Men's Business, Women's Business - Hannah Rachel Bell 1998-10-01

Beautiful stories of life in Australian Aboriginal society--where gender influences every aspect of existence--that show a new way to find happiness in our modern Western culture •

Follows an Australian Aboriginal boy and girl from childhood through adolescence, adulthood, old age, and death, contrasting their experiences

with those of ours at the same life stages • Presents the experience of living in a society in which every action is governed by the gender laws of nature and myth, and offers us ideas for the conduct of our lives For thousands of years the Ngarinyin Aboriginal culture of Australia has existed with almost a total division of responsibility between genders. This division enables both men and women to respect the power, wisdom, and essentiality of the other because only when the two genders work in harmony does their culture function as it should. When Hannah Rachel Bell, a committed activist and feminist, first encountered this culture in the 1970s she resisted such blatant gender division. But over her 25-year collaboration with the well-known Aboriginal Lawman David Mowaljarlai she found her beliefs challenged and finally changed. In this book Bell presents the experience of living in a society in which every action is governed by the laws of nature and myth, rather than those of commerce and

politics. She offers modern people ideas for the conduct of their lives by raising awareness of the cultural processes and institutions that affect men's and women's authority, sovereignty, and the fulfillment of their birthright. It is a journey that, if traveled collectively, could change the direction and experience of modern culture.

Haunting Sex: The Witch Erotica Bundle - Rory Scott

This is the Witch Erotica bundle that you have been waiting for. Two sexy stories of men being taken, used in erotic rituals, and made love to by their witch captors. This 10,713 word masterpiece is the perfect thing for those who are sexually enraptured by the seductive power of witches. Orgy in the Witches' Den: Jack, a healthy young man out for a nice hike in the woods, is in for an experience that he'll never forget. Three mysterious witches appear seemingly out of nowhere, toying with him, enticing him, and inevitably seducing him. Watch as Jack learns just what it takes to satisfy

a coven of sex-starved witches. This 5017 word story, intended for adults only, contains hot man on witch sex, a witch orgy, and the unforgettable experience of penetrating some of the hottest erotic witches this side of Salem. Excerpt: I'm lost all alone out here in the woods... can you protect me?" she said. Jack, nearly stupefied by the elegance and curvaceous perfection of the woman standing before him, could barely muster a response. His enrapturing was made more complete by the fact that the woman in front of him stood completely topless, her heaving and sturdy breasts thrusting out from above her thin and toned torso. She had a blue, knitted scarf wrapped around her neck. It matched the color of her illustrious eyes. "You've got to help me," she said, "I was out skinny dipping, and a naughty little beaver ran off with all of my clothes! He took them up in his big, pointed teeth and ran off into the woods." Jack was completely dumbfounded. He tried to remind himself not to look directly at her breasts, but he

was unable to force himself not to take in the full extent of her beauty. Her crotch was hidden only by the tiniest of g-string bikinis; she must have been wearing it while she was swimming, he thought. "Are you a forest ranger?" she said. "Do you want to look for my clothes with me? I bet you could handle a little beaver. Wouldn't be much of a match for a big guy like you." "What...what is your name? I..." Jack stepped closer to the woman. He wanted to protect her. His masculine, provider urges started to take over. The bulge beginning to form in his pants drove him further into the fantasy, allowing him not to question the suspiciousness of the situation. The woman, apparently growing tired of Jack's apprehension in approaching her, lifted herself toward him, seemingly without effort or use of her legs. She cleared ten feet in less than a second, placing herself up against him and wrapping her arms around his neck. "I want you to help me," she said. The Witches' Spell of Seduction: What could be more innocent than

three young women trying to enjoy a night on the town? Unless of course those three young women happen to be witches, who have failed in their quest to cast the spell of seduction. This may be their last chance for the spell to work. They've collected the most important ingredients: henbane, hemlock, various bits of bones... but they have yet to acquire the most important ingredient: the seed of a young man. Fortunately for them, a young man named Alex just happened to wander into their presence on the very night they began preparing for the ritual. Alex might just be the key component that they have been looking for all along, and Alex might just be in for the sexual ride of his life. This 5,569 word story is just the kink you're looking for if you want to cast a little seduction of your own. Don't hesitate to pick up The Witch's Spell of Seduction to peer into the erotic magic that lurks within. EXCERPT: Alex was surprised again to see that the male bartender who had been working all night had suddenly

