Cigar Smoke and Violet Water Joyce Tolliver 1998 In *Cigar Smoke and Violet Water*, a work informed by feminist and narrative theory as well as by linguistic discourse analysis, Joyce Tolliver considers narrative tactics and their cultural context in the nineteenth-century Spanish writer Emilia Pardo Bazan (1851-1921). The critical focus is on the narrative voices in short stories by this writer and on the role gender plays both in narrative dynamics and in the writer's engagement with her public.

Cultural Politics in Revolution Mary K. Vaughan 1997-03 "Innovative study of the cultural legacy of the Mexican Revolution, using the story of rural schools. Focuses on Puebla and Sonora and the attempt by the central government to implement socialist education and to advance its nationalist agenda. Stresses the importance of negotiation among national and local leaders, teachers and peasants"--*Handbook of Latin American Studies*, v. 58.

Women Filmmakers in Early Hollywood Karen Ward Mahar 2008-08-25 *Women Filmmakers in Early Hollywood* explores when, how, and why women were accepted as filmmakers in the 1910s and why, by the 1920s, those opportunities had disappeared. In looking at the early film industry as an industry—a place of work—Mahar not only unravels the mystery of the disappearing female filmmaker but untangles the complicated relationship among gender, work culture, and business within modern industrial organizations. In the early 1910s, the film industry followed a theatrical model, fostering an egalitarian work culture in which everyone—male and female—helped behind the scenes in a variety of jobs. In this culture women thrived in powerful, creative roles, especially as writers, directors, and producers. By the end of that decade, however, mushrooming star salaries and skyrocketing movie budgets prompted the creation of the studio system. As the movie industry remade itself in the image of a modern American business, the masculinization of filmmaking took root. Mahar's study integrates feminist methodologies of examining the gendering of work with thorough historical scholarship of American industry and business culture. Tracing the transformation of the film industry into a legitimate "big business" of the 1920s, and explaining the fate of the female filmmaker during the silent era, Mahar demonstrates how industrial growth and change can unexpectedly open—and close—opportunities for women.

International Tourism Yvette Reisinger, PhD 2010-08-27 In recent years there has been a considerable interest in the cultural aspects of tourism such as the impacts of culture on tourism planning, development, management, and marketing. However, the focus has been on material forms of culture such as arts, music, or crafts. The impacts of national culture on tourist behavior and travel decision-making have not been paid much attention. Only in the last two years have cross-cultural issues begun to generate significant interest among academics. An examination of cultural characteristics and differences is extremely important to the tourism industry because today's tourism environment is becoming increasingly international. Information on the nature of the cultural differences between international tourists and locals is not readily available in tourism literature. The concept of culture is very complex and includes such abstract concepts as satisfaction, attitude and loyalty. *International Tourism* brings these concepts to the undergraduate student in tourism, as well as students in the related fields of marketing, management, international business, and cross-cultural communication. Designed as a textbook, it is organized and presented in an integrated and relevant way for the benefit of a worldwide audience.

Primeros memoriales Ellen Taylor Baird 1993-01-01 The accounts of 16th-century Franciscan monk Bernardino de Sahagun are the primary source for life in pre-conquest Mexico, but historians have mainly been concerned with seeing through the manuscripts to the information it reveals. Here the first manuscript is treated as an artifact itself, analyzing the structural and stylistic aspects of the drawings to identify the elements carried over from contemporary Europe and those picked up from the Aztecs. The Primary Structures of Fabrics Irene Emery 1994-01-01 Irene Emery was one of America's leading authorities on ancient fabrics and textiles before her death in 1981. Her studies led her to become increasingly concerned with the haphazard and confusing terminology for describing fabrics in a precise way, and she began serious study of this problem at the Laboratory of Anthropology Santa Fe in 1947, and later at the textile museum in Washington D.C. This book is a result of these studies, recognised as a classic when first published in America. The book's essential strength is its universality: for the first time a definition of the actual structural make up, of fabrics and their component parts is clear and accessible to all, whether the purpose of study is an aspect of design, history, or cultural significance and whatever its scope chronologically or geographically.

Uprooting War Brian Martin 1984-01-01 First published in 1984, this is unfortunately, still rather relevant. A serious look at strategies against war, which involve confronting institutions such as the state, bureaucracy,

the military and patriarchy, as opposed to lobbying, rallies and civil disobedience. Some of the alternative directions examined are social defense, peace conversion, and building self-managing political and economic institutions.

