*Prime* - Pepper Schwartz 2009-10-13

"Sex can be just gorgeous—and sometimes it is the most beautiful thing that can happen between a man and a woman. But don't you also think that it can be just practical? Like when you're hungry and don't want a three-course meal with wine, music, and ambience; you just want a sandwich. You don't love the sandwich. You don't hate the sandwich. You just want to eat the sandwich and feel satisfied." Dr. Pepper Schwartz has always encouraged women to embrace their sexual appetites. After three decades of answering people's questions about their emotional, sexual, and romantic lives; after writing several books on sex and relationships; after thirty-five years as a sociology professor at the University of Washington, she has formed firm opinions about sex and relationships. However, when her own situation changes, when she becomes a single woman after twenty-three

years of marriage, she has to reevaluate and discover how sex and dating can work for her at this unique time in her life. Masters and Johnson, the famous sex researchers concluded that you can have sex, and want sex, way into old age, if you never stop doing it. And Pepper is very sure that she never wants to stop doing it. Now, she must make the effort to put herself in the running—getting in shape physically, emotionally, and spiritually—and figure out ways to meet worthy and available men. Ideally, she would like to have a serious relationship, but if that isn't in the cards, she still wants sex and companionship. And while she may feel as sexually alive as she did when she was twenty-five, the number and availability of men has changed. So, how do you look for a life partner after fifty and enjoy sexual adventures along the way? Prime is Dr. Pepper's response to this question. It's her story of exploration—sex, adventure, and romance—spread out like a road map for women of every age, because even as she is telling her own tale, she doesn't forget to exercise her talent for advice. Whether you're looking to wake up a tired sex life, start a new relationship, explore cyber-dating, indulge in a four-hand massage, flirt with gigolos on vacation, or commit to the love of your life, you can find tempting tips and genuinely helpful guidance. The prime of life has lengthened and as Dr. Pepper's experiences show, it would be wrong not to live every moment to the fullest. Calling for a brave and creative reevaluation of what is possible in the second half of women's lives, Prime invites every woman to relish her sexuality, take risks, and go after what she really wants—whether it's a sandwich or something substantially more satisfying. . . .

Mediated Intimacy - Meg-John Barker  
2018-02-27

Mediated Intimacy looks at contemporary sex and relationship advice, exploring how our intimate lives are shaped through different media, from manuals and magazines to television and Twitter. By exploring how intimacy is constructed through different media texts, the authors consider which ideas and practices these changing forms of 'sexpertise' open up, and which they close down. The book reveals the intimate operation of power in mediated advice, how words and images, stories

and sound can work to shore up social injustice. It critically engages with the ideas of choice and responsibility in sex self-help, arguing that these can obscure and/or justify oppression, even if they're sometimes experienced as empowering and/or pleasurable. This bold and incisive book provides a radical challenge to the assumptions underlying the sex advice industry, and presents a critical, collaborative and consensual vision for sex advice of the future.

A Practical Guide to Sex - Dr Meg-John Barker  
2017-01-05

Plenty of books on sex suggest that it has to be done in a certain way, or in a certain kind of relationship, or with certain people. This isn't that kind of book. Enjoy Sex is a truly practical, friendly guide through the confusing, and sometimes alarming, world of sex and sexuality. Its radical approach puts your experience at the heart of the book, and invites you to explore what might be enjoyable to you. With the authors' engaging and thoughtful style, the book challenges the messages we receive about 'normal' sex, looks at how to understand and care for yourself, delves into ideas of pleasure for different bodies, ages and tastes, explores relationships, and tackles the tricky topics of communication and consent. So, throw out the rule book and learn to listen to your own desires. This may just be the most helpful book about sex ever.

Let's talk sex and relationships. In this book, we will dive head on into talking about relationships and how to communicate and have sex in these relationships. When the topic of sex comes up there seems to be two sides of the coin discussions. First off, there is the side of he coin that shy's away the conversation and then the other side that is blunt about it. In many relationships, people balance on the edge. Well for myself I decided to take a frank and blunt approach to this subject. In this book, we will

From there I will jump into how to grow and nurture your relationships through communication. In this chapter, I will give you the top 10 points that you need to focus on and apply to your relationships to make them stronger. At the end of the book, I will have a frank discussion about sex. In this chapter, I will give you 16 hot and steamy tips and tricks that you can use to add a fulfilling sexual experience into your relationship. Now there isn't any book written or can be written that will give you all the answers when it comes to relationships and sex but this book comes pretty damn close. So if you are looking to get into a relationship or if you are already in a relationship and need to spice it up don't wait another minute and begin to change your life today.

*Sex Tips for Couples: His and Her Guide on Sex and Romance for Couples* - Karen Boulder  
2013-02-08

Some people forget that there are other aspects to sex other than the physical activities that take place in the bedroom. Sure sex can form some sort of bond between two individuals but without the other components it will seem as if it were just two individuals that happened to meet and had the same thing on their minds at the time. That is why so many relationships fail. The couple fails to communicate effectively and also to be understanding or cognizant of each other's needs. There is also the lack of support and other things. That is what "Sex Tips For Couples: His And Her Guide On Sex And Romance For Couples" concentrates. The author provides practical information that is easy to implement by those that have an interest in saving their relationship. The book also highlights the fact that there is a lot of emotions involved in the process and as such things need to be approached in a specific manner. The book is a must have for any individual that wants to get into a long term relationship or a couple that wants to not only preserve but maintain what they have for the long term. The advice is simple and is conveyed in a similar manner.
