

How To Find Success In Marriage Relationships And Love The Success You Always Wanted In Love Marriage And Relationships

Treat Your Man Better Than Your Dog Carlos Bernard
2017-04-03 Hi I am Carlos Bernard... I have worked within the High Tech Industry as a Quality and Operations expert for the majority of my life. I specialize in fostering and developing customer relationships. I have worked with Fortune 500 companies whose revenues are in the billions. I have come to find a simple truth about relationships. Whether it's for customers that are building multi-billion dollar communications infrastructure or simply selling tomatoes. People like doing business with people they like. Customers develop strong relationships with companies that respect them and most importantly have a concern for their success. Successful companies don't sell products; they sell solutions. The sweet spot is to become a consultant and advisor rather than becoming a supplier. Take a look at the major malls across the world. There is a dominant high tech player that showcases their products where you can interact with them. It also has tons of employees who are on site to assist you with any questions that you may have about their products. They are eager to help you and don't disrespect you should you not be tech savvy. I have always walked away with a very positive experience when working with their employees. I feel like they really care about me and want me to succeed. I in turn reward them with money, by purchasing their products. You can probably guess who they are. So how does success in the business world lead to success in your interpersonal relationships? They both share a common characteristic; they both deal with people. If you want to be

successful in business you have to be good with people. If you want to have a successful relationship you need to be in the people business with your man I have gone through the multiple books out there that provide you with simple easy steps on how to fix or flip something in someone else. I find these types of strategies interesting. We all know that true change comes from within, and that you have the power to influence your environment on how you perceive the world around you. And I'm here to tell you that there's no easy way or magical recipe to fix or strengthen your relationship. Relationships are hard and complex. They take time to build up and they have a life of their own. And most importantly they need maintenance. So what are we to do if there is no simple fix? We can look for a tool that will assist us and strengthen us in our journey to build and maintain your relationship. There is a tool that you can harness that is time tested and centuries old. It has helped build empires and toppled governments. There is power in your words. The bible speaks of the power of your words; words can choose life or death. Recall the old saying sticks and stones may break my bones, but words will never hurt me. Words have the power to scar people for life or have the power to uplift someone's soul. What you'll discover in this remarkable book is the ability to build up your man by using respect, love and gentleness. He will come to realize that you are just more than someone he shares things with, but as powerfully that will help him become a better person. The change that is needed is not from him but from you. You will come to understand the struggles that men face and come to appreciate their deep desire to provide and please you. The secret on changing your perspective and how he reacts to your words of encouragement and praise can all be summed up with learning how to treat your man better than your own dog. Getting the best out of your man is not that far removed from getting the best out of your dog. You want Love, Romance, and your Soul Mate. Your man wants to be Respected and Successful. My desire is that this book will

strengthen an already strong relationship and help those who want more from their man. I pray that you become the instrument of change for your man. All of this for less than a good cup of coffee.

It's no secret that men and women are different. And it's no secret that they don't always get along because of these differences, even when they love each other. But having a successful marriage is not about finding the perfect person to marry. It's about loving someone in an unselfish, Christlike manner. Whatever we want out of marriage--unconditional love, forgiveness, passion--that is what we have to give to our spouse. Rick Johnson shows couples how to go beyond merely tolerating each other's differences to using those God-given differences to add spice and passion to their relationship.

The Secret Language of Successful Couples Bill Farrel

2014-02-01 Why is it so hard for married couples to get in sync with each other? How is it that your mate can be a source of joy and of frustration all on the same day? Marriages operate by a secret language—a collection of key words, actions, insights, and attitudes that determine how a couple's relationship works. If that language is uncovered, love grows and flourishes. If that language remains a mystery, love gets buried behind misunderstandings and irritations. Bill and Pam Farrel, authors of the bestselling *Men Are Like Waffles, Women Are Like Spaghetti*,

offer biblical and practical insight into this language that God has programmed into each married couple. Laced with the Farrels' trademark humor, *The Secret Language of Successful Couples* is packed with ideas to help couples connect at a richer, deeper level. As both partners grow in relationship with God and rely on the Spirit for insights into the heart of their mate, they can replace their old, selfish languages with a new one that leads to greater intimacy in every area of life. Rerelease of *The Marriage Code*.

