Missing Girls in Liberal Italy, 1861-1921 -

Francisco J. Beltrán Tapia 2022

By relying on the relative number of boys per hundred girls as a cumulative measure of differential mortality during birth, infancy and childhood, this paper shows that Italian average child sex ratios (aged 0-4) were very high between 1861 and 1921. Our estimations

indicate that unexplained female mortality could have resulted in around 2-3 per cent of "missing girls" during this period. Likewise, by constructing a new dataset on child sex ratios at the provincial level during the same period (roughly 69 provinces x 6 census years), this article shows that child sex ratios tended to be higher in Southern Italy, a geographical cleavage that became stronger as time went by. Crucially, the results reported here, both at the national and the province levels, cannot be explained by registration issues because (1) the analysis holds if we focus on the child sex ratios of older children (aged 5-9) and (2) female excess mortality is also visible using death registers. Lastly, this article shows that unexplained female mortality early in life disappeared from the 1920s onwards, thus suggesting that either discriminatory practices gradually vanished and/or that they no longer translated into higher mortality rates due to increasing living standards.

The Half Days - Sedley Proctor 2015-07-04
The Half Days is a collection of comic, tragic and absurd stories about life in Apulia, Southern Italy. Set in the 1990s and early 2000s, the stories shed light on the sundry lives of ex-pat teachers, Patrick and Julia, African street sellers, Cofi and Daniel, theatre impresario, Tony Di Curtis and his long suffering assistant, Katarina. The Half Days is the perfect companion for the short haul flight to Bari and the sunny white towns of the Valle D'Itria, Lecce and the blue seas of the Salento.

Death, Dying, and Social Differences - David Oliviere 2011-09-15

Society has become increasingly diverse; multi-cultural, multi-faith and wide ranging in family structures. The wealthier are healthier and social inequalities are more pronounced. Respecting and working with the range of 'differences' among service users, families and communities in health and social care with ill, dying and bereaved people is a neglected area in the literature. As the principles of palliative and end of life care increasingly permeate the mainstream of health and social care services, it is important that professionals are sensitive and

respond to the differing needs of individuals from diverse socio-economic backgrounds, ethnicities, beliefs, abilities and sexual orientations, as well as to the different contexts and social environments in which people live and die. This book explores what underpins inequality, disadvantage and injustice in access to good end of life care. Increasingly clinicians, policy planners, and academics are concerned about inequity in service provision.

Internationally, there is an increasing focus and sense of urgency both on delivering good care in all settings regardless of diagnosis, and on better meeting the needs of vulnerable and disadvantaged groups. National initiatives emphasise the importance of resolving disparities in care and harnessing empowered user voices to drive change. This newly expanded, fully revised second edition, with 11 new chapters, provides a comprehensive analysis of discrimination, difference and disadvantage in end of life care, and offers

practical guidance for all who seek to support the equitable provision of good end of life care.

Methods, Sex and Madness - Dr Derek Layder
2012-08-21

Social research yields knowledge which

powerfully affects our daily lives. The 'facts' it generates shape not just how we see ourselves and others, but also whether or not we see the existing status quo as normal, just and legitimate. This book examines and questions the methods used by social researchers to produce such knowledge. It focuses chiefly on research into human sexuality and madness. It introduces and critically assesses everything from survey methods to participant observation. It opens up broader philosophical debates about the nature of knowledge, and highlights issues surrounding the ethics and politics of research. The book looks at the research community and the research process in detail before moving on to examine the main techniques used in social research: * the use of official statistics * the survey method * interviewing * laboratory observation * ethnography * the use of documentary sources * textual analysis. By exploring both technical and conceptual problems in the work of researchers like Freud

and Kinsey, and by considering the difficulties faced by researchers concerned with phenomena such as rape, witch hunts and prostitution this book makes methodological issues both interesting and accessible.

[A Death in Brazil](#) - Peter Robb 2005

Delving into Brazil's baroque past, Peter Robb writes about its history of slavery and the richly multicultural but disturbed society that was left in its wake when the practice was abolished in the late nineteenth century. Even today, Brazil is a nation of almost unimaginable distance between its wealthy and its poor, a place of extraordinary levels of crime and violence. It is also one of the most beautiful and seductive places on earth. Using the art and the food, and the books of its great nineteenth century writer, Machado de Assis, Robb takes us on a journey into a world like Conrad's Nostromo. A world so absurdly dramatic, like the current president Lula's fight for power, that it could have come from one of the country's immensely popular TV

soap operas, a world where resolution is often only provided by death. Like all the best travel writing, *A Death in Brazil* immerses you deep into the heart of a fascinating country. Vivid, obsessive and intelligent, this is an utterly enthralling account.

