Beyond Boundaries Susan Shillinglaw 2002-08-21 Documents life among the Kayapo Indians of central Brazil, a fiercely independent tribe, who were forced to become "businessmen" or see their traditional way of life destroyed.

Creation Myths Marie-Louise von Franz 2017-05-09 Creation myths are the deepest and most important of all myths because they are concerned with both the basic patterns of existence and the ultimate meaning of life. In this book, an eminent Jungian analyst examines the recurring motifs that appear in creation myths from around the world and shows what they teach us about the mysteries of creativity, the cycles of renewal in human life, and the birth of consciousness in the individual psyche. Among the topics discussed are: • Why the creative process is often accompanied by anxiety, depression, loneliness, and fear of the unknown. • The meaning of creation motifs such as the egg, the seed, the primordial being, the creative fire, the separation of heaven and earth, and the four stages of creation. • Creation symbolism in the alchemical opus of medieval tradition. • How creation-myth motifs appear in the dreams of people who are on the verge of a leap forward in consciousness.

Back to Basics Ann Ulanov Created during the threat of worldwide pandemic, this book reaches to new language to express the basics of Analytical Psychology in new forms. What results is not a finished conclusion but a never ending process that includes dismay and celebration. Bad and good

interweave as long as we are growing; celebration happens in perceiving the infinite is lived through our ordinary finite life. Projection is a first step toward consciousness; the missing piece that lures us to destructiveness can be found. A defense of dissociation presses for its undoing to support a consciousness that simultaneously can hold in mind the absence along with the presence of our life force. Integration is agonizing as well as liberating. The new syntax of what the psyche is doing with and to us yields increased permeability of personal and collective living marked by a subjectivity within the objective other-than-self endorsing full fledged living of self. That cannot be done without tender regard for neighbor within and without, and forms of service to the transcendent.

Journeys Into Emptiness Robert Jingen Gunn 2000 "Journeys into Emptiness traces the lives of three famous religious seekers and their quests for personal transcendence. Dogen, a thirteenth-century Japanese Zen master, experienced emptiness in wordless meditation - the practice of zazen that spread in time from the Eastern world to the West. Thomas Merton was a twentieth-century Catholic monk whose experience of personal homelessness brought him to explore the tension that lies between solitude and community. Carl Jung, raised by a pious father and a psychologically unbalanced mother, was driven to understand the structure of the psyche, including the male and female elements that exist in every human person." "Robert Jingen Guinn provides wise and compassionate portraits of these emblematic figures. Each of them, in his own way, had to experience emptiness, going beyond consciousness to discover his own personal truth, whether that was rooted in Buddha-nature, God or the unconscious. This "going beyond" became a path to encountering their own unique selves and a deeper sense of life."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

the home of the gods and goddesses, the land of the daimon, or the source of creativity. Others simply call it the soul. The daimon of the imaginal world facilitate the incarnation of soul into the physical body, and transforming these dark energies allows us to progress as spiritual beings, to live life from a more conscious view. Sandra Dennis suggests that attitudes devaluing the erotic, feminine, instinctual energies particularly those of sexuality, and destructiveness and the marginalization of bodily sensation itself, block these daimonic soul images from incarnating. She discusses our tendency to block these transforming forces and offers suggestions on how to embrace and reclaim them to allow for a more integrated existence. She explains sensations associated with daimonic imagery fragmentation, rage, anxiety, pain, also the other side ecstasy, bliss, orgasmic release understanding that all of these sensations form the basis for profound change in the sense of self. Queer Sexualities in French and Francophone Literature and Film 2015-07-14 The steady development of queer theory over the last two decades has provided useful analytical tools and the will to dismiss the watchdog of heteronormativity. Modes of reading have evolved, as this volume of FLS amply attests. Following Bill Edmiston's introduction to the volume — a concise and informative history of queer theory — the fifteen articles reveal, not surprisingly, significant diversity. One deals with queerness in the context of medieval writing where allegorical and euphemistic expression were understood to be irreconcilable. Another treats translations in Early Modern France of an Ovidian fable that had an inconvenient lesbian dimension. Rousseau's fixation on his bottom (e.g., for spankings) points to a queer streak, while Gautier's *Mademoiselle de Maupin* enhances the theme of sexual misidentity with ornamental figures. The queerness of Sand's *La Mare au diable* emerges in the course of a contrasexual reading. A musicologist investigates the possibility of a

lesbian esthetics of music in a work by Erik Satie, while a literary scholar finds evidence of Proust's "outing" in Jean Santeuil. Other articles address the sense of gender transformation wrought by sodomy, a revised view on the writing subject in Jean Genet's fiction, the queerness of heterosexuality in the works of Michel Houellebecq, and recurring motifs in recent fiction produced by "gay Paris." Two of the articles treat activism and esthetics in film.