Foundations for a Successful Marriage Mark H. Bayer Ed.D.

2013-02-21 This book covers five key areas which will determine if a marriage has the greatest potential of being rewarding.

Marriage is a balance of these factors which will either add or detract from the relationship. The better these areas function together the more rewarding the relationship can be. Although these five areas are typically common to books on marriage, the author seeks to look at the core issues behind each topic. For example, communication is more than just talking.

Communication must include being willing to hear your partner rather than just listening to them. The goal is to maintain a positive attitude while understanding that no couple will have a marriage free of problems. With this foundation, the couple can better understand the weakest areas in their marriage and work

on improving them.

Love that Lasts a Lifetime Rev. Dr. Norman Campbell
2014-10-08 Before you get into a marriage, you should

understand that the marriage must be built upon a proper relationship between the husband and wife. It sometimes takes work so don't give up on your marriage. Before you go through the actual marriage there are many things you should consider. Too many people enter a marriage without due consideration to all that it entails in the long run. If you have already ventured down the road of marriage and you need to pull your marriage out of difficulty it may take time. You must be patient and help your spouse every day instead of criticising them. You need wisdom and understanding and patience. This book is to try to help you and your marriage to be a total success. Find the good things in your marriage and spouse look for their best and not the worst. You may think: But there is nothing good in the person that I have married. Sometimes through a period of time, a person begins to see only the negative side and not the positive. You will usually find what you are looking for if you look long and hard enough. If you look for faults you will always find them because no person in a marriage is altogether perfect. The principles I have outlined in this book come from over 50 years of happy marriage to the same woman. We have proved that you can have LOVE THAT LASTS A LIFETIME IN YOUR MARRIAGE.

Secrets to A Successful Long-Term Relationship Joshua Strachan

A long-lasting relationship is an ultimate goal and we all strive to achieve success and happiness with the people we love. This book teaches the exact simple things you should do to achieve a long-term relationship with deep passion and happiness. You are also going to learn how to use your personality as leverage in attracting your significant other and also to build your relationship on a solid ground of trust. How to Have a Successful Long-Term Relationship Success in a relationship is a gradual process starting from the development of the mind to the exhibition of traits aimed at creating a favorable atmosphere for the two. In order to achieve success in your relationship, you need to have a particular mindset about the meaning of a relationship. You need to open up to the fact that a relationship is built by two soul mates and its progress depends on the decisions of the two, not by condition but by love and in any circumstance. A relationship built on the foundation of proper awareness can neither be disrupted nor manipulated either due to financial, physical, or mental challenges. Primarily, problems do create a pathway for a partner to prove the promised love, affection, and dedication. Also, difficulties play a very important role in stimulating the creativity of the two to a higher level. Thus weaknesses and shortcomings are to be expected in every relationship as tools of growth and personal elevation. Success in a short-term relationship determines how well the long-term

relationship is going to be carried on when the effort is being applied. It is important to note that a business relationship intertwines with a personal (intimate) relationship. Whether you choose to fall in love or grow in love, the right person that deserves you always comes with some uncommon qualities, which we are going to elaborate in this book. You will understand that being attractive plays a significant but not-so-significant role in determining who you date. People can be attractive and still lack the personality required to have a successful relationship. What Makes a Successful Relationship Work? The groundwork for a successful relationship also deals with the exploration of your fears. In order to have genuine long-lasting and never-ending success in a relationship, you need to eliminate every skeptical thought and superstitious belief about people and situations. You need to cross the line of critical thinking in your love life. And most importantly you need to understand how different people experience different things, choose different things, and have different tastes even when they are made of the same ingredients. It is wise to learn from people's success and failure but never conclude on external information. Do not allow other people's failure to become your source of fear and their success, a reason to be reluctant. What is Important? After reading this book you'll be automatically exposed to a new view of the entire dating life, relationship, marriage, and commitment. You will never have to worry about who you date, how much you can trust, and whether you have met your soulmate or not, because you will know them when you see them and they will be exactly what you have imagined them to be, even better. I personally dedicate this book to all men and women seeking a better life in a relationship. Although it usually comes at a price, I can assure you that better life is found in a successful relationship. That price is nothing more than allowing yourself to follow the steps that are revealed in this book. It is not the overwhelming and sophisticated philosophy of the universe but a simple relationship blueprint for