Themes in French Culture Rhoda Métraux 2001 Margaret Mead collaborated with her long-time colleague Rhoda Métraux in this unique study of French culture. The Hoover Institute at Stanford University originally published this volume, which grew out of the Columbia University project on Research of Contemporary Cultures in 1954. It is one of the few works by American social scientists dealing with broad themes of French life. Mead and Métraux present a vivid picture of the French starting with the organization of the house and its architecture, and drawing original conclusions for the structure of French families and overall cultural values. This work, long out of print, is a fascinating and penetrating portrait of a contemporary European society.

Tourist Behaviour Philip L. Pearce 2005-01-01 Tourism is an inherently social phenomenon. Tourists travel with others and experience places and cultures through interacting with both familiar and unfamiliar others. This volume presents a thorough tour of the social psychological processes which underpin contemporary travel. The fascinating phenomenon of tourist behaviour deals with topics such as motivation, destination choice, travellers' on site experiences, satisfaction and learning. This book uses an array of developing and recently constructed conceptual frameworks to both synthesise what is established, and to create new insights and directions for further analysis and, ultimately, management action.

The Unbroken Thread Kathryn Klein 1997-01-01 Housed in the former 16th-century convent of Santo Domingo church, now the Regional Museum of Oaxaca, Mexico, is an important collection of textiles representing the area's indigenous cultures. The collection includes a wealth of exquisitely made traditional weavings, many that are now considered rare. The Unbroken Thread: Conserving the Textile Traditions of Oaxaca details a joint project of the Getty Conservation Institute and the National Institute of Anthropology and History (INAH) of Mexico to conserve the collection and to document current use of textile traditions in daily life and ceremony. The book contains 145 color photographs of the valuable textiles in the collection, as well as images of local weavers and project participants at work. Subjects include anthropological research, ancient and present-day weaving techniques, analyses of natural dyestuffs, and discussions of the ethical and practical considerations involved in working in Latin America to conserve the materials and practices of living cultures.

Kitchenspace Maria Elisa Christie 2009-08-17 Throughout the world, the kitchen is the heart of family and community life. Yet, while everyone has a story to tell about their grandmother's kitchen, the myriad activities that go on in this usually female world are often devalued, and little scholarly attention has been paid to this crucial space in which family, gender, and community relations are forged and maintained. To give the kitchen the prominence and respect it merits, Maria Elisa Christie here offers a pioneering ethnography of kitchenspace in three central Mexican communities, Xochimilco, Ocotepc, and Tetecala. Christie coined the term "kitchenspace" to encompass both the inside kitchen area in which everyday meals for the family are made and the larger outside cooking area in which elaborate meals for community fiestas are prepared by many women working together. She explores how both kinds of meal preparation create bonds among family and community members. In particular, she shows how women's work in preparing food for fiestas gives women status in their communities and creates social networks of reciprocal obligation. In a culture rigidly stratified by gender, Christie concludes, kitchenspace gives women a source of power and a place in which to transmit the traditions and beliefs of older generations through quasi-sacramental food rites.

American Character Colin Woodard 2016-03-15 The author of American Nations examines the history of and solutions to the key American question: how best to reconcile individual liberty with the maintenance of a free society The struggle between individual rights and the good of the community as a whole has been the basis of nearly every major disagreement in our history, from the debates at the Constitutional Convention and

in the run up to the Civil War to the fights surrounding the agendas of the Federalists, the Progressives, the New Dealers, the civil rights movement, and the Tea Party. In *American Character*, Colin Woodard traces these two key strands in American politics through the four centuries of the nation's existence, from the first colonies through the Gilded Age, Great Depression and the present day, and he explores how different regions of the country have successfully or disastrously accommodated them. The independent streak found its most pernicious form in the antebellum South but was balanced in the Gilded Age by communitarian reform efforts; the New Deal was an example of a successful coalition between communitarian-minded Eastern elites and Southerners. Woodard argues that maintaining a liberal democracy, a society where mass human freedom is possible, requires finding a balance between protecting individual liberty and nurturing a free society. Going to either libertarian or collectivist extremes results in tyranny. But where does the "sweet spot" lie in the United States, a federation of disparate regional cultures that have always strongly disagreed on these issues? Woodard leads readers on a riveting and revealing journey through four centuries of struggle, experimentation, successes and failures to provide an answer. His historically informed and pragmatic suggestions on how to achieve this balance and break the nation's political deadlock will be of interest to anyone who cares about the current American predicament—political, ideological, and sociological.