Mis/takes Terrie Waddell 2012-09-10 Mis/takes departs from the bulk of screen discourse by applying Jungian and Post-Jungian ideas on unconscious processes to popular film and television. This perspective offers a rich insight into the way that various myths infiltrate popular culture. By examining the function of psychological motifs and symbols in cinema and television, Terrie Waddell opens up another way of thinking about how identity can be constructed and disrupted. Mulholland Drive, Memento, The Others, The X-Files, Twin Peaks, The Sopranos, Spider, Intimacy and Absolutely Fabulous all lend themselves to this approach. The close analysis of these films/programs are guided by a number of core archetypes from trickster and Self to incest and the grotesque. The book's four parts reflect these dominant patterns: Jung, trickster and the screen Mistaken identities, self-deception and the undead Redeemers, bad dads and matricide Excesses of the sad and the sassy Mis/takes gives readers a chance to engage with screen material in an original and subversive way. This study will be of great interest to Jungian analysts and students of film, cultural studies, media, gender studies and analytical psychology.

The Living God and Our Living Psyche Ann Belford Ulanov 2008-02-25 Why should Christians bother to read Carl Jung? He may be one of the most famous psychologists of the twentieth century, but are his views and ideas really compatible with Christian faith? While acknowledging some Christian suspicion of Jung, Ann Belford Ulanov and Alvin Dueck maintain that Jung's psychology can indeed

enhance the life of faith.

The Interpretation of Fairy Tales Marie-Louise von Franz 2017-10-10 A Jungian psychologist explains how careful analyses of fairy tales like “Beauty and the Beast” can lead to a better understanding of human psychology Of the various types of mythological literature, fairy tales are the simplest and purest expressions of the collective unconscious and thus offer the clearest understanding of the basic patterns of the human psyche. Every people or nation has its own way of experiencing this psychic reality, and so a study of the world's fairy tales yields a wealth of insights into the archetypal experiences of humankind. Perhaps the foremost authority on the psychological interpretation of fairy tales is Marie-Louise von Franz. In this book—originally published as *An Introduction to the Interpretation of Fairy Tales*—she describes the steps involved in analyzing and illustrates them with a variety of European tales, from "Beauty and the Beast" to "The Robber Bridegroom." Dr. von Franz begins with a history of the study of fairy tales and the various theories of interpretation. By way of illustration she presents a detailed examination of a simple Grimm's tale, "The Three Feathers," followed by a comprehensive discussion of motifs related to Jung's concept of the shadow, the anima, and the animus. This revised edition has been corrected and updated by the author.

Spirit in Jung Ann Ulanov Carl Jung is the foremost interpreter of the many interactions of religion, the world of the spiritual and psychological insight into human behaviors. In this book, one of the outstanding Jungian scholars of our time surveys Jung's contributions to a whole series of issues, ranging from the political to the pedagogical to the inner life of a saint, Therese of Lisieux.

Cinema as Therapy John Izod 2014-12-17 Loss is an inescapable reality of life, and individuals need to develop a capacity to grieve in order to mature and live life to the full. Yet most western movie

audiences live in cultures that do not value this necessary process and filmgoers finding themselves deeply moved by a particular film are often left wondering why. In *Cinema as Therapy*, John Izod and Joanna Dovalis set out to fill a gap in work on the conjunction of grief, therapy and cinema. Looking at films including *Million Dollar Baby*, *The Son's Room*, *Birth* and *The Tree of Life*, *Cinema as Therapy* offers an understanding of how deeply emotional life can be stirred at the movies. Izod and Dovalis note that cinema is a medium which engages people in a virtual dialogue with their own and their culture's unconscious, more deeply than is commonly thought. By analysing the meaning of each film and the root cause of the particular losses featured, the authors demonstrate how our experiences in the movie theatre create an opportunity to prepare psychologically for the inevitable losses we must all eventually face. In recognising that the movie theatre shares symbolic features with both the church and the therapy room, the reader sees how it becomes a sacred space where people can encounter the archetypal and ease personal suffering through laughter or tears, without inhibition or fear, to reach a deeper understanding of themselves. *Cinema as Therapy* will be essential reading for therapists, students and academics working in film studies and looking to engage with psychological studies in depth as well as filmgoers who want to explore their relationship with the screen. The book includes a glossary of Jungian and Freudian terms which enhances the clarity of the text and the understanding of the reader.

