Beyond Order - Jordan B. Peterson 2021-03-02

The inspirational sequel to 12 RULES FOR LIFE, which has sold over 5 million copies around the world - now in paperback In 12 Rules for Life, acclaimed public thinker and clinical psychologist Jordan B. Peterson

offered an antidote to the chaos in our lives: eternal truths applied to modern anxieties. His insights have helped millions of readers and resonated powerfully around the world. Now in this long-awaited sequel, Peterson goes further, showing that part of life's meaning comes from reaching out into the domain beyond what we know, and adapting to an ever-transforming world. While an excess of chaos threatens us with uncertainty, an excess of order leads to a lack of curiosity and creative vitality. Beyond Order therefore calls on us to balance the two fundamental principles of reality - order and chaos - and reveals the profound meaning that can be found on the path that divides them. In times of instability and suffering, Peterson reminds us that there are sources of strength on which we can all draw: insights borrowed from psychology, philosophy, and humanity's greatest myths and stories. Drawing on the hard-won truths of ancient wisdom, as well as deeply personal lessons from his own life and clinical practice, Peterson offers twelve new principles to guide readers towards a more courageous, truthful and meaningful life.

Story of Love and Pain - Black Pearl 2017-04-21

The book Story Of Love And Pain seeks to bring singles and couples to the reality of dating, throwing more light on the need to realise that people often change from time to time. Emphasis is placed on the fact that relationships are built and not bought. Taking hints from the story of my relationship I shared in chapter one, we need to realise that communication is key and assumptions should be thrown out of the window, both parties need to understand and discuss their roles in their relationship so there is no friction of whatever sought. The book reveals to us that matters of the heart are dynamic, and there is need to keep an open mind when dealing with your spouse. A whole chapter is dedicated to overcoming breakups, because this seems to be a very sensitive part of every relationship, breakups aren't pleasurable, at least for the party at the receiving end, so there is need to know how to deal with breakups so that it doesn't lead to break downs. As you digest what you have read, remember that relationships are special, and when lost, it is gone for life, only a few people get the opportunity to correct their mistakes, and so we have to be very prudent.
