Rethinking Punishment in the Era of Mass Incarceration Chris W. Surprenant 2017-07-06 One of the most important problems faced by the United States is addressing its broken criminal justice system. This collection of essays offers a thorough examination of incarceration as a form of punishment. In addition to focusing on the philosophical aspects related to punishment, the volume's diverse group of contributors provides additional background in criminology, economics, law, and sociology to help contextualize the philosophical issues. The first group of essays addresses whether or not our current institutions connected with punishment and incarceration are justified in a liberal society. The next set of chapters explores the negative effects of incarceration as a form of punishment, including its impact on children and families. The volume then describes how we arrived at our current situation in the United States, focusing on questions related to how we view prisons and prisoners, policing for profit, and the motivations of prosecutors in trying to secure convictions. Finally, *Rethinking Punishment in the Era of Mass Incarceration* examines specific policy alternatives that might offer solutions to our current approach to punishment and incarceration.

Feminism, Women's Agency, and Communication in Early Twentieth-Century China Qiliang He 2018-06-14 *Feminism, Women's Agency, and Communication in Early Twentieth-Century China* focuses on a sensational elopement in the Yangzi Delta in the late 1920s to explore how middle- and lower-class members of society gained access to and appropriated otherwise alien and abstract enlightenment theories and idioms about love, marriage, and family. Via a network of communications that connected people of differing socioeconomic and educational backgrounds, non-elite women were empowered to display their new womanhood and thereby exercise their self-activating agency to mount resistance to China's patriarchal system. Qiliang He's text also investigates the proliferation of anti-feminist conservatism in legal practice, scholarly discourses, media, and popular culture in the early Nanjing Decade (1927-1937). Utilizing a framework of interdisciplinary scholarship, this book traverses various fields such as legal history, women's history, popular culture/media studies, and literary studies to explore urban discourse and communication in 1920s China.

Sexual Offending in Asia Heng Choon (Oliver) Chan 2022-11-30 SEXUAL OFFENDING in ASIA AUTHORITY AND THOUGHT-PROVOKING WORK DETAILING THE PSYCHO-CRIMINOLOGICAL FACTORS INFLUENCING AND AFFECTING SEXUAL OFFENDERS IN ASIA Sexual Offending in Asia examines sexual offending from a general Asian perspective with a psycho-criminological approach (i.e., personal, social, and environmental mechanisms) to provide comprehensive coverage of different topics from both theoretical and practical (i.e., practice and policy) standpoints. This book is part of The Wiley Series in the Psycho-Criminology of Crime, Mental Health, and the Law, which aims to publish original, high-quality authored and edited collections on all aspects of crime, mental health, and the law from a psycho-criminological perspective. Sexual Offending in Asia is divided into two main sections—i.e., Part 1: Theories of Sexual Offending and Part 2: Sexual Offending in Asia—with five chapters in each section. In the second section, each chapter concludes with two case examples to illustrate the sexual offending phenomenon of each geographical location. Written by an award-winning author with significant experience in the field, Sexual Offending in Asia provides coverage of topics such as: Multi-level theories of general sexual offending, including multi-factorial (Level 1), single factor (Level II), and micro-level or offense process (Level III) theories of sexual offending for specific sex offender populations, including female sex offenders and sexual homicide offenders Sexual offending in Asia is discussed based on 5 geographical regions, namely East Asia, Southeast Asia, South Asia, West Asia, and Central Asia. Sexual offending in each geographical region is discussed comprehensively, including the prevalence and nature of sexual offending; cultural values and norms related to sexual offending; offender, victim, and offense characteristics; penal codes; and case examples Sexual Offending in Asia will be of immense interest not only to researchers and field practitioners whose work brings them into contact with sexual offenders, but more specifically to those who wish for an informed and informative understanding of Asian sexual offending regarding prevention and intervention strategies.

Geospatial Technologies and Homeland Security Daniel Sui 2008-05-25 Homeland security and context In the Geographical Dimensions of Terrorism (GDOT) (Cutter et al. 2003), the first book after 9/11 to address homeland security and geography, we developed several thematic research agendas and explored intersections between geographic research and the importance of context, both geographical and political, in relationship to the concepts of terrorism and security. It is good to see that a great deal of new thought and research continues to flow from that initial research agenda, as illustrated by many of the papers of this new book, entitled Geospatial Technologies and Homeland Security: Research Frontiers and Future Challenges. Context is relevant not only to understanding homeland security issues broadly, but also to the conduct of research on geospatial technologies. It is impossible to understand the implications of a homeland security strategy, let alone hope to make predictions, conduct meaningful modeling and research, or assess the value and dangers of geospatial technologies, without consideration of overarching political, social, economic, and geographic contexts within which these questions are posed.
