

Romantic Relationships In Islam Understanding How Love Functions Within Islam

Reconceiving Muslim Men Marcia C. Inhorn 2018-06-18 This volume provides intimate anthropological accounts of Muslim men's everyday lives in the Middle East, Asia, Africa, and diasporic communities in the West. Amid increasing political turmoil and economic precarity, Muslim men around the world are enacting nurturing roles as husbands, sons, fathers, and community members, thereby challenging broader systems of patriarchy and oppression. By focusing on the ways in which Muslim men care for those they love, this volume challenges stereotypes and showcases Muslim men's humanity.

Arabic Literature in the Post-Classical Period Roger Allen 2006-04-13 The final volume of The Cambridge History of Arabic Literature explores the Arabic literary heritage of the little-known period from the twelfth to the beginning of the nineteenth century. Even though it was during this time that the famous Thousand and One Nights was composed, very little has been written on the literature of the period generally. In this volume Roger Allen and Donald Richards bring together some of the most distinguished scholars in the field to rectify the situation. The volume is divided into parts with the traditions of poetry and prose covered separately within both their 'elite' and 'popular' contexts. The last two sections are devoted to drama and the indigenous tradition of literary criticism. As the only work of its kind in English covering the post-classical period, this book promises to be a unique resource for students and scholars of Arabic literature for many years to

come.

Refracting the Canon in Contemporary British Literature and Film 2016-08-09 Contemporary works of art that remodel the canon not only create complex, hybrid and plural products but also alter our perceptions and understanding of their source texts. This is the dual process, referred to in this volume as “refraction”, that the essays collected here set out to discuss and analyse by focusing on the dialectic rapport between postmodernism and the canon. What is sought in many of the essays is a redefinition of postmodernist art and a re-examination of the canon in the light of contemporary epistemology. Given this dual process, this volume will be of value both to everyone interested in contemporary art—particularly fiction, drama and film—and also to readers whose aim it is to promote a better appreciation of canonical British literature.

The Forgotten Art of Love Armin A. Zadeh, MD, PhD, MPH 2017-10-27 Explore the many facets of our most valued emotion Cardiologist and professor Armin Zadeh revisits psychologist Erich Fromm's *The Art of Loving*, a book that has fascinated him for decades. *The Forgotten Art of Love* examines love in its complex entirety — through the lenses of biology, philosophy, history, religion, sociology, and economics — to fill in critical voids in Fromm's classic work and to provide a contemporary understanding of love. This unique and wide-ranging book looks at love's crucial role in every aspect of human existence, exploring what love has to do with sex, spirituality, society, and the meaning of life; different kinds of love (for our children, for our neighbors); and whether love is a matter of luck or an art that can be mastered. Dr. Zadeh provides a fascinating, empowering guide to enhancing relationships and happiness — concluding with a provocative vision for firmly anchoring love in our society.

Majnūn Michael Walters Dols 1992 This is a study of madness in the medieval Islamic world. Using a

wide variety of sources--historical, literary, and art--the late Michael Dols explores beliefs about madness in Islamic society and examines attitudes towards individuals afflicted by mental illness or disability. The book demonstrates the links between Christian and Muslim medical beliefs and practices, and traces the influence of certain Christian beliefs, such as miracle-working, on Islamic practices. It breaks new ground in analyzing the notions of the romantic fool, the wise fool, and the holy fool in medieval Islam within the framework of perceptions of mental illness. It shows that the madman was not regarded as a pariah, an outcast, or a scapegoat. This is a comprehensive and original work, with insights into magic, medicine, and religion that combine to broaden our understanding of medieval Islamic society.

Feminism and Islam Mai Yamani 1996-12 In an age when Western feminism is continuously undergoing redefinition, the struggles of women in Muslim countries are often overlooked. This volume illustrates how women in Islamic societies have become more actively involved not only in learning their rights under the sharia (Islamic law) but in rereading this law to improve their status and gain increased equality and freedom. Surveying Iran, Saudi Arabia, Lebanon, Egypt and Arab societies in general, the essays in feminism and Islam focus on such subjects as crimes of honor and the construction of gender in Arab societies; law and the desire for social control; women ad entrepreneurship; family legislation; and the political strategies of feminists in the Islam world.

