**MenAlive** - Jed Diamond 2012

MenAlive is for everyone who wants to keep stress from shortening their lives and damaging their relationships. It is more than a book.

MenAlive is a complete tool kit for relieving stress and bringing about lasting health. "80 percent of all illnesses are stress induced," says Woodson Merrell, M.D., Chairman of the Department of Integrative Medicine at Beth Israel Medical Center. Although stress impacts everyone, men are particularly vulnerable. According to social scientist Dr. Thomas Joiner, "Males experience higher mortality rates than females at all stages of life from conception to old age." Diamond, best-selling author of *Surviving Male Menopause* and the Irritable Male Syndrome, teaches men and women four simple, yet effective, practices that can be used to prevent stress-related problems all of us face in this fast-paced, often chaotic world. In Part I of the book, Diamond describes the hazards and blessings of being male, why perpetual stress is deadly, the science behind energy healing, and "the ultimate power tool" for guys who want their lives to work. In Part II, he details the four energy healing tools Diamond believes to be the most effective and scientifically sound: Earthing, Heart-Coherence, Attachment Love, and Emotional Freedom Techniques (EFT). In Part III, he applies the tools to the most pressing problems men face today including: Irritable Male Syndrome (IMS), male-type depression, chronic pain, sexual dysfunction and loss of desire, Andropause (male menopause) and age-related issues, and the stresses related to our economic and ecological transition. Both men and women will be interested in getting answers to the following questions: Is Irritable Male Syndrome (IMS) undermining your health and relationship? How can you treat depression without talk therapy or drugs? Which simple Energy Healing Tool can you use to relieve shoulder, neck, and back pain? What are the best tools for reducing inflammation and improving sleep? How can you keep Andropause

(male menopause) from ruining your sex life? Could you and your partner be going through "double menopause?" Why do men frighten women and why do women shame men? Which tools should you use to best insure that a relationship lasts a lifetime? What are the most important things you can do when the economy hits the fan? How can you prepare for the global changes in 2012 and beyond?

Over 90 percent of couples experience some level of tension around money. In fact, money issues are the number one stressor in relationships. So many books try to fix the surface problems, such as how to budget and what to prioritize when it comes to finances, but the issues go much deeper than just a simple spreadsheet. How do men and women view money differently? What do most couples fight about? How can they get on the same page? What questions should men/women ask their significant others before marriage? There are emotional and spiritual components to finances that most couples ignore. How can you agree on a budget if you disagree with each other on the basic purpose of money? Thriving in Love and

Money is based on original research Shaunti and Jeff Feldhahn have conducted to get to the heart of these issues. And just as they did with their bestselling books *For Women Only* and *For Men Only*, they will use this research to provide the answers and insights you need to break the tension and provide the unity you're looking for. *Principia Amoris* - John Mordechai Gottman  
2014-10-10

Stereotypically, science and emotion are diametric opposites: one is cold and unfeeling, the other soft and nebulous; one is based on proven facts while the other is based on inexplicable feelings and "never the twain shall meet," until now. John Gottman delves into the unquantifiable realm of love, armed with science and logic, and emerges with the knowledge that relationships can be not only understood, but also predicted as well. Based on research done at his Love Lab and other laboratories, Gottman has discovered that the future of love relationships can be predicted with a startling 91% success rate. These predictions can help couples to prevent disasters in their relationships, recognize the signs of a promising relationship, and perhaps more importantly, recognize the signs of a doomed one. *Principia Amoris* also introduces Love Equations, a mathematical modeling of relationships that helps understand predictions. Love Equations are powerful tools that can prevent relationship distress and heal ailing relationships. Readers
