Sex with Presidents - Eleanor Herman 2020-09-22

In this fascinating work of popular history, the New York Times bestselling author of *Sex with Kings* and *The Royal Art of Poison* uncovers the bedroom secrets of American presidents and explores the surprising ways voters have reacted to their leaders' sex scandals. While Americans have a reputation for being strait-laced, many of the nation's leaders have been anything but puritanical. Alexander Hamilton had a steamy affair with a blackmailing prostitute. John F. Kennedy swam nude with female staff in the White House swimming pool. Is it possible the qualities needed to run for president—narcissism, a thirst for power, a desire for importance—go hand in hand with a tendency to sexual misdoing? In this entertaining and eye-opening book, Eleanor Herman revisits some of the sex scandals that have rocked the nation's capital and shocked the public, while asking the provocative questions: does rampant adultery show a lack of character or the stamina needed to run the country? Or perhaps both? While Americans have judged their leaders' affairs harshly compared to other nations, did they mostly just hate being lied to? And do they now clearly care more about issues other than a politician's sex life? What is sex like with the most powerful man

in the world? Is it better than with your average Joe? And when America finally elects a female president, will she, too, have sexual escapades in the Oval Office?

Sex Lives Of The Presidents - Nigel Cawthorne 2013-12-24

It didn't start with Clinton, or even Kennedy. Ever since the Father of our Country was sworn in over 200 years ago, the White House has seen its share of oversexed, adulterous, philandering presidents. From Washington's countless bed partners to Jefferson's illegitimate children, Kennedy's notorious womanizing to Clinton's unstoppable libido, find out the surprising and sometimes bizarre sexual practices of all the men in the Oval Office.

[How the Clinton Clergy Corrupted a President](#) - Moody Adams 1999-02

He was a bright young boy who walked a mile to church every Sunday, until ministers turned him into a moral tragedy.

Hustler - Joseph Sobran 2016-09-10

Syndicated columnist, Joseph Sobran wrote extensively during Bill Clinton's presidency, detailing many of the scandals and shady dealing of those years. *Hustler: The Clinton Legacy* is a priceless recounting of Bill and Hillary's reign in the White House. Luckily for the Clintons,

people have short memories. And since more than 20 years have gone by, younger folks have no recollection of those Clinton years. That's why FGF Books, the publishing imprint of the Fitzgerald Griffin Foundation, which owns the copyrights to all of Mr. Sobran's columns, decided to bring out a second edition of this important book now. Here are some of the misdeeds and nefarious activities of the Clintons discussed in "Hustler": -- "FileGate": when Bill and Hillary illegally obtained many FBI files of their enemies -- the Whitewater scandal -- that fact that Bill used Arkansas state troopers to procure women for parking lot trysts -- First Feminist Hillary trying to foist a comprehensive universal national health care system on the U.S. in 1993 -- that the Clintons were loathed by much of the public for their greed, opportunism, fanaticism, glad-handing, bullying, and hypocrisy during their eight years in the White House -- that Bill Clinton was the first president to "make the sexual revolution part of the conscious program, promoting abortion, homosex, feminism, and the rest, and even weaving them into the system of entitlements." -- that Clinton understood with perfect lucidity that "civil rights" has become nothing more than a group spoils system. This book provides a penetrating and insightful analysis of the nature and personality of our 42nd president. For example: "Americans have been taught to expect their presidents to be great men: men of substance, courage, eloquence, and dignity. Clinton has none of these qualities and hardly pretends to have them. ... He is nothing but a skilled political specialist, a charmingly unscrupulous improviser, possessing all the currently necessary arts of raising money, wooing important power blocs, and getting elected". Every essay in this book adds to one's knowledge of the character of Bill Clinton. Joe calls Clinton "The Sex President." While he is probably the only one to be that blunt about it (other than perhaps Ann Coulter, who wrote the Foreword to the book), he wrote, humorously: "Another thing nobody has ever said is this: "Bill Clinton is innocent. Let's hear those tapes. Let's hear the testimony of Monica Lewinsky, Betty Currie, the Secret Service, the Chinese lobbyists, and let the chips fall where they may. The full truth will vindicate the president and confute his accusers." ""Co-president" Hillary

does not escape Sobran's critique. He writes: "Hillary became the most powerful and unpopular first lady in history. And it wasn't long before she also generated her own scandals. ... It comes as a kind of relief to find she's made of the same stuff as her husband. Her fanaticism has never gotten in the way of her profit." Sobran foresaw clearly the failings and ramifications of Clinton's foreign policy which increased the involvement of the U.S. in the Middle East. In 1997, he wrote: "How many enemies do we want? We have the power to make an unlimited number, provoking terrorist retaliation in the short run and who knows what in years to come. ... If, one day soon, one of these bombs is detonated in Washington, New York, St. Louis, or Seattle, we'll pay dearly not only for Bill Clinton's sins, but for our politicians' fifty-year habit of ... sacrificing America's interests to Israel. The shock will dwarf the memory of Pearl Harbor." Alas, he was correct in his prediction. The Clintons aren't about to change their character. But will enough Americans catch on to them to drive them eventually into oblivion? It is the hope and prayer of FGF Books that some of the insights in this book will illuminate the minds and hearts of our fellow citizens as to the true nature of the Clintons.