International Handbook of Love Claude-Hélène Mayer 2021-05-04 This handbook includes state-of-the-art research on love in classical, modern and postmodern perspectives. It expands on previous literature and explores topics around love from new cultural, intercultural and transcultural approaches and across disciplines. It provides insights into various love concepts, like romantic love, agape, and eros in their cultural embeddedness, and their changes and developments in specific cultural contexts. It also includes discussions on postmodern aspects with regard to love and love relationships, such as digitalisation, globalisation and the fourth industrial revolution. The handbook covers a vast range of topics in relation to love: aging, health, special needs, sexual preferences, spiritual practice, subcultures, family and other relationships, and so on. The chapters look at love not only in terms of the universal concept and in private, intimate relationships, but apply a broad concept of love which can also, for example, be referred to in postmodern workplaces. This volume is of interest to a wide readership, including researchers, practitioners and students of the social sciences, humanities and behavioural sciences. In the 1970s through the 90s, I was told that globalization was homogenizing cultures into a worldwide monoculture. This volume, as risky and profound as the many adventures of love across our multiplying cultures are, proves otherwise. The

authors' revolutionary and courageous work will challenge our sensibilities and expand the boundaries of what we understand what love is. But that's what love does: It communicates what is; offers what can be; and pleads for what must be. I know you'll enjoy this wonderful book as much as I do! Jeffrey Ady, Associate Professor (retired), Public Administration Program, University of Hawaii at Manoa, Founding Fellow, International Academy for Intercultural Research The International Handbook of Love is far more than a traditional compendium. It is a breath-taking attempt to synthesize our anthropological and sociological knowledge on love. It illuminates topics as diverse as Chinese love, one-night stands, teen romance or love of leaders and many more. This is a definitive reference in the field of love studies. Eva Illouz, author of *The End of Love: A sociology of Negative relationships*. Oxford University Press. "This is not a volume to be read in a single sitting (though I almost did, due to a protracted hospital stay), nor is it romantic or inspirational reading (though, in some cases, I had hoped for more narrative examples and case studies. Rather it is a highly diverse scholarly effort, a massive resource collection of research papers on love in a variety of contexts, personal and professional settings, and cultures. The work is well referenced providing a large number of resources for deeper exploration. We owe our thanks to the authors and editors of this "handbook" for work well done, though that word in the title should not lead readers to suspect that, enlightening as it is, this book is a vade mecum or practical tour guide that provides ready solutions to the vicissitudes and challenges of our love lives!" Global Development of Religious Tourism Alaverdov, Emilia 2020-10-30 Modern religious tourism is a main segment of the tourism business. The main goal of religious tourism is aimed at developing human spirituality, spiritual healing, and culture, where a person receives the experience of cooperation, or involvement with the place in which he resides, his people, culture, and religion. This type of tourism is able to play a significant role in the overall goals of society and to promote the establishment of trusting relationships between people of all cultures and religions. Global Development of Religious Tourism is a crucial reference book that contains research on the current religious situation as well as the tourism industry and provides insights on their joint development. It is not possible to study any religious field without understanding the religion itself and its impact on any country's political and social system. Therefore, the work also examines the impact of religion and tourism on economic and social developments across the world. Highlighting topics that include sanctuary cities, religious tourism management, and religious tourism in regions that span Europe, Africa, the Middle East, and more, this book is targeted to managers, executives, planners, and other professionals in the tourism and hospitality industry; government officials; religious leaders; and researchers, academicians, and students working in the fields of tourism management, business management, information and communication sciences, administrative sciences and management, education, and social and political sciences.

Freemasonry, Greek Philosophy, the Prince Hall Fraternity and the Egyptian (African) World Connection Keith Moore 32° 2008-08 Freemasonry is a system of learning that has been recognized as a product of western civilization, however what is not told is the influences by people of African descent. This book describes the contributions to freemasonry from the ancient African civilizations of Egypt, Nubia and pre Islamic Arabia. It is designed to give the reader a deeper understanding of

its origins as well as its connection to world civilizations and world religion, all of which has an African presence. This book will also look at the universe of African American Masonic organizations from the early 18th century to the 20th century America, which ranged from the origins of prince hall freemasonry to Black Nationalist and esoteric religious sects like the Moorish Science Temple of America, the UNIA and several other offshoots. Contrary to prior accounts, African American Freemasonry was concerned with far more than simply acknowledgement and respectability. The book will demonstrate that Freemasonry played a critical role in, history, politics and African American social life. I discuss such topics as the impact of Greek philosophy on western civilization, the rise of Islam and its impact on the African continent and finally the grandeur and accomplishments of the moors of Spain. African people have been at the very core of this rich foundation. In addition I discuss the comparisons between the ancient Egyptian civilization and modern day freemasonry. I explore its symbolism as well as the esoteric foundations that freemasonry relies so heavily upon. Once freemasonry reach the western hemisphere it became a tool for influencing Europe's elite. Moreover, my research covers the history of the knight's of Europe and the origins of?european chivalry and how Arabic poetry played an important role in its establishment. Additional topics include Napoleon Bonaparte, The mystic shrine and the foundations of Orientalism.