Rebirthing Into Androgyny: Your Quest For Wholeness, And Afterward offers to the hungry ones a familiar yet totally different feast. While it sets forth an already-established metaphysics, it also presents a radical new idea—one that has been implicit in that spiritual thought but unavailable until now and the new awareness associated with quantum physics. In other words, while this book provides soul searchers—also known as learners—with an ages-old means of generating a fundamental inner change (a rebirthing), it also provides a new, living prototype of what is being reborn. Thus, a person’s rebirthing is both a gestation and a labor (a quest) producing an ever-increasing knowing (“gnosis”), which gradually becomes being that can finally merge with the Beloved/Self. And the new, living prototype is that of the human soul, not as what a person has but as what a person is: a creative energy being who generates its own “bodies” out of its soul substance—its creative consciousness energy—by means of its archetypal human energy system, while always being guided by its nucleus of divinity. In this book, which is a textbook for soul searchers, all of this transformative change is offered, explored and explained in a series of carefully-crafted lessons lovingly taught by a shamanic teacher/healer in a stone circle “classroom,” the ancient site of a modern teaching. There is a grand feast awaiting!

Jung and the Jungians on Myth Steven Walker 2014-04-08 Carl Gustav Jung (1875-1961) was never more insightful and intriguing than when he discussed mythology. The key to understanding the Jungian approach to mythology lies in the concept of the image, which provides the basis for his theory of the unconscious. By emphasizing the image over the word, Jungian psychology distinguishes itself dramatically from Freudian, Lacanian, and other psychologies that stress the task of interpreting the language- the words- of the unconscious. In *Jung and the Jungians on Myth*, Steven Walker carefully leads the reader through the essential lines of thought in Jungian

psychology before developing his method for using Jungian ideas to approach mythological texts. Whether one is sympathetic toward Jung's ideas or critical of them, one will find in Walker's discussion a lucid introduction to Jungian perspectives on myth and psychology.

Rabbinic Theology and Jewish Intellectual History Meir Seidler 2013 This book examines the thought and legacy of Rabbi Loew (the Maharal), one of the most important Jewish thinkers. Taking a multi-disciplinary approach, the book encompasses organized perspectives that range from East European cultural and intellectual history, to Medieval Jewish intellectual history and its legacies, to Rabbinic theology, to Italian Jewish history, to Early Modern Jewish intellectual history, to Maharal Studies, to Postmodernism and Judaism, to Jewish political theory, Comparative Religion, and Cinematic Studies.

The Presence of the Feminine in Film Virginia Apperson 2009-01-14 This pioneering book introduces a largely unremarked dimension of film, the "feminine," which cannot be reduced to women's experience, or to men's projections onto women. The Presence of the Feminine in Film gives body to that often rather loosely formulated Jungian conception, the "feminine aspect of psyche," by noticing what "feminine" turns out to mean in particular cinematic contexts. Spanning seven decades—from *Pride and Prejudice*, *Notorious*, and *Letter from an Unknown Woman* to *Monsoon Wedding*, *Brokeback Mountain*, and *The Lives of Others*—the movies selected for particular study here make it clear that the feminine is at home in the movies, and that when she appears, it is to appeal to our sensibilities as well as to our senses. This is a book that will enhance the appreciation of film as a depth psychological medium.

Body Eloquence Nancy Mellon 2008 Have you ever had an ache or pain, and wished your body could talk to you and tell you what was wrong? You're not alone! Master storyteller Nancy Mellon, author of *Body Eloquence*, has guided scores of people through the process of giving their bodies a voice. Drawing from mythology, medicine, biology and energetic healing, she finds the essential stories that characterize each organ of the human body, and trains us how to use these resources to identify the messages that our organs are communicating to us. The heart, for instance, is not just a durable pump, sending oxygenated blood to every cell. It's also a representation of goodwill; a heart-to-heart connection, or an open-hearted friend, are universal stories we can all identify. But a hard-hearted person is one we all avoid. These archetypes are found in mythologies from Native American traditions to Scandinavian tribes to Greek history, and are woven together in a fascinating matrix in *Body Eloquence*, showing how our organs are part of our psyche, our history, and our collective mythology.