Presidential Sex - Wesley O. Hagood 1995

When the media revealed the details of John F. Kennedy's sexual dalliances while in office, the American public was shocked. Reporters in the past often looked the other way, leading many to erroneously believe that presidential philandering was simply a modern phenomenon. Presidential Sex reveals exactly what's been going on in and around the Oval Office since our country's infancy. Photos.

Sex Lives of the Presidents - Nigel Cawthorne 1998

Recounts some of the scandals associated with the private lives of the presidents, including rumors of love affairs, illegitimate children, and other episodes.

Bill and Hillary - William H. Chafe 2012-09-04

In Bill and Hillary: The Politics of the Personal, the distinguished historian William H. Chafe boldly argues that the trajectory of the Clintons' political lives can be understood only through the prism of their personal relationship. Each experienced a difficult childhood. Bill had an

abusive stepfather, and his mother was in denial about the family's pathology. He believed that his success as a public servant would redeem the family. Hillary grew up with an autocratic father and a self-sacrificing mother whose most important lesson for her daughter was the necessity of family togetherness. As an adolescent, Hillary's encounter with her youth minister helped set her moral compass on issues of race and social justice. From the day they first met at Yale Law School, Bill and Hillary were inseparable, even though their relationship was inherently volatile. The personal dynamic between them would go on to determine their political fates. Hillary was instrumental in Bill's triumphs as Arkansas's governor and saved his presidential candidacy in 1992 by standing with him during the Gennifer Flowers sex scandal. He responded by delegating to her powers that no other First Lady had ever exercised. Always tempestuous, their relationship had as many lows as it did highs, from near divorce to stunning electoral and political successes. Chafe's many insights—into subjects such as health care, Kenneth Starr, welfare reform, and the extent to which the Lewinsky scandal finally freed Hillary to become a politician in her own right and return to the consensus reformer she had been in college and law school—add texture and depth to our understanding of the Clintons' experience together. The latest book from one of our preeminent historians, Bill and Hillary is the definitive account of the Clintons' relationship and its far-reaching impact on American political life.

Partisan Sex - Fedwa Malti-Douglas 2009

Sex, politics, and the law characterized the Clinton era, which began with the emergence of Bill Clinton as a presidential candidate with a train of sex scandals and ended with the attacks of September 11, 2001. The Monica Lewinsky affair was the climax of the phenomenon, and the resulting scandal had far-reaching effects. Politics became the language and the means for battles over sex. Sex and politics became metaphors for each other as American society struggled to come to terms with its sexual and political anxieties. *Partisan Sex: Bodies, Politics, and the Law in the Clinton Era* explores the high-cultural anxieties of the left and the masculinity hang-ups of the right, the exploitation of romance imagery

and hot sauce bottles, the obsessions with Hillary Clinton's breakfasts, and the rise of a society of voyeurs. -- Amazon.com.

The President's Daughter - James Patterson 2022-07-19

All Presidents have nightmares. This one is about to come true. A rocket ride of a thriller--the #1 New York Times bestselling blockbuster by President Bill Clinton and James Patterson, "the dream team" (Lee Child). Every detail is accurate-- because one of the authors is President Bill Clinton. The drama and action never stop-- because the other author is James Patterson. Matthew Keating, a one-time Navy SEAL--and a past president--has always defended his family as staunchly as he has his country. Now those defenses are under attack. A madman abducts Keating's teenage daughter, Melanie--turning every parent's deepest fear into a matter of national security. As the world watches in real time, Keating embarks on a one-man special-ops mission that tests his strengths: as a leader, a warrior, and a father. The authors' first collaboration, *The President Is Missing*, a #1 New York Times bestseller and the #1 bestselling novel of 2018, was praised as "ambitious and wildly readable" (New York Times Book Review) and "a fabulously entertaining thriller" (Pulitzer Prize-winning author Ron Chernow).

