**Sex Crimes in the Fifties** - Lisa Featherstone 2016

This book examines Australia's treatment of sexual crimes in the 1950s, a decade well known for its political and social conservatism, its prudish views on morality, and its prescriptive gender roles for men and women. Fewer would know that this same decade saw soaring arrests, mounting criminal prosecutions, and intensifying public debates about how to deal with sexual offenders. Or that sexual offences on children attracted the most concentrated state attention and public concern. Sex Crimes in the Fifties uncovers this new history by drawing on transcripts of hundreds of criminal proceedings and extensive research in criminal justice archives. "

*Treating Sex Offenders* - Sarah Brown 2013-07-04

This book aims to provide an introduction and overview of sex offender treatment programmes, designed for students and practitioners coming to this field. It seeks to describe the development, theoretical underpinnings, treatment goals and operation of cognitive-behavioural and other programmes to an audience unfamiliar with this form of rehabilitation. In addition, it aims to examine the effectiveness of these programmes and the difficulties associated with assessing this, the public response to treatment and also the effects on staff responsible for

implementing them. The book is concerned particularly to assess the operation of sex offender treatment programmes in the UK context, considering also the issues associated with implementing programmes developed in other contexts, especially the USA and Canada. It will be of interest to practitioners, particularly those who are beginning work on sex offender treatment programmes, or others (such as health workers, social workers, probation officers) who come into contact with these programmes indirectly.

*Treating Child Sex Offenders and Victims* - Anna Salter 1988-06

Treating Child Sex Offenders and Victims is a practical manual designed to assist mental health professionals in the effective treatment of both victims and offenders through the development of specialized skills. The author discusses methods of treatment of offenders and includes an assessment battery, which measures their sexual attitudes. She also addresses ways of treating victims and minimizing trauma within the legal system. The volume will thus be invaluable for all mental health professionals who wish to learn effective treatment of the victims and the perpetrators of child sexual abuse.

**The Registration and Monitoring of Sex Offenders** - Terry Thomas 2012-03-29

This book seeks to track the origins of sex offender registers, their purpose and the law and policy that underpins them in various parts of the world. Sex offender registers are not really registers at all but a set of 'legal requirements' that fall automatically on a person convicted or cautioned for a designated sexual offence; the term 'register' is a form of shorthand for these requirements, designed to be a contribution to greater public protection and community safety. This book provides the first serious and detailed narrative of the conception and implementation of the sex offender registers. It seeks to do so in a clear and easy-to-follow text that will be both informed and critical and will also serve as a resource book for those wanting to make further study of the process of registration and monitoring. It looks in detail at the practice of implementing registers and considers questions about their effectiveness in monitoring sex offenders and the implications of someone being on a sex offender register. The book examines the legal challenges to registers and monitoring and the position of registrants in the context of human rights and seeks to place registers and monitoring in the wider context of what is being called the surveillance society. The Registration and Monitoring of Sex Offenders will be key reading for students of criminology and criminal justice, surveillance and human rights and practitioners in criminal justice fields of policing, probation, social work, children's services, the judiciary, prison work and others.

The Economics of Implementing Intensive In-prison Sex-offender Treatment Programs - Ron Donato 1999

From Victim to Offender - Freda Briggs 2020-08-26

Tom was the only adult who gave me the attention and affection that I so badly needed. I loved his caresses and the times he comforted me. I loved talking to him because he was the only adult who listened and understood. - Neil's Story From Victim to Offender shows how victims of child sexual abuse become juvenile and adult offenders. The stories told by these offenders reveal the vulnerability of boys to paedophiles and pederasts who provide the male attention lacking in some children's home lives. They show how early sexualisation damages children's sexual

development, their relationships and their adult lives. The story of a female offender reveals that this problem is not confined to boys. These stories highlight the inadequacy of current child protection programs for the protection of boys. The editor's introduction and the chapter from a psychologist who specialises in the treatment of offenders emphasise the need to improve child protection and treatment programs for offenders. From Victim to Offender offers unique insights into the experiences of victims and offenders of sexual abuse, and is essential reading for professionals who are concerned about child protection and those responsible for the rehabilitation of offenders.