[Transforming Wisdom](#) Felicity Kelcourse 2015-10-09 *Transforming Wisdom* offers an extensive, multidisciplinary introduction to pastoral psychotherapy from some of the most respected practitioners in the field. With special attention to theological perspectives on the practice of psychotherapy, this collection of essays will be useful to students seeking an orientation to the art and science of pastoral psychotherapy as well as to seasoned professionals looking to refresh and renew their practice. As the subtitle, *Pastoral Psychotherapy in Theological Perspective*, suggests, this book is intended to represent the field of pastoral psychotherapy as a mental-health discipline that maintains intentional dialogue with its theological roots. Even as pastoral psychotherapy has developed from the ancient notion of the cure of souls to the current search for a psychology of happiness, therapists grounded in faith communities seek a practice that is respectful of all persons,

mindful of the deep wisdom that emanates from the true self, or soul. While many contributors write from a psychoanalytic or psychodynamic perspective grounded in Christian theological idioms, diverse theoretical perspectives, including Emotionally Focused Couples Therapy, Narrative Therapy, Buddhist Mindfulness, and Jungian understanding of individuation, are represented. Screen, Culture, Psyche John Izod 2016-02-04 Screen, Culture, Psyche illuminates recent developments in Jungian modes of media analysis, and illustrates how psychoanalytic theories have been adapted to allow for the interpretation of films and television programmes, employing Post-Jungian methods in the deep reading of a whole range of films. Readings of this kind can demonstrate the way that some films bear the psychological projections not only of their makers but of their audience, and assess the manner in which films engage the writer's own psyche. Seeking to go beyond existing theories, John Izod explores the question of whether Jungian screen analysis can work for ordinary filmgoers - can what functions for the scholar be said to be true for people without a background in Jung's ideas? Through detailed readings of a number of films and programmes, John Izod builds on the work previously done by Jungian film analysts, and moves on to contemplate the level of audience engagement. Offering deep readings of films directed by Kubrick and Bernardo Bertolucci, as well as satirical comedy, documentaries and twenty-first century Westerns, the book explores the extent to which they manage to make the psychological impact on spectators that films of a similar kind have done on Jungian writers. The author concludes that the screen texts with the best likelihood of impacting the culture of the audience through their collective psychological force fall at opposite ends of the size and budget range: highly personal documentaries, and the most affecting of mainstream genre movies. This innovative text will be essential reading for psychoanalysts and therapists, as well as students and scholars of film with an interest in

understanding how screen products work psychologically to engage the viewer.

Animus, Psyche and Culture Sulagna Sengupta 2023-07-19 *Animus, Psyche and Culture* takes Carl Jung's concept of contra-sexual psyche and locates it within the cultural expanse of India, using ethnographic narratives, history, religion, myth, films, biographical extracts to deliberate on the feminine in psychological, social and archetypal realms. Jung's concept of unconscious contra-sexuality, based on notions of feminine Eros and masculine Logos, was pioneering in his time, but took masculine and feminine to be fixed and essential attributes of gender in the psyche. This book explores the relevance of the animus, examining its rationale in current contexts of gender fluidity. Taking off from Post Jungian critiques, it proposes an exposition of the animus in history, social and religious phenomena, theories of knowledge, psychoid archetype and synchronicity, to grasp its nuances in diverse cultural worlds. This study re-envision the notion of animus keeping in mind the intricacies of feminine subjectivity and the diversity of cultural worlds where depth psychological ideas are currently emerging. A remarkable reworking of Jungian ideas, this well-researched and important new book will be an insightful read for Jungian analysts and scholars with an interest in cultural and gender studies.

Transforming Sexuality Ann Belford Ulanov 1994 For your most intimate and significant relationship with the opposite sex, look within yourself, to anima and animus, the archetypal symbols that define and celebrate the presence of the Feminine in men and the Masculine in women. The authors use their broad backgrounds in psychology, theology, philosophy, and the arts to follow the archetypes from clinical practice into a fascinating range of cultural manifestations, particularly in the world's great literature - from Dante to Pasternak - making this book the most wide-ranging study to date of these central concepts in Jungian psychology.

Circling to the Center Susan Tiberghien 2019-11-07 A luminous spiritual memoir inviting the reader to the practice of silent prayer. Rooted in her Judeo-Christian tradition, the author welcomes the wisdom of other traditions and calls us to embrace our shared humanity. In this 20th Anniversary Edition, Tiberghien writes an Afterword to update her journey, opening the confines of her own darkness and finding atonement in the natural world and in the presence of Sophia, the 'hidden wholeness' of creation.