Cheating - Deborah L. Rhode 2018

"Cheating is deeply embedded in everyday life. Costs attributable to its most common forms total close to a trillion dollars annually. This book offers the only recent comprehensive account of cheating in everyday life and the strategies necessary to address it across a wide range of contexts: sports, organizations, taxes, academia, copyright infringement, marriage, and insurance and mortgages"--

Sex Lives of the U.S. Presidents - Nigel Cawthorne 2004

Sex and power, it is said, are inextricably linked. A president's sexual chemistry can be both his greatest weapon and his very undoing. Down the years many a president's political industry has been matched only by the fervour of his carnal pursuits. This irreverent history of the chief executive exposes the sexual appetites of the office's incumbents from the often less than puritanical founding fathers, right up to the excesses of the Kennedy White House, and the allegations that have rocked the

Clinton administration. Now fully updated to include new revelatory material on Bill Clinton and George W. Bush.

Presidential Sex - Wesley O. Hagood 1998

With profiles on Bill Clinton, Thomas Jefferson, FDR, JFK, Lyndon Johnson, and Eisenhower, this book describes the impact that freewheeling sexual behavior has had upon first families, election campaigns, political careers, and the nation itself.

The Presidents and the Constitution - Ken Gormley 2016-05-10

Shines new light on America's brilliant constitutional and presidential history, from George Washington to Barack Obama. In this sweepingly ambitious volume, the nation's foremost experts on the American presidency and the U.S. Constitution join together to tell the intertwined stories of how each American president has confronted and shaped the Constitution. Each occupant of the office—the first president to the forty-fourth—has contributed to the story of the Constitution through the decisions he made and the actions he took as the nation's chief executive. By examining presidential history through the lens of constitutional conflicts and challenges, *The Presidents and the Constitution* offers a fresh perspective on how the Constitution has evolved in the hands of individual presidents. It delves into key moments in American history, from Washington's early battles with Congress to the advent of the national security presidency under George W. Bush and Barack Obama, to reveal the dramatic historical forces that drove these presidents to action. Historians and legal experts, including Richard Ellis, Gary Hart, Stanley Kutler and Kenneth Starr, bring the Constitution to life, and show how the awesome powers of the American presidency have been shaped by the men who were granted them. The book brings to the fore the overarching constitutional themes that span this country's history and ties together presidencies in a way never before accomplished.

One Nation Under Sex - Larry Flynt 2011-04-26

Ben Franklin saved the American Revolution by seducing French Women. A gay love affair between President James Buchanan and Senator William King aided the secession movement. Woodrow Wilson's girlfriend

dictated his letters to the German Kaiser. And lesbian relationships inspired Eleanor Roosevelt to become a revolutionary crusader for equal rights. The colorful sex lives of America's most powerful leaders have influenced social movements, government policies, elections and even wars, yet they are so whitewashed by historians that people think Thomas Jefferson and Abe Lincoln were made of marble, not flesh and blood. But the truth is about to come out. In *One Nation Under Sex*, free speech activist and notorious *Hustler* magazine publisher Larry Flynt teams up with Columbia University history professor David Eisenbach to peek behind the White House bedroom curtains and document how hidden passions have shaped public life. They unpack salacious rumors and outright scandals, showing how private affairs have driven pivotal decisions—often with horrific consequences. Along the way, they explore the origins of America's fascination with sex scandals and explain how we can put aside out political moralism and begin focusing on the real problems that threaten our nation.

American Civil Rights Policy from Truman to Clinton - Steven A. Shull 1999

The President is the key actor in civil rights policy--its advance, reversal, or neglect. This book documents the critical role presidents have played in setting the agenda, framing the terms of the debate, and formulating specific policy goals with respect to civil rights. By identifying the limits of presidential influence as well as the impact of presidential leadership vis-a-vis the Congress and federal agencies, Shull is able to compare presidents in terms of rhetoric, performance, and effectiveness in this most controversial policy arena. Expanding upon his work in *A Kinder, Gentler Racism?* Shull here incorporates the Clinton years, including case studies of the 1996 same-sex marriage controversy and the nominations of Lani Guinier and William Lee for the Civil Rights Division of the Department of Justice.

Better Than Sex - Hunter S. Thompson 2012-03-22

'Hunter S. Thompson is to drug-addled, stream-of-consciousness, psychopolitical black humor what Forrest Gump is to idiot savants' Philadelphia Inquirer Since his blazing 1972 opus, *Fear and Loathing on the*

Campaign Trail, Hunter S. Thompson has reported the election story in his truly inimitable, just-short-of-libel style. In *Better than Sex*, Thompson hits the dusty trail again - without leaving home - yet manages to deliver a mind-bending view of the 1992 presidential campaign, in all of its horror, sacrifice, lust, and dubious glory. Complete with faxes sent to and received by candidate Clinton's top aides, and 100 per cent pure gonzo screeds on Richard Nixon, George Bush, and Oliver North, here is the most true-blue campaign tell-all ever penned by man or beast.

