Social Media in Trinidad - Jolynna Sinanan 2017-11-21
Drawing on 15 months of ethnographic research in one of the most under-developed regions in the Caribbean island of Trinidad, this book describes the uses and consequences of social media for its residents. Jolynna Sinanan argues that this semi-urban town is a place in-between: somewhere city dwellers look down on and villagers look up to. The complex identity of the town is expressed through uses of social media, with significant results for understanding social media more generally. Not elevating oneself above others is one of the core values of the town, and social media becomes a tool for social visibility; that is, the process of how social norms come to be and how they are negotiated.

Carnival logic and high-impact visuality is pervasive in uses of social media, even if Carnival is not embraced by all Trinidadians in the town and results in presenting oneself and association with different groups in varying ways. The study also has surprising results in how residents are explicitly non-activist and align themselves with everyday values of maintaining good relationships in a small town, rather than espousing more worldly or cosmopolitan values.

Forgotten Heritage - Jonglez Publishing 2016-10-01

Rediscovering our forgotten heritage No Entry'; 'Dangerous Site Keep Out; Trespassers Will Be Prosecuted': common sights on walls or perimeter fences around many of the world's abandoned sites. These warnings allude to potential

dangers and prove an ineffective deterrent against thieves and vandals. To the urban explorer/photographer these signs simply serve to whet the appetite for the promise of hidden wonders that may lie beyond. For those who ignore the warnings and climb the fences, what awaits is usually worth the risks. Vast industrial spaces that feel more like an alien landscape or poignant residential settings, which are slowly surrendering to the inexorable advance of nature. Places once alive with sound and movement, now silent and still, but no less sensory. Immense and powerful beauty resides in these forgotten places. For some, just getting inside a location to experience this alternative form of sightseeing is enough to satisfy a desire to simply go where one shouldn't. But for some there is a need to capture the essence of a location in words and pictures, giving others a metaphorical leg-up over the fences, to walk them through the remaining ruins. Matt Emmett falls into

He seeks out vast power stations and their cooling towers, steel works, mines, bunkers, tunnels, schools, engine sheds, hotels, castles and a myriad of other buildings. All have their own stories to tell in a variety of voices and without the distraction, sounds and people who inhabited them, those stories are clear and strong and the character of each location is laid bare.

Architectural Digest:

"Photographer Matt Emmett has made a name for himself by pushing the boundaries to capture epic imagery of Europe's most forgotten ruins."

International Business Times:

"Matt Emmett's 'Forgotten Heritage' photography project uncovers the brutal beauty of abandoned buildings and derelict industry."

Design consists of the solution proposals put forward by the

designer for the target audience. The changing needs of the target audience cause the designer to change the solutions. Although the act of designing seems to take place in the triangle of mass-object-designer, it is also affected by the period it is in, independently of these components. The changing perception of taste with the change of the period, the adoption of fast consumption, the advancement of technology, the attempt to establish the real world in the virtual with this progress, and the widespread use of social media causes different effects on different user groups. Some users, who feel this effect, adapt to it and try to meet their needs in parallel, while the other part shows a conscious resistance to this effect and prefers to maintain a perception of [liking] from the past. It is important to share these views to break the resistance and ensure the construction of a new agenda. Contemporary Manifests on Design Thinking and Practice

Lewis Howes 2017-10-31

When a career-ending injury left elite athlete and professional football player Lewis Howes out of work and living on his sister's couch, he decided he needed to make a change for the better. He started by reaching out to people he admired, searching for mentors, and applying his past coaches' advice from sports to life off the field. Lewis did more than bounce back: He built a multimillion-dollar online business and is now a sought-after business coach, speaker, and podcast host. In the New York Times bestseller *The School of Greatness*, Howes shares the essential tips and habits he gathered in interviewing "the greats" on his wildly popular podcast of the same name. In discussion with people like Olympic gold medalist Shawn Johnson and Pencils of Promise CEO Adam Braun, Howes figured out that greatness is unearthed and cultivated from within. The masters of greatness are not successful because they got lucky or are innately more

talented, but because they applied specific habits and tools to embrace and overcome adversity in their lives. A framework for personal development, *The School of Greatness* gives you the tools, knowledge, and actionable resources you need to reach your potential. Howes anchors each chapter with a specific lesson he culled from his greatness "professors" and his own experiences to teach you how to create a vision, develop hustle, and use dedication, mindfulness, joy, and love to reach goals. His lessons and practical exercises prove that anyone is capable of achieving success and that we can all strive for greatness in our everyday lives.

He and his band Kiss & Tell are on their first major tour of North America, playing arenas all over the United States and Canada (and getting covered by the gossipy press all over North America as well). Hunter is the only gay member of the band, and he just had a very painful breakup with his first boyfriend--leaked sexts,

public heartbreak, and all--and now everyone expects him to play the perfect queer role model for teens. But Hunter isn't really sure what being the perfect queer kid even means. Does it mean dressing up in whatever The Label tells him to wear for photo shoots and pretending never to have sex? (Unfortunately, yes.) Does it mean finding community among the queer kids at the meet-and-greets after K&T's shows? (Fortunately, yes.) Does it include a new relationship with Kaivan, the drummer for the band opening for K&T on tour? (He hopes so.) But when The Label finds out about Hunter and Kaivan, it spells trouble—for their relationship, for the perfect gay boy Hunter plays for the cameras, and, most importantly, for Hunter himself.