The Wizards' Gate Ann Ulanov This book, adapted from the distinguished Hale Lectures presents material from a woman's wrestling with death, showing how inextricably mixed are matters theological and psychological. At a point when her life was blossoming in every way, Nancy was struck down by a terminal brain tumor which soon robbed her of her speech. She used paintings, many of which are here reproduced, to wrestle with this blow and to communicate what she was slowly discerning in the face of death, something from the 'other side.' The author addresses a variety of related issues, including the place of language in analysis and the role of the feminine mode of being, especially in transference and countertransference. Ann Belford Ulanov is the Christiane Brooks Johnson Professor of Psychiatry and Religion at Union Theological Seminary, a psychoanalyst in private practice, and a supervising analyst and faculty member of the C.G. Jung Institute in New York City. She is the author of numerous books, some of them coauthored by her husband, Barry Ulanov, and they have four children.

Teaching Jung Kelly Bulkeley 2011-08-24 Swiss psychologist Carl Jung (1875-1961) has made a major, though still contested, impact on the field of religious studies. Alternately revered and reviled, the subject of adoring memoirs and scathing exposes, Jung and his ideas have had at least as much influence on religious studies as have the psychoanalytic theories of his mentor, Sigmund

Freud. Teaching Jung offers a collection of original articles presenting several different approaches to Jung's psychology in relation to religion, theology, and contemporary culture. The contributors describe their teaching of Jung in different academic contexts, with special attention to the pedagogical and theoretical challenges that arise in the classroom. Many of Jung's key psychological terms (archetypes, collective unconscious, individuation, projection, synchronicity, extroversion and introversion) have become standard features of religious studies discourse, and his extensive commentaries on various religious traditions make it clear that Jung's psychology is, at one level, a significant contribution to the study of human religiosity. His characterization of depth psychology as a fundamentally religious response to the secularizing power of modernity has left a lasting imprint on the relationship between religious studies and the psychological sciences.

Picturing God Ann Ulanov Ann Belford Ulanov submits that we have all painted our own pictures of God. Most of them were formed in early childhood and now lie buried in our unconscious selves. Even though we may be unaware of our images of God, they play an active, sometimes harmful role in our spiritual development. Picturing God demonstrates the importance of confronting our unconscious selves and allowing our images of God - both positive and negative - to surface. Such inner exploration reveals not only relevant insights about ourselves, but also pulls us beyond our private pictures of God toward a truer view of the living God. Picturing God shows us how to explore our unconscious selves and how this spiritual exercise can change the whole of our lives: how we respond to God, how we relate to others, and how we view ourselves.

Receiving Woman - Studies in the Psychology and Theology of the Feminine Ann Belford Ulanov 1989 We live in a time of unparalleled opportunity for women and a time, just because of that opportunity, of great stress. It is a time when every woman can find her own particular style, to

develop her skills, to acknowledge her needs and failures, and to claim both her satisfactions and dissatisfactions. The old stereotypes are all but dead. But another danger threatens; of new stereotyped roles for women in the very range of choices and opportunities presented to the. "RECEIVING WOMAN grew out of a decade of reflections on women's experiences - my own, my patients', and my students'," writes Professor Ulanov. "From all of them, a common voice emerged speaking about each woman's struggle to receive all of herself. Each was trying to find and put together different parts of herself into a whole that was personal, alive, and real to her and to others. I know that women want to be all of themselves and want to be their own selves, not examples of types. They want to work out their own individual combinations of what have been called the masculine and feminine parts of themselves. This book focuses on that possibility, on women receiving themselves, all of themselves, wisely and gladly."

The Wisdom of the Psyche Ann Belford Ulanov 2019-01-31 This book promotes a strong argument for a 'feminine' approach to religious discovery: to struggle in the ambiguous gap between the wisdom of the psyche and the wisdom of Scripture, between our interior experience of God and the exterior reality of God. The Wisdom of the Psyche urges clergy to help parishioners bring forth their unconscious feelings and images to join their conscious thoughts. In this way, the church allows its members the space to present themselves fully to God and to be fully present to the human need around them.