New Masculinities in Contemporary German Literature Frauke Matthes 2023-05-13 The complex nexus between masculinity and national identity has long troubled, but also fascinated the German cultural imagination. This has become apparent again since the fall of the Iron Curtain and the turn of the millennium when transnational developments have noticeably shaped Germany's self-perception as a nation. This book examines the social and political impact of transnationalism with

reference to current discourses of masculinity in novels by five contemporary male German-language authors. Specifically, it analyses how conceptions of the masculine interact with those of nationality, ethnicity, and otherness in the selected texts and assesses the new masculinities that result from those interactions. Exploring how local discourses of masculinity become part of transnational contexts in contemporary writing, the book moves a consideration of masculinities from a "native" into a transnational sphere.

Identity and Upbringing in South Asian Muslim Families Michela Franceschelli 2017-01-20

What is it like to grow up as a South Asian British Muslim today? What are the experiences of South Asian Muslim parents bringing up their children in contemporary Britain? Identity and Upbringing in South Asian Muslim Families explores these questions within the context of the series of events which, from 9/11 to the recent upsurge of the Islamic State, have affected the perceptions and the identity of Muslims around the world. Franceschelli reveals the complex range of negotiations behind the coming of age of South Asian Muslim teenagers and reflects on the changes and continuities between their life experiences, priorities and aspirations compared to their parents' generation. Based on primary research with South Asian Muslim young people and parents, this book highlights the importance of Islam to upbringing; the shifting value of South Asian cultural norms in Britain; and the persistent influence of class in shaping inequalities amongst families and on young people's experiences of growing up.

Introduction to Islamic Law Jonathan G. Burns 2014-01-09 “I highly recommend ‘Introduction to

Islamic Law: Principles of Civil, Criminal, and International Law under the Shari‘a’ to scholars and any individual who desires to learn about the Shari‘a and its basic values through an objective, methodical study.” Mohamed A. ‘Arafa, Ph.D. Assistant and Adjunct Professor of Law Alexandria University Faculty of Law, Egypt Islamic law (Shari‘a) is an all-inclusive legal tradition that creates a seamless web reaching from the public sphere into the private sphere of life. Thus, the Shari‘a recognizes no bifurcation between legislation and religion, no wall of separation between the

mosque and the state, and no compartmentalization of morality, faith, and law. Nonetheless, the duties under Islamic law can be divided into two large subcategories, the first and most important of which mainly concerns the private, individual relationship between God and man. In contrast, the second duty mainly concerns the public, transactional relationships among individuals which - in a secular framework - is most analogous to "law." Introduction to Islamic Law begins with an overview of Islam as a whole, including a discussion of the sources of Islamic law and sectarian distinctions. Then, the book thoroughly addresses the secondary duties of Islamic law, which govern daily transactions between individuals, including the law of contracts, property, banking and finance, and familial relations as well as criminal law and procedure and the law of war. The legal rules embodied within the Shari'a are mandatory in jurisdictions adhering to a strict application of Islamic law. However, Islamic law remains highly influential even in Muslim-majority countries with secular legal codes. Nevertheless, given recent developments in the Arab world, as well as the rise of terrorism in the name of Islam, the Shari'a is a subject that has seeped into the national dialogue of wholly secular, non-Muslim jurisdictions. Thus, Introduction to Islamic Law is offered for scholars and students - both Muslim and non-Muslim, with or without a legal background - for the purpose of obtaining a basic understanding of the foundational concepts of the Shari'a.

Religious and Sexual Identities Andrew Kam-Tuck Yip 2016-04-08 Presenting qualitative and quantitative findings on the lived experiences of around seven hundred young adults from Christian, Muslim, Jewish, Hindu, Buddhist, Sikh and mixed-faith backgrounds, Religious and Sexual Identities provides an illuminating and nuanced analysis of young adults' perceptions and negotiations of their religious, sexual, youth and gender identities. It demonstrates how these young adults creatively construct meanings and social connections as they navigate demanding but exciting spaces in which

their multiple identities intersect. Accessible quantitative analyses are combined with rich interview and video diary narratives in this theoretically-informed exploration of religious and sexual identities in contemporary society. A timely investigation revealing the multiplicity of contemporary identities, this book will appeal not only to sociologists and scholars of religion, but also to those working in the fields of youth studies, sexuality, gender and identity.

