Trouble and Strife Johanne Levesque 2018-03-30 Sometimes the smallest voices make the deepest impact. Josephine Hadley, a 1930s Canadian housewife, fills her days looking after her children, her indifferent husband and a stream of Depression-era visitors. Her contribution to her guests is a bowl of stew and an open heart. Her small world, however, is soon shattered by a tragic event which forces her to become the breadwinner. Can she run a business without sacrificing herself? And is it possible to act on a long-buried desire without remorse? Johanne Levesque's first novel, *Trouble and Strife*, is a poignant and

heartbreaking look at a woman's life in a fast-changing time. With intimate details and a deft poetic touch, Levesque has captured the spirit of an age where war and economic hardship altered the workplace, home and women's lives forever.

Criminalising Coercive Control Vanessa Bettinson 2023-08-07 Drawing on experiences from other jurisdictions within the UK, Criminalising Coercive Control explores the challenges and potential successes which may be faced in implementing Northern Ireland's new domestic abuse offence. A specific offence of domestic abuse was introduced in Northern Ireland in March 2021. This represents a crucial development in Northern Ireland's response to domestic abuse. The new legislation has the effect of criminalising coercive and controlling behaviour, thereby bringing Northern Ireland into line with other jurisdictions within the UK, and also with relevant human rights standards in this regard. The book begins with a discussion regarding the offence itself and the underpinning domestic abuse policy in Northern Ireland. Subsequent chapters explore further measures which may be needed to respond effectively to domestic abuse in Northern Ireland, by drawing upon the experiences of other jurisdictions of criminalising coercive control. These reflections

are considered through the lenses of policing, prosecutorial practice and frontline domestic abuse working. Criminalising Coercive Control will be of great interest to students and scholars in a variety of fields, such as criminal law, criminology, social policy, human rights, family law, gender studies and sociology. The book is also accessible beyond academia, including practitioners and those in the voluntary sector who are working in the area of combating domestic abuse.

Families and Poverty Daly, Mary 2015-02-25 The recent radical cutbacks of the welfare state in the United Kingdom have kept poverty and income management at the heart of intellectual, public, and policy discourse. This innovative book adds to that conversation, taking as its focus the role and significance of family in the context of poverty and low-income conditions. Based on a micro-level study carried out in 2011 and 2012 with fifty-one families in Northern Ireland, it draws from fresh empirical evidence to offer a new theorization of the relationship between family life and poverty. Different chapters explore such topics as parenting, the management of money, family support, and local engagement. Together, they detail the practices of constructing and managing family life and relationships in circumstances of poverty, making this book of interest to a wide readership including policy makers.

Stand in Confidence Amanda Pittman 2022-09-06 Esther Press Presents *Stand in Confidence* by Amanda Pittman Culture, church, and life have sold us narratives about who we're supposed to be as women. If we play the part well, we gain love, acceptance, validation, and significance. When we don't know which role to play from one day to the next, we sink in insecurity. We feel driven to people-please, downplay, settle, and perform. In all this, we accept less than the abundant life Jesus died to give us. Amanda Pittman, founder of Confident Woman Co., explains how we can rewrite their damaging self-beliefs with the truth about our God-given identity by establishing the Four Components of Confidence: Clarity—Embrace our identity and define our design Connection—Connect with God and connect with others Competency—Develop our ability and expand our

capacity Conviction—Know our responsibility and use our authority With a new perspective and focus, we will stand confidently upon the finished work of Jesus and live boldly in our God-given callings.

Wicked Ashley Bostock 2017-10-17 Grace Patterson is not my type. Not only is she a second-grade teacher at the local elementary school, but she's perfect, like untouchable perfect. Everything is please and thank you and Maverick - no one calls me that. And when I allow her to bring that mutt into my house, all I hear is "Did you miss me, baby? Are you hungry, baby? I'll take care of you, baby." What I didn't mention is that she's my best friend's little sister and I'm about twelve years older than her, which makes her completely off-limits. So why I'm suddenly wanting what I can't have is beyond me. *** Maverick Carter also known as Cap, is the only man who can help me when I find a stray dog on my way home from school. He isn't the easiest to have a conversation with but since my apartment doesn't allow pets, I need him. For now. Until I can figure out what to do with my new-found dog. Handbook on Well-Being of Working Women Mary L.