Accidental Death of A Terrorist - SEDLEY. PROCTOR 2019-01-31

"We survive in the confusion of a life reborn beyond reason." - Pier Paolo Pasolini What reasons can there be beyond the reasons of love? Now married to successful businessman, Achille Lombardo, Julia appears to have it all until her she embarks on an ill-fated affair with Arturo, and her ex-pat adventure morphs into the crime of passion. Crime Passionnel in

Southern Italy The second part of the Mezzogiorno Trilogy, Accidental Death of a Terrorist tells the story of Julia and Arturo's forbidden affair as it becomes entwined with the fate of Marco, a naïve Arab medical student they have befriended. Told as a series of flashbacks and vignettes, the novel opens up the shutter on the hidden world of passion and deceit that lurks in the sleepy towns of Southern Italy, and begs the question: can love triumph over circumstance? EXTRACT An Interview with the author of the Mezzogiorno Trilogy Young and love in Southern Italy SP: Where is your bowler hat and your Union Jack? they used to say, tongue in cheek Do you like the Beatles? - Can you sing us one of their songs? Badly I said. And there I was quite naked. Without a bowler hat or a Union Jack, and very often with my feebly remembered Beatles lyrics. I would be listening to their songs and their music. And sometimes I didn't get it. Sometimes they didn't get me. And often, because I was burning my arse off on a

beach, or in some cove that may or may not have been the place where Aeneas landed when he fled Troy, it really didn't matter, because I was young and in love. The Half Days SP: I suppose my life was not unlike that of Julia in the book. I was, like her, a language teacher. I did that job for a long time, nearly twenty years. And there is also that undercurrent. I think the feeling that it is described in the books - of being an outsider with some extra knowledge. Like Julia, I could speak Italian pretty well. And I began to get all sorts of cultural things that you can only get if you live in a country for a long time. I could laugh at the impressions of Maurizio Crozza (a kind of Rory Bremner). I could mumble some of the lyrics to Pino Daniele and get all sentimental about Neapolitan love songs. I knew the difference between pasta asciutta as my father-in-law used to call the dry pasta you got in packages and the pasta your mamma rolled out and pinched into little ears that became *orrechiette*. And yet there was always a part of

me that was different. There had been a whole life elsewhere. In London! England! (Laughs) That difference marked me. Not in a bad way. But it gave me a different way of looking at things. That is what I realised when I wrote the first book, *The Half Days*. I had caught the feel of the south, not as they saw it, but as I saw it - in my position of half-way house. Not as an Italian nor as an Englishman in a bowler hat. That something in between. I suppose it reflected the strangeness of my position. *Accidental Death of a Terrorist SP*: What about the second book, *Accidental* you ask? That's easy. That was characterised by a particular feeling, that feeling of being on the edge of the known world, and realising one might, like some flat earther, fall off. Sedley Proctor Speaking to M.T. Sands, author of *Ten Naughty Stories* Sedley is currently working on the third part of the *Mezzogiorno Trilogy*, *Man from the South*, which takes up with the story of Julia's ex-husband, Achille Lombardo.

Routledge Revivals: Medieval Science, Technology and Medicine (2006) - Thomas F. Glick 2017-07-05

First published in 2005, this encyclopedia demonstrates that the millennium from the fall of the Roman Empire to the Renaissance was a period of great intellectual and practical achievement and innovation. In Europe, the Islamic world, South and East Asia, and the Americas, individuals built on earlier achievements, introduced sometimes radical refinements and laid the foundations for modern development. *Medieval Science, Technology, and Medicine* details the whole scope of scientific knowledge in the medieval period in more than 300 A to Z entries. This comprehensive resource discusses the research, application of knowledge, cultural and technology exchanges, experimentation, and achievements in the many disciplines related to science and technology. It also looks at the relationship between medieval science and the

traditions it supplanted. Written by a select group of international scholars, this reference work will be of great use to scholars, students, and general readers researching topics in many fields, including medieval studies, world history, history of science, history of technology, history of medicine, and cultural studies.

Mezzogiorno - David Kerekes 2012-09-27

No map distinguishes Montefalcione as different from any other isolated mountain village in southern Italy. It has ancient customs and its own saints and feast days -- yet Montefalcione, in Campania, is the setting for this meditation on the Italian Diaspora, reconstructing three generations of village life through myth, superstition, and the anecdotal history of the author's own family. The drama unfolds amidst a landscape of peasant riots, vicious landlords, religious festival, feuds, the collapse of the Fascist party, and the tarantella - a world lost to the changing face of the 21st Century.

Sex In The Head - Linda R. Williams 2016-07-01

In *Sex in the Head*, Linda Ruth Williams uses psychoanalysis and recent feminist film theory to analyze a network of ideas which link looking with sexuality and difference, in the work of a writer who disavowed, yet covertly enjoyed, the pleasures and power of vision. The book is a departure from the long history of feminist readings of Lawrence, in that it discusses his engagement with theories of the gaze and its

cultural forms - cinema, photography, painting and the visual dynamics and metaphors of literary texts - as a way of thinking through gender. It shows him arguing, on the one hand, against the evils of cinema and visual sex, while relishing, through the eyes of women, the moving spectacle of those male bodies which populate the pages of his books. It also questions what it is about the work of such an adamant cinephobe which has made it so thoroughly adaptable for film and television.
