Dataclysm - Christian Rudder 2014-09-09

A New York Times Bestseller An audacious, irreverent investigation of human behavior—and a first look at a revolution in the making Our personal data has been used to spy on us, hire and fire us, and sell us stuff we don't need. In Dataclysm, Christian Rudder uses it to show us who we truly are. For centuries, we've relied on polling or small-scale lab experiments to study human behavior. Today, a new approach is possible. As we live more of our lives online, researchers can finally observe us directly, in vast numbers, and without filters. Data scientists have become the new demographers. In this daring and original book, Rudder explains how Facebook "likes" can predict, with surprising accuracy, a person's sexual orientation and even intelligence; how attractive women receive exponentially more interview requests; and why you must have haters to be hot. He charts the rise and fall of America's most reviled word through Google Search and examines the new dynamics of collaborative rage on Twitter. He shows how people express themselves, both privately and publicly. What is the least Asian thing you can say? Do people bathe more in

Vermont or New Jersey? What do black women think about Simon & Garfunkel? (Hint: they don't think about Simon & Garfunkel.) Rudder also traces human migration over time, showing how groups of people move from certain small towns to the same big cities across the globe. And he grapples with the challenge of maintaining privacy in a world where these explorations are possible. Visually arresting and full of wit and insight, *Dataclysm* is a new way of seeing ourselves—a brilliant alchemy, in which math is made human and numbers become the narrative of our time.

[White Fragility](#) - Robin DiAngelo 2019-02-07

The International Bestseller 'With clarity and compassion, DiAngelo allows us to understand racism as a practice not restricted to "bad people." In doing so, she moves our national discussions forward. This is a necessary book for all people invested in societal change' Claudia Rankine *Anger. Fear. Guilt. Denial. Silence.* These are the ways in which ordinary white people react when it is pointed out to them that they have done or said something that has - unintentionally - caused racial offence or hurt. After, all, a racist is the worst thing a person can be, right? But these reactions only serve to silence people of colour, who cannot give honest feedback to 'liberal' white people lest they provoke a dangerous emotional reaction. Robin DiAngelo coined the term 'White Fragility' in 2011 to describe this process and is here to show us how it serves to uphold the system of white supremacy. Using knowledge and insight gained over decades of running racial awareness workshops and working on this idea as a Professor of Whiteness Studies, she shows us how we can start having more honest conversations, listen to each other better and react to feedback with grace and humility. It is not enough to simply hold abstract progressive views and condemn the obvious racists on social media - change starts with us all at a practical, granular level, and it is time for all white people to take responsibility for relinquishing their own racial supremacy. 'By turns mordant and then inspirational, an argument that powerful forces and tragic histories stack the deck fully against racial justice alongside one that we need only to be clearer, try harder, and do better' David Roediger, *Los Angeles Review of Books* 'The value in *White Fragility* lies in its methodical, irrefutable exposure of racism in thought and action, and its call for humility and vigilance' Katy Waldman, *New Yorker* 'A vital, necessary, and beautiful book' Michael Eric Dyson

Dying To Get Her Man - Judy Fitzwater 2016-04-26

On the coldest day in Macon, Georgia's recent history, Suzanne Gray dressed herself in white, tied a blue ribbon in her hair, gathered a bouquet of white roses, typed a suicide note, lay herself down on her lover's grave, and froze to death. Or did she? Suzanne's niece doesn't think so. Neither does mystery writer Jennifer Marsh. Not only was the note not signed, but, well, honestly the whole thing sounds fishy to Jennifer and she can't let it go. Sam Culpepper, the reporter on the case and Jennifer's boyfriend, not only appears to be hiding some of the details from Jennifer but seems more interested in taking their relationship to the next level than discussing work. So why, then, does an engagement announcement for Sam and his ex-girlfriend appear in the paper the next day? Did Suzanne commit suicide or was she murdered? Did Suzanne's lover really die from a slip on the stairs? Does Sam have another relationship that Jennifer knew nothing about? What will it take to solve these mysteries? When the bullets start to fly, Jennifer knows that she'd better figure out what's happening, or she'll be paying with more than her heart... she'll be paying with her life. "Jennifer Marsh is a delight—resourceful, funny, and impulsive..." Laura Lippman "...the solution to the mystery is a kicker..." *The Mystery Review* "Bright and snappy, *DYING TO GET HER MAN* is a fast-paced read." *Romantic Times* "DYING TO GET HER MAN...is as engaging and entertaining as any Agatha Christie mystery." *I Love a Mystery Newsletter*

Love, the topic of thousands of novels for many centuries, as well as one of the most discussed subjects in our society today, is still being widely misunderstood. As the number of single people in the world increases, scientists have tried to identify the causes that make anyone fall in love without any success. What they did find were tendencies that this book reorganized in order to lead into a specific path. We do know by now that love is basically a subjective experience depending foremost on personal assumptions. Nevertheless, if we combine what many experts have found, it's possible to reach a certain number of practical deductions. With this information in hands, we can dramatically increase our chances of finding the ideal partner. Considering such premise, the steps here presented describe a combination of scientifically proven facts that intend to show the easiest and quickest way to find a partner. The informational content clarifies the interaction of thoughts and behaviors between both genders, while describing the whole perspective of what seduction is, allowing a better control of the dating game. Dating is, above all, an experience of self-acknowledgment and it's based on this principle that this book proposes a self-analysis to our attitude towards finding it and overcoming personal barriers.
