The Irresistible Consultant's Guide to Winning Clients David A. Fields 2017-03-21 This deeply insightful guide to understanding what clients really want is “an indispensable resource for consultants” (Keith Ferrazzi, #1 New York Times-bestselling author of Never Eat Alone). Independent consulting is a potentially lucrative enterprise—but the reality seldom matches the dream. Most solo consultants and boutique consulting firms are

perpetually within six months of bankruptcy due to the sputtering unreliability of their new business engines. The problem, according to international consulting expert David A. Fields, is twofold: 1) lack of a consistent, proven plan, and 2) fundamental misunderstanding about what clients want in a consultant. Fields, who has helped hundreds of consultants and boutique firms worldwide build profitable, sustainable practices, replaces the typical consultant's mindset of emphasizing expertise and differentiated processes with a focus on building relationships, engendering trust, and solving clients' existing problems. In *The Irresistible Consultant's Guide to Winning Clients*, Fields synthesizes his decades of experience into a step-by-step approach to winning more projects from more clients at higher fees. From nuts-and-bolts business advice and tactics to a deeply insightful breakdown of the human side of a very human profession, Fields, named one of Advertising Age magazine's "Marketing Top 100," delivers a comprehensive guidebook that is at once highly approachable and satisfyingly detailed. "If I could have just one book on client strategy, this book would be it." —Marshall Goldsmith, #1 New York Times–bestselling author of *Triggers*

He spends most of his time reading science fiction, especially books written by his favorite author and long-time crush, the mysteriously reclusive J.C. Guise. James Gallway's life is slowly but inexorably sliding downhill. He wrote a best-selling science fiction novel at the tender age of eighteen, while bedridden with complications of polio. But by twenty-eight, he's lost his inspiration and his will to live. His sales from his J.C. Guise books have been in decline for years. Wheelchair bound, James has isolated himself, convinced he is unlovable. When he is forced to do a book signing and meets Michael Lamont, he can't believe a guy who looks like Michael could be interested in a man like him. Michael and James are made for each other. Why Relationships Fail Steven T. Griggs, Ph.D. 2018-07-02 I've been a practicing psychologist in an outpatient setting for over thirty-two years. I run into eight conditions almost every day (addictions, anxiety, ADHD/learning disabilities, assertiveness, children's behaviors, mood disorders, relationships and self-esteem). Relationships are one of the most important of these in its own right, but in every one of the other seven areas, it, like self-esteem and assertiveness plays a huge role. Usually, when people have a good relationship, the problems in each of these groups diminish. A graduate professor once told me there are two things that either make or break people. One is employment and the other is having a good relationship. If you are reading this, chances are your relationship is in trouble. Do you suffer from the dysfunction of not communicating well? The symptoms vary but usually include fighting, withdrawal, icily staring at each other, avoiding contact, sleeping in separate bedrooms, or worse. You could be having an affair, even if it is just an emotional one. There could be substance abuse or domestic violence. These are all warning signs. Some are dramatic and harmful. Others are chronic and annoying. If you have any of these signs and your relationship is the cause, this ebook is for you. In this ebook, I start out with a discussion of the Four Stages of Relationships. Intimate relationships do not just happen. They evolve. Their progress and path is well understood. I go over this because without knowing the stages, it is hard to figure out "where" in the continuum you might be, and it is hard to recognize some of the issues that relate to each stage. I walk you through each stage, highlighting the issues that are characteristic of each. Next, I delve into the "Deep Stuff." This ties what we learned early in life to what is happening in our relationships. This section covers Basic Assumptions and Transference. Don't worry. I define and give plenty of examples of each. You need this to get to the bottom of communication problems, especially in long-term liasons. One specific version of this is what I call Negative Loops. This is when one partner does something negative to the other, who in return does something back. Only, what the second partner does in return is the very thing that made the first partner upset in the first place. This unconsciously escalates with very bad consequences if each partner is not aware of the deep stuff. I give eight categories of Negative Loops, which covers ninety percent of the relationship cases I've seen in the office. How do we escape such traps? The next section covers Structured Communication. This is a NEW concept. This is my technique that all by itself fixes about forty percent of the problem dynamics. It's