Absent Friends Frederick Busch 1991 For twenty years now, Frederick Busch has been a relentless chronicler of the human heart. Except for an occasional foray abroad, he has tended to set his fiction in a physical territory--the Northeast, upstate New York especially--which he has given literary shape. With the capaciousness of a Dickens and the control of a Hemingway, Busch's novels have come in steady counterpoint, raising and answering by turns insistent questions that worry even the plainest of domestic lives. In this his fifth book of stories, the Absent Friends of the title are the lost characters the author has so compassionately detailed, who long to recover their absent selves. But they are also, as Richard Bausch comments in *The Philadelphia Inquirer*, "friends we have failed, or who have failed us; it is the emotional cost of that estrangement that interests Frederick Busch."

We Wept Without Tears Gideon Greif 2005-01-01 The "Sonderkommando of "Auschwitz-Birkenau consisted primarily of Jewish prisoners forced by the Germans to facilitate the mass extermination. Though never involved in the killing itself, they were compelled to be "members of staff" of the Nazi death-factory. This book, translated for the first time into English from its original Hebrew, consists of interviews with the very few surviving men who witnessed at first hand the unparalleled horror of the Auschwitz-Birkenau death camp. Some of these men had never spoken of their experiences before.

Holiday in Mexico Dina Berger 2009-01-01 With its archaeological sites, colonial architecture, pristine beaches, and alluring cities, Mexico has long been an attractive destination for travelers. The tourist industry ranks third in contributions to Mexico's gross domestic product and provides more than 5 percent of total employment nationwide. *Holiday in Mexico* takes a broad historical and geographical look at Mexico, covering tourist destinations from Tijuana to Acapulco and the development of tourism from the 1840s to the present day. Scholars in a variety of fields offer a complex and critical view of tourism in Mexico by examining its origins, promoters, and participants. Essays feature research on prototourist American soldiers of the mid-nineteenth century, archaeologists who excavated Teotihuacán, business owners who marketed Carnival in Veracruz during the 1920s, American tourists in Mexico City who promoted goodwill during the Second World War, American retirees who settled San Miguel de Allende, restaurateurs who created an "authentic" cuisine of Central Mexico, indigenous market vendors of Oaxaca who shaped the local tourist identity, Mayan service workers who migrated to work in Cancun hotels, and local officials who vied to develop the next "it" spot in Tijuana and Cabo San Lucas. Including insightful studies on food, labor, art, diplomacy, business, and politics, this collection illuminates the many processes and individuals that constitute the tourism industry. *Holiday in Mexico* shows tourism to be a complicated set of interactions and outcomes that reveal much about the nature of economic, social, cultural, and environmental change in Greater Mexico over the past two centuries. Set in 1869, when Dostoevsky was summoned from Germany to St Petersburg by the sudden death of his stepson, this novel is at once a compelling mystery steeped in the atmosphere of pre-revolutionary Russia and a brilliant and courageous meditation on authority and rebellion, art and imagination. Dostoevsky is seen obsessively following his stepson's ghost, trying to ascertain whether he was a suicide or a murder victim and whether he loved or despised his stepfather.

Gender and Modernization in the Spanish Realist Novel Jo Labanyi 2000 This new interdisciplinary study argues that the late-nineteenth-century Spanish realist novel not only documents but also forms part of the contemporary nation-formation process. Drawing on a wide range of recent cultural theory from largely English- and French-language sources, it relates their insights to contemporary Spanish debates in the fields of economics, politics, medicine and town planning, showing that the cultural anxieties dominant in other western nations at the time found acute expression in Spain precisely because of the imperfect nature of the modernization process. In particular the book studies the ways in which women function in canonical Spanish realist texts as a cipher for anxieties about modernization, and especially about its conversion of reality into representation. The consequence is an intense self-reflexivity which mirrors contemporary critiques of flawed systems of monetary and political representation, as well as the emphasis by social reformers on self-making.

Contemporary Tourism Chris Cooper 2018-11-13 Now in its fourth edition, it presents a new and refreshing approach to the study of tourism, considering issues such as overtourism, advances in AI and its impacts, waste management and environmental crisis, the sharing economy and Airbnb, the tourist experience and product development.

Etlatongo Jeffrey Blomster 2004 This case study examines the rise of social complexity and the impact of interregional interaction at the village of Etlatongo, in the Mixteca Alta of Oaxaca. A broad perspective is taken, examining relations with other contemporaneous parts of Mesoamerica, including the Gulf Coast Olmec culture. Methods utilized are examined and critiqued. Innovative approaches to examining interregional interaction are employed, such as neutron activation analysis of fragments of ceramic vessels. Houses and how people lived and died are explored, as is growth of parts of the village through time. The book does not just report what the author did, but why he did it.