'[Thompson] delivers yet another of his trademark cocktail mixes of unbelievable tales and dark observations . . . Packed with egocentric anecdotes, musings and reprints of memos, faxes and scrawled handwritten notes' Los Angeles Daily News

[The Presidents and the Constitution, Volume Two](#) - Ken Gormley
2022-09-27

In this sweepingly ambitious volume, the nation's foremost experts on the American presidency and the U.S. Constitution join together to tell the intertwined stories of how each American president has confronted and shaped the Constitution. Each occupant of the office--the first president to the forty-fourth--has contributed to the story of the Constitution through the decisions he made and the actions he took as the nation's chief executive. By examining presidential history through the lens of constitutional conflicts and challenges, *The Presidents and the Constitution* offers a fresh perspective on how the Constitution has evolved in the hands of individual presidents. Bush and Barack Obama, to reveal the dramatic historical forces that drove these presidents to action. Historians and legal experts, including Richard Ellis, Gary Hart, Stanley Kutler and Kenneth Starr, bring the Constitution to life, and show how the awesome powers of the American presidency have been shaped by the men who were granted them. The book brings to the fore the overarching constitutional themes that span this country's history and ties together presidencies in a way never before accomplished. Exhaustively researched and compellingly presented, *The*

Presidents and the Constitution shines new light on America's brilliant constitutional and presidential history.

Character in Chief: The Personality and Character of Current and Past Presidents - John M. Berez, Ph.D. 2000-12

Using analytic skills honed to a sharp edge with years of psychotherapy experience, John Berez explores such contemporary issues as "Was Nixon a wife beater?" "Was Dubya smart enough to be president?" "Is Gore too uptight to lead the free world?" "Did the 2000 election boil down to a choice between personality and competence?" Skillfully, Berez explores the relationship between character and personality, helping the reader understand how a man with the moral integrity of Jimmy Carter could bungle the presidency and a man like Clinton, with so little character, could manage it so successfully. Drawing on three decades of teaching and therapy, Berez burrows beneath the surface of personality and character to reveal the real person working in the Oval Office. With penetrating insight and concise writing, the author acquaints the reader with the real people behind the pageantry of the presidency. This book clearly disentangles the contradictions of Bill Clinton's presidency by examining his split personality. Berez explains and clinically documents Clinton's dual personalities: a sociopathic personality (Slick Willy) and a codependent personality (Baptist Billy). Resulting from Clinton's two-world childhood, these personalities are only loosely connected and operate serially to control his behavior. Like many adult children of alcoholics (ACA), Clinton seeks-by-turn-to please or to manipulate. Baptist Billy told voters "I feel your pain," and he did, but Slick Willy said he "didn't inhale," and didn't have sex with "that woman." *Character in Chief* is must reading for anyone interested in politics in general and the presidency in particular. With fairness and compassion Berez will lead you to a deeper understanding of our great democracy and the people who lead it.

Affairs of State - Robert P. Watson 2012-09-06

In recent years, Arnold Schwarzenegger, Eliot Spitzer, John Edwards, Newt Gingrich, Herman Cain, and countless other politicians have made headlines for their sexual scandals. But such stories are not new. Indeed,

there is a long history of misbehavior in politics, including in the nation's highest office. Bill Clinton, it can safely be said, was not the first president to misbehave, nor was he the worst. In fact, there is a long history of presidential peccadilloes. Many presidents have been influenced and had their careers affected by the hand of a woman, sometimes that of a wife or mother, but at other times that of a mistress. But these stories are rarely told. Instead, history has tended to glorify our leaders. Such a scrubbed version of the lives of presidents, however, omits their marital woes, love lives, and sexual peccadilloes. As Robert P. Watson reveals, it is precisely these intimate and all-too-human moments that provide some of the most valuable insights into our leaders. Affairs of State is not just about sex and scandal—the “who did it” of

history—although such incidents are described in detail. It is a book about love, marriage, and affairs in the White House, offering an intimate character study of the First Couples who made history. To see the author discuss his book on Inside South Florida, please [click here](#). To see him discuss the book on C-SPAN, please [click here](#).

The President Is Missing - James Patterson 2020-05-26

Read the book that "moves like Air Force One. Big and fast," from the World's #1 Bestselling Author, James Patterson, and former US President, Bill Clinton, a powerhouse team delivering the most gripping and surprising thriller in years (Michael Connelly). "Ambitious and wildly readable... Clinton and Patterson's fictional commander in chief brims with humanity, character and stoicism." —New York Times Book Review