about communicating in a way that reduces tensions and increases insights. There's the basic version and the enriched version, which happens when we get good. Both involve just a couple of steps that most partners do not currently utilize. I outline the process and give examples. The enriched part builds upon the success of the basic part. This ties the whole process together and helps partners move beyond Loops. Once you are communicating effectively, and the air is cleared, the stage is set for the next section. This is where I introduce another set of ideas, some attitudinal, some philosophical. These are NEW concepts. This section clears up another forty percent of problems. In this section I talk about the 51/49 Rule, The Four-To-One Rule, Ego States, The Seven Deadly Words or Phrases and The Anatomy of Guilt. And, don't forget the Nine o'clock Rule. Lastly, I talk about why this ebook will work for you, but also when to seek a competent relationship therapist. This ebook is not written for folks who are just starting to date, unless there is communication problems from the start.. While we need to know this stuff, even at the beginning of a relationship, most people do not care because the beginnings of relationships are novel, fun, exciting and so on. In truth, if we know about what is coming in relationships, the beginnings of relationships would be even better, but this is a hard sell for most folks. So, I don't try. This ebook is for folks who have a relationship that is going off track. It does not matter what race, religion, income level, sexual orientation or other aspects we bring to our relationships. We don't have to be married, just in relationships that are not doing well. I wrote this because people in my psychology practice wanted a manuscript to help them in therapy. I also wrote this for people not in therapy, who want a stand alone ebook that walks them through what I do in the office. I've found that this self-help material works very well. Again, if a therapist is needed, I tell you when to make the call. This latest ebook is 44 pages and is the probably the most relevant one I've written, to date, with the possible exceptions of the ebooks on Self-Esteem, Assertiveness. and most recently, Forgiveness. Clients are very enthusiastic about this ebook, probably because everyone can use some work on relationships. Like my other publications, this ebook has no fat. Think of it as a "Cliffs Notes" publication. It's "sort of" a quick read (about two hours for the first reading), because I have to explain some stuff using terms you probably haven't heard before. But its all laid out in everyday language, just like what you're reading now. Nobody has published what I present as the glue that makes these concepts work. I think this is why my ebook does a better job. It's process as well as content driven. The theory I espouse is different from standard relationships literature in this field. It works better. I know, because I've been using it with clients for years. I've put together a hard hitting, direct "How To" manual. My research has not turned up another ebook that does what mine does.

*Relationships* Dr. Stacye Branché Msc.D 2016-03-15 The one thing we all desire in life is to love and be loved. We desire to have a special connection with another person. The kind of connection only that special person can share with us. But where and how do we find that special connection? The answer to this question is one I have noticed many people seem to be struggling to find. What made me decide to write this book was that fact that I saw so many people struggling to find and have the type of loving relationship that, it seemed, many of us could only dream about. I thought long and hard about the subject of love and relationships, what we learn or don't learn, and I realized that it was time to change how we look at and approach love and relationships. I looked at my own life and relationships, and the life and relationships of people around me, and decided to take what I learned and found useful, and share it. I realized while researching for this book that there are so many things that we are taught throughout our lives, but there is never really any formal teaching on how to love ourselves and others or how to find that meaningful connection that we all desire to have.

One of the most famous lines that people use as an excuse to fully believe what another person is saying to them, I believe what I am told because I had no reason not to believe. What do you mean "you had no reason not to believe" Lies are based in fear, and fear is so easy to come by these days. If you are lying to yourself, what makes you think another person won't do the same to you? Stop Playing the Fool. Know what you should ask before making a fool of yourself. If you meet a person that shows interest in you, why not ask the basic question: Are you married or in a relationship? If they are in a relationship or married - stop right there! Don't prolong the conversation and say, "Well, we can be friends." We need to stop thinking it's ok to get involved with a person that is in a relationship, even if they aren't married. If you accomplish anything with this book, it would be this: Let's make it more difficult for people to think that it's o.k. to cheat in their relationship. If someone is married just walk away. Don't ask them if they are happy, it's none of your business. There are lots of excuses a person will tell you as to why they are still in their relationship, but know this: People are liars. Regardless of the excuse given, don't start a relationship with this person! These are some of the famous reasons! I STAY BECAUSE OF THE KIDS. We must be role models for our children, and surely you agree with this. H
