Inside is a new reality: thousands of women hustling for the bare essentials needed to survive; the bluffing and pageantry and casual acts of violence by guards and prisoners alike; and the deadpan absurdities of institutional living, portrayed with great humor and precision. Stunning and unsentimental, *The Mars Room* is "wholly authentic...profound...luminous" (The Wall Street Journal), "one of those books that enrage you even as they break your heart" (The New York Times Book Review, cover review)—a spectacularly compelling, heart-stopping novel about a life gone off the rails in contemporary America. It is audacious and tragic, propulsive and yet beautifully refined and "affirms Rachel Kushner as one of our best novelists" (Entertainment Weekly).

Public Health Consequences of E-Cigarettes National Academies of Sciences, Engineering, and Medicine 2018-06-18 Millions of Americans use e-cigarettes. Despite their popularity, little is known about their health effects. Some suggest that e-cigarettes likely confer lower risk compared to combustible tobacco cigarettes, because they do not expose users to toxicants produced through combustion. Proponents of e-cigarette use also tout the potential benefits of e-cigarettes as devices that could help combustible tobacco cigarette smokers to quit and thereby reduce tobacco-related health risks. Others are concerned about the exposure to potentially toxic substances contained in e-cigarette emissions, especially in individuals who have never used tobacco products such as youth and young adults. Given their relatively recent introduction, there has been little time for a scientific body of evidence to develop on the health effects of e-cigarettes.

Desiring Divinity M. David Litwa 2016 Perhaps no declaration incites more theological and moral outrage than a human's claim to be divine. Those who make this claim in ancient Jewish and Christian mythology are typically represented as the most hubristic and dangerous tyrants. Their horrible punishments are predictable and still serve as morality tales in religious communities today. But not all self-deifiers are saddled with pride and fated to fall. Some who claimed divinity stated a simple and direct truth. Though reviled on earth, misunderstood, and even killed, they received vindication and rose to the stars. This book tells the stories of six self-deifiers in their historical, social, and ideological contexts. In the history of interpretation, the initial three figures have been demonized as cosmic rebels: the first human Adam, Lucifer (later identified with Satan), and Yaldabaoth in gnostic mythology. By contrast, the final three have served as positive models for