a long-lasting passion. Click the BUY Now button at the top of this page to add this book to your library. Secrets of “Men are from Mars, Women are from Venus” PAUL CARNEGIE 2019-11-25 Reading through the book *Men Are From Mars, Women Are From Venus* which was written by American author and relationship counselor John Gray, after he had earned degrees in meditation and taken a correspondence course in psychology. The book was published on January 1, 1992. It provides a practical and proven way for men and women to improve their communication by acknowledging the differences between their needs, desires, and behaviors. Absolutely, there is no other relationship guide on the market that will give you the same level of evidence-based insight sure to help you strengthen and nurture your relationships for years to come more than this book. In the book *Men Are From Mars, Women Are From Venus*, the author opines that most prevalent relationship challenges between men and women are as a result of fundamental psychological differences between the sexes, which the author demonstrates by means of its eponymous metaphor: that men and women are from separate planets, that is, men are from Mars while women are from Venus; and that each sex is wont to its own

planet's society and customs, but not to those of the other. One example John Gray gave was that men's complaint that if they offer solutions to problems that women bring up in conversation, the women are not necessarily interested in solving those problems, but mainly want to discuss about them. The book avers each sex can be understood in terms of their unique ways they respond to stress and stressful situations. In the book, the author wrote: "When a man can listen to a woman's feelings without getting angry and frustrated, he gives her a wonderful gift. He makes it safe for her to express herself. The more she is able to express herself, the more she feels heard and understood, and the more she is able to give a man the loving trust, acceptance, appreciation, admiration, approval, and encouragement that he needs." This explains that when a man genuinely listens to the emotions of a woman by not being upset, he is showing her she is safe with him and understood as well. And she reciprocates this gesture with love, trust and encouragement a man needs. Likewise, when he stated that, "Men are motivated when they feel needed while women are motivated when they feel cherished." This is just the basic fact of a successful relationship or marriage by the author. In the world of many self-help books we are, there are very few titles that can be compared with the popularity of John Gray's *Men Are From Mars, Women Are From Venus*. Interestingly, when this title was first published in 1992, it not only helped educate countless men and women from around the globe, but it managed to nestle its way into popular culture and become an instant classic. In spite of the fun, metaphoric and catchy title, this book essentially tackles a very serious relationship issues in many male or female relationships we have today -which can be said to be a lack of effective communication. In lieu of focusing blame on one person or one gender, this book dives into some of the inherent differences between the way males and females communicate. As it is a well known fact that communication is one of the most central factors in finding the

right balance, genuine love and loyalty in a long term relationship. Well, based on the concept that men and women are living on different “planets,” this book helps to not only identify these differences for the opposing gender, but to offer solutions on how both men and women can meet in the middle to have better, more productive communication strategies. The author deliberately lays big emphasis placed on love - since it is a relationship advice book. One of the biggest takeaways about love from the book actually has nothing to do with talking, it is all about showing. This is one of the biggest keys to keeping the love alive in long-term relationships. This is a very important lesson to note throughout the book, Men Are From Mars, Women Are From Venus, as communication isn't always about talking or telling someone something, it is often about showing them or using non-verbal communication in order to get your message across. According to Men Are From Mars, Women Are From Venus, men will give and give until they are pleased with what they have done. This can be with emotions, money, effort, work, or physical objects. However, women will typically give with the hope that the man will return the gesture. This is where a lot of disconnect can happen. Now, let's take a vivid look at where communication falls short. Where communication falls short Both man and woman may feel as though they are doing everything they can to show their love and that they are giving love the way they want to receive it. But, the opposing party may not recognize this, and may actually think that their partner is not showing love at all. This is one tip that both men and women should keep in the back of their minds as they continue to take John Gray's relationship advice, as many communication disconnects or crumbles, it may actually stem from this one major issue. If both parties can understand that the other partner simply has a different interpretation of what it means to show and give love, they can move forward. To cap it all, everyone has a different love language. How To Improve Communication In A Relationship