*Child Sexual Abuse and Adult Offenders* - Christopher Bagley 2018-12-12  
Published in 1999, this book is based on major research projects in Britain, Canada and Australia on the meaning, nature and impact of child sexual abuse. Theoretical perspectives include a consideration of the contextualisation of knowledge about child abuse; how sexual abuse may be embedded within other types of family pathology; and a feminist perspective on patriarchy and adolescent prostitution. The book also contains an important chapter with new data on male sexual offenders, and on men and women who kill children. A chapter on men who kill themselves when faced with accusations of child sexual abuse offers a humanistic perspective on the problem. Further chapters on social work processing of child sexual abuse cases, and of group treatment for victims point to further directions in research, policy and practice.

**Sex Offenders and Preventive Detention** - Bernadette McSherry 2009  
How should society manage sex offenders who are released from prison? How can sex offenders be detained in a way that prevents re-offending while respecting civil liberties? Is preventive detention a type of double punishment? Do prison-based sex offender treatment programs work? What is the best way to protect the community from sex offending? Professors McSherry and Keyzer focus on three key modern policy responses to such questions, and the cases that propelled their development: Earl Shriver in Washington State, and the United States approach of detaining 'sexually violent predators' in special institutions; Dennis Ferguson in Queensland, and the Australian post-

sentence detention and supervision schemes; John Cronin in Scotland, and the Scottish approach of making orders for lifelong restriction at the time of sentence.

Community-Based Approaches to Sexual Offender Reintegration (Research Report) - Kelly Richards 2020-02-29

*The Dark Side of Samuel Pepys* - Geoffrey Pimm 2018-02-28

This historical biography reveals how the famous diarist of Restoration England used his professional position to act as a sexual predator. Samuel Pepys is popularly known as the founder of the modern navy, a member of the Royal Society and, most of all, as a unique and frank diarist. Less well known is that he was a serial sexual offender by modern standards; a voyeur, a groper, and a rapist. Set against the London society of Charles II's restoration, and extensively using Pepys' own words, this book concerns his numerous extramarital affairs. It demonstrates how he used his position of power and influence to advance the careers of his subordinates—in return for the sexual favors of their wives. With his own descriptions, translated from the strange mix of languages and the seventeenth-century shorthand he used to camouflage the content, the reader witnesses in graphic detail how Pepys set about achieving his lascivious objectives – on occasion resorting to physical force where persuasion or bribery failed. Whether she be wife, daughter, mother, or humble maidservant, no woman was safe from his rapacious sexual appetite.

**The Wiley Handbook of What Works with Sexual Offenders** - Jean Proulx 2020-08-24

The Wiley Handbook of What Works with Sexual Offenders also includes discussions from renowned international researchers and clinicians on the empirical findings of treatment effectiveness. *Exploring High-risk Offender Treatment and the Role of Music Therapy* - Louise A. Sicard 2021-07-06

Exploring High-risk Offender Treatment and the Role of Music Therapy explores the treatment delivered to high-risk offenders with complex needs, focusing on sex and violent offenders. The book advocates for the further use of less traditional and creative therapies, in particular, music therapy. The higher the risk, the greater the needs. Offenders with complex needs have a range of factors impacting their abilities and well-being including mental health and learning disorders. Importantly, high-risk offenders commonly present with complex needs and, therefore, require treatment that is highly responsive. Guiding this book is the existing literature and qualitative research, conducted by the author, that sought to gain the perspectives and experiences of practitioners in the field. This included 38 interviews with those that deliver treatment to high-risk offenders and music therapy. This book examines the components of high-risk offender treatment, highlighting the effective

elements and the limitations found within the literature and from the perspective of interviewed practitioners. Offering insight into less traditional therapies, the book presents literature surrounding mindfulness, psychodrama and art therapy for high-risk offenders. It is argued that there has been a recent shift towards a creative corrections approach, where less traditional therapies are gaining recognition within offender treatment, as they offer unique and supportive benefits to traditional treatment. This book focuses on examining the role of music therapy for high-risk offenders, mainly through a critical discussion on the relevant literature and qualitative practitioner data. Advocating the further implementation of creative corrections approaches, this book will be of great interest to academics and researchers within the fields of offender treatment and penology, as well as forensic psychologists and those studying or practicing music therapy.

