Edgar Snow - John Maxwell Hamilton
2003-09-25

Edgar Snow (1905--1972) was one of the most notable Western journalists to report on China in both the revolutionary and postrevolutionary periods. He first became famous in the mid-1930s when he broke through a Nationalist blockade and reached the Communists in northwest China. For nearly a decade, no foreign reporter had seen the Communists, who were widely regarded as a ragtag bandit army. Snow took them seriously as a national movement. His reporting in the now-famous book *Red Star over China* was major news, even to the Chinese, thousands of whom joined the Communists after reading it. It has remained a seminal reference on the early Chinese Communist movement. In

this award-winning biography, journalist John Maxwell Hamilton follows Snow from his birth in Kansas City to his rise as a celebrated foreign correspondent for the *Saturday Evening Post*, his ostracism during the cold war, and his role as a singular journalistic bridge between Communist China and the United States. With a new preface by the author, this revealing portrait of the widely misunderstood Snow firmly establishes him as a model for the kind of committed reporting that is crucial to understanding our interdependent world.

The Complete Black Book of Russian Jewry -
David Patterson 2003-06-01

The Complete Black Book of Russian Jewry is a collection of eyewitness testimonies, letters, diaries, affidavits, and other documents on the activities of the Nazis against Jews in the camps, ghettos, and towns of Eastern Europe.

Arguably, the only apt comparison is to The Gulag Archipelago of Aleksandr Solzhenitsyn. This definitive edition, including for the first time materials omitted from previous editions, is

a major addition to the literature on the Holocaust. Now available in paperback, it will be of particular interest to students, teachers, and scholars of the Holocaust and those interested in the history of Europe. The Black Book is the single most important text documenting the slaughter of Jews in the USSR. Until now, it was only available in English in truncated editions. Because of its profound significance, this definitive English translation of The Complete Black Book of Russian Jewry is a major literary and intellectual event. " One of the most important books in the vast literature on the Holocaust...The extent of cruelty exhibited here and the uncontrolled ways in which it happened are a graphic demonstration of what the human race is capable of when left entirely to its own devices."-William B. Helmreich, Long Island Jewish World " Prepared by Ehrenburg and Grossman themselves, with fine literary skill...Each section of the documents has a useful set of notes compiled by David Patterson, author

husband Alasdair have moved back to Kelly Castle, his family estate in the wilds of Scotland. Stuck caring for their baby and trying to avoid her inscrutable mother-in-law, Caroline feels adrift and alone. But while sorting through old papers, Caroline stumbles across a family secret which changes everything. There is one Gillan bride who has disappeared from history. No photos or records of her exist. The only certainty is that she had a legitimate child: Alasdair's grandmother. As Caroline unearths a story of love and adventure that stretches as far as the Arctic circle, her curiosity about the missing bride turns into an obsession. And when a body is found in the grounds of the castle, Caroline begins an investigation which could alter the course of her life forever . . . From the wilds of Scotland to the glaciers of the Arctic, *A Woman Made of Snow* is a mesmerising tale of how one woman's past might hold the key to another's future. * Praise for Elisabeth Gifford's gorgeously atmospheric, uplifting novels:

Runaway - Evelyn Lau 2011-02-15

Even as a six-year-old child, Evelyn Lau already knew what she would be in life -- a writer. She would spend countless hours in her room writing short stories and poems trying to avoid the suffocating reality surrounding her. At the age of fourteen, forbidden by her strict parents to "waste" any more of her time writing, Evelyn did the only thing she felt she could do -- she ran away. For two years, Lau lived on the streets of Vancouver. For a while she embraced her new life, seduced by the sense of freedom and

independence from the pressures of school and family. But like so many others before her, Lau soon fell into a dangerous spiral of drug addiction and prostitution. During her two harrowing years on the street, Lau's writing ambition never left her; almost obsessively, she kept a written record of her days on the street; this record is *Runaway: Diary of a Street Kid*. A bestselling memoir, *Runaway* is a story of survival: physical, emotional and psychological. It is at times tragic, sometimes infuriating, but always honest and inspired; *Runaway* makes no apologies and offers no solutions. It is a vivid and frightening portrait of a young girl's life on the street.