There are so many little things that men and women can both do in order to improve their communication lines, yet one of the classic disconnects between these two genders often comes when women are not as direct with men while communicating. There is an old story about men and women communicating that perfectly depict how this lack of directness can cause misunderstandings. A man and a woman are driving down the street. The woman points at the ice cream store and says "look! The ice cream store is open." The man says "Yes, it is," and keeps driving. Later that evening, the woman is upset and asks "Why didn't you stop for ice cream when I asked?" The man is confused and says, "I never heard you ask to stop for ice cream." It may be either small or inconsequential example, but it is one that many people in male or female relationships can relate to. What went wrong? Both parties thought they said and heard different things in the same conversation. This is one of the reasons why communication tends to be more effective when women are more direct. According to John Gray, if a woman wants to go do something with a man, she shouldn't just ask him what he wants to do. She should, instead, tell him what she wants to do, and then ask him to join. This is an instance of direct communication that doesn't blur the lines and allows both parties to communicate more clearly. How to make communication work The following scenario was suggested by: - The woman gives the man three options of what she wants to do on a date, a week in advance. - The man gets to decide, but doesn't tell the woman until the date happens. - This allows the woman to anticipate the date all week, while the man gets to feel as though he made a decision, while still receiving clear communication on what types of dates the woman wanted to go on. It may sound like a lot of work, but the key is to start with direct communication on the woman's part. It can open up new doorways to successful interaction that both parties may have never thought were possible. In addition, emotions have great impact as regards how we communicate. They can entice us to

say certain things, hold different things in, or even respond in ways we may have never thought we would. Emotions can also alter our body language and the way we give off signals to one another, even when we don't realize we are doing it. Yes, it can be safe to state that women's emotions go up and down and have really high-highs and really low-lows. In general, women's emotions tend to fluctuate more than men's do. Men tend to be a bit steadier with their emotions, which can be both positive and negative. While they may not have as deep of a dive into depression, they may also not experience as high of a high when they are happy. All this now depends on how each sex processes "alone time." As well, men are much more prone to want alone time when they feel scared or uncomfortable. Men need to be left alone where they feel safe. It scientifically helps them to build up their testosterone and think more clearly. If given the time to retreat to his safe space, a man will come out of this "alone time" once he has handled the problem internally and finally. On the other hand, a woman may feel better by talking it out. She may not understand why her male partner wants to spend time alone processing the issue. Allowing women and men to process emotions in a way that is comfortable and natural to them is an essential component to keeping communications lines free and open. You Should Learn To Show Appreciation So much of Men Are From Mars, Women Are From Venus is about the differences between men and women, but there is one big similarity between men and women in relationships—showing understanding is key. Men and women are different. They are different physically, biologically, emotionally, almost in every way. Yet, the reason so many of these relationships can work out in the end is because these differences provide a balance. You just need to find that balance. Get to know your partner more intimately If you sincerely take the time to really get to understand your partner, it can go a long way in helping them feel loved, valued, and appreciated. Men and women are different, and it is important to

accept and understand this. You may be speaking different languages, but if you take the time to really talk to your partner and attempt to understand the place they are coming from it can speak volumes. For instance, take the time to do things like ask questions, put yourself in the other person's shoes, or even read relationship advice books, like *Men Are From Mars, Women Are From Venus*, to show the other person that you want to understand them better because you appreciate who they are and that you want to communicate more clearly and effectively. Mind you, this can help restore energy in your romantic relationship so that you and your partner can continue to keep your relationship as healthy as possible.

How to Get Hitched (and Stay Hitched) Suzanne Venker
2021-08-31 Degree? Check. Career? Yup. Money? In the bank. Marriage? America is single. It's divorced, under committed, and hopelessly out of touch with how to build a relationship that lasts. Women, in particular, are groomed for a life centered on career and on being fiercely independent--as though marriage and family were a nice idea, or a possible accompaniment, to an otherwise satisfying life. But if flying solo is so great, why are online dating sites a billion-dollar industry, replete with clients looking to get hitched? In *How to Get Hitched (and Stay Hitched)*, author and marriage coach Suzanne Venker claims women need a detox from the bogus cultural narratives they've absorbed about men, sex, marriage, work and family. If you're a woman who wants a successful love life (not just a successful professional life), you're going to need a brand new roadmap. And now you have one. Here is just a sampling of the 12 steps: - Get over yourself - Find your feminine - Get a ring, not a roommate - Marry the accountant, not the artist - Know your body A call to arms, *How to Get Hitched (and Stay Hitched)* will ignite a much-needed debate about the misplaced priorities of the modern generation. It is the antidote women need to reject the lies they've been fed by our culture so they can build the happy, balanced lives they crave. "You have massively impacted the way I see and deal with men. Because of you, I started dating with a clear goal in mind (marriage and children) and also with discipline. At 25, this led me to my now boyfriend who soon will be my fiancé, husband, and hopefully father of my children. Thank you from the bottom of my soul for the enlightening and truthful work that you share with the world!" "The world and my own mother haven't spoken to me about any of this. Schools and the media taught me that career comes first and that I would be happy even without getting