Women in Islam Terence Lovat 2012-06-12 The role of women in Islamic societies, not to mention in the religion itself, is a defining issue. It is also one that remains resistant to universal dogma, with a wide range of responses to women's social roles across the Islamic world. Reflecting this heterogeneity, the editor of this volume has assembled the latest research on the issue, which combines contemporary with historical data. The material comes from around the world as well as from Muslim and non-Muslim researchers. It takes in work from majority Muslim nations such as Bangladesh, Iran, Iraq, Lebanon, Pakistan, Palestine, Tunisia and Turkey, as well as countries with troubled interfaith relations such as India and Israel. Nations with minority Muslim populations such as France, the UK, Canada and Australia, are also represented. The work also features varying Islamic sub-groups such as the two main ones, Sunni and Shi'a, as well as less well known populations such as the Ismaili Muslims. In each case, the work is underpinned by the very latest socio-theological insights and empirical data.

Islam and Public Controversy in Europe Nilüfer Göle 2016-05-06 The public visibility of Islam is becoming increasingly controversial throughout European countries. With case studies drawn from

France, Germany, Italy, Spain and the UK, this book examines a range of public issues, including mosque construction, ritual slaughter, Sharia councils and burqa bans, addressing the question of 'Islamic difference' in public life outside the confines of established normative discourses that privilege freedom of religion, minority rights or multiculturalism. Acknowledging the creative role of dissent, it explores the manner in which public controversies unsettle the religious-secular divide and reshape European norms in the domains of aesthetics, individual freedom, animal rights and law. Developing an innovative conceptual framework and elaborating the notion of controversy as a methodological tool, *Islam and Public Controversy in Europe* draws our attention to the processes of interaction, confrontation and mutual transformation, thereby opening up a new horizon for rethinking difference and pluralism in Europe. As such, it will appeal to scholars across the social sciences with interests in religion, integration, cultural difference and the public sphere.

Love and Sex in Islam Abdullah R. Muhametov 2013-04-15 Everything you wanted to know about sex and love in Islam, but were hesitant to ask about: polygamy, contraception allowed by Sharia, oral and group sex, homosexual marriages and also the relationship with jinns, masturbation and mysteries of martial relations - all that is allowed and all that is prohibited in sexual relations in this noble and pure religion. The Muslim man is perceived as an ideal type of an always ready sexual partner. *Love and Sex in Islam* lifts the veil covering the delicate theme, in which the phenomena seeming incompatible turn out to be good neighbors.

But Zayneb, the only Muslim in class, isn't bad. She's angry. When she gets suspended for confronting her teacher, and he begins investigating her activist friends, Zayneb heads to her aunt's house in Doha, Qatar, for an early start to spring break. Muslim Family in a Dilemma Mohammad Akhtar 2007 The conflict between Islam and the West is as disturbing on the outside, as it polarizes the world, as it is on the inside, when it divides families

and causes enormous stress to Muslims living in the West. A mutual understanding is the answer to both of these conflicts. This work enhances the West's understanding of Muslim minorities and helps Muslims to understand their own identity problem in Western culture. Ultimately, Professor Akhtar delineates how Muslim families can integrate into Western society in a creative way that will benefit their families and society-at-large. *Muslim Family in a Dilemma* provides empirical examinations of many problems in the Muslim family in the U.S. and Europe, such as divorce, mental health, and the abuse of women. One chapter gives a special analysis of the maltreatment of Muslim women in Turkish families in Germany. In regard to these issues and women's equality, the Western position is accepted, and Islam is interpreted in several chapters as reconcilable with this outlook. Further consistent with the Western position, is what the writer of the last chapter, a Muslim female, has to state: pleasing your wife sexually is a religious obligation in Islam. That is in regard to sex in marriage. However, sex outside of marriage or free sex is irreconcilable to Islam. In a detailed critique of some of the Western practices and anti-family forces, Professor Akhtar determines the mutually exclusive relationship between unrestricted sex and marital integrity. One can have free sex or long-lasting marriage, but not both. He considers extra-marital sex as a paradox of Western culture, as it derives from an overvaluation of sex and overemphasis of individualism and cuts into relationships.