Connerley 2015-07-27 This handbook provides an overview and synthesis of relevant literature related to the issue of the well-being of working women. This focus addresses a gap that currently exists in the quality-of-life and well-being fields. The work of the authors answers the following broad questions: Does gender matter in the well-being of working women? Do prejudices against and stereotypes of women still play a role in interpersonal interactions in the workplace that could hinder women from flourishing professionally? Does the organizational context, such as organizational culture, reward systems, and leadership, contribute to the well-being of working-women? What impact does the national context have on the well-being of working women? And finally, how can public policies help enhance the well-being of working women? These are important issues for academics, researchers, and graduate students interested in gender issues in the fields of management, sociology, psychology, social psychology, economics, and quality of life studies. Policy makers and practitioners will also find this book beneficial. Equitable treatment and outcomes for all, regardless of gender,

Sing Us a Song, Piano Woman Adrienne Trier-Bieniek 2013-06-06
Sing Us a Song, Piano Woman: Female Fans and the Music of Tori Amos explores the many-layered relationships female fans build with feminist musicians in general and with Tori Amos, in particular. Using original interview research with more than forty fans of Tori Amos, multiple observer-participant experiences at Amos's concerts, and critical content analysis of Amos's lyrics and larger body of work, Adrienne Trier-Bieniek utilizes a combination of gender, emotions, music, and activism to unravel the typecasts plaguing female fans. Trier-Bieniek aggressively challenges the popular culture stereotypes that have painted all female fans as screaming, crying teenage girls who are unable to control themselves when a favorite (generally male) performer occupies the stage. In stunning contrast, admirers of Tori Amos comprise a more introspective category of fan. Sing Us a Son, Piano Woman examines the wide range of stories from these listeners, exploring how Amos's female fans are unique because Amos places the experiences of women at the center of her music. Tori Amos's fan base is considered devoted because of the deeply emotional, often healing, connection they have to her music, an aspect that has been overlooked, particularly in sociological and cultural research on gender, emotions and music. Tori Amos's female fans as a social phenomenon are vital for understanding the multi-layered relationships women can have with female singer/songwriters. At a time when superficial women dominate public media presentations, from the Kardashians to the "Real Housewives," the relationship between Tori Amos and her fans illustrates the continuous search by women for female performers who

challenge patriarchal standards in popular culture. Trier-Bieniek's research serves as a springboard for further study of women in pop culture whose purpose is empower and provoke their fans, as well as change society.

Gendered Bodies and Public Scrutiny Victoria Kannen

2021-12-20 In this unique approach to the field of body studies, author, scholar, and educator Victoria Kannen explores what it means to exist in a body that is constantly on display and subjected to public scrutiny. Kannen examines the interplay of many ways our bodies express identity, such as gender, race, body size, sexuality, disability, body modification, and age, and how public scrutiny of those expressions can impact our public and private selves. Intertwining personal narratives of self-identified “odd and awed” women with theoretical chapters that help to elucidate the role of social power, this volume tackles the stares, comments, and questions that are directed towards bodies in public space through original research, personal narratives, and artistic expression. As readers encounter the narratives and images throughout the book, they will be supported by scholarly chapters on embodiment, identity, resistance, and power to help analyze, reflect on, and critically engage with the content.

Through stories, theory, and art, this timely new resource will engage students and scholars of women’s and gender studies, sociology, critical disability studies, and body studies.

FEATURES: - Offers a unique understanding of interpretation and what it means to have a body that causes curiosity, discrimination, and lifelong interactions - Accessible and engaging for students and scholars, as well as those outside of academia - Provides creative and non-traditional opportunities for critical engagement with various embodiments

Women, Mothers, Subjects Maura Sheehy 2015-10-14 This collection, drawn from twelve years of the influential journal *Studies in Gender and Sexuality*, offers a groundbreaking advance in thinking and theorizing about what happens to women when they become mothers. It explores how women are changed and shaped by interaction with their children and the cultural constructs about motherhood in which they are embedded.

Distinguished psychoanalysts, philosophers, feminists, gender and cultural theorists explore the meeting place of cultural representations of motherhood, maternal theory, and mothers interacting in the clinical setting and with their children, to illuminate how the process of becoming a mother creates and informs female subjectivity, identity, desire, expression, aggression, ambition, shame, envy, and relationships.

Contributors find mothers to be complex subjects negotiating rich hybrid identities that explode received notions of maternal and even female subjectivity in their complexity. They create an exciting and very accessible new set of ideas and templates for thinking about mothers and women that will be of value to clinicians, academics, and mothers alike. This book was originally published as a special issue of *Studies in Gender and Sexuality*.