disappeared, and a young woman with straight, somewhat messy blonde hair had taken his place. Some of her hair had grown naturally into dreadlocks that gave the impression of modest dirtiness, but she had piercing blue eyes that shone with exceptional clarity. Her gaze penetrated Alex as he made eye contact with her. She walked up to the serving side of the bar across from where Alex sat, then she gracefully slid two martinis and a beer across the table to Alex and Daphne. "It looks like we got here just in the nick of time," she said. "You weren't thinking about leaving just yet, were you?" said the replacement bartender. "Oh, no, I uh, just another beer for me then, haha..." said Alex. His boredom had quickly given way to nervousness, and he wasn't doing a very good job of hiding it. "Oh nonsense!" said the bartender. "You need to up your game. This is a way better drink. One for Daphne, and one for you, plus you can have your little beer too." The new bartender leaned forward onto the bar in front of Alex. She made

sure to reveal a bit of her cleavage to Alex as she did so. Alex noticed. "My name is Serene. I figured that asking me my name might be your next question and I really hate formalities, so I would just as soon get them out of the way so we can get right into the meat of the conversation." "Oh, uh, thank you for the drink, my name is..." Sandra decided not to let Alex finish his sentence. She pushed herself into his side coyly but forcefully, nearly knocking him off his bar stool. He put one foot down on the ground to steady himself. Her skin felt incredibly soft; her outfit revealed plenty of it.

Blood in the Wilderness - Jack Edward Shay
1998-09-11

Early August, 1799. A wilderness clearing along
the Mud River...a few miles northeast of
Russellville, a small town in the vast, nearly
unbroken frontier of western Kentucky. A
pioneer family has stopped to rest. Two men.
Three women. Three babies. A string of pack
horses. It has been an exhausting journey, a
dangerous one at times. The men are about
thirty, the women some five to ten years
younger. Each woman has a baby, her own child.
The children, two girls and a boy, range from
four to six months in age. The day is hot. The
shallow river is cool. Shade trees provide a
measure of relief from the sticky humidity, the
baking heat. The men stretch out along the
banks of the river. The women tend to their
children's needs, then place them down and

stretch out themselves. Everyone drinks from the stream. They have been traveling forever. Or, at least, it seems that way. They're tired. They just want to rest before they must move out again, always pushing on, always in search of their destination in an unforgivingly harsh wilderness, battling tremendous odds against their very survival. They carry all their worldly possessions with them. True pioneers, they live off the land, taking from it what they need to eke out another day of life in the new American world of democracy and free enterprise. Suddenly, one of the babies cries. It is one of the girls, this one only four months old. One of the men rouses himself from his rest. He makes his way to the crying infant. The man is both a husband and a father, and he is with his family. A touching scene seems about to ensue. A father lovingly tending his irritable child all alone in the wilderness. A loving man dotting on his daughter's needs. He picks the child up. But this is no ordinary family. And this is no ordinary

man. The man is Micajah Harp, and he is wanted by the law. Even at this moment, there is a price on his head, and posses are after him. They might hear the wail of the infant and swoop down on the family and arrest them. Micajah must do something. He must silence the baby. He picks the child up by her feet and swings her against the side of the tree. Her head smashes against the unrelenting wood. The breath of life leaves her instantly. He then tosses the lifeless body into the woods. He signals the rest of the family to rise to their feet. They do so, and the family moves deeper into the wilderness. They are the Harps. America's first and most brutal serial killers. God help anyone who gets in their way.

***** They were "the most brutal monsters of the human race" to those who knew them...ruthless and indiscriminate barbarians terrorizing an innocent America...unconscionable brutes inflicting

savagery upon anyone they encountered. They sought little in life save the very survival necessary to maintain their bloodlust. It mattered little where or with whom they lived. They cheated and tormented at will and killed for the sake of killing. Their adult lives became a continual exercise in abject, unrepentant evil. During a reign of horror engulfing Kentucky, Tennessee, and Illinois, they became the scourge of the late 18th-century American frontier. They killed anywhere from two dozen to four dozen men, women, and children before justice caught up with them. They were the historical prototypes of later killers - Billy the Kid, Bonnie and Clyde, and Jeffrey Dahmer - but they far exceeded them in brutality and criminal enormity. They were the Harps...Micajah, the older and bigger; Wiley, the younger and smaller...Big Harp and Little Harp, as they were commonly called. And they were America's first serial killers. This is their story. "Blood in the Wilderness: The Story of the Harps, America's

First Serial Killers" includes a bibliography of seventy-five sources. It results from years of research and visits to all the sites associated with t