married and not having children. I thought what I was feeling wasn't quite normal until I found your work. Thank you sooo much, Suzanne!" - Lily from Australia "I love sharing Suzanne with jaded lonely girlfriends, lol." - Annie

The Middle Ground Glenn Sandifer, 2nd 2022-05-17 Discover The New Rules for Relationships and Dating Relationships are hard... especially for successful individuals. Achievers always want the best for themselves. But why is that harder to apply when it comes to relationships? Balancing your professional success with building a happy and fulfilling relationship is a real struggle. You deserve to have professional success and love at the same time. The good news is that you can have them both. The rules of dating have changed since the world has evolved. Both men and women can be successful and powerful, and that changed the dynamics of relationships. The rules of relationships have become more complex because people are looking for fulfillment beyond basic physical or material needs. And it doesn't help that social media is constantly promoting the negatives of being a successful individual when it comes to relationships. It's easy to look at the other person and point out what they do wrong. "Men are this way, and women are that way, and therefore love is impossible." The solution is found in *The Middle Ground*. Part One of this three part book focuses on how we got here, who you are, what you qualify for and how to get what you qualify for. As an Executive and Commercial Leader, Glenn has spent the previous two decades developing relationships and

controvugors in various industries. In his consultation, personal or relationship topics often arise. Glenn concluded there were some similarities with individuals that were experiencing professional success. The lack of relationship success is based on a lack of understanding between both parties. The when, why and how are discussed here: This is THE MIDDLE GROUND. Since meaningful relationships and human connection are more difficult to achieve, The Middle Ground focuses on helping you assess these essential aspects: • Identify what you really want. • Recognize what you qualify for. • Get crystal clear on what you want from others. • Find out how to get it. This book will help you find balance in your romantic life, no matter the challenges you face in your career and profession. Are you ready to have the romantic life you dreamed of?

70 Standing Morals on Building Your Relationship 'FOR KEEPS' Onyi Nnebedum 2020-12-29 The heart isn't a property anyone can buy but a trophy to be won. And to win any trophy, one simply has to focus on improving himself/herself in order to remit it at every given point. If you are married or you are seriously engaged, I believe you already did that to have come

that far. Every trophy is reserved for the best - the one that beats the rest. But beyond winning a trophy is retaining it or even still winning at higher stages. This is where many miss it, the simple reason being that they fail to realise that what it took to be successful at a particular level will not suffice to achieve success at this next level. Some who understand this have gone beyond retaining the trophy severally to now have it 'for keeps'. I have a more detail discussion on this matter in my other works on marriage. For the purpose of this material, we will try to focus on a few standing morals on building your relationship 'FOR KEEPS' - permanently. If you have been married for a while now, you can (or will soon be able to) tell that you need more than you probably thought to make your dream marriage come through. Sometimes certain things you're taught as moral can appear not to still hold. Some situations you'll face can even make you start thinking you made the wrong choice of a spouse. That would lead me to the first moral I would like to give here. But before we get to that, understand that I have shared the morals in no particular order. As such, what I would have as moral number one might to you be moral number ten. That is very okay; it only goes to show how unique we are as individuals and with our assignments in this life. The morals discussed here will give you the right morale needed to succeed with your relationship. Before you give up on that relationship (if you are already married) or before you finally give in to the one you are considering (as a single going into marriage), DO READ THIS BOOK!