Lovely, Lonely Life: a Woman's Village Journal, 1973-1982 (Volume I) - Mary Kelly Black
2007-10-22

These journal entries comprise two volumes of selections (Vol. I, 1973-1982, Vol. II, 1983-2003). Volume I includes an Introduction and some biographical memories. As Stephane Mallarme

considered literature the antithesis of journalism, a journal is often the antithesis of a diary. It is of less interest to record moods and events, or barriers to self-realization, than to have ideas and insights about these. As a journal-keeper, I am generally disinterested in diurnal details, unless these form the compost of deeper exploration or revelation, seeking insight into my condition, not simply its description. A journal, therefore, is often more complex and difficult than a diary, far less personal in depictions of daily fortune, using everyday experiences as a stepstool (at the least) to peer beyond the walls of psychological enclosure. I did not choose the journal form to mask the personal, to belittle or avoid it, but to reflect my most intimate assessment of the personal as contributing to something greater: comprehension. It is not enough merely to record the frustrations, joys or barriers of living, without appraising these for what they represent and suggest, where we learn not merely

reiterate. The ideal criteria of selection and discrimination apply not only to ones journal, but to life as well, adding a mythological drama and perspective that immersion alone does not permit. In some ways, journalizing is similar in impulse to the pastoral ethos or motif familiar in contemplative writing from Virgil to Thoreau: one withdraws from active society, toward natural or rural settings, in search of some form of respite, then returns to tell of their discoveries. Some critics have seen this as the organizing design of most North American fables--in fact, as the American mythology, seeking to heal the serious schism between our natural psyche and its more devastated environment; that is, a search for a middle ground (or via media) between the primitive and the technologically complex. This volume of journal selections resembles that motif, focusing on the withdrawal phase of a generally recuperative metaphysical cycle. Such solitude is intentional, a critical phase in the

live/withdraw/live-again cycle of spiritual refreshment. A recuperative isolation can be experienced daily, if one is discriminating in how their time is spent, but is usually gained more intensely over long, purposefully reclusive periods. The motivations for my withdrawal were several, perhaps the strongest a propensity (as described of another Irish writer) for being nearly overcome by the variety of life. If not overcome, certainly fatigued by events in and of themselves. A reflective silence seemed essential to examine the roots of this propensity. An ideal of pure time, free of most distractions (human or otherwise), was also necessary for writing of the sort that interested me, the personally contemplative or mystical. Only through such reflection could I ever achieve a meaningful connection with the more active life that surrounded me. The predominant experience of solitude--especially in a society where the value of withdrawal is suspect or sporadic--is the figurative isolation one experiences throughout

the entire cycle of withdrawal and re-emergence. It is generally difficult for lovers of action to comprehend this attraction to non-doing. One of the aims of solitude is to reunite philosophy and religion, or rather philosophy and awe, to not accept the social impoverishment of these universal needs for knowledge and worship. The asceticism of retreat was not solely the traditional and philosophical appeal of simplicity, but the freedom from income-producing and time-consuming work it permitted. For the solitary, however, an ideal of pure time must be united with an ideal of intimate association, if the mystical quest is to be emotionally as well a

The Winner's Brain - Jeff Brown 2010-03-30
Ever wonder why some people seem blessed with success? In fact, everyone is capable of winning in life; you just need to develop the right brain for it. In *The Winner's Brain*, Drs. Jeffrey Brown and Mark J. Fenske use cutting-edge neuroscience to identify the secrets of those who

succeed no matter what -- and demonstrate how little it has to do with IQ or upbringing. Through simple everyday practices, Brown and Fenske explain how to unlock the brain's hidden potential, using:

- Balance: Make emotions work in your favor
- Bounce: Create a failure-resistant brain
- Opportunity Radar: Spot hot prospects previously hidden by problems
- Focus Laser: Lock into what's important
- Effort Accelerator: Cultivate the drive to win

Along the way, meet dozens of interesting people who possess "win factors" (like the inventor of Whac-A-Mole) and glean fascinating information (like why you should never take a test while wearing red). Compulsively readable, *The Winner's Brain* will not only give you an edge, but also motivate you to pursue your biggest dreams.

The last days of 1979 in New York City. The streets slumber beneath a thick layer of snow. Down a darkened alley red and white lights reflect off the drifts, the walls, and the body of a young woman. Harry DeMarko's career as a police officer ended too soon. Deprived of the

It begins to look like a random senseless crime, until a second body turns up. Toni B is one of the women who work Harry's neighborhood. She's a friend, and she's Harry's way into that world. She wants to help, but time is running out for all of them. In order to keep Toni and her friends safe, Harry needs to work fast. Snow Bodies - Elizabeth Hudson 2004

From her own harrowing experience Hudson graphically renders the deadly underbelly of society and her descent into the abyss of drug addiction and prostitution. In direct prose, without fear, shame or explanation, and without imposing hindsight or societal values onto her narrative, Hudson takes the reader with her on a terrifying journey to the bottom. Snow Bodies is a heartbreaking reminder of the horrors occurring daily on Canadarsquo;s city streets.

On The Wrong Side of A Two-Way Street -

Milton G Boothe 2023-03-09

He was the scum of the earth; one of the most despicable human beings God could have every have created. A trickster and a crook of the lowest level, and despised by even his own mother, he prowled on the gritty streets of Brooklyn, like a heartless predator, always

looking for a vulnerable female to exploit. This he did until he met a decent Christian girl, whose world was light years away from his, and his life would change in ways that even he could never have dreamed of.
