Social Love and the Critical Potential of People - Silvia Cataldi 2022-09-23

This book unveils the concept of social love as a kind of "Karst River" that flows through the history of sociology, reassessing it as a form of criticism by people in everyday life. Adopting an interdisciplinary perspective, this book offers both theoretical and empirical reflections on social love. It shows that love is not only central to the human experience, but that it can also help to interpret and intervene in social

problems such as climate change, poverty, xenophobia, and the (post-)Covid crisis, recognizing people as actors in social change. It explores the idea of love as a key element in the promotion of solidarity and recognition in today's plural and unequal societies. Based on empirical research on social love conducted through both qualitative and quantitative methods, especially in Europe and Latin America, this book explores the social dimension of love. Providing overviews on key questions and studies on current issues, the book is essential reference and resource for researchers, students, social workers, and professionals in social sciences, social philosophy, anthropology, social psychology, sociology of emotions and postmodern literature.

The Greatest Love Story Never Told - Richard Orion 2015-10-30

This story is based on a true love story that spanned almost two decades. The names and places have been changed to protect the privacy of the individuals involved in this affair. The chronological sequence of events has been maintained for continuity. All the stories and experiences are based on facts. This book is about a love story that was kept secret for 18 years and perhaps should've remained a secret. The first book related to this love story was a book of poems entitled *Somewhere, Sometime, Somehow: Love Poems and Short Stories* published in 2008 by this author and Xlibris. For the perceptive reader of this book one can trace the ups and downs of our love relationship. These 18 years were filled with robust love and passion for each other. Perhaps it was fantasy; perhaps it was the most real thing we will ever experience. The heartbreaking part of this love affair is that I am not really sure my lover ever really understood or appreciated my profound and unconditional love for her. I opened my heart to her through poetry and thoughtful letters, but she rarely showed me what was in her heart. Perhaps it was a one-sided love affair, but I surely think and hope not. I was convinced that she truly loved me through her words and actions. At least I experienced a pure love that I had only dreamed was possible. The story is told mainly through the exchange of letters and emails to each other. Perhaps readers can experience and hopefully feel the deep love we felt for each other.

can maintain and improve their skills by coaching themselves. Die to Love - Unmani Liza Hyde 2011

This is a book for those who have been genuinely searching and longing for 'awakening' or 'the truth'. *Die to Love* directly points the reader to the end of the spiritual search once and for all. 'I am not trying to help you. If you read this book I will simply destroy you. And who am I? I am you. I am Life itself.' *Die to Love* explores the desperate longing for love and surrender that so many people feel. But are we willing to lose everything that is familiar and safe in order to know that love that we long for? Are we willing to die for love? This is the death, not of the body, but of the identity called 'me'. Unmani looks at what it is to fall in love and how in moments of intimacy there is no separation. Two merge and become one. Two separate individuals know that they can never be separate. There are also chapters on relationships and the madness of love as well as unconditional and conditional love, and what compassion really is.

Little did I know, by the time I kissed her, she had already met someone new, Mark. Love finds a way. Love, when strong enough, will express itself in any (and every) means possible. This highly erotic three-part autobiography follows our lives through the challenges and triumphs of our relationship.

We continue to introduce our "trio" to friends and extended family as we try to gain their approval.