Like a Garment Yasir Qadhi 2019-03-04 As- Salaam Alaikum! I welcome you to our 'Like A Garment' e-book, an initiative that seeks to educate Muslims to find conjugal bliss in their marriages. The name of this project came from one of the most beautiful, poetic and profound metaphors of the Qur'an. Allah states, "Permitted for you, during the night of the fast, that you approach your wives. They are your garments, and you are their garments" [al-Baqarah; 187]. In this verse, each spouse is

described as a 'garment' to the other. The famous exegete Ibn Jarir al-Tabari (d. 311) stated that this description most aptly described the act of intimacy between the spouses, for during that act, each spouse sheds his or her other garments and then wraps around the other, taking the place of clothes. Al-Qurtubi (d. 671) also comments on this metaphor, and adds that just as clothes protect their wearer from the external elements, similarly each spouse protects the other from external passions that would harm a marriage. Combining between the various explanations of this beautiful metaphor found in the books of tafseer, we can derive many meanings from it: - The act of procreation is so intimate that it is literally as if one of the spouses covers up the other, just as clothing covers up one's body. Another euphemism that the Qur'aan uses for the sexual act is the verb ghashsha, which means 'to cover up, to envelop'. - One primary purpose of clothing is to conceal one's nakedness, since this nakedness (or `awrah) is embarrassing to display, and should be hidden from the eyes of others. Similarly, each spouse conceals the other spouse's faults, and does not reveal them to others. - Clothing protects one from the external elements, such as heat and cold. Similarly, spouses protect one another from external desires that originate from many different sources. By satisfying these desires within the confines of marriage, external passions are removed. - Clothing is the primary method through which humans beautify themselves. Without clothing, one is incomplete and naked. Similarly, spouses beautify and complete one another; when a person is not married, he or she is not yet complete and has not reached his or her full potential. Marriage is an essential part of being fully human, just like clothes are an essential part of being fully civilized. - Clothes are only worn in front of others, and are not necessary in front of spouses. It is only in front of one's spouse that the other spouse can discard his or her garments. - Clothes are the closest thing to one's body. Nothing comes between a person and his or her clothes. So the analogy of spouses

being 'like clothes to one another' implies such a closeness - there is nothing, literally and metaphorically, that should come between spouses.

Violence, Gender and the State Saumya Uma 2023-09-22 This book examines the adequacy of laws in India as a response to sexual and gender-based violence against women. It addresses questions such as: is law doing enough in responding to violence against women in India? Where are the barriers and bottlenecks, particularly for women from marginalised communities? What can be done to ensure that justice is rendered? Based on women's experience of violence, not solely on the basis of gender, but a combination of caste, class, and religious and gender identities, the book examines law as a response to gendered violence against women in India through the lens of intersectionality. It combines socio-legal and feminist analyses of relevant statutes on sexual and gender-based violence, their judicial interpretations, their implementation by law enforcement agencies, and their ramifications for women's lives. This book will be of interest to academics, research scholars, and students in a range of disciplines, including law, women's studies, gender and sexuality studies, victimology, sociology, political science, and human rights. It will also be useful for policymakers, advocates, judicial officers, paralegal workers, women's rights campaigners, non-profit organisations and, globally, anyone interested in and concerned with justice for women in India.

Islamic Homosexualities Stephen O. Murray 1997-02 The first anthropological collection that reveals patterns of male and female homosexuality in the Muslim World The dramatic impact of Islamic fundamentalism in recent years has skewed our image of Islamic history and culture. Stereotypes depict Islamic societies as economically backward, hyper-patriarchal, and fanatically religious. But in fact, the Islamic world encompasses a great diversity of cultures and a great deal of variation within those cultures in terms of gender roles and sexuality. The first collection on this topic from a historical and anthropological perspective, *Homosexuality in the Muslim World* reveals that patterns of male and female homosexuality have existed and often flourished within the Islamic world.

Indeed, same-sex relations have, until quite recently, been much more tolerated under Islam than in the Christian West. Based on the latest theoretical perspectives in gender studies, feminism, and gay studies, *Homosexuality in the Muslim World* includes cultural and historical analyses of the entire Islamic world, not just the so-called Middle East. Essays show both age-stratified patterns of homosexuality, as revealed in the erotic and romantic poetry of medieval poets, and gender-based patterns, in which both men and women might, to varying degrees, choose to live as members of the opposite sex. The contributors draw on historical documents, literary texts, ethnographic observation and direct observation by both Muslim and non-Muslim authors to show the considerable diversity of Islamic societies and the existence of tolerated gender and sexual variances.