Desistance from Sexual Offending - Kelly Richards 2021-12-23

This book explores how Circles of Support and Accountability can reduce sexual reoffending. The release of a notorious sex offender from prison strikes fear into members of the public. Media coverage often provokes further panic, casting such offenders as irredeemable monsters and ticking time bombs, destined to continue preying on innocent children and women. In the West, governments have responded by enacting heavily punitive and exclusionary policies, such as public sex offender registers, indefinite detention, and lifetime correctional supervision. A radically different approach – Circles of Support and Accountability (CoSA) – emerged alongside these measures. CoSA are groups of trained volunteers who collectively resist the exclusionary impulse, instead actively supporting those with sexual offence convictions to reintegrate into communities. Despite their seemingly counterintuitive nature, the research is clear that CoSA reduce sexual reoffending far better than more popular draconian sex offender management policies. However, little is understood about how CoSA work. This book begins to address this gap by proposing a new way of understanding how CoSA reduce sexual reoffending. Drawing on 65 in-depth interviews with CoSA participants, it offers a new theoretically-informed empirical explanation

of CoSA's capacity to promote desistance from sexual offending, and to turn those convicted of sexual offenders into law-abiding and productive members of the community. Ultimately it is a call to action, demonstrating that we, the community, must play a more central role in integrating people with sexual offence convictions if we desire safer communities for our children and our selves. This work illuminates new directions for research, policy, and practice, and is essential reading for academics and students engaged in the study of criminology and criminal justice, restorative justice, sexual violence, and reentry

*Working with Women Offenders in the Community* - Rosemary Sheehan 2010-12-21

Though many more women offenders are supervised in the community than in custody, much less is known about their needs and effective approaches to their supervision, support and treatment. Whilst there has been recent attention paid to responding to the needs of women in prison, negligible attention has been paid to women exiting prison, or on community based orders, and what is needed to work with them to reduce re-offending or entry into prison. Contributions to this book challenge policy-makers and corrections systems to concentrate more on community provision for women offenders and resist popular calls for more punitive responses to all offenders, women included. Contributors come from a wide range of countries including Australia, Canada, UK and USA. They argue that the criminogenic lens applied to women's offending must be gender-responsive if systems are to be successful at addressing the disadvantage and risk associated with offending behaviour. *Working With Women Offenders in the Community* builds on ideas presented in the editors' previous book, *What Works With Women Offenders* (2007), extending the focus particularly on women offenders in the community rather than in prison. This book concentrates on women who have committed criminal offences and who may have been placed on probation or other community based court orders or who have been released from prison on parole. It discusses the work done by professional workers including probation officers, community corrections officers and specialist case managers in areas such as drug treatment,

housing, mental health or employment programmes. This book will be of interest to professional probation officers, case managers, drug treatment workers and others who work with women offenders. It will also be essential reading for students of criminology, social work, psychology, sociology and other disciplines who have an interest in women offenders.

*Dangerous People* - Bernadette McSherry 2011-11-28

Experienced legal academics and mental health professionals explore the current approaches to "dangerousness" and preventive detention. The

defining characteristics of those deemed dangerous by society vary according to culture, place, and time, and the contributors to this text have gathered to analyze the policies and practices related to current out-groups such as sex offenders, suspected terrorists, and young offenders in the United States, Scotland, England, and Australia. *Dangerous People* is the result of their research, workshopping, and writing. The text is organized logically and begins with a section on Parameters that explores the international human rights and legal limitations related to preventive detention schemes. It moves on to Policy, where contributors examine legislative policy, and Prediction, or risk assessment, especially in terms of violent crimes in youth. The section on Practice focuses on recent schemes to prevent re-offending. This text is indispensable as a resource that deals with the practical issues surrounding preventive detention and supervision schemes, the assessment of the risk of future harm in offenders, and different programs and sentencing options for high-risk offenders with mental illnesses. It contains case examples that bring real-life issues to light and sets forth an agenda to provide effective ways to protect communities from harm.