The Cambridge Companion to Jung Polly Young-Eisendrath 2008-05-01 This second edition represents a wide-ranging critical introduction to the psychology of Carl Jung, one of the founders of psychoanalysis. Including two new essays and thorough revisions of most of the original chapters, it constitutes a radical assessment of his legacy. Andrew Samuels' introduction succinctly articulates the challenges facing the Jungian community. The fifteen essays set Jung in the context of his own time, outline the current practice and theory of Jungian psychology and show how Jungians continue to question and evolve his thinking and apply it to aspects of modern culture and psychoanalysis. The volume includes a full chronology of Jung's life and work, extensively revised and up to date bibliographies, a case study and a glossary. It is an indispensable reference tool for both students and specialists, written by an international team of Jungian analysts and scholars from various disciplines.

Spiritual Aspects of Clinical Work Ann Ulanov How does the spirit come into clinical work? Through the analyst? In the analyst's work in the analysis? What happens to human destructiveness if we embrace a vision of non-violence? Do dreams open us to spiritual life? What is the difference between repetition compulsion and ritual? How does religion feed terrorism? What happens if analysts must wrestle with hate in themselves? Do psychotherapy and spirituality compete, or contradict, or converse with each other? What does religion uniquely offer, beyond what psychoanalysis can do, to our surviving and thriving? This book abounds with such important questions and discussions of their answers.

Knots and their Untying: Essays on Psychological Dilemmas Ann Belford Ulanov Using the image of knots that are hard, and sometimes impossible, to untie, Ann Ulanov circles around the psychic dilemmas that entangle us, sometimes for decades. These can be heartrending to us and destructive to others, even to those we love. Yet these knots, so peculiarly our own, also open onto human problems we share with others, even across the ages. Hence working on our knots takes us far down to taproots of energy and far up and out to bring that vital aliveness into shared existence with others. Knots thus comprise a ladder, offering footholds and handholds, for descending and ascending between what Jung calls Below and Above, human and divine. What are such knots? What to do when forgiveness does not happen? What to do with the inferiority of the inferior function? With the question of how much lightning can we stand? With the perils of individuation? These are just a few examples from the essays in this book. The reader is invited to browse the essays according to personal interest or to read straight through. The surprise is that these vexing knots that tie us up and hold us down also give us a mooring; they bind us to a path that is uniquely our own that can bear the fruit of our service to others and to the surrounding whole.

The Female Ancestors of Christ Ann Belford Ulanov The spiritual power of the Feminine shines forth in this psychological study of four Old Testament heroines from Jesus' family tree. Tamar, Rahab, Ruth, and Bathsheba are the only women mentioned by name in the Gospels' genealogies and, for Ann Belford Ulanov, this indicates that they impart something essential to the lineage of Christ. By exploring their brave and unconventional lives, she demonstrates how salvation enters the world in the feminine mode of being human, through these women's embodiment of such powerful and deeply feminine qualities as ingenuity, audacity, determination, compassion, seduction, and devotion. "Like bolts of lightning, the stories of these outcast virgins illuminate what spiritual wholeness can be in the lives of contemporary women and men. Ann Ulanov's riveting insights into their daring acts reveal their deep significance in the genealogy of Jesus and expand our understanding of the words courage and love." — Marion Woodman, author of *Addiction to Perfection* and *Leaving my Father's House*

Horizons in Feminist Theology Rebecca S. Chopp 1997 By all accounts, feminist theology is at a crossroads. Even as the longstanding consensus wanes that women's experience is the source and norm of feminist theology, the specific and often contradictory experience of different groups is now highlighted, and new theoretical frameworks are being proposed. This landmark volume explores central issues of female subjectivity and feminist identity, gender and embodiment, tradition and norms, and their impact on theology. Leading thinkers in this new generation of feminist theologians

The Unconscious Roots of Creativity Kathryn Madden 2016-10-27 From whence spring the sparks of creativity? It is to this very question that the field of depth psychology—especially that of C.G. Jung and his intellectual descendants—has much to contribute. Just as the Muses were the offspring of Mnemosyne, the goddess of memory, our memories are the ancestors of our creativity that finds its multifaceted expression in the written word, image, theater, dance, and music. *The Unconscious Roots of Creativity* seeks to push the investigation into that domain of memory that is beyond our conscious reach. With articles from 16 contributors, the “red thread” running through each of the offerings in this volume is that, whatever its ultimate expression, the creative impulse has its roots deep in the psyche. Edited By Kathryn Madden with articles by Linda Carter, Anna Maria Costantino, Carol Thayer Cox, Leonard Cruz, Lisa Raye Garlock, James Hollis, Naomi Ruth Lowinsky, Ian Livingston, Kathryn Madden, Jordan S.
