Visit us online at www.1stWorldLibrary.ORG - - Hilda Wade's gift was so unique, so extraordinary, that I must illustrate it, I think, before I attempt to describe it. But first let me say a word of explanation about the Master. I have never met anyone who impressed me so much with a sense of GREATNESS as Professor Sebastian. And this was not due to his scientific eminence alone: the man's strength and keenness struck me quite as forcibly as his vast attainments. When he first came to St. Nathaniel's Hospital, an eager, fiery-eyed physiologist, well past the prime of life, and began to preach with all the electric force of his vivid personality that the one thing on earth worth a young man's doing was to work in his laboratory, attend his lectures, study disease, and be a scientific doctor, dozens of us were infected by his contagious enthusiasm. He proclaimed the gospel of germs; and the germ of his own zeal flew abroad in the hospital: it ran through the wards as if it were typhoid fever. Within a few months, half the students were converted from lukewarm observers of medical routine into flaming apostles of the new methods.

The Physician's Daughter - Martha Conway 2022-03-03

'Historical fiction at its best' Tracy Rees, author of *The Rose Garden* A compelling novel of female perseverance and the role of women in society set in the aftermath of the American Civil War. For readers of Tracy Chevalier. In a world made for men, can one woman break free from tradition and walk a new path? It is 1865, the American Civil War has just ended, and 18-year old Vita Tenney is determined to pursue her lifelong dream of becoming a country doctor like her father. But when her father tells her she must get married instead, Vita explores every means of escape - and finds one in the person of war veteran Jacob Culhane. Damaged by what he's seen in battle and with all his family gone, Jacob is seeking investors for a fledgling business. Then he meets Vita - and together they hatch a plan that should satisfy both their desires. Months later, Vita seemingly has everything she ever wanted. But alone in a big city and haunted by the mistakes of her past, she wonders if the life she always thought she wanted was too good to be true. When love starts to compete with ambition, what will come out on top? From the author of *The Floating Theatre*, *The Physician's Daughter* is the story of two people trying to make their way in a world that is struggling to escape its past. 'Vividly realised, and impeccably researched, with a determined female lead' Kayte Nunn, author of *The Botanist's Daughter* 'A riveting read set during the American civil war, about a pioneering young woman dead-set on becoming a doctor' Inga Vesper, author of *The Long, Long Afternoon* 'A compelling story' Heat Magazine 'In the proud tradition of female characters from Jo March to Meredith Grey, Vita Tenney takes her place as a determined woman unwilling to let society or her family control her destiny.