STRONG IN THE STORM Mutea Rukwaru 2017-12-20 Marriage is one of the oldest institutions in the world. It is an institution bedeviled with a lot of challenges. It is ironical that you are given a marriage certificate without having graduated. You don't even graduate in the college of marriage. There are no leaves, half terms or holidays. Marriage is a relationship and all relationships have disagreements. How successful relationships are has a lot to do with how those disagreements are handled. Most of the problems encountered in marriage is due to the fantasy we have about marriage life. From the moment Romeo sets his eyes on Juliet to the fairy-tale climax when Cinderella captures her prince, young people are taught that falling in love is the one and only essential requirement for marriage. If you wish to make your marriage work, then the love between you can't simply be based on feelings. That's because feelings change like moods. If romance were the sole factor determining the duration of a union, most marriages would end in less than a year. Love must be both a feeling and a decision. Most marital relationships are weakened by the issues of sex, money, identity and extended family members. In today's world time is becoming elusive. Remember a time a husband and wife devote to one another determines the quality of their relationship. The stresses of life whether they are financial, parental, family related or work related can negatively impact on marriage and lead to unnecessary arguments. Spouses who don't prioritize their time together get caught in the trap of drifting away from one another due to the pressures of life. As time goes on and children get older and jobs become demanding you may not realize that your needs are changing and you dread change. With time you will find that by investing in your marriage and spending time with one another, you will limit the number of disagreements you have. Your sexual life will improve and you are less likely to be involved in extramarital affairs. The quality of

your marriage is the single most important factor in raising healthy, well-adjusted children. Husbands and wives who love and respect each other raise children who have healthy values, self-esteem and good relationship skills. Wives should not neglect their husbands. Remember your husband was there before your children were born and he'll be there long after your children have moved on in life. If you show contempt toward your husband, your daughter will treat her husband that way and your son will expect his wife to have contempt for him. Your husband needs to occupy the number one spot in your heart. You cannot place your children or extended family ahead of him in your heart. If you don't put him first, not only will that injure him, but it will destroy your relationship and eventually make him run away and this will harm the lives of your children. Oftentimes men feel like they only get their wife's attention after everyone else the kids, the pets and the women have had their needs met. He gets what's left over after everyone else is taken care off. It is also important to note that happily married spouses are satisfied with their sexual relationships. A spouse who makes you feel important, who is kind, gentle, exciting and good with children and who is sexually satisfying and prone to sexual experimentation most powerfully influences your marital satisfaction. You can add zest to your love life by enhancing appeal as a spouse by having more intimate conversations and by showing more consideration and non sexual affection. Then add some novelty and creativity to your lovemaking. Sex is so critical in marriage and any relationship at marriage level devoid of it is at risk. Sex can heal illnesses and alleviate depression. From a man's perspective, there are not many things more important than sex. Sex not only fulfils a physical need in men and women but it also fulfils a psychological need. In reference to men sex heals a man the same way food, sleep and medicine can heal an injured sick body. Men are intensely physical and so the physical act of sex plays a big role in their lives. Women enjoy sex nearly as much as men do-

they just don't obsess it quite as much. It is of interest to note that if a man's wife is not interested in him physically for whatever reason, of which probably it isn't necessarily her fault, and some young girls come along who shows an interest in him as a man, many men are easily swayed into having these needs fulfilled. Some of it may be due to ego, but much of that need involves the fact that a man cannot feel truly loved if he is not having his physical needs met. When both men and women are satisfied sexually they will all be having satisfied marriage lives. Sex is such a great power in the world. But it is women who have tremendous sexual power. What does this power look like? What are the dynamics of sex? Why do spouses stray? Is it a matter of life and death? What are the complex reasons behind extramarital sex? Is sex so critical that without proper handling families will degenerate to the primordial times where "sexual punalua" ("sexual communism") was the practice? Take an exciting walk through "strong in the storm" to find answers to this life's maze. When you unearth the mystery of this labyrinth, then you will be in a position to advice colleagues, friends and those in the byways of orchestra of life how to paddle this tricky canoe. In a nutshell, a husband and wife should sail the seas of life in the same boat, rowing together, trimming the sails together and making sure the whole operation runs smoothly together, but ironically many spouses are actually in two different boats. Yet the two won't truly become one until they do get into the same boat.
