A Book About Love - Jonah Lehrer 2016-07-12

"Jonah Lehrer has a lot to offer the world....The book is interesting on

nearly every page....Good writers make writing look easy, but what people like Lehrer do is not easy at all." —David Brooks, The New York

Times Book Review Science writer Jonah Lehrer explores the mysterious subject of love. Weaving together scientific studies from clinical psychologists, longitudinal studies of health and happiness, historical accounts and literary depictions, child-rearing manuals, and the language of online dating sites, Jonah Lehrer's *A Book About Love* plumbs the most mysterious, most formative, most important impulse governing our lives. Love confuses and compels us—and it can destroy and define us. It has inspired our greatest poetry, defined our societies and our beliefs, and governs our biology. From the way infants attach to their parents, to the way we fall in love with another person, to the way some find a love for God or their pets, to the way we remember and mourn love after it ends, this book focuses on research that attempts, even in glancing ways, to deal with the long-term and the everyday. The most dangerous myth of love is that it's easy, that we fall into the feeling and then the feeling takes care of itself. While we can easily measure the dopamine that causes the initial feelings of "falling" in love, the partnerships and devotions that last decades or longer remain a mystery. This book is about that mystery. Love, Lehrer argues, is not built solely on overwhelming passion, but, fascinatingly, on a set of skills to be cultivated over a lifetime.

The Secrets of Enduring Love - Meg John Barker 2016-02-04

The Secrets of Enduring Love focuses on what couples actually do to maintain, nurture and nourish their relationships. The reader will be taken on a journey through different ways of doing relationships, focusing on the key themes which came out of the research: everyday acts of kindness and appreciation; the importance of home; communication and conflict management; sex and intimacy; incorporating others into the relationship (children, pets, friends, hobbies); and telling your own love story. One of the key messages from the research is that different things work for different people, and at different times in the relationship. For this reason the book focuses on

the different practices that we might bring into our own relationships, helping us to recognise the small things which we may be already doing but which ordinarily go by unnoticed, and offering a helping hand to find out what works best for us.

How to Make a Long Distance Relationship Last - Tony Wiilliam
2017-07-16

Everything would be fine if we lived in the same town/state/country, is the common reason many men and women give for a long distance relationship not working out. Yes, distance can put an enormous strain on a relationship, but claiming that "distance" is the only reason a relationship didn't work out, or cannot work is putting your hands over your ears and shouting, "Land" because the truth is, it's too much to handle. I've met many men and women who won't try long distance relationships because according to them "long distance relationships just don't work." That simply isn't true! Long distance relationships Can and do work if the two individuals involved want it to. In my opinion, the question is not "do long distance relationships work?" But rather "Do both of you want to make it work?" If you both want to make it work, distance is just another obstacle that two people who truly love each other can easily overcome if they really want to. These simple to follow tips will help your long distance relationship not only survive distance, they'll also help you lay a strong foundation for a relationship that is fun, fulfilling and successful last? The internet highway has changed the way we live and the way we love. It has changed the way we socialize, and it

has also increased the likelihood of finding love over the internet. Conversations are easy to strike up with regularity, and it's easy to discover that you have strong feelings for someone who lives hundreds or thousands of miles away from you! Many people are choosing to have long distance relationships. Long distance relationships might feel wonderful at first. However, they come with their own set of unique challenges as well. Many couples are blind-sided by the impact a long distance relationship can have on their daily life. This person can now feel so close to you because of the internet and yet in reality, remain so far away. The paradox is weighty. The more prepared you are to handle the situation, the better equipped you both will be to make decisions along the way that will benefit you and your special someone, and possibly make it a safer and enjoyable experience.

Get Over Yourself! - Patti Novak 2008-12-30

True love doesn't just happen, notes professional matchmaker Patti Novak. You have to work for it—and want it. Forget eight-minute speed dates or online dating sites with twenty-page questionnaires that promise a scientifically calculated perfect match. The fact that you both like golf, stamp collecting, and pizza with anchovies is great, but it won't mean a thing if you don't feel that zing. But before there can be sparks, there have to be dates. And before the first date, you need to get over yourself! Taking a tough-love approach, and in her signature straight-shooting style, Patti will show you how to fix what needs to be fixed, reach your core, and identify who you are and what you want in a partner. She uses a three-part common-sense formula: • Getting Over What? Assess your dating weaknesses, recognize what's not working, and adjust your expectations. Delve into your personal history and past relationships, and pinpoint the issues that have been holding you back. • Almost Over It Fine-tune your attitude, your look, and your behavior to maximize your dating chances. Novak lays out strategies to help you deal with the brutal dating monsters you find along the way. • Over It Learn the do's and don'ts of the first date, the second date, and beyond. Remember, it's not a job interview or therapy session. Pretend you're meeting a new friend, not a prospective husband or wife. Finding your one and only isn't about

having the right shoes or a flat stomach. It's about being true to yourself, being vulnerable, and being ready for love. Whether you're new to the dating scene, divorced and looking, or just trying to reach that second date, *Get Over Yourself!* will help you get the love you've always wanted and deserve.
