to unexpected conclusions and an overthrow of established opinions. Thus, the book will appeal to classical scholars, especially those interested in theatrical studies.

Night Preacher - Louise Vernon 1975-01-01
This story is told through the eyes of Bettje and Jan, children of Menno Simons, who lived almost 500 years ago. Menno Simons was first a Catholic priest. As he read and studied the Bible, Menno began to understand the Christian life in a different way. Eventually he became an Anabaptist preacher. It was against the laws of that time for him to preach so Menno's preaching was done in secret at night to small groups. Soon, Menno Simons became the leader of the Anabaptists, now known as Mennonites. For 9-to-14-year-olds.
